PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

TOUR PROGRAMME OF HIS HONOUR THE LIEUTENANT-GOVERNOR OF BENGAL DURING JULY 1910.

Month and date.	Day of the week.	Station.	Standard time.	Remarks.
1910.				
13th July ...	Wednesday	Leave Darjeeling ...	14-20	By special train.
13th „ ...	Ditto ...	Arrive Siliguri ...	20-15	
13th „ ...	Ditto ...	Leave ditto ...	21-0	
14th „ ...	Thursday ...	Arrive Purnea ...	7-36	
15th „ ...	Friday ...	Leave do. ...	15-30	

Month and date.	Day of the week.	Station.	Standard time.	REMARKS.
1910.				
15th July ...	Friday ...	Arrive Manihari Ghat	17-30	
15th „ ...	Do.	Leave ditto ...	19-0	By *Rhotas*.
16th „ ...	Saturday ...	Arrive Berhampore ...	10-0	
16th „ ...	Ditto ...	Leave Ditto ...	13-0	
17th „ ...	Sunday ...	Arrive Calcutta ...	4-0	

NOTE.—(1) The party accompanying His Honour will be—
Captain R. C. B. Williams, Private Secretary.
„ G. C. S. Black, Aide-de-Camp.
„ E. Magniac, Aide-de-Camp.
The Hon'ble Mr. E. V. Levinge, Officiating Chief Secretary.
Five office assistants, Camp Sub-Postmaster and about 50 servants.
(2) Letters and telegrams should be addressed to the Lieutenant-Governor's [illegible], *without the addition of any post town.*
(3) His Honour's arrivals at and departures from all stations will be private.
(4) The timings of the river portion of the tour are approximate.

GOVERNMENT HOUSE,
DARJEELING,
The 19th June 1910.

R. C. B. WILLIAMS, CAPT.,
Private Secretary.

No. 3326A.

APPOINTMENTS AND TRANSFERS.

GENERAL.—*No. 1546A.D.—The 27th June 1910.*—Mr. A. G. Allison, substantive *pro tempore* Deputy Magistrate and Deputy Collector, on leave, is posted to the head-quarters station of the 24-Parganas district.
24-Parganas.

No. 1658A.D.—The 4th July 1910.—Babu Kshirod Chandra Ray, Deputy Magistrate and Deputy Collector, Saran, is appointed temporarily to have charge of the Gopalganj subdivision of that district.
Saran.

LEGISLATIVE.—*No. 1647A.D.—The 4th July 1910.*—In exercise of the power conferred by clause 1B (*a*) of Regulation I of the Regulations for the nomination and election of members of the Bengal Legislative Council and with the sanction of the Governor-General, the Lieutenant-Governor is pleased to nominate Mr. Robert Thomas Dundas, Officiating Commissioner of Police, Calcutta, to be a member of the said Council.
Council.

No. 1650A.D.—The 4th July 1910.—In exercise of the power conferred by clause 1B (*a*) of Regulation I of the Regulations for the nomination and election of members of the Bengal Legislative Council and with the sanction of the Governor-General, the Lieutenant-Governor is pleased to nominate Mr. Charles Evelyn Arbuthnot William Oldham, Officiating Commissioner of Excise and Salt, Bengal, to be a member of the said Council.
Council.

PROMOTIONS.

GENERAL.—*No. 1625A.D.—The 2nd July 1910.*—The following acting promotions are sanctioned in the grades of Magistrates and Collectors:—

To act in the first grade.

Mr. R. C. Hamilton, from the 19th May 1910, *vice* Mr. J. Lang, on leave, up to the 13th June 1910.
„ E. Lister, from the 20th May 1910, *vice* Mr. J. H. Lea, on leave, up to the 31st May 1910.

To act in the second grade.

Mr. S. R. Higuell, from the 19th May 1910 up to the 13th June 1910, *vice* Mr. R. C. Hamilton.
„ L. Birley, from the 20th May 1910 up to the 31st May 1910, *vice* Mr. E. Lister, and again from the 2nd June 1910, *vice* Mr. S. R. Higuell, on leave, up to the 13th June 1910.

LEAVE.

GENERAL.—*No. 1278A.D.—The 10th June 1910.*—Babu Sukumar Haldar, Deputy Magistrate and Deputy Collector, Hooghly, is allowed leave for three months, under article 260 of the Civil Service Regulations, with effect from the 8th July 1910.

Hooghly.

No. 1365A.D.—The 18th June 1910.—Maulvi Faiyid Izhar Husain, Deputy Magistrate and Deputy Collector, Shahabad, is allowed leave for three months, under article 260 of the Civil Service Regulations, with effect from the 8th July 1910.

Shahabad.

No. 1404A.D.—The 18th June 1910.—Maulvi Bazl-ul-Karim, Deputy Magistrate and Deputy Collector, Burdwan, is allowed leave for thirty-five days, under articles 260 and 345 of the Civil Service Regulations, with effect from the 10th July 1910, or any subsequent date on which he may avail himself of it.

Burdwan.

No. 1571A.D.—The 29th June 1910.—Maulvi Mirza Shegufta Bakht, Deputy Magistrate and Deputy Collector, Midnapore, is allowed leave for three months, under article 336 of the Civil Service Regulations, in combination with the privilege leave granted to him under the orders of the 21st April 1910 and the 5th May 1910.

Midnapore.

No. 1573A.D.—The 29th June 1910.—Babu Nityananda Bhar, Deputy Magistrate and Deputy Collector, Bangaon, Jessore, is allowed leave for sixteen days, under article 260 of the Civil Service Regulations, in extension of the leave granted to him under the orders of the 30th May 1910.

Jessore.

No. 1580A.D.—The 30th June 1910.—Mr. W. J. Stark, Deputy Magistrate and Deputy Collector, is allowed leave for two months, under article 260 of the Civil Service Regulations, in extension of the leave granted to him under the orders of the 23rd March 1910.

No. 1615A.D.—The 1st July 1910.—Babu Radha Prasad Mukharji, Deputy Magistrate and Deputy Collector, Muzaffarpur, is allowed leave for three months, under article 260 of the Civil Service Regulations, with effect from the 13th June 1910.

Muzaffarpur.

No. 1618A.D.—The 2nd July 1910.—The order of the 18th May 1910, granting privilege leave for twenty-one days to Babu Brajabandhu Misra, substantive *pro tempore* Deputy Magistrate and Deputy Collector, Singhbhum, is cancelled.

Singhbhum.

VOLUNTEERS.—*No. 1617A.D.—The 2nd July 1910.*—The following officers of the Second (Presidency) Battalion, Calcutta Volunteer Rifles, have been granted, by the General Officer Commanding Presidency Brigade, leave of absence for the periods mentioned opposite their names :—

Captain William Patrick Henderson ...	Six months, with effect from the 1st June 1910.
Second Lieutenant Edward Barnard Harris ...	Extension for one year, with effect from the 15th August 1910.

POWERS.

No. 1599A.D.—The 1st July 1910.—The officers, named below, are vested with the powers of a Deputy Collector :—

Mr. E. H. Johnston, Assistant Magistrate and Collector, Midnapore.
„ F. W. Robertson, Assistant Magistrate and Collector, Patna.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of B[redacted]

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 1085T.R.—The 27th June 1910.—Under section 3 of the Bengal Survey Act, 1875 (Bengal Act V of 1875), the Lieutenant-Governor is pleased to order that a survey shall be made of the lands appertaining to the Grand Trunk Road, in the district of Howrah, from the Bally Bridge to the Botanical Garden gate, of which the total length is 8 miles 3,432 feet, and that the boundaries be identified and demarcated on the lands so to be surveyed.

Howrah.

No. 1094T.R.—The 28th June 1910.—A settlement under the Sonthal Parganas Settlement Regulation, III of 1872, as amended by the Sonthal Parganas Rent Regulation, II of 1886, having been made of the undermentioned estates, situated within the district of the Sonthal Parganas, and the record-of-rights having been published in the manner prescribed in section 24 of the first-mentioned Regulation between 23rd November 1908 and 30th April 1909, it is hereby declared, under the provisions of section 5 of that Regulation, that the said settlement has now been completed and concluded:—

Sonthal Parganas.

No. 1779L.A.—The 2nd July 1910.—In exercise of the power conferred by section 48 (1) of the Land Acquisition Act, 1894 (I of 1894), Government withdraws from the acquisition of the lands included in Declaration No. 105L.A., dated the 10th January 1910, published at page 47, Part I, of the *Calcutta Gazette* of the 12th idem, as required for the construction of staff quarters at Bhaga, in the district of Manbhum.

Manbhum.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

THE BENGAL AGRICULTURAL COLLEGE, SABOUR.

No. 1144T.R.—The 2nd July 1910.—The following prospectus and rules are published for general information.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

PROSPECTUS AND RULES OF THE BENGAL AGRICULTURAL COLLEGE.

1. The Agricultural College at Sabour will open in November 1910.

2. Responsibility for discipline and management is vested in the Principal under the control of the Director of Agriculture, Bengal

3. The College is well equipped with laboratories for the teaching of the Sciences useful to Agriculture: there is also a Botanic Garden; and students will apply their knowledge to practical agriculture on a farm of over 200 acres surrounding the College. The training will fit students for employment in the Agricultural Department and on private estates. Students showing special aptitude for Science will be encouraged to continue their studies at Pusa after leaving the College. The diploma will not be regarded as a qualification for Government employment outside the Agricultural Department.

4. The course of study will be on the lines of the syllabus appended recommended by the Board of Agriculture for the diploma of Licentiate in Agriculture. It will ordinarily extend over three years, but the College year will begin in June and end in March, and students who join in November 1910 will continue their first-year studies up to March 1912 and will be examined for the diploma in March 1914.

5. Each student will be required to pay in equal quarterly instalments in advance a fee of Rs. 50 per annum on account of tuition; but this arrangement is provisional and liable to alteration. Each student will be required to deposit Rs. 10 *caution money* as a guarantee against careless or wilful breakage or loss of apparatus in the laboratories, or damage to property. The fees for residence in the hostel, in which all students must reside, are detailed below. A number of "freeships", not exceeding 4 in any one year, will be placed at the disposal of the Director of Agriculture.

6. Candidates for admission to the College must not be over 21 years of age, and must ordinarily have passed the Matriculation Examination of an Indian University or some examination of equal standing; but a student who has passed such an examination in English and Mathematics may be admitted on the Principal of the College satisfying himself that his general education is such as to enable him to benefit fully by the instruction provided. Preference will be given to candidates belonging to Bengal and Eastern Bengal and Assam.

7. Applications for admission should be in the form attached to this prospectus; they should reach the Principal by August 15th in 1910 and by May 1st in future years, and should be accompanied by the following certificates:—

(*a*) of age,

(*b*) of good moral character,

(*c*) of constitutional fitness (signed by a Civil Surgeon),

(*d*) of having passed the Entrance or equivalent examination.

Students who have sat for an examination the result of which has not been published may apply provisionally, and, if otherwise suitable, will be admitted in the event of their having passed.

8. On arrival at the College each student must satisfy the Principal as to his physical fitness for agricultural work before he can be finally admitted.

9. Students must provide themselves with such text-books as may be prescribed from time to time.

10. The College sessions will extend from the first Tuesday in June to the last Friday before the beginning of the Durga Puja holidays, and from the first Tuesday after the end of the holidays to the last Friday in March, with an interval of ten days at Christmas.

11. There will be in March an annual examination on the previous year's work which each student must pass before taking the next year of the course. Students may be removed by the Principal for unsatisfactory work as shown by examinations or otherwise.

12. For admission to the diploma examination a student must have resided at the College for such time as may be prescribed, and have attended at least three-fourths of the lectures in each subject and have carried out the prescribed practical work.

13. Students who obtain the diploma on completion of the full course will be designated Licentiates in Agriculture, and the title of L. Ag. will be recognised in official publications.

14. The Principal will furnish a report at the end of each session to each person or body of persons by whom the students are supported at the College as to their regularity of attendance, progress and conduct at the College.

15. Damage to property in the College and writing on or defacing the doors and walls are strictly prohibited. The Principal will periodically inspect all the buildings and enquire into any damage that may have been done.

16. Strict discipline will be maintained within the College. Infringement of the rules and regulations by students will be punished by fine, rustication, expulsion, or such other punishment as may be considered advisable by the Principal after due enquiry. A report on every case of expulsion will be furnished to the Director.

17. Each student, when his name is enrolled on the College books, will receive a copy of the rules and regulations and will be required to acknowledge by signature his acceptance of such rules and regulations as are in force when he enters, and also such as may be authoritatively introduced from time to time.

STANDARD SYLLABUS FOR PROVINCIAL AGRICULTURAL COLLEGES, AS RECOMMENDED BY THE BOARD OF AGRICULTURE.

AGRICULTURE.

A.—PRELIMINARY.

1. *Introductory*—
   - History.
   - Scope.
   - Objects.

2. *Geology*—
   - The crust of the earth.
   - Rocks and rock-weathering.
   - Formation of soils.

3. *Meteorology*—
   - Relation of geographical position (including altitude) to rainfall and temperature.
   - The seasons: character and causes.
   - The effects of dew, frost, and hail.

4. *Application of geology and meteorology to the province.*

B.—CULTIVATION.

5. *Soils of the province*—
   - Classification and distribution.
   - Properties of the various soils and subsoils.
   - Treatment of defects.

6. *Tillage*—
   - Objects of tillage.
   - Methods and implements.

7. *Manures*—
   - Sources of manure.
   - Conservation.
   - Methods of application
   - Methods of action.
   - Comparative agricultural values.

8. *Sowing*—
   Conditions favourable to germination.
   Choice and care of seed.
   Methods of sowing and implements.
   Improvement of seed stocks, by selection and otherwise.
9. *After tillage*—
   Objects and methods.
10. *Irrigation and drainage*—
   Sources of irrigation-water.
   Methods of raising water.
   Application of water to the land.
   Water requirements of crops.
   Regulation of drainage.
11. *Harvesting*—
   Methods and implements of harvesting.
   Preparation of the final product.
   Storage of produce.
   Estimation of outturn.
12. *Crops and cropping*—
   Field crops.
   Garden crops.
   Orchards.
   Choice of crops to suit local conditions.
   Rotations including fallowing, and mixed crops.

C.—Live-stock.

13. *Breeds and breeding* (of animals important in the province).
14. *Management.*
15. *Dairying.*

D.—Rural Economy.

16. *Farm equipment*—
   Requirements of live- and dead-stock and working capital.
17. *Farm management*—
   Supply of capital.
   Labour-supply.
   Reclamation and improvement of land.
   Disposal of produce.
   Farm accounts.
18. *Conditions influencing the value of land.*
19. *Principles of estate management.*
   Selection of tenants.
   Provision of capital for tenants.
   Improvements.
   Fixing rents.
   Collecting rents.
   Accounts.
20. *Law of landlord and tenant*—
   Fixity of tenure.
   Right to improve.
   Limitation of rent.
   Record-of-rights.

Physics.

General.

The measurement of length, area, volume, time.
Force, weight, pressure, tension
Energy.—Work, power, conservation of energy, simple machines, the balance.
The different states of matter.
Solids.—Properties and structure.
Liquids.—General properties; hydrostatic machines.
Specific gravity of solids and liquids.
Solution, diffusion, osmosis, capillarity.
Gases.—General properties.
The atmosphere; barometers.
Isobars, cyclones and anti-cyclones.
Water-pump, air-pump.

Heat—Laboratory Course.

Temperature, expansion and contraction, thermometers.
Specific heat.
Conduction, radiation, convection.
Circulation of the atmosphere, winds.
Change of state, fusion and solidification, vaporization.
Latent heat.
Tension of vapours, dew.
Transformation of heat energy into mechanical energy.
Sources of heat energy.
Cooling by expansion of gases, and heat by compression.
Production of clouds and rain by rising currents of moist air.

Laboratory course—List of practical exercises.

1. Construction of vernier scales for measurement of length and angles.
2. Measurement of metal sheets, wires, and other regular solids with vernier callipers.
3. The same measurements with the screw micrometer.
4. Calculation of volumes, weighing and determination of densities.
5. Density of a solid by weighing and then displacing water in a partly filled graduated vessel with the solid.
6. Specific gravity of heavy solids with the hydrostatic balance.
7. Specific gravity of light solids with the hydrostatic balance.
8. Specific gravity of liquids with the specific gravity bottle.
9. Specific gravity of solids with the specific gravity bottle.
10. Specific gravity of liquids with hydrometers.
11. Joly spring balance. Construction of curve showing relation between stretching and weight.
12. Simple pendulum.
13. Measurement of the energy required to raise a body a certain distance by means of different combinations of pulleys.
14. Measurement of the energy required to raise a body a certain distance by means of the wheel and axle.
15. Breaking weights.
16. Solubility of different substances.
17. Capillarity with tubes.
18. Capillarity with plates.
19. Boyle's Law and Gay Lussac's Law.
20. Daily or weekly readings at stated times of the thermometer, barometer, maximum and minimum thermometer and wet bulb thermometer. Annual curves to be drawn.
21. Construction of a water thermometer.
22. Specific heat, method of mixture.
23. Heat of fusion of ice.
24. Heat of vaporization.
25. Observation from day to day, at different temperatures, of vapour tension in barometer tubes containing water, alcohol and ether.
26. Hydrometers.
27. Siphon.

CHEMISTRY.

General Chemistry.

Definitions.—Molecule, atom, element, compound, mixture; symbols, formulæ, chemical action, equations, molecular and atomic weights, nomenclature.

The preparation and chief properties of the following elements: oxygen, hydrogen, nitrogen. The composition and chief properties of the atmosphere and pure and natural waters. Oxidation. Basic and acid oxides. The source, preparation and chief properties of the following elements and compounds: the halogens, hydrogen chloride, sulphur, hydrogen sulphide, sulphurous and sulphuric acids, carbon, carbon dioxide, silica, ammonia, nitric acid, phosphorous, phosphoric acid, white arsenic. The source, preparation and chief properties of the following metals, oxides and salts: sodium, potassium ammonium, calcium, magnesium, aluminium, iron, lead, copper. The chief oxides and salts of the alkali and alkali-earth metals: alumina, alum, ferric oxide, ferrous sulphate, cupric sulphate.

Carbon compounds. Their general composition, physical properties, general classification.

Hydrocarbons: the paraffins.

Alcohols: methyl and ethyl.

Glycerine. Fats and oils.

Acids: formic, acetic, butyric, oxalic, lactic, citric tartaric, palmitic stearic, oleic. Soaps.

Carbohydrates: cane sugar, dextrose, levulose, maltose, starch, dextrin, cellulose, gums, application of polariscope.

Cyanogen compounds: hydrocyanic acid, potassium cyanide.

Phenol. Salicylic acid. Gallic acid.

Tannin, indigo, nicotine, morphine, quinine, strychnine, terpenes and camphors, caoutchouc, resins, glucosides, albumens and albumenoids.

Chemistry of Agriculture.

(1) *The soil.*—Origin of soils—Weathering. Composition of rock minerals and their weathered products.

Nature of soil constituents, sand, clay, chalk and humus. Methods of sampling soils. Mechanical analysis and interpretation of results.

Texture of the soil.

Pore space.

The water of the soil.

Temperature of the soil.

Chemical analysis of soils:—Interpretation of results. Dormant and available plant food. Analysis of the soil by the plant. "Available" phosphoric acid and potash. Analyses of typical Indian soils.

The living organisms of the soil.—Decay and humification of organic matter in soil. Fixation of free nitrogen by bacteria.

Nitrification and denitrification.

The power of the soil to absorb salts. Retention of manures.

Composition of drainage waters.

Causes of fertility and sterility of soils.—Drought, water-logging, presence of injurious salts.

The amelioration of soils by liming, burning, etc.

(2) *Fertilizers.*—Organic and mineral. Interpretation of analyses.

(3) *The plant.*—Proximate and ultimate constituents of plants. Chemical composition of seeds and stems of crops Assimilation of food, its products and their transformation. Chemical changes during germination.

Methods of analysis.

(4) *Agricultural Animals*—The chief constituents of the animal body. Relative value of food constituents to repair loss. Adaptation of food to requirements of animals under different conditions of life. Relation of food to manure.

(5) *The Dairy.*—Constituents of milk and their relative amount. Composition of cream, butter and cheese. Changes in dairy products due to fermentation.

Laboratory Course.

The atmosphere.—Examination of its constituents and the estimation of their relative quantities.

Oxygen.—Preparation and properties.

Water.—Its qualitative and quantitative examination, its solvent power and its chief physical properties.

Hydrogen.—Preparation and chief properties.

Chlorine and hydrogen chloride.—Preparation and chief properties.

Nitrogen and ammonia.—Preparation of ammonia from organic material, proof of composition of ammonia.

The chief oxides of the alkalis and alkaline earth, and ferric oxide and alumina; their preparation and chief properties.

Demonstration of combining proportions, preparation of the several phosphates quantitively, proof of the composition of copper oxide and ferric oxide.

Carbon and carbonic acid.—Forms of carbon, chief properties, preparation and chief properties ef carbonic acid.

Salts.—Preparation of such salts as potassium sulphate, calcium phosphate, sodium chloride, ammonium sulphate, calcium carbonate, calcium bicarbonate. This work to be carried out quantitatively.

Carbohydrates.—Demonstration of the chief properties, proof of their presence in vegetable kingdom, fermentation of sugars, and proof that alcohol is formed.

Oils.—Vegetable and mineral.—Chief characteristics.

Albumenoids.—Preparation and properties of wheat gluten, egg albumen, and milk casein.

Mechanical analysis of soils by the sedimentation method, effect of puddling on soils.

Feeding stuffs.—Proof of the presence of the chief constituents.

Milk.—Use of lactometer and proof of the presence of chief constituents.

BOTANY.

(Two alternative syllabuses are put forward.)

I

Elementary Botany.—General life history of a flowering plant, from the seed onwards. Morphology—special morphology of the root, stem, leaf, inflorescence, flower, fruit and seed. The elements of general plant anatomy. The chief physiological processes—transpiration, respiration, assimilation, growth. Influence of environment. Reproduction, germination.

(This course will include practical work out of doors and in the laboratory.)

Agricultural Botany.—Classification, description and uses of plants of agricultural importance in the province, including practical work in the field and laboratory.

Cryptogamic Botany; main groups of cryptogams, algæ, fungi, lichens, mosses, ferns.

Diseases of plants.

Improvement of Agricultural plants.

Special course on Horticulture, including fruit culture, suited to the conditions of the province, if this subject is not dealt with otherwise.

II

The chief types of flowering and flowerless plants, illustrating the range and variation in habitat of the groups of plants comprised in the vegetable kingdom.

The chief organs, root, stem, leaves, flowers, fruits and seeds of common agricultural examples of flowering plants.

Seeds and seedlings.—The structure of seeds. Germination. Germination energy and germination capacity. The food materials in seeds such as starch grains.

The root.—Development of the root from the embryo of the seed. Root hairs and their uses. Root storage. Adventitious roots.

The stem.—Development of the stem from the embryo of the seed and from buds. Forms of stems. Structure of stems. Vegetative reproduction in grafting, budding and growth from cuttings.

The leaf.—The forms of leaves. The structure of a green leaf. The functions of the leaf, transpiration, assimilation and respiration. Translocation and storage of food.

Inflorescences and flowers.—The parts of flowers. Form of flowers. Pollination and fertilisation. The development of seeds.

Fruits and the dispersal of seeds.—The development of fruits. The various methods of seed dispersal.

ENTOMOLOGY.

First stage—Class work.

1. The structure of a caterpillar, and of various types of winged insects, including only the following:—head, thorax, abdomen, segments, eyes, antennæ, mouthparts, legs, prolegs, wings, spiracles, ovipositor. These are to be shown in as many large types as possible, and no other terms are to be used (pages 8-9*).

2. The stages in the life of a typical butterfly (*e.g.*, *Danias plexippus*, the akh caterpillar) and of a grasshopper or bug. The life of each to be treated in as much detail as in Indian Insect Pests and every stage shown *alive* (pages 15-21).

3. The distinction between insects with and without a metamorphosis, as shown in different types.

4. The characters of the seven orders in the winged stage (pages 52-55) and the more prominent immature stages, caterpillar, maggot, grub. The meaning of the terms egg, larva, caterpillar, maggot, nymph, pupa, chrysalis, cocoon, imago (pages 55-57).

5. The placing in its order of every insect captured and brought to the class by students or lecturer until each order is recognisable at once.

6. The distinction from insects of allied forms of life, likely to be mistaken, *e.g.*, spiders, mites, ticks, centipedes, millipedes (pages 1 and 2).

7. A short account in class of every insect found to be injurious on the farm or in the field, of which live specimens are brought into class by students or the lecturer.

8. Demonstration of the insects maintained alive by the lecturer in the laboratory.

9. The food of insects, attention being drawn simply to the fact that insects fall mainly into the following classes:—Plant feeding, scavenging, predaceous, parasitic, insects on warm-blooded animals, household insects and aquatic insects. The recognition of biting and sucking mouthparts (pages 10-14; 6 and 7).

First stage—Practical.

Demonstration on the farm or in the field of any available insects; the order they belong to; how they feed, and on what; what stage of life they are in, and what they will

* References to pages and chapters refer to "Indian Insect Pests."

become or what they have come from. Collection by the students of all available stages of commoner forms which are brought into class. Demonstration of all injurious insects, the student being encouraged to find any stage of the insect previously described by the lecturer in class.

Whenever possible, an hour's field work is followed by an hour's demonstration in class, of the insects collected and the specimens of damaged plants brought in. Such combined field-work and demonstration would alternate with formal lectures or take the whole time during the rainy season or when crops were ripening.

Second stage—Class work.

1. A general account of the features of insect life as given in pages 22 and 23 of "Indian Insect Pests."
2. An account of the Chapters V-VII of Indian Insect Pests
3. More detailed accounts of injurious insects occurring on the farm or reported from the province, *when the stages of each pest can be shown*, with an account of such remedies or preventives as can be used.
4. Useful insects, including bees, lac, silk (Leaflet).
5. Insects destructive to grain and stored produce (Chapter XIX and Leaflet).
6. Insects injurious to cattle; the part played by insects in disseminating disease (Chapter XX).
7. Beneficial insects (Chapter XXI).
8. Form and colour in insects (Chapter III).

The lecturer should revise the notes taken in lecture and those taken of the pests seen in the field and shown in class. Reports should be written by every student of cases of pests seen in the field, and these should be corrected by the lecturer, who should draw attention to the important points. Demonstrations of the methods of packing specimens alive for sending through the post.

Second stage—Practical work.

Demonstration on the farm or in the field of all injurious and common insects, but paying special attention to—

1. Predaceous insects, insectivorous birds, &c.
2. Parasites.
3. Preventive measures.
4. Remedial measures.
5. Distinguishing important from unimportant insects on a crop, and ascertaining exactly what is the real cause of damage.
6. The meaning of the form, colour and attitudes of insect as seen in the field.

When any remedial measures are adopted on the farm, the students should be present and there should be demonstrations of spraying, with lead arseniate, crude oil emulsion, kerosine emulsion, the last being made on the spot. The use of crude oil emulsion on cattle to destroy ticks, &c., should also be shown.

As before, whenever a pest occurs on the farm, the teacher should have combined field-work and demonstration, following a lecture on that pest.

Third stage—Class work.

A complete account of the crop pests of the province treated crop by crop, as in "Indian Insect Pests." For this, the information given in leaflets should be used where available, but no more detail should be given than is in "Indian Insect Pests." As many stages as possible must be shown. Latin names are not to be used for plants or insects. The heads of each lecture are—

1. The pest, how recognised in the field—Vernacular names.
2. Life history.
3. Habits and destructiveness.
4. Distribution in the province.
5. Seasons at which it is found.
6. Parasites and enemies.
7. Treatment.

With these lectures alternate the field-work and demonstrations; the lecturer also revises the student's notes of each pest, seeing that he completes them from previous notes and that he has a fairly complete account.

A revision of the more important pests, not crop by crop, but order by order, so that the student may have an idea of the relative economic importance of each order and know what pests are closely allied.

Third stage—Practical work.

Demonstration of every injurious insect found on the farm or in the field, and of its enemies and checks. The important points to be noted in reports are drawn atten ion t

and the students taught to see and note the facts they require for the reports they draw up in class afterwards.

VETERINARY SCIENCE.

External anatomy.—Of the ox, the buffalo, sheep and goat. The names of different parts of the body as seen in living animals and their functions.

Internal anatomy—

(*a*) The skeleton. The names and recognition of the principal bones and joints of the above animals and their effect on the conformation.

(*b*) General sketch of the muscular system and its function.

(*c*) Parts and functions of each of the following systems—digestive, urinary, lymphatic, respiratory, circulatory and nervous. The skin, hair, horn and hoof.

Materia Medica and Pharmacy.—The method of making up and administering drenches. Demonstrations in making infusions, decoctions, powders, ointments and liniments. The names, uses and doses of simple common medicines, English and country, with their actions. The more common poisonous plants and poisons.

Practical.—Handling of animals. Use of the clinical thermometer and taking the pulse,

Hygiene.—Sanitary location of byres, ventilation, drinking water, wholesome food. cleanliness, etc.

Medicine and Surgery.—Signs of health and disease. Names and symptoms of the more common external and internal diseases of the ox, buffalo, sheep and goat.

(*Note.*—At least half this course should consist of practical demonstrations at the nearest veterinary hospital.)

Treatment of the simple complaints of cattle. Treatment of ordinary forms of wounds. Lameness, sprains and shoeing.

The most deadly forms of contagious disease with their chief symptoms, and sanitary measures for their suppression and control.

Obstetrics.—Normal and abnormal parturition. Its management in simple cases.

AGRICULTURAL ENGINEERING.

Mensuration.—Areas of plane surfaces, volumes of solids, regular and irregular, including capacities of tanks, ponds and wells.

Methods of roughly testing discharges and ascertaining the efficiency of different means of lifting water.

Surveying.—Simple land surveying, calculation of areas; simple methods of levelling; laying out of plots.

Construction and repairs.—Knowledge of materials. Preparing rough specifications, plans and estimates of farm buildings, roads, wells, tanks and embankments.

Simple dynamics and machines.—Elementary dynamics in relation to agriculture. Principles of construction and care of implements and machines. The use of small engines.

(The training should be practical as far as possible.)

LAND RECORDS.

The local system of land records of the province.

Form of Application for Admission to the Bengal Agricultural College, Sabour.

TO BE FILLED UP AND RETURNED TO THE PRINCIPAL.

1. Name of candidate .....

2. Postal address .....

3. Name and place of birth .....

4. Name and profession of parent or guardian .....

5. Names and addresses of two schools or colleges last attended by candidate .....

6. Date when candidate wishes to commence residence .....

7. Age of candidate .....

8. Probable future occupation of candidate .....

9. Does the candidate intend to take the Diploma in Agriculture .....

10. Examinations passed with date of each .....

NOTE.—The following certificates should be sent with this application :—

(*a*) of age ;

(*b*) of good moral character ;

(*c*) of constitutional fitness (signed by Civil Surgeon) ;

(*d*) of examinations passed.

RULES FOR THE MANAGEMENT OF THE BENGAL AGRICULTURAL COLLEGE HOSTEL.

1. All students on the roll of the College will be required to live in the hostel, and during residence will be subject to the following rules, and to such other rules as may from ime to time be issued by the Principal.

2. *Fees.*—Each student on joining the hostel will be required to deposit "caution money" to the amount of Rs. 5 which will ultimately be returned to the student if he has not rendered himself liable to forfeiture of the whole or any part of it. He will also pay Rs. 2 per month on account of rent and the pay of the menial servants. This fee is liable to be varied as may be necessary to cover wear and tear of furniture, increase of wages etc.

3. All payments must be made to the Superintendent of the hostel before the 15th of the month for which the money is due. A fine of Re. 1 for every three days' delay will be imposed. If the payment be not made, the defaulter's name will be removed from the books.

4. *Furniture.*—Each student during residence will be supplied with a bed, a box with a lock, a stool, and table accommodation. Each student must bring his own clothing and bedding, but no extra furniture can be admitted without the permission of the Hostel Superintendent.

5. The unauthorized removal of an article of furniture from its proper place will be punished by a fine, and a student wilfully damaging any article will have to replace it or pay for its repair.

6. *Lighting.*—The lighting is not provided by the College authorities, and each student is expected to make his own arrangements, subject to the approval of the Superintendent of the hostel. No lamps are to be used that are likely to be a source of danger to the College property or to cause annoyance to the other boarders.

7. All lights will be extinguished not later than 10-30 P.M., unless special permission from the Superintendent has been obtained.

8. *Messing.*—A rate of Rs. 8 per mensem will be charged for messing, but this rate will be liable to alteration according to the price of food-grains. Mess managers will be elected from amongst the students to assist the Hostel Superintendent in the management and account keeping.

9. There are four dining-rooms and four kitchens in the hostel. The necessary servants will be provided.

10. Meals must be taken in the dining-room between such hours as may be prescribed from time to time.

11. Each student will bring his own cup and plate, but the cooking utensils will be provided by the College.

12. *Leave.*—All students will remain within the farm boundaries during the College sessions except when leave has been obtained from the Principal.

13. For the purpose of leave an *exeat* form is provided which can be obtained from the Superintendent of the hostel. Students wishing to leave the Agricultural station for any purpose will fill in an *exeat* card and leave it with the Superintendent after obtaining his signature and the Principal's countersignature.

14. *Conduct.*—A certain number of students will be appointed monitors for each session. All breaches of discipline or misbehaviour will be reported by the monitors to the Superintendent of the hostel and, in serious cases, by the latter to the Principal.

15. A conduct register of each student will be kept by the Superintendent, who will have no power to cancel or alter any entry once made. The students will have their names placed in the conduct register and will be fined or otherwise punished for—

(*a*) disobedience of orders or infringement of rules,

(*b*) absence without leave,

(*c*) neglect of study,

(*d*) insubordination or disrespect to the authorities,

(*e*) assaulting or abusing a servant of the hostel,

(*f*) want of cleanliness or tidiness in their rooms,

(*g*) misconduct not provided for by the rules.

16. The roll will be called in the morning and at night. Absence from the roll-call without a satisfactory explanation will render students liable to punishment and, after warning to expulsion.

17. The gate will be closed at 8-30 P.M., when visitors shall leave the premises. The roll will be called immediately afterwards, and every entry and departure after that hour will be recorded in a book by the durwan, who will report it to the Superintendent. The gate will be closed for the night at 10 P.M., after which no student may leave the hostel, and it will not be unlocked until next morning after roll-call, except under the special orders of the Principal.

18. *Visitors*.—The hostel is intended solely for the use of the students. Relatives and friends of the students only will be allowed to visit the hostel between 5 and 8 P.M. with the permission of the Superintendent.

19. *Sickness*.—Any student, who on account of sickness is unable to attend his work, will at once report himself to the Superintendent, who will arrange for his isolation in the sick ward. The Superintendent will then notify the Visiting Surgeon without delay, and until his report has been received, the student will not be allowed to leave the sick ward. All such cases are to be at once reported to the Principal.

20. A register will be kept in the hostel for the Visiting Surgeon. It should be signed by him on the occasion of each visit. The Superintendent will on such occasions accompany the Doctor on his tour of inspection and bring to the notice of the Principal any remarks made by him on the state of the hostel or the health of the students.

21. No student will be allowed to exercise any caste usage likely to interfere with the arrangements for the cleanliness of the rooms or of the premises.

22. No religious ceremony likely to injure the feelings of other boarders will be performed in the hostel.

23. No student will indulge in any amusement in the hostel which is likely to be a cause of annoyance to the other boarders.

24. *Clubs*.—There will be a small compulsory subscription towards the Athletic Club and the Hostel Reading Room.

25. *Menial servants*.—All the servants will have their duties specified. Any complaints of neglect of duty or of insubordination or misconduct will, in the first instance, be made to the Superintendent. The Principal will be the final authority in punishing a servant. Under no circumstances shall a servant be assaulted or abused by a student.

26. The Principal has power to make bye-laws provided these are not inconsistent with the above rules.

27. These rules will be subject to modification as may be found necessary.

DECLARATION.

Cuttack.

No. 1779L.A.—The 28th June 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Cuttack Municipality for a public purpose, viz., for widening Priyanath Basu's Lane, in the village of Patpur Samil Balu Bazar, pargana Cuttack Haveli, zilla Cuttack, it is hereby declared that for the above purpose a piece of land measuring, more or less, 0·0090 of an acre, bounded on the—

North and West—By the building belonging to Gopinath Sahu,
South—By the road to Balu Bazar Nimchouri Chauk, and
East—By Priyanath Basu's Lane,

is required within the aforesaid village of Patpur Samil Balu Bazar.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Officer, Irrigation Branch, Cuttack.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

Hooghly.

No. 1777L.A.—The 30th June 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the East Indian Railway Company for a public purpose, viz., for brick field at mile 19 of the Hooghly-Katwa Railway, in the villages of Jasara, Natagore and Paigachi, pargana Raipur, zilla Hooghly, it is hereby declared that for the

above purpose a piece of land measuring, more or less, 37 bighas, 18 cottahs 10·72 chitaks of standard measurement, bounded on the—

North—By khas patit jungle and the cultivated lands in possession of Rakhal Khayra, Satish Chandra Bhattacharji, Sadhu Charan Chakraberty and Gopal Banarji,

East—By the Hooghly-Katwa Railway land,

South—By the cultivated lands of Sasti Ghosh, Kedar Bagdi, Mohesh Mandal and Bhusan Ghosh, and

West—By Kamardingi khal,

is required within the aforesaid villages of Jasara, Natagore and Paigachi.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry way, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Deputy Collector, Burdwan, and also in that of the Engineer in charge, Hooghly-Katwa Railway, Bansberia.

E. V. LEVINGE,
Offg. Chief Secy to the Govt. of Bengal.

DECLARATION.

No. 1780L.A.—The 4th July 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for an excise warehouse in the village of Bundu, pargana Bundu, zilla Ranchi, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigha, 18 cottahs and 2 chitaks of standard measurement, bounded on the north by the road to Rahe, east by the land of Khusial Mahto, and south and west by a drain, is required within the aforesaid village of Bundu.

Ranchi.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Deputy Commissioner of Ranchi.

GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 1145T.G.—The 2nd July 1910.—The Lieutenant-Governor is pleased to appoint the following members to constitute the Governing body of the Sanskrit College, as required under section 21 (1) of the Indian Universities Act (Act VIII of 1904), for the academic year 1910-11 :—

Calcutta.

1. The President of the Sanskrit Examination Board, President
2. The Principal, Sanskrit College, Vice-President and Secretary } *Ex-officio.*
3. Dr. G. Thibaut, C.I.E., PH.D., D.SC.
4. Babu Muralidhar Banerji, M.A., Professor.
5. Pandit Pramatha Nath Tarkabhushan, Lecturer.

No. 2376.—The 5th July 1910.—The following resolution of the Government of India, Home Department, regarding the grant of certificates of identity to Indian gentlemen proceeding to America for the purposes of study or otherwise is published for general information.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

Nos. 609—620, dated Simla, the 8th June 1910.

RESOLUTION—By the Government of India, Home Department.

THE Government of India have had under consideration the question whether certificates of identity should be granted to Indian gentlemen proceeding to America for the purposes of study, as is at present done in the case of Indian students going to Japan under the orders contained in the Home Department Resolution Nos. 481-492, dated the 15th November 1901.

2. It is believed that the grant of such certificates would be of use to the holders of them, and, with the approval of the Secretary of State, the Governor-General in Council now desires to recommend all Indian gentlemen proceeding to America for purposes of study or otherwise to obtain, before their departure from India, an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of native states. The District or Political Officer will endorse on the certificate of identity his opinion whether the person is or is not a British subject "by birth" or "by naturalization" or a subject of a native state. Quarterly returns of the certificates granted will be submitted by the local Governments and Administrations to the Government of India for transmission to the British Embassy at Washington and to His Majesty's Secretary of State for India. But, to avoid delay, the District or Political Officer, when granting or countersigning a certificate, will at the same time send a copy of the certificate direct to the British Embassy at Washington and also send a duplicate copy of it direct to the Under-Secretary of State for India.

3. Local Governments and Administrations are requested to take steps to secure that all reasonable facilities are given for obtaining certificates of identity, and that wide publicity is given to these orders.

Form of certificate of identity.

1. Name of applicant _____
2. Father's name and caste _____
3. Residence _____
4. Age of applicant _____
5. Nationality of applicant _____
6. Social and pecuniary status of father (or guardian) _____
7. Date of probable departure of applicant from India _____
8. Object of applicant's visit to America _____

REGISTRATIONS.

W. R. GOURLAY,

Offg. Secy. to the Govt. of Bengal.

DECLARATION.

Manbhum. *No. 1299J.D.—The 30th June 1910.*—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Bengal-Nagpur Railway and a siding off that railway between miles 196, furlongs 4, feet 58, and miles 197, furlongs 0, feet 566, and whereas coal mines are situate under the said land, and whereas the Sutikdih Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seams known as Nos. 14, 14a, and 15 seams, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Sutikdih Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Sutikdih Coal Company, Limited, in the manner and subject to the restrictions below specified, viz :—

(*a*) No gallery shall be driven and no coal shall be extracted in any place where the vertical distance from the natural surface to the top of the gallery, if driven, is less than 50 feet. This, however, shall not apply to the main gallery of No. 12 Incline which may be driven not more than 10 feet wide and 8 feet high;

(*b*) Where the distance from the natural surface to the top of the gallery, if driven, is 50 feet or more, galleries not exceeding 13 feet wide and 12 feet high, may be driven with centres not less than 70 feet apart;

(*c*) Manholes not exceeding 6 feet in height and 4 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901;

(*d*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay;

(*e*) The whole of the workings beneath the acquired land shall be worked only between lines edged with yellow upon the plan and in such a manner as though these lines constituted the actual boundaries of the acquired land;

(*f*) The above restrictions apply to Nos. 14, 14a, and 15 seams only and to the area edged with pink on the plan, and the Sutikdih Coal Company, Limited, shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under the above area or to work coal under any other area of acquired land;

and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked LAMA No. 137 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

POLITICAL DEPARTMENT.

POLITICAL.

NOTIFICATION.

No. 1905 P.D.—The 2nd July 1910.—Whereas it appears to the Lieutenant-Governor that a newspaper entitled *Bande Mataram* printed in Europe has published in its issue for May 1910 a reproduction of the leaflet entitled "Kumar Singh, May 10th, 1910. *In Memoriam*" (without the frontispiece) which was forfeited under Notification No. 652P.D., dated the 16th May 1910, and other articles, which contain words of the nature described in section 4, sub-section (1), of the Indian Press Act, 1910 (I of 1910), inasmuch as they have a tendency to bring into hatred and contempt the Government established by law in British India:

Now, therefore, in exercise of the power conferred by section 12, sub-section (1), of the said Act, the Lieutenant-Governor hereby declares all copies of the said newspaper wherever found in Bengal to be forfeited to His Majesty.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

POLICE.

NOTIFICATIONS.

No. 1846P.D.—The 30th June 1910.—In exercise of the power conferred by sub-section (2) of section 7 of the Code of Criminal Procedure, 1898 (Act V of 1898), the Lieutenant-Governor is pleased to declare that the following area should be included in the district of Howrah, namely:—

Howrah.

that portion of the Bengal-Nagpur Railway line, on the eastern side of the river Hooghly, which branches off from the Port Trust Railway line, crosses the Circular Garden Reach Road and Garden Reach Road and extends up to the river Hooghly, and which lies within the area bounded on the eastern side by a line drawn from the river Hooghly parallel to and 15 feet away from the outer rail of the most easterly line of rails up to the Circular Garden Reach Road, and on the western side by a line drawn from the river Hooghly parallel to and 15 feet away from the outer rail of the most westerly line of rails up to the limits of the workshops of Messrs. Jessop and Company, and from that point by a line drawn along the western edge of the Railway Company's goods approach road up to the Circular Garden Reach Road.

No. 1859P.D.—The 30th June 1910.—In exercise of the power vested in him by section 14, sub-section (1) of the Code of Criminal Procedure, 1898, the Lieutenant-Governor is pleased to confer upon Munshi Abdul Zabbar, who has been appointed to be President of the panchayat of the Pursurah Union of the Pursurah outpost, in the Arambagh subdivision of the district of Hooghly, *vice* Munshi Abdus Sattar, the powers of a Magistrate under sections 64, 127 and 128 of the same Code, and to declare that the said powers may be exercised by him within the limits of that Union.

Hooghly.

2. The Lieutenant-Governor is further pleased to declare, in pursuance of sub-section (2) of the said section 14, that the said powers are conferred and may be exercised by Munshi Abdul Zabbar during such period, not exceeding three years, as he continues to hold the office of President of panchayat.

No. 1891P.D.—The 2nd July 1910.—In exercise of the power vested in him by section 14, sub-section (1) of the Code of Criminal Procedure, 1898, the Lieutenant-Governor is pleased to confer upon Babu Keshab Pada Ghosh, who has been appointed to be President of the panchayat of Union No. VI, Earpur, in thana Magrahat, in the district of the 24-Parganas, *vice* Babu Hari Narayan Ghosh, *deceased*, the powers of a Magistrate under sections 64, 127 and 128 of the same Code, and to declare that the said powers may be exercised by him within the limits of that Union.

24-Parganas.

2. The Lieutenant-Governor is further pleased to declare, in pursuance of sub-section (2) of the said section 14, that the said powers are conferred and may be exercised by Babu Keshab Pada Ghosh during such period, not exceeding three years, as he continues to hold the office of President of panchayat.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT

[Fifth publication.]

The 7th June 1910.

No. 17.—Notification.—In connection with the opening of the Kristopur Canal as a line of navigation, as declared in Bengal Government Notification No. 16, dated the 7th June 1910, the Lieutenant-Governor of Bengal proposes, under sections VI and XI of the Canals Act, V (B.C.) of 1864, that tolls will be levied on all boats entering or leaving the Calcutta Canal System by this New Canal at Kristopur Toll Station on the 4th mile of the Canal, at the same rates and conditions now in force for entering or leaving the Canals at Dhappa, as given in the Schedule of Tolls published in Bengal Government Notification No. 144, dated the 23rd March 1893 *vide* page 493 of the *Calcutta Gazette* of the 31st May 1893. The toll limit will be fixed at a point 100 feet to the east of the Kristopur regulator.

No. 18.—Notification.—Agreeably to Bengal Government Notification No. 16, dated the 7th June 1910, regarding the opening of the Kristopur Canal as a line of navigation, the Lieutenant-Governor proposes, under sections XI and XII of the Canals Act, V (B.C.) of 1864, that the Rules for the Calcutta Canals and Tolly's Nullah, as promulgated under Bengal Government Notification No. 29, dated the 24th May 1904, and published in pages 744-46 of the *Calcutta Gazette* of the 25th May 1904, Part I, shall also apply to the Kristopur Canal.

T. BUTLER,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 29th June 1910.

No. 59Marine.—Mr. R. S. M. Curran, Senior Master Pilot, is appointed to act as a Branch Pilot, with effect from the date he is placed on the running list, *vice* Mr. J. H. Lindquist, Acting Branch Pilot, on leave.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 29th June 1910.

No. 60Marine.—Mr. J. F. Fox, Senior Master Pilot, is appointed to act as a Branch Pilot, with effect from the date he is placed on the running list, *vice* Mr. C. F. Keys, Acting Branch Pilot, on leave.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 30th June 1910.

No. 61Marine.—Mr. J. H. Lindquist, Acting Branch Pilot, is granted combined leave for twelve months, viz., privilege leave for twenty-one days, under article 676 (*a*) of the Civil Service Regulations, and furlough for the remaining period under article 671 of the Regulations, with effect from the 16th May 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 30th June 1910.

No. 62Marine.—Mr. C. F. Keys, Acting Branch Pilot, is granted combined leave for twelve months, viz., privilege leave for one month and twenty-two days under article 676 (*a*) of the Civil Service Regulations, and leave on medical certificate for the remaining period under article 672 of the Regulations, with effect from the 4th June 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 1st July 1910.

No. 63 Marine.—Mr. P. J. Wilson, Senior Master Pilot, is allowed leave on medical certificate for four weeks, under article 672 of the Civil Service Regulations, in extension of the leave granted to him under the Notification of this Department No. 54 Marine, dated the 31st May 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 1st July 1910.

No. 65 Marine.—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899, the Lieutenant-Governor proposes to substitute the following for rule 16 in Part III of the rules for the possession, transport and importation of petroleum published under the notification of this Department No. 43 Marine, dated the 24th May 1909 :—

When a ship carrying petroleum must anchor at a special anchorage.

16. Save as provided in rules 14 and 24, every ship having petroleum on board shall be anchored at such anchorge as the Conservator of the Port shall appoint in this behalf. If the petroleum is intended to be discharged at the port, the vessel shall not leave such anchorage, except for the purpose of discharge of bulk oil petroleum as laid down in rule 19, until all the petroleum has been so discharged. If the petroleum or a portion of it is intended for some other port, the petroleum or such portion of it shall be temporarily discharged at such anchorage before the vessel proceeds into the harbour. If it is not so discharged, the vessel shall remain at such anchorage until her final departure.

Such anchorage shall in no case be the same as that for vessels laden with explosives and shall be sufficiently far removed from the anchorage for vessels laden with explosives to prevent the possibility of a fire originating at the former place affecting vessels anchored at the later.

This rule will be taken into consideration after the expiry of one month from the date of its publication in the Gazette, and the Lieutenant Governor will be glad to consider any suggestions or observations that may be made by any person concerning it within that period.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 5th July 1910.

No. 66 Marine.—The following notification, issued by the Government of India in the Department of Commerce and Industry, is republished for general information. The rules quoted are reproduced in full at the foot of the notification.

T. BUTLER,
Secy. to the Govt. of Bengal.

No. 4553—67, dated the 25th June 1910.

NOTIFICATION—By the Government of India, Department of Commerce and Industry.

IN exercise of the powers conferred by section 7 of the Indian Telegraph Act, 1885 (XIII of 1885), the Governor-General in Council is pleased to direct that Rules* 60 and 236 of the rules published with the notification of the Government of India in the Department of Commerce and Industry, No. 6975—137 (Telegraphs), dated the 16th of September 1909, shall be cancelled.

* 60. On telegrams to or from the Pilot-vessel at the Sandheads exchanged by the Wireless Telegraph system, a special fee of Rs. 4 per telegram is levied, in addition to the rates specified in Rule 59.

236. On telegrams to or from the Pilot-vessel at the Sandheads exchanged by the Wireless Telegraph system, a special fee of Rs. 4 per telegram is levied, in addition to the usual rates per word shown in the tables referred to in Rule 230.

[Third publication.]

The 16th June 1910.

No. 56 Marine.—Notification.—The following bye-law which has been framed by the Commissioners of the Port of Calcutta, under section 126, sub-section (1), clauses (*e*) and (*f*), of the Calcutta Port Act, 1890, imposing upon the masters of vessels the duty of reporting to the officers of the Trust the loss of cargo over-side and of taking immediate steps for its recovery, is hereby published under the provisions of sub-section 4 of that section :—

"In exercise of the powers conferred on them by section 126, sub-section (1) clauses (*e*) and (*f*), of the Calcutta Port Act, 1890, the Commissioners in meeting hereby make the following bye-law :—

'1. (*a*) No ballast or rubbish nor any cargo, goods or other article, substance or thing likely, after falling into the water, to be or become detrimental to navigation or to cause damage to shipping shall be laid or placed upon

any quay, pier or jetty within three yards from the margin of the dock or riverside margin of the jetty, nor upon any such quay, pier or jetty, nor upon any vessel in such a position or place that same shall be likely to fall into the water.

'(*b*) No ballast or rubbish, nor any cargo, goods or such other article, substance or thing as last aforesaid shall be cast or thrown or permitted or suffered to fall into the docks, dock channels or river from any pier, quay, jetty or vessel or in any other manner whatsoever.

'(*c*) In the event of any such cargo, goods, article, substance or thing being cast or thrown or falling into any docks or dock channel or the river from any vessel, the Master or other person for the time being in actual charge of such vessel or her cargo, shall within three hours (excluding hours between 6 P.M. and 10 A.M.) give notice of the occurrence, furnishing full particulars thereof to the Docks or Jetty Superintendent, as the case may be, and take all lawful and proper measures and use every endeavour to have such cargo, goods or other article, substance or thing recovered, taken out of and removed from the docks, dock channel or river, as the case may be, and shall in regard to such recovery, taking out, removal or the measures and endeavours thereto or in the attempt thereof, obey and conform in all respects to any directions received from such Superintendent as from the time when the same shall be received.'

"In exercise of the powers conferred by section 127 of the Calcutta Port Act, 1890, the Commissioners in meeting direct that any person who commits a breach of any of the articles of this bye-law shall be punishable with fine which may extend to Rs. 500 in respect of any such breach, and in the case of a continuing breach to a further fine which may extend to Rs. 200 for every day after the first during which the breach continues."

T. BUTLER,
Secy. to the Govt. of Bengal.

G. W. KÜCHLER,
Director of Public Instruction, Bengal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 3386B.

NOTIFICATION.

MIS. REVENUE DEPARTMENT.

CUSTOMS BRANCH.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 27th June 1910.

IN exercise of the powers conferred by section 9 of the Sea Customs Act, 1878 (VIII of 1878), and with the sanction of the Lieutenant-Governor, and in supersession of the Notifications specified in the margin, the Board of Revenue make the following rules as to work by officers of Customs :—

1. Notification No. 6040 B., dated 10th November 1908.
2. Notification No. 2313B., dated 30th April 1909.
3. Notification No. 5179B., dated 27th September 1909.

1. Subject to the provisions of section 72 of the Sea Customs Act, 1878, officers of Customs shall, if so required by the Customs Collector, perform (1) on ordinary days, (2) on ordinary holidays, (3) on special holidays, and (4) on Sundays, the work indicated in column 1 of the subjoined table, during the times respectively indicated in columns 2 to 5 of that table.

2. The performance of any such work as aforesaid shall be subject to the payment of the fees specified in columns 2 to 5, respectively, of the said table, and to the observance of the other directions given in that table.

By order of the Board of Revenue, L. P.,

SRIGOPAL BHATTACHARJI,
Secretary.

TABLE SHOWING WORK TO BE PERFORMED FOR THE PUBLIC BY OFFICERS OF CUSTOMS, AND THE FEES PAYABLE THEREFOR.

General explanations and directions.

1. Except where otherwise specified, the fees specified in this table are payable to the officer concerned.

2. In order to allow the public the free use of Preventive Officers on boardship and at the Customs wharves between the hours of 6 A.M. and 6 P.M. on ordinary working days, the Government undertake the payment of fees to their officers employed, for any overtime earned during those hours. Government ordinarily pay at the rate of Re. 1 per hour for every hour in excess of 9 hours which an officer works between 6 A.M. and 6 P.M., provided that no such fee shall be paid unless the officer has worked for a total of 54 hours in the week or for a number of hours equal to nine times the number of days during which he has been at work during the week. See explanatory table in margin. In the following cases the payment takes the form of an allowance:—

Nature of work.	Hours during which overtime may be earned.
Work at the Customs wharves, including Jetty extension, Shalimar, Ramkristopore, Kidderpore Docks and the Petroleum wharves at Budge Budge. (This includes passing of opium into the Custom House or the Presidency Opium godowns, or baggage from the jetties to the Custom House godowns.)	6 A.M. to 9 A.M.
Any description of work on boardship (except guard duty).	6 A.M. to 7 A.M. and 4 P.M. to 6 P.M. at the Jetties and Docks; and 6 A.M. to 8 A.M. and 5 P.M. to 6 P.M. for vessels in the stream.

(1) Custom House Inspector, Rs. 75 per mensem, local allowance.
(2) Two launch officers, Rs. 50 each per mensem, local allowances.
(3) Two officers in charge (*a*) of Shalimar and Ramkristopore and (*b*) of Patrols, Rs. 30 each per mensem, local allowances.
(4) Six officers on shore patrol, Re. 1 each daily, travelling allowance.
(5) Officers at Sulkea and Kidderpore fixed overtime allowances per mensem as follows—

	Sulkea. Rs.	Kidderpore. Rs.
Inspector	70	30
Ghat officer	50	20
Muharrir	4	2

Government also pays overtime at the rate of Rs. 16 a day for the attendance of an Appraiser at the General Post Office on Sundays and on special holidays.

3. If a merchant or shipowner requires the services of Preventive Officers between 6 A.M. and 8 A.M. he shall present his request to that effect to the Preventive Inspector in sufficient time to enable such officer to arrange for the attendence of necessary staff. If the services of an officer are requisitioned between the hours of 6 A.M. and 8 A.M. for work on boardship, or between 6 A.M. and 9 A.M. for work at the Customs wharves, and are not utilized, the party at whose request the officer was directed to attend will pay the overtime, and not Government. Such attendance shall not be counted as attendance for Government towards making up a total of 54 hours per week.

4. The Collector of Customs, Calcutta, is prohibited from granting permission to work cargo in sea-going vessels ordinarily on Sunday. He shall, however, give written permission in the following cases:—

I. When the application to work is supported by a declaration in a prescribed form, signed by the owner or agent of the vessel, certifying that the permission is absolutely necessary to enable the vessel to leave the port owing to the state of the river or to the condition of the weather.

II. When the application is made on grounds of special urgency, provided the Collector of Customs is satisfied that such grounds are sufficient.

III. When the application is made to discharge or load live-stock, ship's stores, ballast or coal.

In case II permission shall only be granted on payment of a fee equal to 6¼ annas on the net registered tonnage of the vessel, subject to a minimum of Rs. 50 and a maximum of Rs. 200.

When no work is done, the whole or portion of the fee may be refunded at the discretion of the Collector, who will take into consideration the attendance of officers for work.

5. In the case of fees payable by the public, work extending up to, and not exceeding, 15 minutes beyond the regular hours is not charged for. Work in excess of 15 minutes is charged as a full hour. In the case of work at the wharves, however, only 5 minutes grace is allowed beyond the regular hours. Work extending to more than 5 minutes beyond the hour will be charged as a full hour to the agent or merchant on whose account the officer has been detained. The 15-minute rule applies also in the case of Government overtime for work on boardship.

Nature of Work.	Ordinary Days.		Ordinary Holidays.		Special Holidays.		Sundays.		Fees by whom payable.
	Hours.	Fees.	Hours.	Fees.	Hours.	Fees.	Hours.	Fees.	
1	2		3		4		5		6
1. Work on boardship :—General cargo, (excluding salt, coal, livestock, ship's stores and ballast).	6 A.M. to 6 P.M.	(*a*) No fee ...	7 A.M. to 4 P.M. for vessels at the jetties or docks, and 8 A.M. to 5 P.M. for vessels in stream.	Rs. 5 per day per officer. Where vessels are in charge of a Divisional Officer, the ordinary holiday fee of Rs. 5 shall be charged proportionately to the ships under his supervision.	7 A.M. to 4 P.M. for vessels at the jetties or docks, and 8 A.M. to 5 P.M. for vessels in stream.	Rs. 5 per day per officer *plus* an extra fee of Rs 100 in each case divided between the Chief Inpector. Inspectors and officers employed, according to their salaries, after deducting Rs. 50 as the special fee of the Chief Inspector, from the total amount of the special fees levied for the day. If no work is performed on board a vessel that leaves port on a special holiday, the special fee of Rs. 100 will be refunded.	As in column 3.	(*b*) Fees as in column 3 *plus* extra fee of Rs. 200 of which the Inspector and officers employed receive 40 per cent. divided between them according to their salaries.	Ship's Agent or merchant, as the case may be.
	6 P.M. to 6 A.M.	(*a*) Re. 1 per hour per Preventive officer.			Before and after above hours between midnight and midnight.	Re. 1 per hour per officer in addition to above.			
2. Work on boardship :—Salt.	6 A.M. to 6 P.M.	(*a*) No fee ...	Before and after above hours.	Re. 1 per hour per officer save that between 6 P.M. and 6 A.M. Inspector and Charandars are paid fees given in column 2.	7 A.M. to 4 P.M. for vessels at the jetties or docks and 8 A.M. to 5 P.M. for vessels in	Weighing officer Rs. 5 per scale; Inspectors each Rs. 3 per scale *plus* the extra fee of Rs. 100 which shall be pooled and divided in the same manner as the extra fee of Rs. 100 mention-	Do. ...	(*b*) Fees as in column 4 except that the extra fee will be Rs. 200, instead of Rs. 100. Of this fee 40 per cent. will be	
	6 P.M. to 6 A.M.	(*a*) Inspector, Rs. 3 per scale per watch. Preventive officer, Re. 1 per hour. Charandar in charge of boats, annas 8 per day or night.							

		Charandar in attendance, annas 4 per day and annas 4 per watch, per night.			stream.	ed above, *plus* also in the case of vessels discharging salt into bond, an extra fee of Rs. 50, which shall be divided according to salary among the officers on board together with (if any work is done at the golas) the officers working at the golas.		divided between the Inspectors and officers employed, according to their salaries.
					Before and after these hours between midnight and midnight.	Re. 1 per hour per officer in addition to above.		
3. Work on boardship :— Coal, live-stock, ship's stores and ballast.	...	Shipment of ballast is permitted without the presence or authority of a Customs Officer and without the delivery of a shipping bill. But vessels taking ballast and having salt exposed will pay a fee of Rs. 5 for the day; the usual overtime fee of Re. 1 per hour will be charged for as many hours as the vessel is worked between midnight and 6 A.M., with a minimum charge of Rs. 5.	...	As in column 2 ...	...	As under General cargo, but live-stock and fresh provisions may be shipped or landed free of charge.	Do. ...	(*b*) As under General cargo, but live-stock and fresh provisions may be shipped or landed free of charge.

(*a*) 1. If a night officer is applied for and his services are not utilized, or are utilized for less than 5 hours, he is entitled to a minimum attendance fee of Rs. 5; but if the officer was required for the discharge of salt, the minimum attendance fee is Rs. 5, if his services are not utilized or are utilised till midnight, and Rs. 8 if utilized after midnight.

2. If an officer is required to remain in attendance after working hours for the convenience of the merchant or ship-owner, his services will be paid for at the rate of Re. 1 per hour.

3. Agents of vessels discharging salt or other cargo beyond the port limits shall pay the travelling and other expenses of the Preventive Officers and peons required by them. They shall also pay a fee of Rs. 4 for the day and Rs. 4 for the night for each Preventive Officer in charge of boats in transit between the vessel and warehouses.

(*b*) When no work is done, the whole or portion of the fee may be refunded at the discretion of the Collector, who wil take into consideration the attendance of officers for work.

NOTIFICATION.

EXPLOSIVES.

Simla, the 9th June 1910.

No. 4239-3.—In exercise of the powers conferred by section 5 of the Indian Explosives Act, 1884 (IV of 1884), the Governor-General in Council is pleased to make the following amendments in the rules regulating (1) the manufacture, possession and sale of explosive, and (2) the transport and importation of explosives, published with the notifications in this Department, Nos. 9045-8 (Explosives) and 4555-4 (Explosives), dated the 29th November 1906 and the 31st May 1907, respectively :—

AMENDMENTS.

I.—Rules for the manufacture, possession and sale of explosives, issued with this Department Notification No. 9045-8, dated the 29th November 1906.

At the end of clause (2) of rule 1, the word "or" shall be inserted, and after that clause the following shall be added namely :—

"(3) the manufacture, possession or sale of toy fireworks, such as paper caps for toy pistols, under such conditions and in such quantities as the Local Government, on the recommendation of the Chief Inspector of Explosives, may from time to time determine."

II.—Rules to regulate the transport and importation of explosives, issued with this Department Notification No. 4555-4, dated the 31st May 1907.

For the third paragraph of the preamble the following shall be substituted, namely :—

"Nothing in these rules shall apply to the packing, transport or importation of—

(*i*) capped safety cartridge cases, if otherwise empty, when packed, transported or imported in the same consignment with arms covered by a license granted under the Indian Arms Act, 1878 (XI of 1878), or

(*ii*) toy fireworks, such as paper caps for toy pistols, under such conditions and in such quantities as the Local Government, on the recommendation of the Chief Inspector of Explosives, may from time to time determine."

THE College opens after the long vacation on Monday, the 11th July 1910, when the regular lecture course will commence.

Applications for admission will be received on and after the 1st July. Printed form of application can be obtained in the College office. No application will be entertained after the 31st July.

Students are prohibited from holding any *remunerative* employment.

Besides the first-year and second-year B.L. classes, a Pleadership class will be held. The monthly fee rate for the B.L classes is Rs. 6 and for the Pleadership class Rs. 5.

There is a hostel attached to the College with accommodation for a limited number of students. The rent for seats on the upper floor is Rs. 4 and on the ground floor Rs. 3 per mensem. Boarders make their own mess arrangements.

ATMA RAM,
Principal, Patna Law College.

BANKIPORE, *the 7th June 1910.*

CALCUTTA UNIVERSITY NOTICE.

THE UNIVERSITY LAW COLLEGE.

THE College will re-open on Monday, the 27th June 1910. The lectures in the first year class will commence on Monday, the 4th July, and those in the second-year class on Wednesday, the 6th July. The College is under the direct management of a Governing Body, consisting of the Hon'ble the Vice-Chancellor, three Judges of the Calcutta High Court, the Advocate-General of Bengal, the Senior Government Pleader of the High Court, the Director of Public Instruction, Bengal, the Legal Remembrancer to the Government of Bengal, three representatives of the Faculty of Law, one representative of the Incorporated Law Society, the Principal of the College, and two representatives of the College staff.

COLLEGE STAFF.

Principal.

Dr. Satischandra Bagchi, B.A., LL.B. (Cantab.), LL.D. (Dublin), Bar.-at-Law.

Professors.

1. Babu Golapchandra Sarkar, Sastri, M.A., B.L., formerly Dean of the Faculty of Law.
2. ,, Haradhan Nag, M.A., B.L., Vakil, High Court.
3. Mr. Harendranath Sen, M.A., B.L., Bar.-at-Law.
4. Babu Jogendranath Mukerjee, M.A., B.L., Vakil, High Court.
5. Mr. Jogendranath Ghosh, M.A., B.L., retired District and Sessions Judge.
6. ,, Sasibhusan Chaudhuri, M.A., B.L., retired District and Sessions Judge.
7. ,, Subodhchandra Ray B.A., LL.B. (Cantab.), Bar.-at-Law.
8. ,, Nirmalchandra Sen, M.A., Bar.-at-Law.
9. The Hon'ble Dr. Abdullah-al-Mamun Suhrawardy, M.A., PH. D., D. LITT., LL.D., Bar.-at-Law.
10. Mr. Nagendranath Gupta, M.A. (Oxon.), Bar.-at-Law.
11. Babu Jyotiprasad Sarbadhikari, M.A., B.L., Vakil, High Court.
12. ,, Haraprasad Chatterjee, M.A., B.L., Vakil, High Court.
13. ,, Ashutosh Mukerjee, M.A., B.L., Vakil, High Court.
14. ,, Birajmohan Majumdar, M.A., B.L., Vakil, High Court.
15. ,, Surendrachandra Sen, B.L., Vakil, High Court.
16. Mr. Pramathanath Chatterjee, M.A., Bar.-at-Law.
17. Babu Karunamay Basu, M.A., B.L., Vakil, High Court.
18. Mr. Kasi Prasad Basu, B.A., LL.B. (Cantab.), Bar.-at-Law.
19. ,, Sudhangsu Mohan Basu, M.A., LL.B. (Cantab.), Bar-at-Law.
20. Babu Jnanendranath Basu, B.L., Vakil, High Court.
21. ,, Mohinimohan Chatterjee, M.A., B.L., Vakil, High Court.

Arrangements will be made for systematic courses of lectures, Moot Courts, and regular exercises. Facility will also be given to students to read in the College Library after the College hours under the supervision of the Principal or a member of the staff.

The College fees will be Rs. 6 per month.

Eight scholarships of Rs. 10 a month, each tenable for one year, have been established. Four of these will be open to competition among students of the first-year class and the other four among the students of the second-year class. The scholarships in the first-year class will be awarded towards the end of September upon the result of a College test to be held at that time. Those in the second-year class will be awarded upon the results of the Preliminary Examination in Law. They will take effect restrospectively from July. Additional scholarships will be awarded from the endowment established by the Hon'ble the Maharaja of Cossimbazar.

Two scholarships of Rs. 32 a month, each tenable for two years, have been established, to be open to competition among students who have prosecuted their studies in the University Law College not less than a year. The award will be made upon the results of the final Examination in Law, and on condition that the recipients do prosecute a course of study for the M.L. examination under the direction of the Principal.

Provision has been made for the residence of students who do not reside with their parents or guardians. Such students must apply on or before the 1st July 1910. Dr. B. C. Ghose, M.A., M.B. (Cantab.), will be the Medical Officer for such students as reside in the College Hostel.

Students are recommended in all cases to take their admission before the 1st July 1910.

The College classes will be held ordinarily from 9 A.M. to 11-15 A.M. for first-year students and from 3-30 P.M. to 6-45 P.M. for second-year students. Students who have completed their first-year Lectures and intend to withdraw temporarily from their Law studies on account of pressure of M.A. work are warned that they must do so at their own risk, as under the New Regulations they are not likely to obtain next year a complete course of lectures corresponding to the present second-year course; they are strongly advised to consult the Principal before they take any action in the matter.

To the College is attached an extensive Law Library containing numerous sets of reports and text-books. The Library is divided into two sections—(A) for reference, (B) for lending. Books in section (A) may be consulted by students at any time from 9 A.M. to 6-30 P.M. Books in section (B) may be borrowed by students; no deposit is required, if one volume is borrowed. Those who deposit Rs. 5 are allowed to borrow two volumes at a time.

During the last session, the Hon'ble the Vice-Chancellor presided over many of the Moot Courts, and a special course of lectures on the Law of Mortgages was delivered by Babu Mahendranath Ray, M.A., B.L. Maulavi Zahadur Rahim Zahid, M.A., B.L., and Mr. Manmathanath Basu, M.A. (Cantab.), also delivered extra courses of lectures. Similar arrangements will be made during the ensuing session.

All applications for admission are to be addressed to the Registrar, Senate House, Calcutta, to whom any application for further information may be sent.

PLEADERS' SURVEY CLASSES, 1911.

1. Classes for the training of Pleaders in Surveying will be opened in January and February 1911 in connection with the Civil Engineering, College, Sibpur, the Bihar School of Engineering, Bankipur, the School of Engineering, Dacca, and the Survey School at Cuttack.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the head of institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the Pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 15th November. The application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join *i.e*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centres and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed:—

(*a*) Practical work—

Chain surveying. | Prismatic compass. | Plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.	Variation of compass.
Construction of scales.	Preparation of field-books from maps.
Mensuration of areas.	Elementary principles of levelling.
Plotting.	Plotting of level sections.

Candidates who obtain the required percentage of attendance at this course of instruction are qualified to appear at the Practical Examination held in 1912.

B. HEATON,

Principal Civil Engineering College, and
Secretary, Pleader's Survey Examination Board.

NOTIFICATION.

ANNUAL EXAMINATION OF PLEADERS IN SURVEYING.

(See Government Notification No. 3157J., dated 25th November 1909.)

1. The next examination will be held in February 1911 and will be conducted at the following centres, provided that not less than five names be registered at each centre:—Sibpur, Bankipur, and Cuttack in Bengal, and at Dacca in Eastern Bengal and Assam.

2. Candidates practising in the Courts of the Presidency and Burdwan Division, will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhuts Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Eastern Bengal and Assam, at Dacca.

3. In the event of more than 20 or less than five names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

4. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and

(i) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack and Dacca not less than one year and not more than four years previous to the date of the examination, or

(ii) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(iii) has passed the Sub-Overseer Examination, or

(iv) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(v) be specially exempted from the operation of this rule by the Board controlling the examination.

5. Candidates wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose court he is enrolled and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 15th December.

6. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, which will in no case be returned.

7. No candidate will be admitted to this examination more than three times. Each examination is complete in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the Examiner in it.

8. The programme of the examination will be published in the *Calcutta* and *Eastern Bengal and Assam Gazettes*.

B. HEATON,

Principal, Civil Engineering College,
and Secretary, Pleaders' Survey Examination Board.

NOTICE.

PATNA DIVISION.

MATRICULATION TEST-EXAMINATION FOR PRIVATE STUDENTS.

1. By private students are meant those who do not appear from any school and who have not attended any school for at least one year previous to the Matriculation examination. "Private students" include school-masters.

2. All private students without exception are required to appear at the test-examination of a zilla school, and to adduce satisfactory evidence before the Inspector that he has prosecuted a regular course of study and has been subject to proper discipline.

3. No one shall be admitted to the Matricular examination unless he shall have completed the age of sixteen years on the first day of the month in which he appears at the Matriculation examination.

4. Subject to the approval of this office, the dates of the test-examination in all the zilla schools will be fixed by the head masters of these schools. They will submit to this office the results of the test-examination on the 2nd January 1911 without fail.

5. Each private student will pay a fee of Rs. 2 for the test. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners.

6. Private candidates for the test-examination should apply to this office not later than the 15th November 1910. The application should be accompanied by a certificate from the head master of the zilla school where the candidate wishes to appear that he has deposited the requisite fee of Rs. 2. They should forward the certificate granted to them under the transfer rules by the head master of the school in which they last read, together with a certificate of good character from a respectable person. If a candidate failed at a previous Entrance examination and has not since joined any school, the Registrar's receipt in original will be accepted in lieu of a transfer certificate.

7. A student who failed to pass the annual examination for promotion to the first class at the end of session 1909-1910 and then left the school can, under no circumstances, be allowed to appear at the Matriculation examination of 1911.

8. The application forms for permission to appear at the Matriculation examination will be signed by the head master of the zilla school at which the candidates have been examined and will be forwarded by him to the Inspector for countersignature on or before the 10th January 1911.

9. These applications (with the appointed fee) must be forwarded to the Registrar of the Calcutta University by the candidate, when all formalities are concluded, so as to reach him on or before the 17th January 1910.

10. The next Matriculation examination begins on the 1st March 1911.

INTER ARTS, INTER SCIENCE AND B.A. EXAMINATIONS.

Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* school-master of three years' standing will be admitted to the above-mentioned examinations. The applications of school-masters should be accompanied by a certificate of length of service (with dates), from the Managers of the school in which they are employed, together with Entrance and F.A. pass-certificates, and in the case of plucked candidates the Registrar's receipt also for the last F.A. or B.A. examination, as the case may be, and should reach this office not later than the 16th January 1911.

Under section 19 of the Indian Universities Act, candidates who intend to appear at the Intermediate examination, B.A., B.Sc. or M.A. examination of the Calcutta University other than as regular students of some affiliated colleges, are requested in the first instance to apply for and obtain the permission of the Senate.

Candidates should read carefully the certificate which this office is called upon to sign and should be careful to supply all information and documents required, without which the Inspector must decline to sign the certificate.

The Intermediate, the B.A. and B.Sc. examinations begin on the 13th March 1911.

Applications with fees must be forwarded to the Registrar of the Calcutta University by the candidates themselves, so as to reach him on or before the 23rd January 1911.

BANKIPORE,
The 27th June 1910.

Pay Rs. 25—35 with a biennial increment of Rs. 2 and travelling allowance according to Civil Service Regulations not to exceed Rs. 20 per month. None need apply who is not qualified agreeably to Government Notification No. 3331L.S.-G., dated 20th December 1901.

Applications with copies of testimonials will be received by the undersigned up to Friday, the 15th July 1910. Preference will be given to one who has experience in Local Board works.

BINAY KRISHNA BASU,
District Engineer, 24-Parganas.

Alipore, the 30th June 1910. (800—2)

Notice.

WANTED an Assistant District Engineer for the District Board of Bakarganj on a salary of Rs. 250 (rising to Rs. 300 by an annual increment of Rs. 10) and travelling allowance at first class rates (as admissible to an Assistant Engineer under Public Works Department when not in charge of a division) in accordance with the Civil Service Regulations.

A candidate (who will be appointed on probation for six months) must have such qualifications as are laid down in the Bengal Government Notification No. 3334-L.S.-G., dated 20th December 1901, published in page 278 of LeMesurier's edition of the Collier's Local Self-Government hand-book. The applications which will be received up to 21st July 1910 must be accompanied by original testimonials, including certificates of physical fitness for outdoor duties and ability to ride, signed by a Civil Surgeon and a District Magistrate, respectively, and evidence of such knowledge of the vernacular as to qualify the candidates for employment as Assistant District Engineer. The applicant should state his age.

Preference will be given to candidates having a knowledge of the utilisation and improvement of canals and navigable waterways.

The applications should be submitted in sealed and registered covers addressed to the Chairman by name and superscribed "Application for the post of Assistant District Engineer," and should be accompanied by a suitable envelope addressed and sufficiently stamped for registration for return of the testimonials.

Each candidate should state in his application if he would agree to serve the Board at least for three years.

A. W. BOTHAM, Chairman.

Bakarganj District Board Office, the 21st June 1910. (775—3)

Notice.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
	Rs. A. P.	Rs. A. P.	Rs. A. P.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JULY 6, 1910.

NOTICES TO MARINERS.

THE following Notices are published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 30th June 1910.*

PERSIAN GULF.

Mughu Bay—Shoal in.

No. 265 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 33M of 1910), are republished:—

Position.—Rasyarid N. 51° W.
Jebel Yarid (1,200 feet) N. 19° W.
Jebel Bistana N. 88° E.
Town of Mughu N. 52° E.

Depth.—2 fathoms at Low Water Ordinary Spring.
Chart affected.—No. 2837a, Persian Gulf, Eastern portion.
Publication.—Persian Gulf Pilot, 5th edition, 1908, page 173.
Authority.—Officer Commanding H. M. S. *Sphinx.*

INDIA, WEST—BOMBAY COAST.

Panvel Creek—Buoy adrift.

No. 266 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 34M of 1910), are republished:—

Subject.—The Sarkarkun of Panvel reports that the Inner Belapur Buoy is adrift.
Caution.—Mariners are warned.
Chart affected.—No. 737, India, Sheet III. Arnala Island to Kundari Island.
Publication.—West Coast of India Pilot, 1909, page 236.
Authority.—Commissioner of Customs, Salt, Opium and Abkári.

BAY OF BENGAL—BURMA—RANGOON RIVER.

Kings Bank Channel—Closed to navigation.

No. 267 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 35M of 1910), are republished:—

Subject.—The Kings Bank Channel will be closed until further orders in consequence of dredging operations.

Caution.—All vessels must keep clear of the dredger and pipe line.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, pages 352 and 353.

Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—BURMA—RANGOON RIVER.

Monkey Point Channel—Open to navigation.

No. 268 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 36M of 1910), are republished:—

Subject.—The Dredged Channel Monkey Point will be open for the navigation of vessels on Wednesday, 8th June 1910.

Depth.—The least water at present is 14 feet in the Cut and 14 feet in the Dannedaw Reach. There is nothing less than 15 feet of water on the leading marks.

Remarks.—A Chart of the Channel can be seen on the Notice Board in the Deputy Conservator's Office, Rangoon, and attention is drawn to shoal water close to the Black Can Buoys marking the Cut.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.— Bay of Bengal Pilot, 1901, page 348.

Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—BURMA—RANGOON RIVER.

Buoy replaced.

No. 269 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 37M of 1910), are republished:—

Subject.—The Centre Eastern Buoy has been replaced.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, page 348. Bombay Government Notice to Mariners No. 30M of 1910. (*This office No. 268 of 22nd June 1910.*)

Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—BURMA—RANGOON RIVER.

D'Silva Leading Lights.

No 270 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 38M of 1910), are republished:—

Subject—On the 14th June 1910 the back light of the D'Silva Leading Lights will be moved 160 feet to the southward and in the same transit as at present.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, page 352.

List of Lights, Part VI, 1910, No. 376.

Authority.—Principal Port Officer, Burma, Rangoon.

INDIA, WEST—BOMBAY COAST.

Whale reef buoy disappeared.

No. 271 (first publication).—The Bombay Government has given Notice (No. 384 of 1910) that the buoy marking the Whale reef has disappeared.

BAY OF BENGAL—Chittagong coast.

Karnafuli river—Depth of water in the channel.

No. 272 (first publication).—

Subject.—The following depth of water was found in the channel by soundings taken on the 24th June 1910:—

Descriptions—

	Ft.
Track No. I, outer bar—	
Disc on diamond	11½
Track No. II, inner bar—	
Disc on diamond	11½

Charts affected.—No. 84, Chittagong (Karnafuli) river.
„ 859, Mutlah river to Elephant Point.

Publications.—Bay of Bengal Pilot, 3rd edition, 1901, page 245, Revised Supplement, 1908.

Authority.—Port Officer, Chittagong.

PERSIAN GULF—Shatt al Arab river.

Busreh bar—No. 1 buoy disappeared.

No. 273 (first publication).—

Subject.—The Commander of the S.S. *Kola* reports on the 13th June 1910 that No. 1 buoy, Busreh bar (the nearest buoy to Fao), has disappeared.

Position.—Fao lights, lat. 29° 58½′ N., long. 48° 29½′ E.

Charts affected.—No. 1235, Mouths of the Euphrates, Shatt al Arab, etc.
„ 2837B, Persian Gulf, western sheet.

Publication.—Persian Gulf Pilot, 1908, pages 207, 208.

Authority.—British Consulate-General, Bushire.

The 22nd June 1910.

KOREA, WEST COAST.

North Clifford island light—Omitted from Charts Nos. 1256, 1258.

No. 251 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 752 of 1910), are republished:—

Position.—On northern end of island.

Lat. 36° 37′ 50″ N., long. 125° 33′ 30″ E., on chart No. 1258.

Remarks.—The characteristics of this light and of the fog-signal, which were established in 1903, are given in the List of Lights.

Charts affected.—No. 1258, Approaches to Seoul.
„ 1256, Pe chili and Liau tung gulfs.

Publications.—List of Lights, Part VI, 1910, No. 903.
Notice to Mariners, No. 1085 of 1909. (*This office No. 331 of 18th August 1909.*)

Authority.—Hydrographic Office.

NEW ZEALAND, SOUTH ISLAND—Cook strait.

Jackson head beacon-light—Alteration in character.

No. 252 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 753 of 1910), are republished:—

Position.—Lat. 40° 59½′ S., long. 174° 20½′ E.

Alteration.—The fixed white light has been replaced by an unwatched light having the undermentioned characteristics.

Character.—An *occulting white* light *every six seconds*, showing thus:—

Light,	eclipse.
3 secs.	3 secs.

Elevation.—55 feet.

Visibility.—10 miles.

Charts affected.—No. 2684, Cook strait anchorages, sheet 1.
„ 2685, Cook strait anchorages, sheet 2.
„ 695, Cook strait.
„ 2054, Cook strait to Cape Egmont.
„ 3629, Hokitika to Otago harbour.
„ 1212, New Zealand.

Publications.—List of Lights, Part VI, 1910, No. 1653.
New Zealand Pilot, 1908, page 173.

Authority.—Wellington Notice No. 30 of 1910.

ERRATUM.

Auckland Harbour entrance.

Notice to Mariners, No. 682 of 1910. (*This office No. 232 of 26th May 1910.*)—The light exhibited from the light-buoy, situated with Bean rocks lighthouse bearing S. 24° E., distant 9$\frac{4}{10}$ cables, is still a *fixed white* light, and not a flashing white light as stated in this Notice.

Authority.—H. M. S. *Challenger*, 12th April 1910.

BAY OF BENGAL—Gulf of Martaban.

Rangoon river approach—Non-existence of reported shoal.

No. 253 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 755 of 1910), are republished:—

Position on charts.—Lat. 15° 38′ N., long. 96° 3′ E.

Depth.—4$\frac{1}{2}$ fathoms.

Remarks.—A careful survey of the locality having failed to find any trace of this shoal, it has been expunged from the charts.

Charts affected.—No. 823, Koronge island to White point.
„ 830, Bassein river to Pulo Penang.
„ 70, Bay of Bengal.

Publication.—Bay of Bengal Pilot, 1901, page 345; Revised Supplement, 1908.

Authority.—R. I. M. S. *Investigator*, Hyd. Note No. 3 of 1910.

EASTERN ARCHIPELAGO.

Surabaya strait, northern entrance—Alteration in position of light-buoy.

No. 254 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 756 of 1910), are republished:—

New position—At a distance of 11$\frac{1}{2}$ cables, S. 25° W., from former position with Cape Piring lighthouse bearing S. 16° W., distant 8$\frac{4}{10}$ miles.

Lat. 6° 54′ S., long. 112° 43$\frac{1}{4}$′ E.

Description.—Light-buoy, painted white, exhibiting an *occulting white* light.

Remarks.—The Pilot-vessel is situated on the leading line at a distance of 10$\frac{4}{10}$ miles. N. 18° E., from Cape Piring lighthouse, or about 4 cables, S. 18° W., from position now shown on the charts.

Variation.—1° E.

Charts affected.—No. 934, Plan of Surabaya strait.
„ 1654, Island of Java.

Publication.—Eastern Archipelago, Part II, 1904, pages 122, 123; Revised Supplement, 1909.

Authority.—Hague Notice, No. 977 of 1910; and Netherlands Government Chart.

AFRICA, EAST COAST—Somaliland.

Athelet (Italu)—Beacons erected.

No. 255 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 759 of 1910), are republished:—

Position.—Garesa, lat. 2° 45½′ N., long. 46° 18¼′ E.

(*a*) *Position.*—At a distance of 2 miles and $1\frac{6}{10}$ cables, S. 40° W., from the Garesa, and about 8 cables, N. 14° E., from Ras Malable beacon.
Description.—Pyramid.

(*b*) *Position.*—At a distance of 1 $\frac{6}{10}$ cables, N. 79° W., from beacon (*a*).
Description.—Mast surmounted by a ball.

(*c*) *Position.*—At a distance of $1\frac{1}{10}$ cables, S. 60° W., from the Garesa.
Description.—Pyramid with inverted triangular topmark.

(*d*) *Position.*—At a distance of $11\frac{6}{10}$ cables, S. 57° W., from the Garesa.
Description.—Tripod with inverted triangular topmark.

(*e*) *Position.*—At a distance of about $5\frac{3}{10}$ cables, N. 34° E., from the Garesa.
Description.—Flagstaff.

Remarks.—Beacon (*c*) in line with the beacon on Bur el Harion hill, bearing N. 2° W., leads to the anchorage.

Beacons (*a*) and (*b*) in line, bearing N. 79° W., lead from seaward to the line of the anchorage beacons.

Variation.—2° W.
Chart affected.—No. 671, Plan of Athelet anchorages.
Publications.—Africa Pilot, Part III, 1905, page 523.

Notice to Mariners, No. 102 of 1909. (*This Office No. 89 of 15th February 1909.*)

Authority.—Genoa Notice, No. 121 (175) of 1910.

AUSTRALIA, VICTORIA—Port Phillip.

Geelong approach—Dredging operations in progress.

No. 256 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 767 of 1910), are republished:—

Position.—Hopetoun channel, lat. 38° 7¾′ S., long. 144° 25½′ E.

Regulations.

Dredging operations are now in progress in Hopetoun channel, and vessels must pass the dredger on the side on which the undermentioned signals are exhibited:—

By day—A basket ball.
By night—Two *fixed red* vertical lights.

An anchor light is also exhibited from each end of the dredger.

The Pilot or Master of every steam vessel must, when at a distance of not less than 200 yards from the dredger, cause the engines of the vessel to be put at dead slow, and before passing over or along the mooring chains thereof or any work in progress, the engines must be stopped and kept stopped whilst passing.

Note.—During the night, or when a vessel is about to pass, the dredger will be hove as close as practicable to the side of the channel.
Chart affected.—No. 2731, Geelong harbour.
Publication.—Australia Directory, Vol. I, 1907, page 485.
Authority.—Geelong Notice, No. 1 of 1910.

AUSTRALIA, WEST COAST—Shark Bay.

Cape Inscription—Light established.

No. 257 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 771 of 1910), are republished:—

Position.—On northern extremity of cape.

Lat. 25° 29½′ S., long. 112° 58′ E.

Character.—An *occulting white* light *every seven and a half seconds*, showing thus :—

Light,	eclipse.
5 secs.	2½ secs.

Elevation.—127 feet.
Visibility.—17 miles, from the bearing N. 42° E., through east, south, and west, to N. 54° W.
Order.—3rd. Dioptric.
Structure.—Grey concrete tower.
Remarks.—The exact position of this lighthouse is not stated.
Charts affected.—No. 518, Shark Bay, with plan.
„ 1056, Cape Cuvier to Champion bay.
„ 2759*b*, Australia, southern portion.
„ 748*a*, Indian ocean, southern portion.
Publications.—List of Lights, Part VI, 1910, No. 1186.
Australia Directory, Vol. III, 1905, page 269.
Authority.—Fremantle Notice, 31st March 1910.

CHINA, GULF OF PE CHILI—Pei ho entrance.

Taku light-vessel—Amended position; Prohibited anchorage near.

No. 258 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 772 of 1910), are republished :—

Position.—At a distance of $3\frac{2}{10}$ cables, N. 85° E., from position given in former Notice, with North Fort lighthouse bearing N. 73° W., distant 8 miles.

Lat. 38° 57′ N., long. 117° 53½′ E.

Prohibited anchorage.—Vessels are forbidden to anchor northward of a line joining Taku light-vessel and the black buoy at the entrance to Ferguson channel.
Variation.—4° W.
Charts affected.—No. 2653, Pei ho, sheet I.
„ 598, Li tsin ho to Ning hai.
Publications.—List of Lights, Part VI, 1910, No. 875.
China Sea Directory, Vol. III, 1904, page 609.
Notice to Mariners, No. 706 of 1910. (*This office No. 240 of 9th June 1910.*)
Authority.—Shanghai Notice No. 485, 12th April 1910.

INDIA, WEST COAST.

Cumla petta—Non-existence of reported shoals westward of.

No. 259 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 778 of 1910), are republished :—

	Position on charts.	Depth.
(*a*)	Lat. 12° 33½′ N., long. 74° 53′ E.	... 6 fathoms.
(*b*)	„ 12° 35¼′ N., „ 74° 52′ E.	... 4½ „
(*c*)	„ 12° 36¼′ N., „ 74° 51½′ E	... 5 „

Remarks.—A careful survey of the locality having failed to find any trace of these shoals, they have been expunged from the charts.
Note.—The shoals in question are shown on certain copies only of the undermentioned charts.
Charts affected.—No. 746, Mulki to Mount Dilli.
„ 2737, Viziadrug to Cochin.
„ 827, Vengurla to Cape Comorin.
Authority.—R. I. M. S. *Investigator*, Hyd. Note, No. 4 of 1910.

AFRICA, SOUTH-EAST COAST—Zululand.

Tugela river to Cape St. Lucia—Surveying beacons erected.

No. 260 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 779 of 1910), are republished :—

Position.—Cape St. Lucia, lat. 28° 33′ S., long. 32° 24½′ E.

Details.—A number of pyramidal beacons for surveying purposes have been erected on the coast between Cape St. Lucia and Tugela river.

Remarks.—Mariners should note that these beacons are quite distinct from the obelisk beacons recently erected near Port Durnford as aids to navigation.

Chart temporarily affected.—No. 2089, Tugela river to Delagoa bay.

Publications.—Africa Pilot, Part III, 1905, pages 181-184.

Notice to Mariners, No. 1186 of 1909. (*This office No. 358 of 9th September 1909.*)

Authority.—Port Natal Notice, 27th April 1910.

INDIA—West coast.

Derelict reported.

No. 261 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 29M of 1910), are republished :—

Subject.—The Master of S.S. *Strathleven* reports having passed a derelict in the following position.

Position.—Malabar Hill S. 66½° E. True. Prongs Light-house S. 48½° E. True, distant 13 miles.

Description.—Three masts white poles and trucks rigging 9 feet above water. (Apparently a barque of 600 tons.)

Caution.—This lies in the track of shipping between Diu and Bombay.

Chart temporarily affected.—No. 737, Arnala Island to Kundari Island.

Authority.—Port Officer, Bombay.

BAY OF BENGAL—Burma—Rangoon river.

Buoy adrift.

No. 262 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 30M. of 1910), are republished :—

Subject.—The Deputy Conservator of the Port, Rangoon, reports that the Centre Eastern buoy is adrift.

Remarks.—This buoy will not be replaced until further orders.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, page 348.

Authority.—Principal Port Officer, Burma.

INDIA, WEST—Bombay coast.

Bombay Harbour—Removal of Buoys.

No. 263 (second publication) —The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 31M. of 1910), are republished :—

Subject.—With reference to (*c*) and (*d*) of No. 53M. of 1909 (*This office No. 418 of 14th October 1909*), these buoys have now been removed and will not be replaced.

Charts affected.—No. 2021, Bombay Harbour.
,, 655, Port of Bombay.

Publication.—West Coast of India Pilot, 5th edition, 1909, page 215.

Authority.—Director of the Royal Indian Marine.

GULF OF ADEN.

Aden Harbour—Alteration in Buoyage.

No. 264 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 32M of 1910), are republished:—

Subject.—On or about 7th July 1910, the Acetylene Gas buoy showing red flash light will be temporarily replaced by Conical buoy showing two red vertical lights 8 feet apart.

Position.—Residency Flagstaff N. 89° E., distant 9½ cables.

Charts affected.—No. 7, Aden Harbour and approaches.

„ 3660, Aden Harbour.

Publication.—Red Sea and Gulf of Aden Pilot, 6th edition, 1909, page 406.

Authority.—Port Officer, Aden.

The 15th June 1910.

INDIA, WEST COAST.

Harnai (Herni) lighthouse—Non-existence of shoal westward of.

No. 242 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 722 of 1910), are republished:—

Position on charts.—At a distance of 4¼ miles S. 80° W., from Harnai lighthouse.

Lighthouse, lat. 17° 48¼′ N., long. 73° 5¼′ E.

Depth.—5 fathoms.

Remarks.—A careful survey of the locality having failed to find any trace of this shoal, it has been expunged from the charts.

Variation.—1° E.

Charts affected.—No. 738, Kundari island to Boria pagoda.

„ 2736, Gulf of Kutch to Vizadrug.

„ 826, Karachi to Vengurla.

Publication.—West Coast of India Pilot, 1909, page 201.

Authority.—Marine Survey of India, 23rd March 1910.

CHINA.

Alteration in character of certain fog-signals.

No. 243 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 726 of 1910), are republished:—

Alteration.—The following instructions have been given to the keepers of the undermentioned lighthouses with regard to the manner of making the fog-gun signals.

"The Keeper on hearing a bell, fog-horn, steam whistle or siren, or any other sound, during foggy or thick weather, which shall indicate the proximity of a vessel, will immediately fire *one* gun, and after a lapse of *five minutes* will fire *two* guns, with the light-station's distinguishing interval between them; and this distinguishing signal of *two* guns will be repeated *every five minutes* if the vessel's fog signal, showing that she is under way, continues to be heard."

Lighthouse.	Distinguishing interval.	Date of Alteration (1910).
Steep island.	2 minutes.	15th April.
West Volcano island.	1 minute.	„
Bonham island.	10 seconds.	„
Rugged islands.	30 „	„
Gutzlaff.	2 minutes.	„
North Saddle.	30 seconds.	„
Shaweishan.	1 minute.	„
East extreme of Shantung promontory (when fog-siren is disabled).	1 „	„

Tung yung.	2 minutes.	„

Publications.—List of Lights, Part VI, 1910, Nos. 840, 841, 843, 842, 846, 845, 848, 866, 871, 873, 816, 817, 819, 821, 822, 825, 826, 827, 828, 831.

China Sea Directory, Vol. III, 1904, pages 352, 365, 376, 370, 371, 377, 401, 554, 565, 575, 145, 148, 159, 168, 171, 183, 191, 201, 265, 281; Supplement, 1907.

Notice to Mariners, No. 775 of 1908. (*This Office No. 256 of 1908.*)

Authority.—Shanghai Notice, No. 484, 31st March 1910.

EASTERN ARCHIPELAGO—SUMBA (SANDALWOOD) ISLAND.

Waingapu road—Reefs in approach.

No. 244 (third publication.)—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 730 of 1910), are republished:—

(*a*) *Position.*—At a distance of $11\frac{1}{10}$ cables, N. 2° W., from the northern pyramid on Pasebanju point.

Pasebanju point, lat. 9° 37½′ S., long. 120° 13′ E.

Depth.—5 fathoms.

(*b*) *Position.*—At a distance of 11 cables, N. 14° W., from the abovementioned pyramid.

Depth.—1½ fathoms.

Description.—About 1 cable in extent, north-west and south-east.

Variation.—2° E.

Chart affected.—No. 935, Plan of Waingapu road.

Publication.—Eastern Archipelago, Part II, 1904, page 231.

Authority.—Hague Notice, No. 981 of 1910.

EASTERN ARCHIPELAGO—Bali, south-west coast.

Chupel road—Existence of reefs.

No. 245 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 731 of 1910), are republished:—

Position.—White beacon, lat. 8° 22½′ S., long. 114° 34½′ E.

Bearing and distance from white beacon.	Depth.
(*a*) S. 42° W., 6 cables.	3 feet.
(*b*) S. 53° W., 2¾ cables.	Dries.
(*c*) S. 87° W., 3½ cables.	Dries.

Variation.—1° E.
Charts affected.—No. 3726, Bali strait, with plan of Chupel road.
„ 1654, Island of Java, eastern portion.
Publication.—Eastern Archipelago, Part II, 1904, page 147.
Authority.—Hague Notice, No. 978 of 1910.

CHINA SEA—Borneo, west coast.

(*1*) *Kendawangan river entrance—Buoy established.*

(*2*) *Kandang Karbau river entrance—Buoy established.*

No. 246 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 732 of 1910), are republished:—

(1) Kendawangan river entrance.

Position.—At a distance of $1\frac{9}{10}$ miles, N. 85° W., from the southern entrance point of the river.

Lat. 2° 31′ 25″ S., long. 110° 10′ 45″ E., on chart No. 2160.

Description.—A black can buoy.

(*2*) Kandang Karbau river entrance.

Position.—At a distance of $1\frac{9}{10}$ miles, N. 61° W., from the northern extreme of Tanjong Bawang.

Lat. 1° 45′ 30″ S., long. 109° 54′ 15″ E., on chart No. 2160.

Description.—A black conical buoy with ball as topmark.
Variation.—1° E.
Charts affected.—No. 2160, Carimata strait.
„ 941*a*, Eastern archipelago, western portion.
Publication.—China Sea Directory, Vol. I, 1906, pages 573, 575.
Authority.—Hague Notice, No. 976 of 1910.

EASTERN ARCHIPELAGO—Makassar strait, southern entrance.

Karang Bankauluang—Reef reported southward of.

No. 247 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 733 of 1910), are republished:—

Position.—Lat. 6° 59′ S., long. 118° 26′ E., on chart No. 2637.
Depth.—About 5 fathoms (estimated).
Charts affected.—No. 2637, Strait of Makassar, southern part.
„ 941*b*, Eastern archipelago, western portion.
„ 2759*a*, Australia, northern portion.
„ 1263, China sea.
Publication.—Eastern Archipelago, Part II, 1905, page 303.
Authority.—Hague Notice, No. 980 of 1910.

SUMATRA, NORTH-EAST COAST.

Langkat river—Intended alteration in character of front leading light.

No. 248 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 734 of 1910), are republished:—

Position.—On eastern side of entrance to river.

Lat. 4° 0′ N., long. 98° 29½′ E.

Alteration.—The fixed white front leading light will shortly be replaced by a *group occulting white* light showing a group of *three* eclipses *every thirty seconds*, thus:—

Light,	eclipse,	light,	eclipse,	light,	eclipse.
15 secs.	3 secs.	3 secs.	3 secs.	3 secs.	3 secs.

Remarks.—Further Notice will be given.

Charts affected.—No. 1353, Diamond point to Pulo Berhala.
„ 1355, Malacca strait.
„ 2760, Acheh head to Chingkuk bay.

Publications.—List of Lights, Part VI, 1910, No. 410.

RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION IN THE TOWN OF CALCUTTA AND THE SUBURBS FOR THE YEAR 1909.

POLITICAL DEPARTMENT—POLICE.

Darjeeling, the 29th June 1910.

RESOLUTION—No. 1862P.—D.

READ—

The Annual Report on the Police Administration in the Town of Calcutta and the Suburbs for the year 1909.

Read also—

The Reports for the two previous years, and the orders of Government recorded thereon.

1. Mr. F. L. Halliday, C.I.E., M.V.O., held charge of the office of Commissioner of Police throughout the year. The post of Deputy Commissioner was held by Mr. F. C. T. Halliday from the beginning of the year to the 3rd June, when he proceeded on leave and was relieved by Mr. C. A. Tegart, who continued to hold the office until the close of the year. Further progress was made with the scheme for the substitution of Deputy Commissioners for Superintendents. Two Superintendents, Messrs. C. F. Merriman and J. G. Bell, were retired on pension in the last quarter of the

year. Mr. J. P. Feeny, an Assistant Superintendent of the Bengal Police, who was appointed Deputy Commissioner of the III Division of the Town on the 5th November 1908, continued to hold charge of that Division throughout the year, and Lieutenant A. P. Wodehouse was placed in charge of the Southern Division of the Suburbs from the 10th December 1909.

2. The new beat-system, which was advocated by the Police Commission and which received the sanction of the Secretary of State in September 1908, was carried into effect in the Southern Division of the Suburbs and the III Division of the Town, but its introduction was unfortunately delayed until the latter end of the year owing to difficulties in obtaining recruits. An increase of 23 Head Constables and 173 Constables was sanctioned for this purpose. The system will be extended to the remaining portion of the Town and to the Northern Division of the Suburbs during the year 1910-11. The scheme provides for watches of four hours duration and a double patrol at night, and allows Constables one night in bed after two nights on duty. His Honour trusts that the introduction of the scheme will not only give much needed relief to the rank and file of the Police, but will add to the efficiency of the force as a preventive agency.

3. In matters of discipline the excellent record of 1908 has been fully maintained, and even surpassed. The number of men rewarded by promotion, good conduct stripes, or otherwise rose from 1,233 to 1,276, and only 14 recruits deserted from the lines as against 80 during 1908. The Commissioner attributes this very satisfactory decrease to the fact that recruits are now called upon to enter into an agreement to serve for three years, and in default to refund the cost incurred in their training. It is to be regretted, however, that the Principal of the Constables' Training School at Nathnagar failed to find sufficient recruits for the requirements of the force, and it was necessary to continue throughout the year the system of local enlistment.

4. Although as regards political crime the year as a whole was marked by a relaxation of the tension which prevailed in 1908, the capital was unfortunately not altogether free from political outrage. On the 10th February the Public Prosecutor of Alipore, Babu Ashutosh Biswas, who was appearing on behalf of the Crown in the Alipore bomb case before the Sessions Judge, was shot dead in the compound of the Alipore Police Court. The murderer was convicted and hanged. A jagir of the annual value of Rs. 5,982 has been conferred on the family of the deceased. A jagir has also been granted to the relatives of Sub-Inspector Nanda Lal Banerji, who met his death in Calcutta under somewhat similar circumstances on the 9th November 1908. The Alipore bomb case continued to engage the attention of the courts throughout the year. The judgment of the Hon'ble the Chief Justice and Mr. Justice Carnduff, which was delivered on the 23rd November 1909, upheld the conviction of 12 of the conspirators with some modification of sentences. The case of 5 prisoners was referred to a third Judge, and their trial was not concluded until after the close of the year under review. The finding of the Hon'ble Judges fully vindicated the Police against the aspersions cast upon them by the defence and reiterated by a section of the Press. The Hon'ble the Chief Justice and Mr. Justice Carnduff formally placed on record their appreciation of the creditable manner in which the case had been conducted, and their opinions were subsequently endorsed by Mr. Justice Harington. The investigation was controlled by the Bengal Police, but members of the Calcutta Police also bore their share in the work. Suitable rewards have already been granted to those who earned them, but the Lieutenant-Governor takes this opportunity of publicly expressing his sense of the debt which the Government and the community at large owe to these officers for the assistance rendered by them in unravelling this intricate and formidable conspiracy.

5. The comparative lightening of the burden of political crime has enabled the Police to give increased attention to their normal duties with successful results. The statistics show an increase in the number of cases instituted, but this is due not to any growth of crime but to greater activity on the part of the Police, especially in connection with the suppression of public nuisances. The total number of cognizable cases reported direct to the Police and instituted on complaint to a Magistrate during the year under review was 50,448, or 15,094

more than in 1908, while "Cognizable offences under special and local laws" and public nuisances show an increase of 14,931, of which 11,369 are accounted for by prosecutions for public nuisances under the Penal Code and the Calcutta and Suburban Police Acts. In particular a successful campaign was carried on against the obstruction of footpaths in Harrison Road and its vicinity and Fenwick Bazar, the number of prosecutions instituted for this form of nuisance being doubled. Advantage was also taken to a larger degree of the provisions of the Cruelty to Animals Act and the Port Act and, among acts constituting non-cognizable offences, of the Municipal and Hackney Carriage Acts. His Honour agrees with the Commissioner of Police that the number of prosecutions for nuisances is probably still less than it should be in the interests of the city, and he trusts that the activity of the Police in this direction will not be relaxed. The amenities of civic life depend to a large extent on the vigilant repression of minor annoyances, and His Honour has little doubt that an active policy in this direction will result in a greater appreciation on the part of the public of the value of an efficient urban Police.

6. Turning to the figures of serious crime His Honour notes with regret that the number of burglaries, on which he had occasion to comment unfavourably in connection with the Report for 1908, has shown practically no diminution. Owing to the unavoidable delay in its introduction there was not time for the preventive effect of the new beat-system to make itself felt during the year under review, but His Honour trusts that an improvement will be manifested during 1910. On the other hand there was a satisfactory diminution in the figures of minor offences against property, in particular of ordinary thefts, while the total value of property stolen fell from Rs. 8,45,000 to Rs. 3,86,000. A valuable piece of work was done by the Deputy Commissioner, Port Police, in conjunction with the Police of the 24-Parganas district, in breaking up some dangerous gangs of river dacoits.

7. The control of street traffic received attention. There were 113 successful prosecutions for rash and negligent driving as against 71 in the preceding year. The number of motor cars continues to increase. At the close of the year there were in force 883 registration certificates for motor cars and 127 for motor cycles, as against 610 and 88 respectively on the 31st December 1908; and 17 dealers as against 16 held general licenses. The problem of the regulation of this increasingly important branch of traffic was under consideration during the year, and towards its close the revision of the rules under the Motor Car Act (Ben. Act III of 1903 was taken in hand by a Select Committee on which the Police and the Corporation were represented. Prosecutions were instituted against 126 persons under the Motor Car Act or statutory rules as against 76 in 1908, and of these 110 were convicted. It is satisfactory to observe that the number of deaths due to motor cars fell from 13 to 7. In six of these cases the victims were advanced in age, and in the seventh the person killed was under the influence of liquor. In 6 out of the 7 cases the drivers, after enquiry either by the Police or by the Coroner, were exonerated from blame. In the remaining case the car was untraced, having driven off before the number could be noted. Having regard to the increase in the number of cars these results are not unsatisfactory; but the superintendence of this class of traffic is a matter which demands the unremitting vigilance of the Commissioner, and His Honour trusts that the fullest advantage will be taken of the increased powers of control afforded by the new rules.

8. As already indicated, the courts have had to deal with unusually heavy files during the year under review, and His Honour is gratified to observe that an increasingly large share of the work is undertaken by Honorary Magistrates. In 1907 the Courts of the Honorary Magistrates accounted for some 1,300 cases, or 4·10 per cent. of the total; in 1908 they disposed of over 2,100 cases, or 6·7 per cent. of the total; and during the year under review the number has risen to 4,300 cases, or 8·9 per cent. of the total. On behalf of Government and of the public His Honour desires to place on record his appreciation of the public spirit of these gentlemen and of the efficiency with which they have discharged their voluntary duties. The rise in the number of old offenders brought to book is satisfactory, as is the fact that a greater proportion of convictions was obtained in such cases before the Courts of Session. Of the old

offenders reconvicted by the High Court, 38 as against 23 in the preceding year received sentences of two years' imprisonment or over, *i.e.*, sentences beyond the competence of Magistrates. In dealing with juvenile offenders the courts made a more liberal use of the provisions of the Reformatory Schools Act (Act VIII of 1897), but on the other hand only 155 first offenders were bound down to come up for judgment under section 562, Criminal Procedure Code, as against 205 in 1908, a decrease for which the Commissioner of Police is unable to account. The Commissioner of Police observes that there is no doubt that the number of juvenile offenders in the city is increasing, and he considers that the subject will have to be treated on more general lines than has hitherto been done. The Lieutenant-Governor feels that this is a subject the importance of which cannot be overrated. The conversion of the casual juvenile offender into a habitual criminal is unfortunately only too easy and frequent a process under the existing system, and he is desirous of doing everything in his power to mitigate this evil. He has little doubt that a more extended use might with advantage be made of the existing provisions of the law, but he realises that these do not fully meet the requirements of the case. The Magistracy are naturally reluctant to apply the provisions of the Reformatory Schools Act to offences of a petty character, and section 562 of the Criminal Procedure Code, though it marks a great advance in the methods of dealing with first offences, is of little use in the numerous cases in which the juvenile offenders are waifs and strays or come from indigent and undesirable homes. Moreover, neither the Reformatory Schools Act nor section 562, Criminal Procedure Code, comes into operation until the child has been tried and convicted and has undergone a dangerous association with regular criminals in the police-station and the Court. His Honour accordingly desires that the Commissioner of Police in consultation with the Chief Presidency Magistrate will consider and report on the whole question of the procedure of the Police and the Courts in cases in which juvenile offenders are concerned, and will submit suggestions for a further differentiation of the treatment of juvenile and adult accused.

9. The year on the whole was one of satisfactory progress, for which all ranks of the Calcutta Police are entitled to credit. The Lieutenant-Governor observes with pleasure the Commissioner's appreciation of the services of his superior officers, and he desires to thank Mr. Halliday and those serving under him for the good work done by them during the year. His Honour also takes this opportunity to congratulate Mr. Halliday on the bestowal on him of the honour of Companionship of the Most Eminent Order of the Indian Empire,—a recognition which His Honour considers to have been fully merited by the unfailing ability and zeal with which Mr. Halliday has conducted his responsible duties.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Commissioner of Police, Calcutta, for information and guidance.

Ordered also that a copy of the Resolution be forwarded to the Chief Presidency Magistrate, Calcutta, the Commissioner of the Presidency Division, the Chairman of the Corporation of Calcutta, and the Municipal Department of this Government for information.

Ordered also that a copy of the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON EMIGRATION FROM THE PORT OF CALCUTTA TO BRITISH AND FOREIGN COLONIES DURING THE YEAR 1909.

GENERAL DEPARTMENT—EMIGRATION.

Darjeeling, the 29th June 1910.

RESOLUTION—No. 1116T.—G.

READ—

The Annual Report on Emigration from the Port of Calcutta to British and Foreign Colonies during the year 1909.

The only important administrative measure adopted by this Government during 1909 was the appointment of the Sub-Registrar of Raniganj to be a registering officer under the Indian Emigration Act, the object being to remove the inconvenience, experienced by the Emigration Agent for Trinidad, in taking intending emigrants recruited in Raniganj to Asansol for purposes of registration. A Committee was appointed in London during the year under review to consider the general question of indentured emigration from India, the particular Colonies to which it might be encouraged, and the advantages to be derived by India and the Colonies. The Committee's enquiries were not completed till after the close of the year.

2. Five Emigration Agencies were at work during 1909 as compared with six in the preceding year. Four of these Agencies worked on behalf of the British Colonies and one for the Dutch Colony of Surinam. The total number of emigrants requisitioned and despatched to these Colonies amounted to 9,374 and 8,420, respectively, as against 9,276 and 10,160 in 1908, the largest numbers going to Demerara and Trinidad. The supply to Jamaica exceeded the demand by two: Trinidad and Surinam received the numbers indented for. In the case of Fiji, which requisitioned 1,551 labourers for the year, 901 were despatched on the 30th December 1908 and the rest in 1909. The number required by Demerara was not supplied in full, because the vessels engaged had not sufficient accommodation. No requisition was received from Natal.

3. The number of recruiters licensed was 571 (27 less than in 1908), and 27 licenses, as against 25 in the previous year, were cancelled. In all 12,691 emigrants, or 5,057 less than in the previous year, were registered in 1909. The decrease is attributed to the greater prosperity of the labouring classes on account of good harvests and the general fall in prices, and also to an increased demand for labour in the recruiting districts. As in previous years, the majority (85·23 per cent.) of the emigrants were recruited in the United Provinces of Agra and Oudh, the districts of Fyzabad, Gonda, Cawnpore and Basti furnishing the largest numbers.

4. Of the 12,793 emigrants admitted into the sub-depôts, 1,827 were rejected as unfit to emigrate, and of the rest 10,387 arrived at the Calcutta depôts. This number was subsequently reduced by rejections, releases and other causes to 8,809, of whom only 8,686, or 1,833 less than in 1908, were shipped in 1909 and 123 were left for subsequent despatch. Three hundred and sixteen return emigrants re-engaged as against 383 in the previous year. The number of vessels employed to carry the emigrants was 11, and all were steamers. The total mortality on the voyages to the Colonies was 43, as against 55 in 1908.

5. The sanitary arrangements in the depôts were satisfactory. The depôt of the British Guiana and Natal Agency was reconstructed according to a more modern design, while improvements were effected in the depôt of the Agency for Trinidad, Fiji, Jamaica and Mauritius. The depôt of the Surinam Agency was also maintained in good order. The percentage of deaths to the depôt population was ·71 in the year under report compared with ·55 in 1908; the increase was due to an epidemic of cerebro-spinal meningitis, which alone caused 44 out of 81 deaths from all causes.

6. Three thousand nine hundred and forty-one emigrants returned from the Colonies during the year, bringing with them savings amounting to

Rs. 6,91,121, the average for each emigrant being Rs. 175-5, as against Rs. 175 in the previous year. On the other hand, as many as 1,597, of whom 730 were children, brought back no savings at all. As in previous years, the emigrants in Natal sent the largest remittances by money-orders, the total amount so sent being Rs. 7,94,863. In Natal emigrants are not allowed to settle or invest their money in the purchase of immoveable property after the period of their indenture. Time-expired coolies are either re-indentured or returned to India.

7. The accounts of the year show that the receipts and charges amounted to Rs. 26,580 and Rs. 27,713, respectively, as compared with Rs. 29,520 and Rs. 28,641, respectively, in 1908. The deficit of Rs. 1,133 was due to the fact that the fees realized on account of 1,117 emigrants despatched in December 1909 were received in January 1910, and therefore not included in the accounts of the year.

8. The thanks of the Lieutenant-Governor are due to Dr. Banks, who held the office of Protector of Emigrants throughout the year, with the exception of 14 days, when Dr. W. Forsyth, Port Health Officer of Calcutta, officiated, for his careful and sympathetic administration.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

RETURN OF JOINT-STOCK COMPANIES FOR THE YEAR 1909-10.

No. 3536, dated Calcutta, the 31st May 1910.

From—The Hon'ble Nawab Syud Mahomed, Khan Bahadur, Inspector-General of Registration, Bengal,

To—The Secretary to the Government of Bengal, General Department.

I have the honour to forward, in original, the report submitted by the Registrar of Companies, Bengal, on the working of the Indian Companies Act, VI of 1882, for the year 1909-10 with the ten tabular statements prescribed by the Government of India.

No. 66, dated Calcutta, the 30th May 1910.

From—Maulvi Syud Abdus Salam, Registrar of Joint-Stock Companies, Bengal,

To—The Inspector-General of Registration, Bengal.

I have the honour to submit the following report on the working of the Indian Companies Act, VI of 1882, in Bengal for the year 1909-10, together with the ten statistical statements prescribed by the Government of India.

2. The total number of companies limited by shares, which was at work till the close of the year under report, was 543 with an aggregate paid-up capital of Rs. 24,90,12,326 against 530 companies with an aggregate paid up capital of Rs. 23,05,52,551, shewn in the previous year's report. The present report, therefore, shows an increase of 13 companies with an aggregate paid-up capital of Rs. 1,84,59,775. The total number of companies limited by guarantee existing at the close of the past year was 23 against 21 in the year before that, showing an increase of 2 companies only.

3. The number of new companies, limited by shares registered during the year under review, was 36 and are classified thus:—

Banking and loan	...	2
Insurance ...	...	1
Trading ...	...	18
Mills and presses	...	4
Tea and other planting companies	...	4
Mining	...	5
Land and building ...	...	1
Sugar manufacturing company	...	1
Total	...	36

4. The total number of new companies, limited by guarantee registered during the past year, was 3.

5. One hundred and thirty companies increased their capital during the year: 6 companies increased their nominal capital, 117 companies increased their paid-up capital, and the 7 remaining companies increased both their nominal and paid-up capitals. Two companies reduced their paid-up capital.

6. Twenty-three companies went into liquidation of which 8 companies were finally dissolved; 6 companies, which went into liquidation in previous years, have submitted their final reports during the year.

7. One company, limited by guarantee, went into liquidation during the past year.

8. The provisions of section 69 of the Act were complied by most of the companies as far as it could be ascertained.

9. During the year two companies, viz., Ayurvedic Medicine Manufacturing Company of India, Limited, and Swadeshi Assurance and Wedding Company, Limited, were prosecuted criminally. The former was fined Rs. 20 by the Subdivisional Officer of Kalna under sections 50 and 74 of the Act, and the latter Rs. 30 by the District Magistrate of Puri under section 66 of the Act.

10. The following 9 societies were registered under Act XXI of 1860 during the year:—

(1) The Ramkrishna Mission.
(2) Aheeritolah Banga Bidyalaya.
(3) The Sri Bharat Dubitri Siksha Parisat.
(4) The Financial Board of the Bengal Annual Conference of the Methodist Episcopal Church.
(5) The Indian Association for the Cultivation of Science.
(6) The Calcutta Homœopathic Hospital Society.
(7) Bhumihar Brahman College, otherwise called the Tirhut College.
(8) Anjuman Islamia, Darjeeling.
(9) All-India Kurmi-Kshatriya Association.

11. The fees levied during the year under report amounted to Rs. 12,565-8 against Rs. 26,658-15, realised in the previous year, showing a decrease of Rs. 14,093-7. During the year trade was dull and the nominal capital of the companies registered was small, yielding small amount of fees. Hence the decrease in receipts.

12. The expenditure during the year was Rs. 1,041-8-11 against Rs. 1,197-14-3 the previous year.

13. The provisions of the Indian Companies Branch Registers Act IV of 1900 were not availed of by any of the companies at work during the year under report.

STATEMENT I.

Abstract of Joint-Stock Companies for the year 1909-10.

	Companies divided into shares.			Companies limited by guarantee, i.e., possessing no capital paid-up.	
	Number of companies.	Nominal capital.	Paid-up capital.	Number of companies.	Number of members.
1	2	3	4	5	6

SYUD ABDUS SALAM,
Registrar of Joint-Stock Companies.

SUBORDINATE VETERINARY SERVICE IN BENGAL.

REVENUE DEPARTMENT—AGRICULTURE

Darjeeling, the 2nd July 1910.

RESOLUTION—No. 1156T.R.

READ—

Resolution by the Government of Bengal, in the Revenue Department, No. 4051, dated the 10th December 1901.

The orders of the Secretary of State, No. 136-Revenue, dated the 23rd August 1907.

Circular No. 61 L S.-G., dated the 15th October 1908, to the address of all Commissioners of Divisions and the replies received thereto.

The orders of the Government of India, in the Department of Revenue and Agriculture, No. 1046—51-2, dated the 16th May 1910.

In the Resolution of the 10th December 1901, quoted in the preamble, the Local Government announced the conditions upon which it was willing to give aid to local bodies in the extension of veterinary assistance in their respective charges. It was contemplated that both veterinary dispensaries would be opened and itinerant veterinary practitioners employed, and subsidies were promised upon the following scale, viz.:—

(1) that Government would bear half the cost of the pay and allowances, other than leave allowances, of the itinerant veterinary assistants entertained by a District Board, the District Board bearing the other half;

(2) that in the case of a veterinary dispensary with a veterinary assistant at a head-quarters station, maintained and paid for jointly by a District Board and a Municipality, Government would contribute one-sixth of the annual maintenance charges.

Veterinary assistants thus appointed were to be servants of the local bodies under whom they were working. They were not to be eligible for pension, but might subscribe to Provident Funds, if these were maintained by the local bodies concerned. Their leave rules were to be those of the local bodies who employed them, and, subject to any restrictions laid down with the approval of the Superintendent of the Civil Veterinary Department, they were to enjoy the privilege of private practice. Only such persons might be appointed as veterinary assistants as were recommended by the Superintendent of the Civil Veterinary Department. In accordance with this scheme a number of veterinary assistants have been appointed by different local bodies, but, on the whole, the progress made has been slow.

2. With the view of improving the prospects open to veterinary assistants, it has now been decided, with the sanction of the Secretary of State, to appoint all such officers in future as members of a Provincial Service, which will be subject to the ordinary rules governing leave and pension applicable to Government servants of like standing. It has been found by experience that in connection with a technical service like the Veterinary Department, which is practically still in its infancy in Bengal, better results may be anticipated at the present stage from the maintenance of a Provincial Service, in the control of which the Head of the Department will have a voice, than from a system of recruitment to isolated posts under the control of local bodies, few of whom possess the knowledge necessary for adequate supervision, and some of whom take little interest in a subject which is new to them. In a Provincial Service the future of officers will be more assured, and a better type of man should be attracted, while inefficients can more readily be got rid of. At the same time the benefits of veterinary work are essentially local in character, and it is right therefore that the expenditure should mainly be borne by the local bodies interested.

3. The scale of pay prescribed by the Resolution of the 10th December 1901 for veterinary assistants was Rs. 30, rising, by biennial increments of Rs. 2, to Rs. 60. Their pay in future will commence at Rs. 30 and rise, by quinquennial increments of Rs. 5, to Rs. 45. After 20 years' service a veterinary

assistant will be eligible for promotion to the senior grade on Rs. 60, the strength of which will be limited to 10 per cent. of the total cadre. Promotion to the senior grade will be made by selection; otherwise it will be in accordance with length of service, subject to the work done having been satisfactory. Itinerant veterinary assistants will receive a fixed monthly travelling allowance of Rs. 15, and a local allowance of Rs. 10; while assistants in charge of dispensaries will be given free quarters or a house allowance of Rs. 5 per mensem in lieu thereof. Allowances at these rates have been given since 1901.

4. The first appointments of veterinary assistants, as well as their postings and transfers from one district to another, will be made by the Superintendent, Civil Veterinary Department. In making transfers, however, the Superintendent will be required to give due weight to the wishes of the local bodies concerned, and any local body employing more than one veterinary assistant may transfer them within its jurisdiction, subject to report to that officer. Casual leave may be given by the local body under whom the assistant is serving; the grant of leave of other descriptions will rest with the Superintendent, Civil Veterinary Department. The latter will also inflict punishments, when necessary, but in such cases the local bodies concerned should be consulted, and they may also report to the Superintendent any instances of misconduct on the part of the assistants under them. The power of dismissal of veterinary assistants will rest with the Superintendent, subject to an appeal to the Director of Agriculture.

5. The general principle adopted as regards the incidence of the cost of veterinary assistants is that laid down in 1901, which is described in paragraph 1. It is estimated that the average cost of an itinerant assistant, with allowances on the scale mentioned above and with contributions for leave allowances and pension, will amount to Rs. 73-12 per mensem; similarly the average cost of an assistant in charge of a dispensary will be Rs. 53-12. In the former case Government is willing to contribute one-half, and in the latter one-sixth, of the average expenditure. In other words local bodies may secure the services of an itinerant veterinary assistant by the payment of a monthly contribution of Rs. 36-14, and of a stationary assistant by payment of Rs. 44-12, irrespective of the actual pay of the officer sent to them. The system is analogous to that followed in the case of Sub-Assistant Surgeons and Assistant Surgeons, whose services are lent to local bodies. The pay and allowances of all veterinary assistants will be disbursed by Government, and recoveries will be made by the Accountant-General, Bengal, at the prescribed rates from the local bodies concerned. In the case of a dispensary maintained jointly by a District Board and Municipality, the local contribution shall be divided in such proportions as may be agreed to by the local bodies among themselves.

6. Travelling allowance at the rates admissible under the Civil Service Regulations will be paid to veterinary assistants on joining their first appointments and on transfer to other districts or to supernumerary duty. In the latter instance the charge will be borne by Government; otherwise it will be met by the local body to whose service the assistant is transferred.

7. It is hoped that eventually the province will be equipped with one itinerant veterinary assistant in each sub-division and one veterinary dispensary at each district and sub-divisional head-quarters, and all local bodies should consider their ability to work up gradually to this scale, which is by no means excessive, looking to the amount of veterinary work that could usefully be done and which it should not be beyond their resources, in the majority of instances, to achieve. When any local body desires to employ a veterinary assistant under the terms of this Resolution (and no fresh appointments will be subsidised by Government under any other terms) it should apply to the Director of Agriculture. Should Government decide to co-operate in the creation of the appointment, orders will issue accordingly, and instructions will be communicated to the Director of Agriculture and Superintendent, Civil Veterinary Department. The appointment of the veterinary assistant will be made by the latter authority, and the date of actual appointment should be communicated by him forthwith to the Accountant-General in order that recoveries at the prescribed rates may be made from the local body concerned.

8. In the case of veterinary assistants already employed the local bodies concerned may apply, at their option, to bring them under the scheme now published, or they may continue under the existing terms. In the event of the transfer of such an assistant to the new Service, he may be allowed to accept the balance to his credit on the date of his transfer in the Provident Fund (if any) to which he is a subscriber, and may count his service for pension from that date. In consideration of his previous non-qualifying service, he will be exempted from reduction of pension under article 478 (*a*) of the Civil Service Regulations.

ORDERED—That the above Resolution be published in the *Calcutta Gazette*, and that it be communicated to the Superintendent, Civil Veterinary Department, the Director of Agriculture, and to all Commissioners of Divisions for communication to District Officers and (through them) to all District Boards and Municipalities. Also that copies be sent to the Accountant-General, Bengal, and to the Municipal Department of this Government.

By order of the Lieutenant-Governor of Bengal,

E. V. LEVINGE,

Offg. Chief Secy. to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 4th July 1910.

No.	Name of district	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather, and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	BURDWAN ...	1·48	10½	11½	Weather cloudy and windy. More rain wanted for transplantation of paddy seedlings. Thinning of jute and tying of sugarcane commenced. Cattle-disease reported from Sadar thana. Stocks of food-grains, fodder and drinking water sufficient.
2	BIRBHUM ...	0·54	12	12	Rainfall at Rampurhat 0·50 inch. Weather hot and cloudy. Paddy seedlings thriving. No cattle-disease. Fodder and water sufficient. Paddy-fields being prepared for transplantation.
3	BANKURA ...	0·27	12½	12½	Rainfall at Vishnupur 1·04 inches. Weather cloudy with occasional scanty showers and strong winds. More rain wanted. Transplantation delayed in many places for want of rain. No cattle-disease reported. Fodder and water sufficient. Prospects of sugarcane fair.
4	MIDNAPORE ...	1·09	12	11½	Rainfall at Contai 3·37, at Tamluk 4·24 and at Ghatal 0·64 inch. Weather hot and seasonable. Transplantation of winter rice continuing. Prospects of jute and sugarcane good. Cattle-disease in one thana. Fodder and water sufficient. Common rice selling at 14 seers per rupee at Contai, and at 11 seers at Tamluk and Ghatal.
5	HOOGHLY ...	0·12	10½	11	Weather hot. More rain wanted. Prices of food-grains almost stationary. Stocks of food-grains sufficient. Jute, sugarcane and *aus* paddy doing well. No cattle-disease. Fodder and water sufficient.
6	HOWRAH ...	1·13	11	11	Weather stormy. Sky overcast. Transplantation of paddy in progress. Prospects of *aus* paddy, jute, sugarcane and vegetables fair. Food-grains, fodder and water sufficient.
7	24-PARGANAS	1·41	12	12	Weather seasonable. Rainfall general. More rain wanted at Basirhat and Diamond Harbour. Sowing and weeding of *aman* paddy continuing. Sowing of jute finished. Prospects of jute good in the Basirhat subdivision and fair in other subdivisions. Common rice selling at 12 seers per rupee at Basirhat, at 12 5/16 seers at Diamond Harbour, at 11 seers at Barasat, and at 11¾ seers at Barrackpore.
8	NAIIA ...	1·91	11 11/16	11½	Rainfall at Kushtia 0·01, at Ranaghat 0·55, at Meherpur 0·90 and at Chuadanga 0·18 inch. Weeding of autumn rice and jute continuing. Transplantation of *aman* paddy commenced in the Ranaghat subdivision. Sugarcane plants promising well. Prices of staple food-grains stationary. Stocks of food-grains, fodder and water sufficient. No cattle-disease reported.

No.	Name of district	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather, and state and prospects of the crops, etc.

* The report is for the week ending the 25th June 1910.

General Summary.—Rain was general all over the Province, the fall being heavy in Gaya, Balasore, Angul, Puri, Darjeeling, Cooch Behar and also in parts of Champaran and Purnea, moderate in Midnapore, Muzaffarpur, the Sonthal Parganas, Manbhum and Singhbhum and light elsewhere. Transplantation of paddy has commenced in some districts. More rain is wanted for the purpose in Burdwan, Bankura, Hooghly, the 24-Parganas and Jessore. Excessive rain has done some damage to *makai* in parts of Bhagalpur and the Sonthal Parganas. Standing crops are doing well. The price of common rice has risen in Burdwan, Hooghly, Jessore, Khulna, Gaya, Saran, Monghyr, Cuttack and Hazaribagh and has fallen in Midnapore, Nadia, Shahabad, Champaran and Manbhum. Cattle-disease is reported from Burdwan, Midnapore, Murshidabad, Jessore, Gaya, Muzaffarpur, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas, Cuttack, Angul, Hazaribagh and Ranchi. The fodder and water-supply is sufficient throughout the Province.

Department of Agriculture, Bengal,
Calcutta, the 5th July 1910.

W. H. Buchan,
Offg. Director of Agriculture, Bengal.

No.

The mean pressure of the seven days	Inches.	29·490
The average pressure of the corresponding period for 24 years, Surveyor-General's Office		29·521
The total number of hours of bright sunshine	Hours	?
The maximum possible number of hours of sunshine		94·2
The mean temperature of the seven days	°	85·2
The average temperature of the corresponding period for 24 years, Surveyor-General's Office		83·8
The extreme variation of temperature		15·1
The maximum temperature		93·1
The highest velocity of the wind in one hour	Miles.	14
The mean relative humidity	%	83
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office		85
The total fall of rain from 26th June to 2nd July 1910	Inches.	1·51
The average fall of the corresponding period for 24 years, Surveyor-General's Office		3·18
The total fall from 1st January to 2nd July 1910		15·72
The average fall of the corresponding period for 24 years, Surveyor-General's Office		22·63

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; t, thunder; ≤, lightning; p, passing temporary showers; g, gloomy.

METEOROLOGICAL OFFICE,
ALIPORE (CALCUTTA), *the 4th July 1910.*

C. W. PEAKE,
for Director-General of Observatories.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) the name of each tenant or occupant;

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance or his tenure;

(*c*) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) the name of each tenant's landlord;

(*e*) the rent payable at the time the record-of-rights is being prepared;
(*f*) the mode in which that rent has been fixed, whether by contract, by order of a court, or otherwise;
(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
(*h*) the rights and obligations of each tenant and landlord in respect of—

(*i*) the use by tenants of water for agricultural purposes, whether obtained from a river, jhil, tank or well or any other source of supply, and
(*ii*) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land:

(*i*) the special conditions and incidents, if any, of the tenancy.
(*j*) any right of way or other easement attaching to the land for which a record-of-rights is being prepared;
(*k*) if the land is claimed to be held rent-free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and if so entitled, under what authority;
(*l*) the name of each proprietor, with the character and extent of his interest, and the situation and quantity and one or more of the boundaries of each proprietor's private land as defined in Chapter XI of the Act.

Birbhum.

No. 1191T.R.—The 5th July 1910.—Under section 3 of the Bengal Survey Act, 1875 (Bengal Act V of 1875), the Lieutenant-Governor is pleased to order that a survey shall be made of the lands situated in the undermentioned mauzas appertaining to tauzi No. 642, pargana Dhawa, thana Nalhati, in the district of Birbhum, and that the boundaries of estates, tenures, mauzas and fields be demarcated on the lands so to be surveyed:—

Names of mauzas.

1. Nabagram.
2. Gopalpur.
3. Radipur.
4. Ratonpur, *alias* Bhagaldighi.
5. Ujirpur.
6. Dengapara.
7. Bhadrapur.
8. Raipur.
9. Rampur.
10. Sarbasey *alias* Gopalpur.
11. Hazarpur.
12. Bandh Khola.
13. Balanagor.

Monghyr.

No. 1237T.R.—The 7th July 1910.—Notification No. 1330L.R., dated the 21st March 1910, published at page 430, Part I, of the *Calcutta Gazette* of the 30th idem, ordering a survey and the preparation of a record-of-rights in respect of certain estates belonging to Government in the district of Monghyr is cancelled so far as it relates to estate Kiul, plot (1), B class land, tauzi No. 8095.

24-Parganas.

No. 1239T.R.—The 7th July 1910.—In exercise of the powers conferred upon him by section 101 (2)(*b*) of the Bengal Tenancy Act, 1885 (VIII of 1885), the Lieutenant-Governor is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of the lands situated in Sundarbans lot No. 40, tauzi No. 1443, in thana Jaynagar, in the district of the 24-Parganas.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) the name of each tenant or occupant;
(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
(*c*) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
(*d*) the name of each tenant's landlord;
(*e*) the rent payable at the time the record-of-rights is being prepared;
(*f*) the mode in which that rent has been fixed, whether by contract, by order of a court, or otherwise;
(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
(*h*) the rights and obligations of each tenant and landlord in respect of—

(*i*) the use by tenants of water for agricultural purposes, whether obtained from a river, *jhil*, tank or well or any other source of supply, and
(*ii*) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such lands;

(*i*) the special conditions and incidents, if any, of the tenancy;
(*j*) any right of way or other easement attaching to the land for which a record-of-rights is being prepared;
(*k*) if the land is claimed to be held rent free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without the payment of rent, and, if so entitled, under what authority.

No. 1245T.R.—The 7th July 1910.—Babu Jogindra Nath Sarkar, Deputy Magistrate and Deputy Collector, employed as Manager of the Encumbered Estates, Circle B, in the district of Palamau, is allowed privilege leave for three months, under article 260 of the Civil Service Regulations, with effect from the 8th May 1910.

Palamau.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1789L.A.—The 5th July 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a single vented sluice at Goredaha (Basantapur) on the left embankment of river Peali, in the villages of Chatki and Basantapur, pargana Medanmalla, zilla 24-Parganas, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 7 bighas and 10 cottahs of standard measurement, bounded as follows:—

24-Parganas.

PLOT 1.

North—By the Peali river;
East and West—By Kedar Nath Ghose's land; and
South—By the Government embankment.

PLOT 2.

North—By the Government embankment;
East—By the land of Kedar Nath Ghose and Tarak Nath Banerji;
South—By the khal; and
West—By the land of Kedar Nath Ghose;

are required within the aforesaid villages of Chatki and Basantapur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Executive Engineer, Northern Drainage and Embankment Division, 13, Kyd Street, Calcutta.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1791L.A.—The 8th July 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the District Board, Khulna, for a public purpose, viz., for construction of a pound-shed in the village of Masiali, pargana Chengutia, zilla Khulna, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 cottahs of standard measurement, bounded on the—

Khulna.

North and West—By a plot of land belonging to Banka Behari, Jagabandhu, Bipin Behari and Keshob Lal Nundi,
East—By the land of Abhoy Malo,
South—By the Jessore road,

is required within the aforesaid village of Masiali.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern,

A plan of the land may be inspected in the office of the Collector of Khulna,

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

Gaya.

No. 1792L.A.—Th 9th July 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for an Excise warehouse at Aurangabad, in the village of Aurangabad, pargana Siris, zilla Gaya, it is hereby declared that for the above purpose a piece of land measuring, more or less, 19 cottahs and 7 chitaks of standard measurement, bounded on the—

North—By the cultivated land of Sahai Gope and Budhan Gope,

East—By the road to Maharajganj,

South—By the cultivated land of Budhan Gope, and

West—By the cultivated land of Budhan Gope,

is required within the aforesaid village of Aurangabad.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Gaya.

E. V. LEVINGE,

Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

Burdwan.

No. 1793L A.—The 9th July 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the East Indian Railway Company for a public purpose, viz., for a brick-field at mile 38, Hooghly-Katwa Railway, in the village of Kanchantola, pargana Satsaika, zilla Burdwan, it is hereby declared that for the above purpose a triangular piece of land measuring, more or less, 2 bighas, 13 cottahs and 13·52 chitaks of standard measurement, bounded on the—

North—By the Hooghly-Katwa Railway land and Sidheswaritola;

South and East—By the Hooghly-Katwa Railway land,

is required within the aforesaid village of Kanchantola.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII or 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Deputy Collector, Burdwan, as well as that of the Engineer in charge, Hooghly-Katwa Railway, Bansberia.

E. V. LEVINGE,

Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

Burdwan.

No. 1795L.A.—The 11th July 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the East Indian Railway Company for a public purpose, viz., for alterations to the station yard at Galsi, in the villages of Babula and Galsi, pargana Bagha, zilla Burdwan, it is hereby declared that for the above purpose three plots of land measuring, more or less, 22 bighas, 14 cottahs and 1·96 chittacks of standard measurement, bounded as follows:—

PLOT No. 1.

North—By the East Indian Railway Company's land,

South—By the cultivated lands of Chhakkan Lal Sen,

East—By the Galsi Feeder Road, and

West—By a tank belonging to Kali Hazrah,

PLOT No. 2.

North—By the East Indian Railway Company's land,
South—By the cultivated lands of Baidya Nath Hazrah, Sasi Bhusan Ganguli and others,
East—By a tank belonging to Kali Hazrah, and
West—By a village road,

PLOT 3.

North, East and West—By the lands of Dhananjay Datta and others, and
South—By the East Indian Railway Company's land,

are required within the aforesaid villages of Babula and Galsi.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig, or carry away, or use, in the construction of the work for the purpose of which the land is being acquired are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Deputy Collector, Burdwan, and also in that of the District Engineer, East Indian Railway, Asansol.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

Hooghly.

No. 1796L.A.—The 11th July 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that additional land is required to be taken by Government at the expense of the Howrah-Amta Light Railway Company, Limited, for a public purpose, viz., for the extension of the Howrah-Amta Light Railway from Autpore to Champadanga, in the village of Autpore, pargana Bhurshit, zilla Hooghly, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigha, 6 cottahs 12 chitaks and 40 square feet of standard measurement, bounded on the—

North, South and East—By the land of Karunamoy Mittra and others;
West—By the land of Messrs. Martin and Company,

is required within the aforesaid village of Autpore.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Hooghly.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

Gaya.

No. 1797L.A.—The 11th July 1910.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz, for a site for an Excise warehouse at Sherghatty in mahalla Kutubuddin Chak, in the village of Sherghatty, pargana Sherghatty, zilla Gaya, it is hereby declared that for the above purpose a piece of land measuring, more or less, 19 cottahs and 7 chitaks of standard measurement, bounded on the—

North—By the purti land of Babu Durga Prasad Singh,
East—By cultivated land of Maulvi Anwar Ahmad of Kutubuddin Chak,
South—By purti land and row of mahua trees of Babu Durga Prasad Singh, and
West—By purti land of Babu Durga Prasad Singh,

is required within the aforesaid village of Sherghatty.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Gaya.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 7th July 1910.

No. 148.—Mr. E. Blaber, Executive Engineer, has been granted, by His Majesty's Secretary of State for India, leave on medical certificate for three months in extension of that previously granted.

The 8th July 1910

No. 149.—Babu Shailendra Nath Banarji, Assistant Engineer, is transferred, in the interests of the public service, from the Champaran to the Arrah Division, which he joined on the afternoon of the 29th June 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

The 11th July 1910.

No. 20.—Notification.—It is hereby notified, for general information, that, in exercise of the powers conferred on him by section 99 of the Bengal Irrigation Act, III of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to make the following modification in Rule 48 of the Water-rate Rules for the Orissa Canals:—

Existing.	*Proposed*
48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed.	48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed, *or to the payment in cash of 3 per cent. on the whole sum assessed in the village when the collection of that whole sum is completed. (The system of payment in cash is not applicable to long leases.)*
The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation, and may recover the rates which would otherwise have been charged, if the assistance required by Rule 47A has not been rendered to the best of the ability of the representative or representatives.	The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation *or payment in cash*, and may recover the rates which would otherwise have been charged, if the assistance required by Rule 47A has not been rendered to the best of the ability of the representative or representatives.

[Sixth publication.]

The 7th June 1910.

No. 17.—Notification.—In connection with the opening of the Kristopur Canal as a line of navigation, as declared in Bengal Government Notification No 16, dated the 7th June 1910, the Lieutenant-Governor of Bengal proposes, under sections VI and XI of the Canals Act, V (B.C.) of 1864, that tolls will be levied on all boats entering or leaving the Calcutta Canal System by this New Canal at Kristopur Toll Station on the 4th mile of the Canal, at the same rates and conditions now in force for entering or leaving the Canals at Dhappa, as given in the Schedule of Tolls published in Bengal Government Notification No. 144, dated the 23rd March 1893 *vide* page 493 of the *Calcutta Gazette* of the 31st May 1893. The toll limit will be fixed at a point 100 feet to the east of the Kristopur regulator.

No. 18.—Notification.—Agreeably to Bengal Government Notification No. 16, dated the 7th June 1910, regarding the opening of the Kristopur Canal as a line of navigation, the Lieutenant-Governor proposes, under sections XI and XII of the Canals Act, V (B.C.) of 1864, that the Rules for the Calcutta Canals and Tolly's Nullah, as promulgated under Bengal Government Notification No. 29, dated the 24th May 1904, and published in pages 744-46 of the *Calcutta Gazette* of the 25th May 1904, Part I, shall also apply to the Kristopur Canal.

T. BUTLER,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 6th July 1910.

No. 67 Marine.—It is hereby notified, for general information, that Bushire is declared free from plague and that the regulations for the prevention of the introduction of plague by sea, which were imposed in the ports of Orissa against vessels arriving from Bushire, are hereby withdrawn.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 12th July 1910.

No. 69 Marine.—Notification.—The following bye-law framed by the Commissioners of the Port of Calcutta, under clauses (*c*) and (*f*) of sub-section (1) of section 126 of the Calcutta Port Act, 1890, imposing upon the masters of vessels the duty of reporting to the officers of the Trust the loss of cargo overside and of taking immediate steps for its recovery, which has been published in three consecutive issues of the *Calcutta Gazette* in accordance with the provisions of sub-section (4) of that section, is hereby confirmed :—

"In exercise of the powers conferred on them by section 126, sub-section (1), clauses (*c*) and (*f*), of the Calcutta Port Act, 1890, the Commissioners in meeting hereby make the following bye-law :—

'1. (*a*) No ballast or rubbish nor any cargo, goods or other article, substance or thing likely, after falling into the water, to be or become detrimental to navigation or to cause damage to shipping shall be laid or placed upon any quay, pier or jetty within three yards from the margin of the dock or riverside margin of the jetty, nor upon any such quay, pier or jetty, nor upon any vessel in such a position or place that same shall be likely to fall into the water.

'(*b*) No ballast or rubbish, nor any cargo, goods or such other article, substance or thing as last aforesaid shall be cast or thrown or permitted or suffered to fall into the docks, dock channels or river from any pier, quay, jetty or vessel or in any other manner whatsoever.

(*c*) In the event of any such cargo, goods, article, substance or thing being cast or thrown or falling into any docks or dock channel or the river from any vessel, the Master or other person for the time being in actual charge of such vessel or her cargo, shall within three hours (excluding hours between 6 P.M. and 10 A.M.) give notice of the occurrence, furnishing full particulars thereof to the Docks or Jetty Superintendent, as the case may be, and take all lawful and proper measures and use every endeavour to have such cargo, goods or other article, substance or thing recovered, taken out of and removed from the docks, dock channel or river, as the case may be, and shall in regard to such recovery, taking out, removal or the measures and endeavours thereto or in the attempt thereof, obey and conform in all respects to any directions received from such Superintendent as from the time when the same shall be received.'

"In exercise of the powers conferred by section 127 of the Calcutta Port Act, 1890, the Commissioners in meeting direct that any person who commits a breach of any of the articles of this bye-law shall be punishable with fine which may extend to Rs. 500 in respect of any such breach, and in the case of a continuing breach to a further fine which may extend to Rs. 200 for every day after the first during which the breach continues."

T. BUTLER,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 8th July 1910.

No. 68 Marine.—In exercise of the powers conferred upon him by section 29 of the Inland Steam-vessels Act, 1884 (VI of 1884), and with the previous approval of His Excellency the Governor-General in Council, the Lieutenant-Governor sanctions the following amended rules to regulate the granting of certificates of competency to Engineers and Engine-drivers of inland steam-vessels, in supersession of those published in the notifications of this department—

No. 23 Marine, dated the 2nd April 1894.
No. 178 „ „ 24th August 1891, and
No. 118 „ „ 8th December 1894.

T. BUTLER,
Secy. to the Govt. of Bengal.

REGULATIONS RELATING TO THE EXAMINATION OF ENGINEERS AND ENGINE-DRIVERS OF INLAND STEAM-VESSELS.

Certificates of competency granted to persons who pass requisite examinations.

1. Certificates of competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose examiners have been appointed and arrangements have been made for holding the examinations periodically at the Port of Calcutta.

Examinations continued till all the candidates are examined.

2. The examinations will commence early in the forenoon, and will be continued until all the candidates whose names appear upon the Port Officer's list on the day of examination are examined.

Application how to be made.

3. Candidates for examination must make their application upon form Exn. 3*b*, which must be filled up at the Port Office.

Candidates unable to write English must apply at the Port Office for a copy of form Exn. 3*b* and the same must be filled up before the Port Officer before submission at the Port Office.

The Exn. 3*b*, properly filled in, together with the candidate's testimonials, must be lodged with the Port Officer not later than three days before the day of examination.

Testimonials required.

4. Applicants will be required to produce, in addition to the usual forms of discharge, satisfactory testimonials as to sobriety, experience, ability, and general good conduct for at least the last 12 months' service on boardship preceding the date of application to be examined.

An applicant already possessed of a certificate and wishing to appear for one of a higher grade must produce his certificate and all the discharges and testimonials he submitted when he applied for examination in the lower grade as well as the discharges and testimonials necessary for the higher grade certificate. Should references of doubtful authenticity be submitted by candidates for examination, the examining officer may require proof from the candidate of their genuineness, or an affidavit made to that effect.

If applicants have served on shore immediately preceding their application, certificates of sobriety to be produced from their employers, or from a respectable householder if unemployed. No candidate will be allowed to be examined unless he has served on boardship two years within the last six years, and six months within the last three years preceding the date of his application to be examined.

5. As such testimonials and discharges may have to be verified before the candidates can be examined, it is desirable that these should be handed over, together with the form Exn. 3*b*, as early as possible.

Testimonials of Foreigners.

6. The testimonials of servitude of Foreigners and of British seamen serving in foreign vessels, which cannot be verified in the Port Office, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country, or by the testimony of some credible person on the spot, having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

Certificate as to age.

7. Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth or baptism.

Foreigners to know English.

8. Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

9. Testimonials of servitude must ordinarily be based on their employers' office records.

Services claimed which cannot be verified from the employers' office records must be authenticated by affidavits of men under whom such services have been performed as well as by an affidavit of the candidate himself.

Testimonials of servitude from European engineers will be accepted.

10. Candidates will be required to account for any gaps in their services, with documentary evidence.

Qualifications for Certificates of Competency as Second-class Engine-drivers.

11. A candidate for a certificate of competency as second-class engine-driver must have attained the age of twenty-one years.

12. (*a*) He must have served an apprenticeship of at least four years if in India, or three years if in the United Kingdom, and have served for one year in the engine-room of a steamer ; or

(*b*) He must have served four years in the engine-room of a steamer at sea, or on inland waters, two years of which service must have been as serang or principal tindal in a vessel of not under 20 nominal horse-power ; or

(*c*) He must have been for two years in charge of the engine of a factory or mill under a European manager or engineer, as well as served one year in the engine-room of a steamer of not under 20 nominal horse-power as serang, or principal tindal.

13. He must pass a *vivâ voce* examination before the Board of Examiners as to the working of steam-engines and boilers.

14. He must be able, if required, to show his practical qualifications by one week's trial in a steamer after fulfilling the other tests to which he will be subjected.

Qualifications for Certificates of Competency as First Class Engine-drivers.

15. A candidate for a certificate of competency as First Class Engine-driver must have attained the age of twenty-two years.

16. A candidate who possesses a certificate of competency as second class engine-driver must produce this certificate and also all the testimonials and certificates of discharge on which he obtained it.

17. (*a*) He must have served an apprenticeship of at least four years if in India, or three years in the United Kingdom, and have served as assistant engineer for one year on a steamer of not less than 50 nominal horse-power ; or

(*b*) He must have served for five years in the engine-room of a steamer at sea or on inland waters, three years of which service must have been as serang or principal tindal of a steam-vessel of over 50 nominal horse-power ; or

(*c*) He must have served for one year as second driver with a second class engine-driver's certificate of a steam-vessel of over 50 nominal horse-power ; or

(*d*) He must have served for 18 months as serang or principal tindal with a second class engine-driver's certificate in charge of a watch on the main engines and boilers of a steam-vessel of over 30 nominal horse-power ; or

(*e*) He must have served for three years in charge of the engine of a factory or mill under an European manager or engineer, as well as two years as serang, or principal tindal, or assistant engineer, in the engine-room of a steamer of over 50 nominal horse-power.

18. He must have the testimonial shown in Appendix B filled up by the engineer with whom he has last served, or his other testimonials must contain all the particulars therein required.

19. He must pass a *vivâ voce* examination before the Board of Examiners as to the working of steam-engines and boilers.

20. He must be able, if required, to show his practical qualifications by one week's trial in a steamer after fulfilling the other tests to which he will be subjected.

Qualifications for Certificates of Competency as Engineers.

21. A candidate must be not less than twenty-two years of age—

(*a*) He must have served an apprenticeship to an engineer of three years in England or five years in India, and must prove that during the period of his apprenticeship he has been employed on the making and repairing of engines. Or, if he has not served an apprenticeship, he must prove that for not less than three years in England or five years in India he has been employed as a journeyman or master-hand in some factory or workshop on the making or repairing of engines. In either case he must also have served two years thereafter in the engine-room of a steamer of over 80 nominal horse-power or as a certificated engine-driver in a steamer of not less than 50 nominal horse-power, or

Failing the above service, he must have served as a certificated engine-driver in charge of a steamer of not less than 50 nominal horse-power for four years.

(*b*) He must be able to give a satisfactory description of boilers, and the methods of staying them, together with the use and management of the different valves, cocks, pipes, and connexions.

(*c*) He must understand how to correct defects from accident, decay, &c., and the means of repairing such defects.

(*d*) He must understand the use of the water gauge, pressure gauge, barometer, thermometer and salinometer, and the principles on which they are constructed.

(*e*) He must state the causes, effects, and usual remedies for incrustation and corrosion.

(*f*) He must be able to explain the method of testing and altering the setting of the slide valves, and method of testing the fairness of shafts and adjusting them.

(*g*) He must be able to calculate the suitable working pressure for a steam boiler of given dimensions, and the stress, per square inch, on crank and tunnel shafts when the necessary data are furnished.

(*h*) He must understand the construction of steering engines. evaporators, feed filters, and feed heaters.

(*i*) He must understand the construction of centrifugal bucket, and plunger pumps, and the principle on which they act.

(*j*) He must be able to state how a temporary or permanent repair could be effected in case of derangement of a part of the machinery, or total breakdown.

(*k*) He must write a legible hand, and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square and cube roots. He must also understand the application of these rules to questions about safety valves, coal consumpsion, consumption of stores, capacities of tanks, bunkers, &c.

(*l*) He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use, as to the details of the different working parts, external and internal, and the use of each part.

(*m*) He must possess a creditable knowledge of the prominent facts relating to combustion, heat and steam.

(*n*) He must be able to pass an examination in rough working drawing which may, at the candidate's option, be either hand sketches, clearly dimentioned and complete in the necessary views and sections or drawings to a scale. Drawing boards and T-squares will be provided, but applicants will have to bring with them any drawing instruments they may require.

General Rules as to Examinations.

22. All books necessary for the use of candidates under examination will be provided and applicants will not be permitted to take into the examination room any book, paper, document, or memoranda of any description whatever; and, subject to the provisions referred to hereafter, they will also not be allowed to work out their problems on a slate or on waste paper. Candidate to take books, &c., into examination room.

23. Candidates will be allowed in the time allotted to cancel any part of their work, and, when required, additional papers will be supplied by the examiners. These additional sheets must be attached to, and form part of, the examination papers.

24. In the event of any candidate being discovered copying from another, or affording any assistance or giving any information to another, or communicating in any way with another during the time of examination, he will be regarded as having failed in his examination, and will be turned back for three months, in the same manner as if he had failed in the practical part of the examination; and no part of the fees he may have paid for examination will be returned to him. Punishment for breaking rules.

ving examination room.

25. If a candidate leaves the room before answering any question which has been given to him, he cannot afterwards be permitted to answer it, but the examiners may substitute other data or another question.

Questions and answers.

26(*a*). The examination of candidates for certificates of competency as engineers consists of four parts:—Arithmetic, Drawing, Elementary questions and *viva voce*. When the number of marks obtained in arithmetic amounts to 28, that is, two-thirds of the maximum the candidate passes in arithmetic.

(*b*). All applicants presenting themselves for examination for certificates of competency as engineers will be required to give written answers to ten questions selected from form Exn. 15*a*, "Elementary Questions for the first Examinations of Engineers for Certificates of Competency." (Appendix A). These questions are intended to furnish a record to some extent of the candidate's knowledge at the time of his examination, and also to induce the candidates to pay more attention to their handwriting and spelling.

27. The form Exn. 15*b*, on which these answers will be written, contains also some questions as to the experience of the applicant, to be answered by him in writing

28. Examiners may add to their *viva voce* questions on the practical management of steam-engines and boilers any of those contained in Exn. Form 15*a*.

29. If at the expiration of the time allowed the candidate has worked out correctly the whole of the questions set to him, and given satisfactory answers in the *viva voce* examination. he will be declared to have passed.

30. If at the expiration of the time allowed he has not worked out the whole of the questions set to him, but if the result of the *viva voce* examination, taken in connection with the answers to such of the questions as he has worked out, is sufficient to satisfy the examiners that the applicant is competent to take charge of engines, he will be declared to have passed.

31. In other cases he will be declared to have failed.

32. A report of the examination, and the examination papers, will be forwarded to the Government on the form Exn. 15.

Notification of having passed will be given to successful candidates. Exn. 16.

33. If the candidate passes, he will receive the form Exn. 16 upon which the Government will issue the certificate to the candidate, whose testimonials, &c., will be returned at the same time. It is therefore important that the port of destination of the certificate should be the same on both the form Exn. 16 and the form Exn. 2. If circumstances should make any alteration necessary, the examiners should see that it is made in both forms, otherwise delay in the issue of the certificate may be caused.

Fees.

Fees to be paid by applicants for examination.

34. Candidates for examination, in making their application on form Exn. 3*b*, will be required to pay the examination fees before any step is taken, whether by inquiring into their services or testing their qualifications, &c. No part of the fee will under any circumstances be returned to them; but should it be found that their service is not sufficient to entitle them to be examined, or that their testimonials are unsatisfactory, they will be allowed to present themselves for examination without paying any further fee, when they have fulfilled the requisite service, or are able to produce satisfactory testimonials, as the case may be.

35. The fee for examination must be paid to the Port Officer. In any case in which a candidate offers money to any other officer, and in any place but in the Port Office, the candidate so offering money will be regarded as having committed an act of misconduct, and will be rejected and not allowed to be examined for 12 months.

36. If a candidate fails in his examinations, *no part of the fee he has paid will be returned to him.*

37. The fees are as follows:—

	Rs.
Second class engine-drivers	4
First class engine-drivers	10
Engineers	12

Failure.

38. If the applicant fails in the *viva voce* or practical part of the examination, he may not present himself for re-examination until he can produce proofs of three months' further service afloat. If he fails in arithmetic or drawing only, he may come up again at any time. Engine-drivers may be examined *de novo* after six months' active service as serang or principal tindal or second-driver if the past examination showed that they might reasonably be expected to qualify.

General.

39. Certificates of competency of engineers and first and second-class engine-drivers shall be made out and issued in the forms hereunto annexed.

40. Every certificate of competency shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded by the Port Officer of Calcutta.

Government of Bengal.

By the Hon'ble the Lieutenant-Governor of Bengal.

Certificate of Competency

AS

SECOND CLASS ENGINE-DRIVER OF AN INLAND STEAM-VESSEL UNDER ACT VI OF 1884.

To _____

Whereas *it has been reported to the Lieutenant-Governor of Bengal that you have been found, after examination, duly qualified to fulfil the duties of Second Class Engine-driver of an Inland Steam-vessel having engines of less than 30 nominal horse-power, I do hereby, in pursuance of Act VI of 1884, grant you this CERTIFICATE OF COMPETENCY as such Second Class Engine-driver.*

By order of the Govt. of Bengal,

Given under my Hand and Seal.

Asst. Secy. to the Govt. of Bengal.

This _____ *day of* _____ *1* _____

No. of Certificate _____

Bearer _____, *son of* _____, *by caste* _____
Date and Place of Birth, showing Village, Thana, and District* _____
Residence, showing Village, Thana, and District _____
Height _____
Personal description, stating particularly any permanent marks or scars _____
No. of Register Ticket _____
Signature _____

Any Second Class Engine-driver who fails to deliver up a Certificate which has been cancelled or suspended is liable to a penalty not exceeding Rs. 500.

N.B.—*Any person other than the owner thereof becoming possessed of this Certificate is required to transmit it forthwith to the Government of Bengal.*

Issued at Calcutta on the _____ *day of* _____ *19*_____

Registered.

Port Officer of Calcutta.

* If not known exactly, must be added on the best information or evidence available.

By the Honourable the Lieutenant-Governor of Bengal.

Government of Bengal.

Certificate of Competency

FIRST CLASS ENGINE-DRIVER OF AN INLAND STEAM-VESSEL UNDER ACT VI OF 1884.

To _____

Whereas *it has been reported to the Lieutenant-Governor of Bengal that you have been found duly qualified to fulfil the duties of First Class Engine-driver of an Inland Steam-vessel having engines of 30 nominal horse-power or upwards but of less than 80 nominal horse-power, I do hereby, in pursuance of Act VI of 1884, grant you this CERTIFICATE OF COMPETENCY as First Class Engine-driver.*

By order of the Government of Bengal,

Given under my Hand and Seal.

Asst. Secy. to the Govt. of Bengal.

APPENDIX A.

Form Exn. 15a.

ELEMENTARY QUESTIONS FOR THE FIRST EXAMINATIONS OF ENGINEERS FOR CERTIFICATES OF COMPETENCY.

To ENGINEER EXAMINERS.

Examiners will require all candidates to fill up a form, Exn. 15*b*, of which a copy is enclosed, and they will forward the same to the Government along with the report of the examination.

The arithmetical questions for engineers and the *viva voce* examinations for all candidates will be continued as heretofore, and failure in the elementary questions will be treated as failure in arithmetic.

The numbers of the questions for each examination will be selected by the examiners, and they are not to be communicated to the candidate until his examination commences.

Exn. 15b.

Port | Class for which examined

Date | Candidate's name

A. Where and how long did you serve in works at the making or at the repairing of engines, and in what capacities?

B. How long have you served as fireman or trimmer?

C. How long have you served in the engine-room at sea, and in what capacities?

D. With what descriptions of engines have you served at sea—Paddle, or screw, or both; jet condensing, surface condensing, or non-condensing engines; compounds, trunks, inverted cylinders, or horizontal engines? What size were the engines?

E. With what description of boilers have you served at sea—Rectangular or cylindrical, wet-bottomed or dry-bottomed, multitubular, sectional or flue boilers?

F. What engine defects have come under your notice at sea, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

G. What boiler defects have come under your notice at sea, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

For the questions to be answered on the following pages, *see* the book of Elementary Questions. The questions need not be written: only the answers to them.

Question No.

Question No.

Question No.

Question No.

Question No.

Question No.

Question No.

Question No.

ELEMENTARY QUESTIONS.

1.

What parts of an engine are generally made of wrought-iron?

2.

What parts of an engine are generally made of cast-iron?

3.

For what parts of an engine is steel sometimes used?

4.

What parts of an engine are generally made of brass or gun-metal?

5.

Where is "white metal" sometimes used? On account of what property possessed by it is it adopted? What objection is there to its more general use?

6.

For what parts is Munts metal sometimes used? Is it malleable? For what properties is it valued?

7.

What difference is there in the composition of cast-iron, of wrought-iron, and of steel?

8.

How can cast-iron, wrought-iron, and steel be distinguished from each other?

9.

What are the different properties of cast-iron, of wrought-iron, and of steel?

10.

What is meant by the terms "breaking stress," "proof stress," "safe-working stress"?

11.

What is the cohesive strength or breaking stress of good ordinary wrought-iron?

12.

Tempering steel: how is it done, and in what order do the colours come?

13.

What is case-hardening?

14.

Which of the common metals or alloys can be forged, and which of them are brittle or "short"?

15.

What is meant by "welding?" Which of the common metals can be welded?

16.

The expansion of metals by heat: give examples of this in the engine and in the boiler.

17.

In the construction of cylindrical marine boilers, for what parts have the plates to be worked hot? When the material is steel, what precautionary treatment of these plates is afterwards necessary?

18.

What is double riveting? In what parts of cylindrical marine boilers is double riveting employed? In which of the shell seams is it most necessary?

19.

What is "caulking," and how are seams prepared for caulking?

20.

Describe the different ways of fastening the ends of the main stays of a boiler. What are the merits of, or objections to, the different plans?

21.

What strain per square inch is allowed on boiler stays?

22.

Describe a riveted stay, and state where such stays are commonly used.

23.

Where are thin plates to be looked for in a boiler as it wears, and how is the thinness to be detected?

24.

How are boiler tubes fixed? What are "stay tubes," and how are they secured?

25.

Where is it generally that boiler tubes leak? How is this defect repaired? What are the causes of this leaking?

26.

What are the causes of cracked tube plates? Where are the cracks situated? How are they repaired?

27

What is the difference between a "dry uptake" and a "wet uptake"? Which requires most repair? Why? Where have you seen a wet uptake?

28.

What is a superheater? What is its construction? What valves are on it? There is sometimes a gauge glass on it; what is that for?

29.

What parts of a marine tubular boiler are first injured by shortness of water?

30.

Where are angle irons sometimes used in the construction of a boiler, and where are flanged plates used?

31.

Priming: to what causes is it attributed? What means are applied to prevent it? What evils may be produced by it?

32.

Funnel draught: what makes it? What checks it?

33.

Flame is sometimes seen at the top of the funnel: what causes this appearance? Is it beneficial or is it detrimental? Why so?

34.

A blast pipe: what is its construction? Where is it placed? For what is it used?

35.

How many bottom blow-off cocks are generally fitted to each boiler, and why are they so fitted?

36.

Blow-off cocks are sometimes fitted with a spanner guard: for what purpose is this? Describe how the guard is formed?

37.

Test cocks or water-guage cocks: where are they placed? At what heights? Must the cocks themselves be at those heights? What provision is made for cleaning these cocks? Should they ever become choked? When there are no test cocks, how is the height of the water ascertained?

38.

What is a dead-weight safety valve? Of what are the rubbing surfaces formed? How is a lock-up valve arranged to admit of lifting it or of turning it round, and to prevent adding to the weight?

39.

About what area of safety valve is now required by the Board of Trade? What area was formerly required, and on what ground has that been altered? What is the effect of suddenly opening a safety valve when steam is up? To about what extent do safety valves rise when blowing off without being eased by hand?

40.

Spring-loaded safety valves. what advantages have they that are not possessed by dead-weight valves? What are the disadvantages as compared with dead-weight valves?

41.

Of what pieces does a glass water-gauge mounting consit? How does it act? Where is it placed? At what height? Is it liable to derangement? How is its working tested?

42.

Glass water-gauges have sometimes pipe connections top and bottom? What is the object of this arrangement? Should there be cocks at the extremities of these pipes?

43.

Describe a Bourdon's steam-gauge. Some gauges have an inverted syphon pipe below them: what is its use?

44.

Why is a small cock sometimes put on the pipe leading to a steam-gauge? Where should it be placed, and what error might be made by omitting to use it?

45.

Do steam-gauges indicate the total pressure of the steam, or only a portion of that pressure? What is the pressure measured from?

46.

What is meant by the salting of the boiler? How is this prevented? What is the density of ordinary sea water? How is the density ascertained? What is the difference between the formation of scale and the salting of the boiler? What is the maximum density at which boilers should be worked at sea?

47.

Scum cocks and pipes: how are they arranged? Where are they placed? At what height in the boiler? When are they used? When must they be shut? Neglect of these cocks lead to what dangers?

48.

Scale : of what does it consist? Where is it most objectionable? How is it removed? How is its formation prevented? What evil effects are produced by it?

49.

What is a salinometer? Of what does it consist? How does it act? How is it graduated? Can it be used at any temperature indiscriminately?

50.

What harm may be done through the check valve of one of a set of boilers being defective while under way? How would you work to avoid this harm?

51.

How is the leak from a split tube stopped in a boiler at sea? Describe the operation.

52.

What is the use of dampers? Where are they fitted? When should they be used?

53.

When there are no dampers fitted, what is used instead? What evil to the boiler is sometimes attributed to this? When the heating surfaces are clean, does this occur?

54.

Describe the piston of a steam cylinder, with its different rings and their uses. There are generally round pieces let in flush on one side of a piston: what are they? How are these pieces fixed?

55.

Cylinder drain cocks : what is their use? There is sometimes a valve upon each cock : what purpose does it serve?

56.

Cylinder escape valves : of what do they consist? How protected? How regulated? When are they most needed? To what danger do they expose the engineer? What precaution is sometimes used to obviate this danger?

57.

What is a compound engine? What different kinds are there for screw steamers, in respect to the number and arrangement of their cranks and cylinders? What is a triple expansion engine?

58.

What is link motion? What are some of its advantages? In modern engines for the screw propeller, when there is no link motion, what takes its place?

59.

What is a separate expansion valve? Why is it not fitted to all engines? What effect has an expansion valve upon the starting and upon the reversing of the engine?

60.

What arrangement is applied to reduce the friction of a slide valve? To what is the friction due?

61.

Describe a loose eccentric : how does it act? In what engines is the loose eccentric still employed?

62.

What is the travel of the eccentric rod? How is it measured on the eccentric? What is the travel of the slide valve when the link motion is in mid gear and the engine still moving?

63.

What are "double-beat valves"? Why are they not generally used for safety valves? Are they ever used instead of the slide valve? What objections are there to their use?

64.

What is a circulating pump? Is it always worked by the main engine? Give an example from your last steamer of the three water temperatures generally noted by careful engineers.

65.

An air valve is sometimes fitted to a circulating reciprocating pump ; what purpose does it serve?

66.

What is the difference between a bucket air-pump, a piston air-pump, and a plunger air-pump?

67.

Whether are double-acting air-pumps made with plungers, with pistons, or with buckets?

68.

What is an air-pump trunk? When is it necessary? How is it attached to the bucket?

69.

What class of air-pump requires both foot and delivery valves, and in what other class can either of these valves be in some cases dispensed with?

70.

When under way, when the air-pump bucket is at the top of its stroke, at what height is the water in the condenser?

71.

With a surface condenser and a single acting air-pump what is the effect of a leaky foot valve, and what is the effect of a leaky bucket when there is also a foot valve?

72.

Air-pump pet cock or valve: where is it placed? How does it act? What is its object? Does it in every case reduce the effective capacity of the pump? Is it equally applicable to double acting pumps?

73.

At what temperature is the hot well worked? What is the effect of higher temperatures? What is the effect of lower temperatures? What limits the lowness of temperature? Has a very low temperature any disadvantages?

74.

Bilge injection with common condensers: what are the fittings required? When is it used? What precautions are necessary in using it?

75.

When surface condensers are used, what takes the place of the bilge injection? To what is the connection made? How is its valve formed? Why is this necessary?

76.

What are the practical guides to the proper amount of opening of the inlet valve for the circulating pump?

77.

Feed-pump pet cock or valve: where is it placed? What is its use? How does it act? Is it always a necessary fitting?

78.

What are some of the ways of fastening the ends of surface condenser tubes? About what size and about what thickness are condenser tubes? What parts of a surface condenser are made of brass?

79.

What is a blow-through valve or cock? To what is it attached? There is sometimes a valve that when opened admits steam from the side valve casing to the exhaust port: what is its use? To which cylinder is it fitted?

80.

What is a snifting valve? What is its use? Where is it placed? Can it be placed too high? Can it be placed too low? At what height should it be placed? Was there one in your last steamer; if so, where was it? Why are snifting valves generally omitted now?

81.

What connections are generally fitted to the donkey-pump, and to what services can it be applied?

82.

When the engines are stopped with steam up, what are to be shut and what are to be opened?

83.

How is an engine heated up before starting? What precautionary examinations are made before starting?

84.

What is an interceptor or catch-water? Where is it fixed; what is its construction; how does it act and what attention does it require?

85.

Describe an air-pump bucket, with its valve or valves and its packing. Of what are the valves generally made?

86.

Of what materials are air-pump rods made? Why so?

87.

What is the racing of the engine? When does it occur? What danger attaches to it? What is done to prevent it?

88.

What are marine governors? What is their general construction? How do they act?

89.

What is meant by the "pitch" of a screw propeller? How is it measured?

90.

Explain the difference between a "right-hand" and a "left-hand" propeller, and state how each of them revolves.

91.

What is the slip of a screw propeller? How is its amount expressed in figures?

92.

Which of the valves about engines and boilers have to be worked by hand, which of them work self-actingly, and which are worked by the motion of the engine?

93.

Why is soda sometimes put into a boiler, and how is it put in while under weigh? What is the kind of soda used?

94.

Tallow cups for cylinders were sometimes made with two small cocks, or with only one small cock, or with one large hollow plug cock, or with one small cock and a valve; which of these is suitable for a high-pressure cylinder, and which for the cylinder of a condensing engine? Describe how the cup with only one small cock is used. What is now generally used instead of these? How has this change come about?

95.

Does a cylinder escape valve, self-acting, allow all the water to escape; if not, how much is left in the cylinder?

96.

What is a "steam lubricator" (sometimes called an impermeator)? Explain its action; to what part of the engine is it connected; whether will throwing cold water over it make it work faster or slower? Describe the one used in your last steamer.

97.

A common paddle wheel: of what is the centre made? Of what are the arms formed? What is the form of the bolts which attach the floats to the arms? How are the arms attached to the centres?

98.

Why have some paddle wheels one or more cast-iron floats in each wheel? With what engines are these most required? At what part of the circumference are they placed?

99.

Why are paddle wheel floats sometimes made of different breadths in the same wheel? With what description of engine is this most needed? Where are the broad floats placed and where are the narrow floats placed in the circumference of the wheel?

100.

What difference is there between a radial paddle wheel and one with feathering floats? What is the object of feathering floats? Are all the eccentric rods attached in the same way, and are they all of the same form?

101.

Whereabout is the centre of the eccentric of a paddle wheel with feathering floats placed? In that case are the feathering levers on the striking face or on the back of the float? When the paddle shaft has an outer bearing, how is the eccentric made?

102.

Of what materials are the working surfaces of a paddle wheel with feathering floats? Are they all lubricated? With what?

103.

What is a "disconnecting paddle engine"? At what place is the disconnecting effected? How is it accomplished? In which of the cranks of a disconnecting engine are the crank pins fixed?

104.

Whether is the link motion valve gear or the loose eccentric generally used for disconnecting paddle engine? For what steamers are disconnecting paddle engines frequently employed?

105.

What are expansion joints? Where are they necessary? What attention do they require? Of what should the working surfaces be made?

106.

What omission in the construction of expansion joints may lead to a serious accident when steam is first applied? How is this prevented in the construction of a steam trunnion pipe for an oscillating engine?

107.

Describe an oil cup with a syphon worsted. How is the worsted arranged? How is it cleaned? How far down the tube does it extend?

108.

Describe a thrust bearing; which of the surfaces wears? Why are there sometimes a number of oil tubes for one thrust bearing?

109.

What parts of a screw shaft are generally covered with brass? Why is this necessary? About what thickness is the brass?

110.

What is the stern tube or screw shaft pipe? Why is a pipe of such a length required? Of what is it made? How is it fixed at each end?

111.

What is *lignum vitæ* bearing? How is the wood fitted? Where is such a bearing generally used?

112.

How is a screw propeller fixed on the shaft? What means are used to prevent its getting loose at sea?

113.

Where are sluice valves placed? What large sluice valve is there in almost all screw steamers? From what position should this valve be worked? Why so? What attention should it receive?

114.

With a condensing engine what valves or cocks are on the skin of the ship in the engine-room and in the stokehole?

115.

What are the necessary fittings of a marine boiler?

116.

With a surface condensing engine what cocks or valves are open sometime before the engine is started so as to be ready for starting whenever the order is given?

117.

What is a steam jacket? What cocks are on it? In what engines are jackets most generally used? Do they require to be felted?

118.

What parts of an engine or its fittings should be felted or otherwise protected from radiation?

119.

What are the small cylinders sometimes fitted on the slide valve casing cover of vertical engines? Explain their action. To what are they connected by a pipe? Why so?

120.

Name the principal pipes in connection with the engines and boilers of a steamer, and state to what the ends of these pipes are connected.

121.

Through what cocks or valves, pipes and chambers does the water pass on its way from the sea inlet rose plate to the water space of the boiler with a jet condenser?

122.

Through what cocks or valves, pipes and chambers does the circulating water of a surface condenser pass?

123.

Through what cocks or valves, pipes and chambers does the steam pass from the boiler until it is in the form of water in the hot well?

124.

Name the pieces of the engine through which the pressure of the steam is transmitted from the piston to the screw propeller. Name them in the order in which they act.

125.

What is an air vessel? How does it act? At what parts of an engine or of its fittings are air vessels generally applied?

126.

What is the construction of a mud box? Where should mud boxes be placed? Why are they necessary? How should the space be divided by the rose plate, and why?

127.

What is a trunk engine? When used in a horizontal engine for a right-hand screw propeller, at which side of the vessel should the cylinders be placed? Why so?

128.

What is an oscillating engine? For what steamers are oscillating engines generally adopted? Why? How is the steam conveyed to and from the side valve casing?

129.

Of what parts does the valve motion gear of an oscillating engine consist?

130.

For what have geared engines sometimes been used? Of what were the cogs of the large wheel made?

131.

At what part of a screw steamer is the pressure that propels it applied to the hull?

132.

At what part of a paddle steamer is the pressure that propels it applied to the hull?

133.

About how much fuel per indicated horse-power per hour is required by modern steam engines, common, compound and triple expansion?

134.

What is the explanation of the economy of the surface condenser?

135.

What is the construction of a surface condenser? Of what are its tubes made? How are they fixed? How are they kept tight? What is done with a split tube?

136.

Where do surface condensers foul? How are they cleaned?

137.

What non-conducting substances are employed to prevent radiation, and how are they applied?

138.

In the construction of smoke-box doors and of dry uptakes, what provision is made to lessen the amount of radiation ?

139.

How can the formation of black smoke be prevented ? Describe smoke-preventing apparatus.

140.

What is meant by "circulation" in a boiler, and what are the results of defective circulation ?

141.

What means are sometimes adopted to improve the circulation in a boiler ?

142.

By what arrangement is the circulation promoted in a "haystack" boiler ?

143.

Describe a ship's side air-pump discharge valve; in what respects does it sometimes differ from a common stop valve; and what attention does it require ?

144.

What is the construction of a feed escape valve, to what is its discharge connected, and how is its loading regulated ?

145.

When there is no feed escape valve, what is the arrangement of the feed valves or cocks ?

146.

What is the measure of a horse-power ? How is indicated horse-power ascertained ?

147.

Has "nominal horse-power" a fixed meaning ? What is the use of this expression ? What is generally taken as the measure of one horse-power nominal ?

148.

What is "back pressure" in a cylinder ? About how much is it in each of the cylinders in your last steamer ? Is excessive cushioning ever a trouble under certain conditions in modern engines ? Say when and why and in which cylinder this occurs.

149.

What is meant by "speed of piston" ? About how much is the speed of piston in modern marine engines ?

150.

What is "atmospheric pressure" ? What is its average amount ? What instrument tells this amount ?

151.

What is "gross pressure" or "absolute pressure" ? What pressure is it that is shown by the steam-gauge ?

152.

What is meant by "cutting off" steam ? How is it done ? What part of the valve regulates the cut off ?

153.

What is a piston slide valve ? Describe its construction. Why are such frequently employed in place of the common slide valve ? What is a great drawback to the use of these valves ?

154.

What fixes the time of closing the exhaust ? After the exhaust is closed and before the port opens for steam, what becomes of the steam that is in the cylinder ?

155.

What is the "lead" of the valve ? What is its object ? About what amount is it ?

156.

What is the "cover" or "lap" of the valve ? What is its object ? About what proportion of the stroke of the valve is it made ?

157.

What is the "exhaust cover" of a slide valve ? What is its effect upon cushioning and upon exhaust ?

158.

What is "minus cover" or "minus lap" on the exhaust ? What is its effect upon the exhaust and upon cushioning ?

159.

What is "cushioning" or "compression" in a steam cylinder ? How is it affected by the amount of cover or of minus cover there may be upon the exhaust ? How is it affected by the exhaust pressure ?

160.

What is "mean effective pressure" ? How is its amount ascertained ?

161.

What is a dial vacuum gauge? What is its construction? For what is it used? About what amount should it show when the engine is working all right? What effect has the variations it indicates on the performance of the engine?

162.

Does the vacuum gauge enable you to tell what pressure there is in the condenser, or must you have recourse also to the barometer to arrive at that? How would you ascertain the actual amount of back pressure there is in the condenser?

163.

What is a barometer? What is its construction? Is a barometer sometimes used instead of a vacuum gauge? In what respect does the weather barometer differ from the vacuum gauge barometer?

164.

The common vacuum gauge and the common steam-gauge, in which of them are the graduations marked from atmospheric pressure? Does either of them tell what is the true actual pressure in the boiler or in the condenser?

165.

Do steam and vacuum gauges vary with the variations of the weather barometer? When the weather barometer varies from 29 to 31, how much will the vacuum gauge vary, and how will that affect the working of the engine? Why so?

166.

Vacuum is generally stated as so many inches. What is meant by, say, 20 inches vacuum? What does that tell us about the absolute pressure of the vapour then in the condenser?

167.

From what depth will a pump draw water? Is there any limit? Why?

168.

What is vacuum? Can vacuum move a piston? When the temperature of the water in the condenser is 212°, what is the greatest degree of vacuum there can then be in the condenser?

169.

What is a thermometer, its construction? What is the property of matter that is the principle of its construction? What temperatures are regularly noted by careful engineers?

170.

What is the temperature of (1) melting ice, (2) of boiling water, (3) of steam about 60 lbs. pressure by the steam-gauge, (4) of steam about 100 lbs., and (5) of strain about 150 lbs., also (6) of smoke in the funnel, and (7) of water in the hot well?

171.

What is meant by the "conduction" of heat? Give examples of it in the boiler and in the engine.

172.

What is meant by the "convection" of heat? Give examples of it in the boiler and in the engine.

173.

What is meant by "radiation" of heat? Give examples of it in the boiler and in the engine.

174.

Which is convection, which is radiation, and which is conduction in the following cases: (1) Heat from the glowing fuel to the furnace crown; (2) Heat passing from one side of the furnace crown plate to the other; (3) Heat passing from the steam pipes in the engine-room; (4) The heat of evaporation?

175.

What are the effective heating surfaces of a marine boiler? What is an objection to vertical heating surfaces?

176.

What parts of a marine engine are exposed to danger when the temperature is below freezing point?

177.

What precautions are necessary in cold climates when the temperature is below freezing point?

178.

State as many ways as you can by which a boiler might not get its full feed; that is, a boiler or one of a set of boilers, gets short of water, although the feed valve is open its proper amount; to what causes might this be due?

179.

Of what are furnace bars generally made? About what thickness are they at top? About what space is between them? Whether are the bars put further apart for Newcastle coal or for Welsh coal?

180.

Which burns faster, New Castle coal or Welsh coal? Which is the flaming coal? Which makes most smoke?

181.

About how many tons of steam coal will be burnt per day in our furnaces, each 3' 0" wide, and of about the usual length? On what grounds do you say so?

182.

About how many tons of steam coal will be burnt per day with good compound engines to drive an ordinary steamer of 40 feet beam 10 knots an hour by steam alone? On what grounds do you say so? What percentage more coal would be required to propel the same steamer 1 knot faster?

183.

About how many tons of steam coal will be burnt per day with a good compound engine, surface condensers, the low pressure cylinder 70 inches diameter, doing average work? On what grounds do you say so?

184.

A pair of inverted cylinder direct acting engines, there is a liner half an inch thick between the ahead eccentric rod and the eccentric strap, in over-hauling the engine this piece is lost and forgotten; what difference will its omission make in the working of the engine, on the admission, on the cut off, and on the exhaust of the steam? Which will take place earlier, and which later, distinguishing between the up stroke and the down stroke?

185.

A pair of inverted cylinder direct acting engines driving a right-hand screw; on which of the cross-head guide bars is the pressure greatest in the up stroke, and on which in the down stroke?

186.

A screw propeller is gtting loose, it has a little play on the shaft, sideways on the key or feather; how will this show in the engine room?

187.

How would you prove whether the centre line of the trunnions of an oscillating cylinder be fair with the centre line of the main shaft?

188.

How can the fairness of a line of screw shafting be tested without lifting the shafts?

189.

Where are steel forgings generally used in marine engines?

190.

What is the composition of nickel-steel? Where is it sometimes used in engines and boilers?

191.

How is forced draught generated on board ship and supplied to boiler-furnaces? Is the air heated before delivery? If so, how?

192.

What is "induced" draught? Compare the merits of "forced" and of "induced" draughts?

193.

How is the intensity of the draught measured? What is the usual pressure employed in the mercantile marine?

194.

An explosive gas is liberated from bunker coal. Usually in well ventilated bunkers this gas escapes into the atmosphere without doing harm. In ill-ventilated bunkers the gas after mixing with a certain proportion of common air has been known to explode when a naked light has been brought in contact with it. What is the composition of the gas? Where is it found, in bunkers, tween decks, pockets, and coal shoots? How may it be got rid of as soon as it evolves from the coal? How many cubic feet of air to one of the gas forms a violent explosive mixture?

195.

A lighted lamp or candle has sometimes been lowered into an apparently empty paraffin tank and produced an explosion resulting in injury to the person holding the light. What did the tank probably contain, and what produced the explosion?

196.

In vessels carrying coal cargoes it has been observed that, generally speaking, the gas which escapes from the body of the coal is found more abundantly at the forward end of the hold than at the after end. Why should this be so?

197.

In recently opened ballast tanks, double-bottoms, and boilers, a light lowered into either has some times been extinguished. What would, in all probability, cause this?

198.

In double-bottom steamers where does the bilge water lie, and where are the roses of the bilge pipes fitted?

199.

What is the advantage of a large rose over a small one?

200.

Why, especially in vessels carrying cargoes liable to shift, should engine bilge suctions be fitted to both wings of the bilge?

201.

In a heavily listed vessel, why is it difficult to keep steam?

202.

If the engine bilge pumps get choked and water accumulates in the stokehold bilges, what effect does the water have upon the bilge boards and stokehold plates, when the ship is rolling violently?

203.

In a triple-expansion engine, what spare gear do you consider necessary in the case of a foreign-going ship? Also, what stores would you provide for a voyage to New Zealand?

204.

What means are sometimes provided for temporarily coupling together the broken parts of, say, a tunnel-shaft? Describe the fitting?

205.

Does the pressure on the thrust-collars vary with the horse-power, or with the speed of the ship, or how?

206.

If the holding-down bolts of a thrust-bearing should become slack, what effect would it have upon the working of the engines?

207.

In an engine with three cranks, which of the three is subject to the greatest torsional stress (1) in going ahead, (2) in going astern?

208.

Is it usual to make the crank shaft of a triple or quadruple expansion engine in one piece? And is the diameter of the shaft uniform end to end? Give your reasons for the practice which obtains?

209.

In a "built" crank shaft how are are the webs rigidly secured to the pins and to the body of shaft?

210.

There are various descriptions of donkey engines in use on board ship for pumping purposes. Some pumps are fitted with escape-valves, some are not. Why should this be?

211.

Explain the function of an air-vessel fitted to a feed pump. Make rough hand sketches of (1) a satisfactory vessel, (2) an unsatisfactory vessel, where, say, the air-spring has been destroyed by carelessness, or has never been properly provided?

212.

Should cocks or escape-valves be fitted to air-vessels? Why, or why not?

213.

Where, by preference, should the escape valve of a feed pump be placed Why?

214.

Scum cocks are sometimes fitted to boiler-shells at a height convenient for engineers to manipulate when standing in the stokehold; the scum pipes in such cases are led upward, inside the boiler, to a little above the combustion chamber tops. What danger may arise from this arrangement?

215.

Cocks for testing the water level of boilers are sometimes fitted within reach of the engineer who is standing in the stokehold. These may have internal pipes leading upward and terminating at various levels. Under what circumstances may these become misleading?

216.

Why should the pipe which leads from the bottom of the water-gauge column to the bottom of the boiler-front, or back, be covered with non-conducting material? Why also should it never have lengthy horizontal bends?

217.

In your own experience, how frequently is this pipe removed and cleared?

218.

Why, even with the best of water-gauges, is it advisable to occasionally use the drain-cock?

219.

Steam loops have sometimes been inadvertently made in the length of piping leading from the top of the water-gauge column to the top of the boiler. Roughly sketch such a loop and explain the danger arising from its existence?

220.

Describe your method of thoroughly testing the water-gauge system to satisfy yourself that all the cocks and pipes are clear. Your answer can be written on a supplementary sheet of foolscap, which the examiner will hand you. Hand sketches, mere lines indicating pipes and circles indicating cocks, should be made. Identify the cocks and pipes by letters or numerals.

221.

Describe the construction of a water-tube boiler, mentioning the type selected?

222.

In a water-tube boiler, how is an economiser fitted, and what is its duty?

223.

How is the water-gauge fitted? Are glass-gauges used?

224.

The pressure of the steam in water-tube boilers is sometimes greater than at the engines. Why is this, and what percentage above the engine pressure does it amount to? How is this difference of pressure maintained?

225.

Describe any automatic method of feeding water-tube boilers. Of what material are the tubes made?

226.

Describe the construction of any steam turbine you are acquainted with, which is used on board ship. How is the expansion of steam effected? How many propeller shafts are employed, and how many propellers?

227.

Is the same power available to go astern as to go ahead?

228.

Of what material are the propellers made?

229.

How many pounds of coal per indicated horse-power per hour are burnt with this type of engine? Name the type of boiler in use?

230.

Describe the construction of a feed water-heater and give the name of its manufacturer.

231.

Describe any well-known ash-ejector.

232.

Describe any well-known independent feed pumps.

233.

Are independent feed pumps automatic in their action; Explain the action.

234.

What advantage, if any, have independent feed pumps over feed pumps worked by the main engines?

235.

To about what temperature is the feed water raised by passing through a feed-heater?

236.

What fittings are usually placed on a feed-heater? Why are they necessary?

237.

Describe the construction of a feed filter, enumerating its valves and cocks.

238.

How can the filter be cleaned? and what ingredients are generally removed when cleaning takes place?

239.

What is the intercepting material made of? How is it fitted?

240.

Describe an evaporator, and mention the type?

241.

What fittings are necessary with evaporators?

242.

How is the brine got rid of?

243.

How may the coils be cleaned?

244.

What is a dynamo? Describe its various parts? For what is it used?

245.

In what respect does an electric motor differ from a dynamo? Where are electric motors sometime used on board ship?

246.

Describe a system of electric lighting employed on board ship?

247.

How is the position of a fault in the circuit discovered?

248.

What is "sparking," and may it under some circumstances (naming them) be a danger?

249.

What is "short-circuiting," and to what evil may it give rise?

250.

What means are employed to prevent any part of the circuit becoming over heated?

251.

Describe the features of an arc lamp.

252.

Describe the construction of a glow-lamp.

253.

What is the usual candle-power of the small glow-lamps in general use on board ship?

254.

Define the following terms:—Ampere, volt, ohm, watt. What is the measure of an electrical horse-power?

255.

Explain the uses of switches, brushes, commutators, cutouts field-magnets, armatures and resistance-coils.

256.

Why is it desirable to fit a dynamo in a cool place on board ship?

257.

What undesirable effect will ultimately occur to an electric wire, whose sectional area is constantly diminishing, say, through corrosion?

258.

What danger might arise from leading electric wire through coal bunkers?

259.

Is it better to lead electric wires, above or below side-scuttles? Why?

260.

What instruments are used on board ship to ascertain the strength of an electric current?

261.

Many ocean-going steamers are fitted with hydraulic cranes, &c. From where do they obtain their power? How is the hydraulic pressure kept at a relatively constant amount?

262.

Is any difficulty experienced in working hydraulic cranes in frosty weather? If so, why?

263.

Describe any steam steering gear you are acquainted with?

264.

When the helm is put hard over and the ship is going full speed ahead, what prevents the rudder returning to the amidship position?

265.

In the case of a steamship under way, does the officer, or man manipulating the steam steering wheel overcome any resistance exerted by the rudder?

266.

Explain clearly what is being done by a helmsman manipulating the wheel of a steam steering engine?

267.

Is there any difference between the amount of horse-power required to put a helm hard over, in a given time, when the vessel is going full speed ahead, and when she is going full speed astern? This question refers to a case of a steamer fitted with one rudder only, and demands more complete answer than merely "yes" or "no."

268.

What precautions should be taken before removing a manhole-door from a steam-boiler and why are these precautions necessary? In the absence of such precautions what casualties might occur?

269.

Describe the chief features of the engine-governor fitted to a steamer you have served in. Describe its action. Give the maker's name and name of ship.

NOTE.—The following six questions refer to oil-motors, fitted to launches which carry passengers:—

270.

Name the principal parts of an oil motor, and briefly state their functions. Give the name of the makers of the motor.

271.

What kind of oil is usually employed in oil motors? What is its flashpoint? What its specific gravity? What its caloritic power? What precautions are taken in its storage to guard the public against casualty by fire or explosion?

272.

How many cylinders are generally used in oil motors? What kind of pistons are fitted? How frequently (measured in revolutions) is explosion per cylinder effected? How is explosion in the cylinder carried out?

273.

Describe how an oil motor is started. If starting prove difficult, where would you chiefly look for defects? How is piston speed modified? How is the speed of vessel verified? How is reversing effected?

274.

Before examining an oil motor with a naked light, what steps should be taken for safety's sake?

275.

How frequently should an oil motor, working 12 hours a day, be opened up for examination, cleaned and its parts readjusted? What difficulty arises when the internal parts become foul with carbonized oil?

NOTE.—Questions isolated from their context should be read in the light of the context. Thus the "sparking" referred to in question 248 relates to the sparking in an electric lighting circuit on board ship. *See* question 246.

APPENDIX B.

TESTIMONIAL.

I hereby certify that has served with me in the engine-room of as serang or principal tindal for a period of during which time he has discharged his duties to my entire satisfaction.

I consider that he fully understands the working of an engine, and has sufficient tact, presence of mind, and energy to look after and manage the working of the engines of a river steamer having engines of 30 nominal horse-power or upwards, but of less than 80 nominal horse-power.

Date *Signed.*

No. and description of certificate.

ANY engineer giving a testimonial in this form should be very careful in doing so, as the document may materially influence the applicant's eligibility as a candidate.

APPENDIX C.

Examination in rough working drawing for an Engineer's Certificate of Competency.

1. The regulations of the Local Government in regard to the qualifications of a candidate for an engineer's certificate of competency are—

He must be able to make rough working drawings of the different parts of the engines and boilers.

He must be able to state the general proportions borne by the principal parts of the machinery to each other.

2. In accordance with these clauses, a candidate for an engineer's certificate is required to make a rough working drawing of the parts specified. A mechanic who has been some years in charge of marine engines and boilers ought by this time to have familiarly in his mind the general construction of at least one set of engines and boilers, say that set he was last with. Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed; absurd dimensions will be failure in practical knowledge.

3. The drawing must, however, be practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations—just as the candidate would require to be supplied to him if he had to make the parts to the design of another person.

4. A clear hand sketch showing the construction completely, and fully dimensioned, will be accepted if the candidate prefers this alternative.

5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.

6. Candidates are hereby cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as their statement of what they know about the construction of any part required.

7. The statements given in by a candidate may be in themselves, apparently, of little importance, but, as sample material from which the state of the candidate's knowledge of engines and boilers is to be inferred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.

8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensions upon a sketch or a drawing. The test of this is, pratically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.

9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name, in the statement on the other side, the particular parts which he has fully dimensioned.

10. All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.

11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order, but a recommendation.

12. The candidate is not expected to design anything; he has merely to sketch or draw a something with which he is expected to be already familiar.

13. Pencil in nothing after half-past 3: all the dimensions, the figures, and the darts must be inked in; employ the remaining time in examining the drawing and in inking in any figures which may have been before overlooked, and in checking the dimensions.

14. Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

15. Fill in and sign the following statement:—

(Specimen.)

Subject for examination in rough working drawing.

(Read the foregoing general instructions.)

A common slide valve with its spindle. Show also an outline section of the parts at the cylinder face. Show the provision for connecting the side valve to the spindle.

The candidate is requested to fill up the following, and to attach this paper to his drawing:—

Statement by the candidate.

The accompanying drawing, made by me this day, without referring to any document, and without the assistance of any person, is intended by me to be sufficient for the new construction of the parts above described to fit the places of similar parts which are to be removed. The construction is similar to what I have been with in the _____ steamer _____, but the dimensions may be different.

The diameter of the cylinder is _____

The stroke of the piston is _____

The stroke of the valve is _____

The cover at top end on steam side is _____

The cover at bottom end on steam side is _____

The lead at top is intended to be _____

The lead at bottom is intended to be _____

The inside cover is + _____ or — _____

The thickness of the face of vavle is _____

The thickness of the body of vavle is _____

The greatest opening for steam will be _____

That gives an area equal to one _____

The opening for exhaust when the crank is on the top-centre is _____

That gives an area equal to _____ th of piston.

The length of the connecting rod is _____

The valve will cut off steam on the down stroke at _____

The valve will cut off steam on the up stroke at _____

} The candidate may omit this part if he chooses.

The parts fully dimensioned in ink, are _____

Dated at _____ *this* _____ *day of* _____ 18

_____ *Applicant.*

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 7th July 1910.

No. 147.—Babu Ramani Mohan Singh, Overseer, is transferred, in the interests of the public service, from the Nadia Rivers to the Cossye Division.

T. BUTLER,
Chief Engineer, Bengal.

ESTABLISHMENT.

The 11th July 1910.

No. 150.—Babu Binay Bhushan Mukharji, Overseer, is, on return from leave, posted to the Central Circle.

A. S. THOMSON,
Chief Engineer, Bengal.

SUBORDINATE CIVIL SERVICE.

No. 3334A.

No. 1642A.D.—The 4th July 1910.—Mr. W. C. Rooke, Probationary Sub-Deputy Collector, Patna, is allowed leave for one month and-a-half, under article 260 of the Civil Service Regulations (without allowances), with effect from the 10th June 1910, or any subsequent date on which he may have availed himself of it.

Patna.

No. 1706A.D.—The 7th July 1910.—Babu Sharbari Kanta Gupta, Sub-Deputy Collector, Presidency Division, is posted to the head-quarters station of the 24-Parganas district.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 1st July 1910.—Babu Gour Gopal Mitra, Sub-Inspector of Schools, Nayna Circle, in the district of Midnapore (class VIII), is allowed leave of absence, under article 260 of the Civil Service Regulations, for three months, from 1st June 1910, or any subsequent date on which he may have availed himself of it.

Babu Girija Bhusan Ghosh, B.A., is appointed to act as Sub-Inspector of Schools, Nayna Circle, in the district of Midnapore, and in class VIII of the Subordinate Educational Service, *vice* Babu Gour Gopal Mitra, on leave.

The 5th July 1910.—Maulvi Shaikh Bulaki, a Sub-Inspector of Schools, Gaya (on probation), now Officiating Sub-Inspector of Schools, Adapur, in the district of Champaran (substantively *pro tempore* in class VIII), is allowed leave of absence, under article 260 of the Civil Service Regulations, for two months from 13th June 1910.

Babu Jadu Nath Sahay is appointed to act as Sub-Inspector of Schools, Adapur, in the district of Champaran, and in class VIII of the Subordinate Educational Service, with effect from the date on which he joins the appointment, *vice* Maulvi Shaikh Bulaki, on leave.

Maulvi Syed Ziaul Huq, Special Inspecting Officer for Muhammadan Education, Orissa Division (class VIII), is allowed leave of absence, under article 260 of the Civil Service Regulations, for one month from 19th June 1910, or from any subsequent date on which he may avail himself of it.

The 6th July 1910—The orders of 31st May 1910, sanctioning an exchange of appointments between Babu Satis Chandra Mukherji, Additional Deputy Inspector of Schools, Birbhum (class VI), and Babu Umesh Chandra Lal, Additional Deputy Inspector of Schools, Sonthal Parganas (class VI), are cancelled.

The 7th July 1910.—Babu Hira Lal Mukherji, an Assistant, office of the Director of Public Instruction (class III), is allowed leave of absence, under article 260 of the Civil Service Regulations, for one month from 20th June 1910.

Babu Abhay Pada Ghosh, a temporary Assistant in the office of the Director of Public Instruction on a salary of Rs. 25 a month, is appointed to act as an Assistant in the same office and in class VIII of the Subordinate Educational Service, *vice* Babu Hira Lal Mukherji, on leave.

Babu Mahendra Nath Sarkar, M.A., Officiating Lecturer of Philosophy, Sanskrit College, is confirmed in that appointment and in class IV of the Subordinate Educational Service, with effect from 5th August 1909.

The 8th July 1910.—Babu Pratap Chandra Saranghi, a Sub-Inspector of Schools, Cuttack (class VIII), is allowed leave of absence, under article 260 of the Civil Service Regulations for two months from 1st July 1910.

Babu Bhagavan Chandra Singh, an Assistant Sub-Inspector of Schools, Cuttack (class I of the Lower Subordinate Educational Service), is appointed to act as a Sub-Inspector of Schools in that district, and in the Subordinate Educational Service, *vice* Babu Pratap Chandra Saranghi, on leave.

The orders of 28th April 1910, granting leave, under article 260 of the Civil Service Regulations, for two months, from 1st May 1910, to Babu Bhagabat Prasad Bahidar, a Sub-Inspector of Schools, Sadar subdivision, Sambalpur (class VIII), are hereby cancelled.

The 9th July 1910—Babu Jay Krishna Prasad, B.A., Sub-Inspector of Schools, Barh, in the district of Patna (class VIII), is allowed leave of absence, under article 260 of the Civil Service Regulations, for six weeks, from 1st June 1910, or from any subsequent date on which he may be relieved.

The 11th July 1910.—Babu Lakshmi Narayan Ray, an Assistant Master of the Nawab Bahadur's Institution, Murshidabad (class VIII), is allowed leave of absence, under article 272 of the Civil Service Regulations, for two months, from 24th June 1910, or from any subsequent date on which he may avail himself of it.

Babu Uday Chandra Lahiri, an Assistant Master of the Nawab Bahadur's Institution, Murshidabad (class IV of the Lower Subordinate Educational Service), is appointed to act in the Subordinate Educational Service, *vice* Babu Lakshmi Narayan Ray, on leave.

Babu Srish Chandra Ghosh, an Assistant in the office of the Director of Public Instruction, Bengal (class VIII), having joined an officiating appointment in the Home Department with effect from 1st July 1910, the unexpired portion of the leave granted to him under the orders of 6th April 1910 and 17th May 1910 is hereby cancelled.

Babu Srish Chandra Ghosh (class VIII), who has joined an officiating appointment in the Home Department, is permitted to retain a lien on his substantive appointment in class VIII of the Subordinate Educational Service as an Assistant in the office of the Director of Public Instruction, Bengal. for a period of two months, from 1st July 1910.

Babu Prabhash Chandra Ghosh, Head Clerk, Central Text Book Committee (class II of the Lower Subordinate Educational Service), will continue to act as an Assistant in the office of the Director of Public Instruction, Bengal, and in the Subordinate Educational Service, *vice* Babu Srish Chandra Ghosh.

G. W. KÜCHLER,
Director of Public Instruction, Bengal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTIFICATION.

THE following rule framed by the Board under section 17 of the Legal Practitioner's Act, XVIII of 1879, regarding the practice of Revenue Agents is published for general information:—

For the last sentence of rule 15, Chapter III, Section IV, page 66 of the Bengal Practice and Procedure Manual, 1908, *substitute* the following:—

"But no certificate, which has been left unrenewed for more than three years, shall be renewed without the permission of the Commissioner of the Division in which the Revenue Agent's certificate was last renewed."

By order of the Board of Revenue, L. P.,

E. LISTER,
Secretary.

LAND REVENUE—(*Miscellaneous*).
BOARD OF REVENUE, L. P.

No 3386B.

NOTIFICATION.

MIS. REVENUE DEPARTMENT.

CUSTOMS BRANCH.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 27th June 1910.

IN exercise of the powers conferred by section 9 of the Sea Customs Act, 1878 (VIII of 1878), and with the sanction of the Lieutenant-Governor, and in supersession of the Notifications specified in the margin, the Board of Revenue make the following rules as to work by officers of Customs:—

1. Notification No. 6040 B., dated 10th November 1908.
2. Notification No. 2318B., dated 30th April 1909.
3. Notification No. 5179B., dated 27th September 1909.

1. Subject to the provisions of section 72 of the Sea Customs Act, 1878, officers of Customs shall, if so required by the Customs Collector, perform (1) on ordinary days, (2) on ordinary holidays, (3) on special holidays, and (4) on Sundays, the work indicated in column 1 of the subjoined table, during the times respectively indicated in columns 2 to 5 of that table.

2. The performance of any such work as aforesaid shall be subject to the payment of the fees specified in columns 2 to 5, respectively, of the said table, and to the observance of the other directions given in that table.

By order of the Board of Revenue, L. P.,

SRIGOPAL BHATTACHARJI,
Secretary.

TABLE SHOWING WORK TO BE PERFORMED FOR THE PUBLIC BY OFFICERS OF CUSTOMS, AND THE FEES PAYABLE THEREFOR.

General explanations and directions.

1. Except where otherwise specified, the fees specified in this table are payable to the officer concerned.

2. In order to allow the public the free use of Preventive Officers on boardship and at the Customs wharves between the hours of 6 A.M. and 6 P.M. on ordinary working days, the Government undertake the payment of fees to their officers employed, for any overtime earned during those hours. Government ordinarily pay at the rate of Re. 1 per hour for every hour in excess of 9 hours which an officer works between 6 A.M. and 6 P.M., provided that no such fee shall be paid unless the officer has worked for a total of 54 hours in the week or for a number of hours equal to nine times the number of days during which he has been at work during the week. See explanatory table in margin. In the following cases the payment takes the form of an allowance:—

Nature of work.	Hours during which overtime may be earned.
Work at the Customs wharves, including Jetty extension, Shalimar, Ramkristopore, Kidderpore Docks and the Petroleum wharves at Budge Budge. (This includes passing of opium into the Custom House or the Presidency Opium godowns, or baggage from the jetties to the Custom House godowns.)	6 A.M. to 9 A.M.
Any description of work on boardship (except guard duty).	6 A.M. to 7 A.M. and 4 P.M. to 6 P.M. at the Jetties and Docks; and 6 A.M. to 8 A.M. and 5 P.M. to 6 P.M for vessels in the stream.

(1) Custom House Inspector, Rs. 75 per mensem, local allowance.
(2) Two launch officers, Rs. 50 each per mensem, local allowances.
(3) Two officers in charge (*a*) of Shalimar and Ramkristopore and (*b*) of Patrols, Rs. 30 each per mensem, local allowances.
(4) Six officers on shore patrol, Re. 1 each daily, travelling allowance.
(5) Officers at Sulkea and Kidderpore fixed overtime allowances per mensem as follows—

	Sulkea. Rs.	Kidderpore. Rs.
Inspector	70	30
Ghat officer	50	20
Muharrir	4	2

Government also pays overtime at the rate of Rs. 16 a day for the attendance of an Appraiser at the General Post Office on Sundays and on special holidays.

3. If a merchant or shipowner requires the services of Preventive Officers between 6 A.M. and 8 A.M. he shall present his request to that effect to the Preventive Inspector in sufficient time to enable such officer to arrange for the attendence of necessary staff. If the services of an officer are requisitioned between the hours of 6 A.M. and 8 A.M. for work on boardship, or between 6 A.M. and 9 A.M. for work at the Customs wharves, and are not utilized, the party at whose request the officer was directed to attend will pay the overtime, and not Government. Such attendance shall not be counted as attendance for Government towards making up a total of 54 hours per week.

4. The Collector of Customs, Calcutta, is prohibited from granting permission to work cargo in sea-going vessels ordinarily on Sunday. He shall, however, give written permission in the following cases:—

I. When the application to work is supported by a declaration in a prescribed form, signed by the owner or agent of the vessel, certifying that the permission is absolutely necessary to enable the vessel to leave the port owing to the state of the river or to the condition of the weather.

II. When the application is made on grounds of special urgency, provided the Collector of Customs is satisfied that such grounds are sufficient.

III. When the application is made to discharge or load live-stock, ship's stores, ballast or coal.

In case II permission shall only be granted on payment of a fee equal to 6¼ annas on the net registered tonnage of the vessel, subject to a minimum of Rs. 50 and a maximum of Rs. 200.

When no work is done, the whole or portion of the fee may be refunded at the discretion of the Collector, who will take into consideration the attendance of officers for work.

5. In the case of fees payable by the public, work extending up to, and not exceeding, 15 minutes beyond the regular hours is not charged for. Work in excess of 15 minutes is charged as a full hour. In the case of work at the wharves, however, only 5 minutes grace is allowed beyond the regular hours. Work extending to more than 5 minutes beyond the hour will be charged as a full hour to the agent or merchant on whose account the officer has been detained. The 15-minute rule applies also in the case of Government overtime for work on boardship

Nature of Work.	Ordinary Days.		Ordinary Holidays.		Special Holidays.		Sundays.		Fees by whom payable.
	Hours.	Fees.	Hours.	Fees.	Hours.	Fees.	Hours.	Fees.	
1	2		3		4		5		6
1. Work on boardship :—General cargo, (excluding salt, coal, live-stock, ship's stores and ballast).	6 A.M. to 6 P.M. 6 P.M. to 6 A.M.	(*a*) No fee ... (*a*) Re. 1 per hour per Preventive officer.	7 A.M. to 4 P.M. for vessels at the jetties or docks and 8 A.M. to 5 P.M. for vessels in stream.	Rs. 5 per day per officer. Where vessels are in charge of a Divisional Officer, the ordinary holiday fee of Rs. 5 shall be charged proportionately to the ships under his supervision.	7 A.M. to 4 P.M. for vessels at the jetties or docks, and 8 A.M. to 5 P.M. for vessels in stream. Before and after above hours between midnight and midnight.	Rs. 5 per day per officer *plus* an extra fee of Rs 100 in each case divided between the Chief Inpector. Inspectors and officers employed, according to their salaries, after deducting Rs. 50 as the special fee of the Chief Inspector, from the total amount of the special fees levied for the day. If no work is performed on board a vessel that leaves port on a special holiday, the special fee of Rs. 100 will be refunded. Re. 1 per hour per officer in addition to above.	As in column 3.	(*b*) Fees as in column 3 *plus* extra fee of Rs. 200 of which the Inspector and officers employed receive 40 per cent. divided between them according to their salaries.	Ship's Agent or merchant, as the case may be.
2. Work on boardship :—Salt.	6 A.M to 6 P.M. 6 P.M. to 6 A.M.	(*a*) No fee ... (*a*) Inspector, Rs. 3 per scale per watch. Preventive officer, Re. 1 per hour. Charandar in charge of boats, annas 8 per day or night.	Before and after above hours.	Re. 1 per hour per officer save that between 6 P.M. and 6 A.M. Inspector and Charandars are paid fees given in column 2.	7 A.M. to 4 P.M. for vessels at the jetties or docks and 8 A.M. to 5 P.M. for vessels in	Weighing officer Rs. 5 per scale; Inspectors each Rs. 3 per scale *plus* the extra fee of Rs. 100 which shall be pooled and divided in the same manner as the extra fee of Rs. 100 mention-	Do. ...	(*b*) Fees as in column 4 except that the extra fee will be Rs. 200, instead of Rs. 100. Of this fee 40 per cent. will be	

		Charandar in attendance, annas 4 per day and annas 4 per watch, per night.			stream.	ed above, *plus* also in the case of vessels discharging salt into bond, an extra fee of Rs. 50, which shall be divided according to salary among the officers on board together with (if any work is done at the golas) the officers working at the golas.		divided between the Inspectors and officers employed, according to their salaries.
					Before and after these hours between midnight and midnight.	Re. 1 per hour per officer in addition to above.		
3. Work on boardship:— Coal, live-stock, ship's stores and ballast.	...	Shipment of ballast is permitted without the presence or authority of a Customs Officer and without the delivery of a shipping bill. But vessels taking ballast and having salt exposed will pay a fee of Rs. 5 for the day; the usual overtime fee of Re. 1 per hour will be charged for as many hours as the vessel is worked between midnight and 6 A.M., with a minimum charge of Rs. 5.	...	As in column 2 ...	...	As under General cargo, but live-stock and fresh provisions may be shipped or landed free of charge.	Do. ...	(*b*) As under General cargo, but live-stock and fresh provisions may be shipped or landed free of charge.

(*a*) 1. If a night officer is applied for and his services are not utilized, or are utilized for less than 5 hours, he is entitled to a minimum attendance fee of Rs. 5; but if the officer was required for the discharge of salt, the minimum attendance fee is Rs 5, if his services are not utilized or are utilized till midnight, and Rs. 8 if utilized after midnight.

2. If an officer is required to remain in attendance after working hours for the convenience of the merchant or ship-owner, his services will be paid for at the rate of Re. 1 per hour.

3. Agents of vessels discharging salt or other cargo beyond the port limits shall pay the travelling and other expenses of the Preventive Officers and peons required by them. They shall also pay a fee of Rs. 4 for the day and Rs. 4 for the night for each Preventive Officer in charge of boats in transit between the vessel and warehouses.

(*b*) When no work is done, the whole or portion of the fee may be refunded at the discretion of the Collector, who will take into consideration the attendance of officers for work.

(*a*) The fee of Rs. 4 for the Preventive (Bond) officer is only payable in cases in which no officer is employed at the expense of licensee and stationed at the warehouse.

(*b*) 1. Provided that an officer attending to a transhipment or drawback will not be allowed to charge Government overtime fees in addition to fees under these heads.

2. Besides these fees the Preventive officer in charge gets a share, according to his salary, of the special fee of Rs. 100 on special holidays, or Rs. 200 on Sundays paid by the ship's agents.

(*c*) 1. The fees are credited to Government in cases in which the work is done between 9 A.M. and 6 P.M. on ordinary working days, or 9 A.M. to 2 P.M. on Saturdays.

2. In addition to the examination or appraisement fee, the applicant must provide free conveyance or the cost of conveyance for the officer from and to the Custom House. If the officer is required to go to Budge-Budge, the applicant must deposit Rs. 3-8 for payment to him in lieu of free conveyance in addition to the usual fee.

3. Cost of conveyance is similarly recoverable from the Port Commissioners for the work done by an officer deputed at their request.

18. Opium shipments (*b*).	After 4-30 P.M.	Chests 1 to 20 Rs. 2, 21 to 50 Rs. 3 and upwards of 50 Rs. 5.							

(*a*) The fee is to be credited to Government if the opium is returned to the godowns during ordinary working hours, otherwise it is payable to the Preventive officer in charge.

(*b*) The Presidency opium godowns will be kept open free of charge for the delivery of opium chests to shippers between the hours of 10-30 A.M. and 5 P.M. on ordinary working days, and between the hours of 8 A.M. and 7 P.M. on days (including Saturdays and gazetted holidays) preceding the sailing of steamers in which the shipment of opium has been notified. For delivery of opium chests outside these hours the Opium Intendant shall require the payment of a fee of Rs. 16 in respect of each requisition, and a further fee of two annas in respect of each chest delivered. No application for delivery of opium chests shall be received after 9 P.M.

No. 3392B.

NOTICE is hereby given that the Eighth Sale of Opium, the Provision of 1907-1908 and 1908 1909, will be held at the Government Opium Sale Room, No. 2, Charnock Place, on Wednesday, the 3rd August 1910, at 11 A.M., and will comprise 3,300 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, consisting of season 1907-1908.	1,650
Opium manufactured at the Ghazipur Factory, consisting of season 1908-1909.	1,650
Total ...	3,300

2nd.—The general conditions of the Sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 26th November 1909, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th August 1910, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale Room will be received after 3-30 P.M. of Monday, the 8th August 1910, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th August 1910.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next, on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATE.	Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.

NOTIFICATION.

No. 3178A.—In exercise of the powers conferred by section 21 of the Indian Coinage Act, 1906 (III of 1906), the Governor-General in Council is pleased to direct that the following shall be substituted for paragraph 3 (1), (2) and (3) of the Notification of the Government of India, in the Finance Department, No. 1448A., dated the 8th March 1907, namely:—

(1) A loss of 6¼ per cent. below standard weight in the case of the rupee and of 12½ per cent. in the case of the half-rupee, quarter-rupee and eighth of a rupee shall be the limit of reasonable wear; and a loss of 25 per cent. below standard weight shall be the further percentage referred to in section 17 of the Act, in the case of all silver coins.

(2) Where a rupee or a half-rupee which has been diminished in weight so as to be more than 2 per cent., but not more than 6¼ per cent. or 12½ per cent., respectively, below standard weight, and which has not been fraudulently defaced, is tendered to any person authorised to act under section 16 of the Act, such person shall accept the coin at its nominal value, and the coin shall thereupon be withdrawn from circulation at Government cost.

(3) Where a rupee or a half-rupee which has been diminished in weight so as to be more than 6¼ per cent. or 12½ per cent., respectively, but not more than 25 per cent. below standard weight, and which has not been fraudulently defaced, is tendered to any person authorised to act under section 16 of the Act, such person shall, if the tenderer so requests, instead of returning the cut coin, accept it at the following rates, namely:—

(*a*) rupees weighing between $\frac{15}{16}$ths and $\frac{7}{8}$ths of their proper weight, at the rate of 14 annas;

(*b*) rupees weighing between $\frac{7}{8}$ths and $\frac{13}{16}$ths of their proper weight, at the rate of 13 annas;

(*c*) rupees weighing between $\frac{13}{16}$ths and $\frac{3}{4}$ths of their proper weight, at the rate of 12 annas; and

(*d*) half-rupees at the rate of 6 annas.

WEDNESDAY, JULY 13, 1910.

PART IB.

Municipal and Local.

NOTIFICATIONS.

No. 933L.S.-G.—The 7th July 1910.—The following draft of rules which the Lieutenant-Governor proposes to make under the Bengal Local Self-Government Act of 1885 is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 13th August 1910, and any objection or suggestion received by the undersigned before that date will be duly considered.

H. WHEELER,
Secy. to the Govt. of Bengal.

DRAFT.

IN exercise of the power conferred by clause (*t*) of section 138 of the Bengal Local Self-Government Act of 1885, and with reference to sections 139 and 143 of that Act, the Lieutenant-Governor is pleased to make the following rules as to the preliminary publication, the confirmation and the final publication of by-laws made by District Boards or Local Boards under section 139 or section 140 of that Act:—

1. All draft by-laws framed by a District Board or Local Board under section 139 or section 140 of Ben. Act III of 1885 shall be published in the following manner:—

(*a*) the draft by-laws, together with a notice specifying the date on or after which the draft will be taken into consideration with a view to its final adoption, shall be written both in English and in the vernacular of the district and deposited in the office of the District Board or the Local Board, as the case may be;

(*b*) copies of the draft and notice, in English and in the said vernacular, shall also be posted up in a conspicuous position at the following places within the district:—

(*i*) the offices of the District Board and the Local Boards,
(*ii*) the offices of the District Magistrate and Collector,
(*iii*) the Subdivisional offices,
(*iv*) the Judge's Court,
(*v*) the Munsifs' Courts,
(*vi*) the Sub-Registry offices,
(*vii*) the police-stations and outposts,
(*viii*) the Railway stations,
(*ix*) the principal market-places and ferry ghats,
(*x*) Post Offices, and
(*xi*) such other public places (if any) as may be selected by the District Magistrate:

Provided that, in the case of by-laws framed by a Local Board, the draft and notice shall be posted only at such of the places hereinbefore mentioned as lie within the subdivision over which the Board has authority.

2. When posting up copies under rule 1, clause (*ii*) and clause (*iii*), a public proclamation shall be made, by beat of drum, at the district head-quarters and at the subdivisional head-quarters where there are Local Boards' offices, notifying the fact that copies have been so posted up, and that the original is open to inspection in the office of the District Board or the Local Board, as the case may be.

3. The notice referred to in rule 1 (*a*) shall allow a period of six weeks for objections or suggestions by the public in regard to the draft.

4. (*1*) When the draft by-laws are finally adopted by a District Board or Local Board, after considering all objections and suggestions received, they shall be forwarded for confirmation to the Commissioner, with the said objections and suggestions.

(*2*) By-laws made by a Local Board shall be forwarded to the Commissioner through the District Board,

5. (*1*) When by-laws follow model by-laws approved by the Local Government, the Commissioner may confirm them without reference to that Government.

(*2*) When by-laws do not follow model by-laws approved by the Local Government the Commissioner shall submit them to that Government for approval before confirmation.

6. Before confirming any by-laws, the Commissioner—

(*a*) shall publish them in the *Calcutta Gazette*, with a notice stating that they will be taken into consideration on or after a specified date (such date being not less than one month after such publication) and that any objection or suggestion received from any person before that date will be considered, and

(*b*) shall consider all objections and suggestions received before the said date.

7. When any by-laws have been confirmed by the Commissioner, he shall—

(*1*) publish them in the *Calcutta Gazette*, and

(*2*) cause them to be posted for a period of one month in English and in the vernacular of the district,—

(*a*) in the case of by-laws made by a District Board—at the office of the District Board and at the offices of all Local Boards subordinate to the District Board, and

(*b*) in the case of by-laws made by a Local Board—at the office of that Board.

Howrah.

No. 685T.M.—The 7th July 1910.—In exercise of the power conferred by section 640 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899), read with section 22 of the Bengal General Clauses Act, 1899 (Ben. Act I of 1899), the Lieutenant-Governor is pleased to declare his intention to make the following amendments in Annexure I to Notification No. 822T.M., dated the 25th July 1907 (published at page 94 of Part IB of the *Calcutta Gazette* of the 31st July 1907), by which certain portions of the said Calcutta Municipal Act were extended to part of the town of Howrah, namely :—

I. Before the first entry in the first table under the head "Chapter XLIV, Penalties," insert the following :—

Section 313 ...	Requisition to provide privies and urinals for premises used by large numbers of people.	Two hundred rupees.

II. Before the first entry in the second table under the said head, insert the following :—

Section 313 ...	Requisition to provide privies and urinals for premises used by large numbers of people.	Twenty rupees.

2. Any objection to the said amendments on the part of the Commissioners of the Municipality of Howrah or any inhabitant thereof should be submitted in writing, through the District Magistrate, Howrah, to the undersigned before the 14th August 1910.

Howrah.

No. 699T.M.—The 8th July 1910.—In exercise of the power conferred by section 308 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Lieutenant-Governor is pleased to sanction the following plan for lighting a portion of the Howrah Municipality with gas :—

PLAN.

1. The portion of the Municipality which it is proposed to light with gas lies within the following boundaries :—

(*a*) The block bounded by a line sixty feet north of Benares Road from its junction with Hooghly Road and Grand Trunk Road up to the junction with Sita Nath Bose Lane ; thence along a line sixty feet west and south of Sita Nath Bose Lane to its junction with Khetra Mitra Lane and Grand Trunk Road ; and thence along a line sixty feet west of Grand Trunk Road to its junction with Benares Road.

(*b*) The block bounded by a line sixty feet west of Bantra Road from its junction with Panchanantola Road up to its junction with Circular Road and Khurut Road; thence along Khurut Road up to its junction with Kali Kundu Lane and thence along a line sixty feet west of Kali Kundu Lane to its junction with Panchanantola Road and along a line sixty feet south of Panchanantola Road up to its junction with Bantra Road.

(*c*) The whole block bounded by a line sixty feet west and north of Kasundia Road from its junction with Khurut Road up to its junction with Nabin Senapaty Lane; thence along a line sixty feet west of Nabin Senapaty Lane to its junction with Chandra Kumar Banerjee Lane; thence along a line sixty feet west of Chandra Kumar Banerjee Lane to its junction with Kaipukur Lane; thence along a line sixty feet north and west of Kaipukur Lane to its junction with Sibpur Road; thence along a line sixty feet south and west of Sibpur Road up to its junction with Sadhan Mazumdar Lane; thence along a line sixty feet north of Sadhan Mazumdar Lane to its junction with Kasi Nath Chatterji Lane; thence along a line sixty feet west of Kasi Nath Chatterji Lane to its junction with Haradeb Bhattacharji Lane; thence along a line sixty feet west of Haradeb Bhattacharji Lane to its junction with Khetra Mohan Banerji Lane; thence along a line sixty feet west and south of Khetra Mohan Banerji Lane to its junction with Circular Road; thence along a line sixty feet west and south of Circular Road up to its junction with Shalimar Road and Grand Trunk Road; thence along a line sixty feet south and east of Grand Trunk Road up to its junction with Rajnarayan Ray Chaudhury Ghat Road and Sibpur Road; thence along a line sixty feet south of Sibpur Road to its junction with Dharamtola Lane; thence along a line sixty feet west of Dharamtola Lane to its junction with Bajey Sibpur Road; thence along a line sixty feet north, west and north of Bajey Sibpur Road up to its junction with Cowies Ghat Road and Grand Trunk Road; thence along a line sixty feet west of Grand Trunk Road up to its junction with Khurut Road; thence along a line sixty feet south of Khurut Road to its junction with Kali Kundu Lane, and thence along Khurut Road up to its junction with Kasundia Road.

(*d*) The block bounded by a line sixty feet west of Hooghly Road from its junction with Naskarpara Lane up to its junction with Chandalpara Lane; thence along the boundary line of Howrah Municipality up to the junction of Joya Bibi Lane; thence along a line sixty feet south and west of Joya Bibi Lane up to its junction with Naskarpara Lane, and thence along a line sixty feet north of Naskarpara Lane up to its junction with Hooghly Road.

2. Ninety-seven gas lamps will be installed within the above portion of the Howrah Municipality. It is estimated that the total cost for the installation will be Rs 7,032-8 and that the cost of maintenance and lighting will be Rs. 72-8 per annum. The Municipal Commissioners have entered into an agreement with the Oriental Gas Company for the supply of gas and for the putting up and maintenance of the lamps.

3. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid area by imposing an annual lighting rate of 3 per cent. on the annual value of holdings within the area to be lighted as defined in paragraph 1 of this notification and from the annual surplus from the existing lighting rate. The income to be derived from the lighting-tax of the aforesaid area is estimated to be Rs. 7,373-4 per annum..

Bankura.

No. 934M.—The 12th July 1910.—It is hereby notified that, under section 59 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor approves the election by the Commissioners of the Vishnupur Municipality, in the district of Bankura, of Babu Bhola Nath Bhattacharji to be their Chairman, *vice* Babu Rakhal Mohan Banarji, resigned.

Hazaribagh.

No. 936M.—The 12th July 1910.—The Commissioners of the Chatra Municipality, in the district of Hazaribagh, having recommended at a meeting that the number of the Commissioners of that Municipality should be altered from fifteen to twelve, the Lieutenant-Governor hereby declares his intention to make that alteration.

2. Any ratepayer of the Municipality who objects to the proposed alteration should submit his objection in writing through the Deputy Commissioner of Hazaribagh to the undersigned before the 25th August 1910.

Patna.

No. 938M.—The 12th July 1910.—It is hereby notified for general information that the Lieutenant-Governor, in exercise of the power conferred on him by section 221 of the Bengal Municipal Act (Bengal Act III of 1884), and in accordance with the recommendation of the Commissioners of the Khagole Municipality, in the district of Patna, made at the meeting specially convened to consider the question, proposes to make the following order.

2. The draft will be taken into consideration on the 13th August 1910, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

Draft Order.

In exercise of the power conferred by section 221 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), and upon the application of the Commissioners of the Khagole Municipality, in the district of Patna, made in pursuance of a resolution passed at a meeting specially convened to consider the question, the Lieutenant-Governor is pleased to extend the provisions of Part VI of the said Act to the said Municipality.

No. 990San.—The 12th July 1910.—In exercise of the power conferred by section 1 of the Bengal Vaccination Act, 1880 (Ben. Act V of 1880), the Lieutenant-Governor is pleased to extend the said Act to the Khagole Municipality, in the district of Patna.

Patna.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

CORPORATION OF CALCUTTA.

THE General Committee, having previously given notice of their intention and no objection having been received within one month from the date of the publication of such notice, hereby, under section 350 (4) of Act III (B.C.) of 1899, define the general line of buildings on both sides of Manicktollah Street in Ward No. 6, in accordance with the plan approved by the General Committee on the 29th April 1910.

B. HEATON, *Principal, Civil Engineering College.*

SIBPUR, *the 22nd June 1910.*

PLEADERS' SURVEY CLASSES, 1911.

1. Classes for the training of Pleaders in Surveying will be opened in January and February 1911 in connection with the Civil Engineering, College, Sibpur, the Bihar School of Engineering, Bankipur, the School of Engineering, Dacca, and the Survey School at Cuttack.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the head of institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or thoer residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the Pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 15th November. The application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join *i.e*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centres and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed :—

(*a*) Practical work—

Chain surveying. | Prismatic compass. | Plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.	Variation of compass.
Construction of scales.	Preparation of field-books from maps.
Mensuration of areas.	Elementary principles of levelling.
Plotting.	Plotting of level sections.

Candidates who obtain the required percentage of attendance at this course of instruction are qualified to appear at the Practical Examination held in 1912.

B. HEATON,

Principal Civil Engineering College, and
Secretary, Pleader's Survey Examination Board.

NOTIFICATION.

ANNUAL EXAMINATION OF PLEADERS IN SURVEYING.

(See Government Notification No. 3157J., dated 25th November 1909.)

1. The next examination will be held in February 1911 and will be conducted at the following centres, provided that not less than five names be registered at each centre :— Sibpur, Bankipur, and Cuttack in Bengal, and at Dacca in Eastern Bengal and Assam.

2 Candidates practising in the Courts of the Presidency and Burdwan Division, will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhuts Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Eastern Bengal and Assam, at Dacca.

3. In the event of more than 20 or less than five names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

4. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and

(i) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack and Dacca not less than one year and not more than four years previous to the date of the examination, or

(ii) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(iii) has passed the Sub-Overseer Examination, or

(iv) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(v) be specially exempted from the operation of this rule by the Board controlling the examination.

5. Candidates wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose court he is enrolled and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 15th December.

6. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, which will in no case be returned.

7. No candidate will be admitted to this examination more than three times. Each examination is complete in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the Examiner in it.

8. The programme of the examination will be published in the *Calcutta* and *Eastern Bengal and Assam Gazette*.

B. HEATON,

Principal, Civil Engineering College,
and Secretary, Pleaders' Survey Examination Board.

NOTICE.

PATNA DIVISION.

MATRICULATION TEST-EXAMINATION FOR PRIVATE STUDENTS.

1. By private students are meant those who do not appear from any school and who have not attended any school for at least one year previous to the Matriculation examination. "Private students" include school-masters.

2. All private students without exception are required to appear at the test-examination of a zilla school, and to adduce satisfactory evidence before the Inspector that he has prosecuted a regular course of study and has been subject to proper discipline.

3. No one shall be admitted to the Matricular examination unless he shall have completed the age of sixteen years on the first day of the month in which he appears at the Matriculation examination.

4. Subject to the approval of this office, the dates of the test-examination in all the zilla schools will be fixed by the head masters of these schools. They will submit to this office the results of the test-examination on the 2nd January 1911 without fail.

5. Each private student will pay a fee of Rs. 2 for the test. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners.

6. Private candidates for the test examination should apply to this office not later than the 15th November 1910. The application should be accompanied by a certificate from the head master of the zilla school where the candidate wishes to appear that he has deposited the requisite fee of Rs. 2. They should forward the certificate granted to them under the transfer rules by the head master of the school in which they last read, together with a certificate of good character from a respectable person. If a candidate failed at a previous Entrance examination and has not since joined any school, the Registrar's receipt in original will be accepted in lieu of a transfer certificate.

7. A student who failed to pass the annual examination for promotion to the first class at the end of session 1909-1910 and then left the school can, under no circumstances, be allowed to appear at the Matriculation examination of 1911.

8. The application forms for permission to appear at the Matriculation examination will be signed by the head master of the zilla school at which the candidates have been examined and will be forwarded by him to the Inspector for countersignature on or before the 10th January 1911.

9. These applications (with the appointed fee) must be forwarded to the Registrar of the Calcutta University by the candidate, when all formalities are concluded, so as to reach him on or before the 17th January 1910.

10. The next Matriculation examination begins on the 1st March 1911.

INTER ARTS, INTER SCIENCE AND B.A. EXAMINATIONS.

Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* school-masters of three years' standing will be admitted to the above-mentioned examinations. The applications of school-masters should be accompanied by a certificate of length of service (with dates), from the Managers of the school in which they are employed, together with Entrance and F.A. pass-certificates, and in the case of plucked candidates the Registrar's receipt also for the last F.A or B.A. examination, as the case may be, and should reach this office not later than the 16th January 1911.

Under section 19 of the Indian Universities Act, candidates who intend to appear at the Intermediate examination, B.A., B.Sc. or M.A. examination of the Calcutta University other than as regular students of some affiliated colleges, are requested in the first instance to apply for and obtain the permission of the Senate.

Candidates should read carefully the certificate which this office is called upon to sign, and should be careful to supply all information and documents required, without which the Inspector must decline to sign the certificate.

The Intermediate, the B.A., and B.Sc. examinations begin on the 13th March 1911.

Applications with fees must be forwarded to the Registrar of the Calcutta University by the candidates themselves, so as to reach him on or before the 23rd January 1911.

BANKIPORE,
The 27th June 1910.

BHAGAVATI SAHAY,
Offg. Inspector of Schools, Patna Division.

NOTICE.

THE next half-yearly examination in the Art of Teaching of the teachers of English and of Vernacular subjects of the Bhagalpur Division will be held in the Bhagalpur Zilla School on the 8th August 1910.

2. The examination will be conducted on the lines laid down in the Government order No. 1500T.—G., dated the 17th September 1904. Teachers of English subjects, who appear at the examination, must have passed the Entrance or some other higher examination. The cases of experienced teachers who have not passed the Entrance examination, will be considered as exceptional. Teachers of Vernacular subjects intending to appear at the examination, must have at least passed the Middle Vernacular Standard examination.

3. The examination will be mainly practical, and will consist of—

(*a*) A practical examination in class control, the candidate being required to keep a class of at least a dozen boys, attentive, fully occupied throughout a lesson.

(*b*) A practical test of teaching ability, the candidates being required to give a lesson on some of the following subjects. :—

Teachers of English subjects.	*Teachers of Vernacular subjects.*
(*a*) English Literature, including Grammar.	(*a*) Hindi Literature, including Grammar.
(*b*) History (English or Indian).	(*b*) History (Indian).
(*c*) Arithmetic.	(*c*) Arthmetic.
(*d*) Algebra.	(*d*) Euclid or Practical Geometry.
(*e*) Euclid.	(*e*) Geography.
(*f*) Geography.	(*f*) Science Reader.

(*c*) An oral examination on the Art of Teaching, object-lessons, class management, organization and discipline. The study of the following books is recommended in this connection :—

English.	*Vernacular.*
(*a*) Salmon's Art of Teaching.	(*a*) Senior Teacher's Manual, by D. N. Neogy.
(*b*) Landon's Principles and Practice of Teaching.	(*b*) Junior Teacher's Manual, by D. N. Neogy.

4. The teachers will be examined by the Inspector and Additional Inspector of Schools, Bhagalpur Division.

5 Each candidate should submit to this office, through the proper channel, on or before the 31st July 1910, his application containing the following particulars :—

Name.
Father's name.
Age.
Residence (village, thana, district).
Present employment.
Educational qualifications.
Number of years he has served as a teacher.

6. Each candidate should bring with him to the place of examination, any certificate he may have obtained from any University or from an educational Institution.

BHAGALPUR,
The 3rd July 1910.

G. E. FAWCUS,
Inspector of Schools, Bhagalpur Division.

ERRATUM.

For paragraph 1 of the rules for private candidates for the I. A. or I. Sc. and B. A. or B. Sc. Examinations, 1911, of the Bhagalpur Division published in the *Calcutta Gazette* of the 1st, 8th and 15th June 1910 *substitute* the following :—

"1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ-fide* teachers of recognised High English schools in the Bhagalpur Division of three years' standing, *i.e.*, those who have served as such for full three academical sessions, will be admitted to the above examinations. School-masters should produce certificates of character and length of service (with dates), and of diligent and regular studies from the managers of the schools in which they are employed. The applications must reach this office not later than the 15th January 1911."

G. E. FAWCUS,
Inspector of Schools, Bhagalpur Division.

BHAGALPUR, *the 6th July 1910.*

NOTIFICATION.

TEST EXAMINATION OF PRIVATE CANDIDATES FOR MATRICULATION EXAMINATION, 1911.

A TEST EXAMINATION of private students who have not read in any High School recognised or unrecognised for at least one year and in the case of plucked students since the last University examination previous to the Matriculation examination for admission to the next Matriculation examination will be held at the office of the Inspector of Schools, Presidency Division, 285, Bow Bazar Street, Calcutta, on Monday, the 5th, Tuesday, the 6th, Wednesday, the 7th, and Thursday, the 8th December 1910. Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination. The term "Private students" includes school-masters.

2. Candidates will be required to furnish satisfactory proof that they have not read in any school for one year or since the last Matriculation examination. They should produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last, or the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Matriculation examination, must be submitted in original along with the application for permission to appear at the test examination. A student who failed to pass the annual examination for promotion to the first class at the end of session 1909-10 and then left the school will, under no circumstances be allowed to appear at the Matriculation examination of 1911.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination; they must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation examination unless he completes the age of sixteen years on the first day of the month in which the Matriculation examination is held.

5. Each candidate should submit to this office, not later than the 5th November 1910, his application for admission to the test examination, with the following particulars:—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation examination, (5) second language besides English, (6) Vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.
(*b*) Additional paper in the Classical language.
(*c*) History.
(*d*) Geography.
(*e*) Elementary Mechanics.

6. The admission-fee for the examination is Rs. 6 for each candidate, and is to be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay. Under no circumstances the admission-fee will be refunded.

7. No private student will be admitted to the test examination unless he is satisfactorily identified.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, with special permission, present themselves at the test examination held by the head master of the nearest zilla or Government high school within the Presidency Division on condition that they appear at the centre selected by the candidates from that institution. The head master of such school is hereby authorized to sign the applications, which must afterwards be countersigned by the undersigned. The fees and fines paid by these candidates as per paragraph 6 above should be utilized in meeting the cost of the examination.

10. The Matriculation examination in 1911 will be held on the 1st of March 1911 and following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 16th of January 1911.

INTERMEDIATE AND B.A. EXAMINATIONS IN 1911.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of English schools in the Presidency Division who have been employed as such for at least three years preceding the examination will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory Assistants and Demonstrators and Librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 23rd of January 1911.*

1. In accordance with section 9, Chapter XV, of the Revised Regulations dealing with the registration of University students, all candidates, who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of some

affiliated institutions and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Entrance or Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. examination must send their F.A. certificates, and candidates for the Intermediate examination their Entrance certificates, together with a letter, in original, from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the informations required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The Intermediate and B.A. examinations in 1911 will be held on the 13th March 1911 and following days.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must be sent to the *office of the Registrar on or before the 23rd of January 1911* by the candidates direct.

CALCUTTA, 285, BOW BAZAR STREET: *The 8th July 1910.*

THE Krishnagar College Pleadership classes have opened on the 8th instant. Intending candidates are to apply to the Principal for admission without delay.

SATIS CHANDRA DE, *Offg. Principal, Krishnagar College.*

KRISHNAGAR, *the 11th July 1910.*

UNIVERSITY OF CALCUTTA.

NOTIFICATION.

IT is notified for general information that the subject selected for the Jogendra-chandra Ghose's Research prize in Comparative Indian Law for 1912 is as follows:—

"Heritable rights of women under the different Schools of Hindu Law."

Under the terms of the Endowment the competition for the prize is restricted to scholars of Smriti Shastra, students of Smriti in the Government Sanskrit College, Calcutta, and in the *tols* of the indigenous Brahmanical schools which send in candidates for the Title Examination held in that College, and students in other similar institutions in India to be awarded to the writer of the best essay on the subject. No essay submitted for the prize will be entitled to competition if it attacks the religious beliefs, usages or institutions of His Majesty's subjects.

2. Every candidate for the prize will be required to indicate generally in a preface to his thesis, and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portions of the thesis which he claims as original. He will further be required to state whether his research has been conducted independently, under advice, or in co-operation with others, and in what respects his investigations appear to him to tend to the advancement of knowledge.

3. Successful candidates will be required to publish their essays, and, if necessary, they will receive help from the University for the purpose.

4. The essay or essays will be written either in Bengali or in English, but if any competitor sends in an essay in any Vernacular language other than Bengali, he will be required to furnish an English translation thereof.

LAND SALE NOTICES.

Notification A.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Puri will be put up for sale, at the office of the Collector of that district, on the 22nd August 1910, at 12 o'clock, for arrears of revenue and other demands, which by law are realizable as arrears of land revenue.

NOTE 1.—When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share.

NOTE 2.—After specifying in column 5 the share in each estate to be sold a note should be inserted as follows:—All other shares besides that specified will be excluded from the sale:—

Tauzi No.	Name of mahal and pargana.	Sadar jama of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

APPENDIX XXX

(See Chapter III, Rule 9.)

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, Sini section, in the district of Singhbhum, will be put up to sale at 12 o'clock on Thursday, the 1st September 1910, corresponding with the 12th Bhadra 1317 Fusli, at the Chaibassa Deputy Commissioner's Office, district Singhbhum.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Deputy Commissioner of the orders of the Commissioner confirming the sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
	Rs. A. P.	Rs. A. P.	Rs. A. P.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JULY 13, 1910.

NOTICES TO MARINERS.

THE following Notices are published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 5th July 1910.*

NEW ZEALAND—SOUTH ISLAND.

Otago harbour—Lights established.

No. 274 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 781 of 1910), are republished :—

(*a*) *Position.*—At northern end of shoal on eastern side of channel, abreast of Deborah bay, at a distance of three-quarters of a cable, North, from the existing beacon.

Lat. 45° 48½′ S., long. 170° 39½′ E.

Character.—A *fixed white* light.

Structure.—Beacon, in course of erection (light temporarily shown from pile-driver).

Remarks.—The fixed white light formerly shown from the existing beacon on this shoal has been discontinued.

Vessels must pass northward of the new light-beacon.

(*b*) *Position.*—On eastern extreme of Goat island.

Lat. 45° 50′ S., long. 170° 39′ E.

Character.—A *fixed red* light.

Structure.—Description not stated.

Variation.—18° E.

Chart affected.—No. 2411, Otago harbour.

Publications.—List of Lights, Part VI, 1910, No. 1683, and page 309.
New Zealand Pilot, 1908, page 253.

Authority.—Wellington Notice, No. 34 of 1910.

NEW ZEALAND—SOUTH ISLAND, WEST COAST.

Dusky sound—Existence of a rock.

No. 275 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 782 of 1910), are republished :—

Position.—North-western extreme of Parrot island, N. 28° E., distant one mile, and summit of islet south-eastward of Parrot island, S. 85° E.
Parrot island, lat. 45° 42½′ S., long. 166° 32¾′ E.
Depth.—3 fathoms (estimated).
Remarks.—The rock has not yet been examined, and "Position approximate" has therefore been placed against it on the charts.
Variation.—18° E.
Charts affected.—No. 719, Dusky and Breaksea sounds.
„ 2589, Foveaux strait to River Awarua.
Publication.—New Zealand Pilot, 1908, page 299.
Authority.—Wellington Notice, No. 35 of 1910.

JAPAN—INLAND SEA.

Motoyama saki—Wreck south-westward of.

No. 276 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 783 of 1910), are republished :—

Position.—At a distance of 2 1/10 miles, S. 16° W., from Kariya summit (431 feet).
Lat. 33° 54′ 45″ N., long. 131° 9′ 16″ E., on chart No. 3225.
Description.—Wreck of the steamship *Takechiyo Maru*, with mast showing above water.
Variation.—4° W.
Charts affected.—No. 3225, Shimonoseki kaikyo to Maruyama zaki.
„ 2875, Naikai (Seto uchi).
Publication.—Japan, Korea, &c, 1904, page 497.
Authority.—Tokyo Notice, No. 1518, 9th April 1910.

JAPAN, LIU KIU ISLANDS—AMAMI GROUP.

Ogame reef—Amended depth.

No. 277 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 784 of 1910), are republished :—

Position.—At a distance of about 3 miles, south-westward, from Kikai sima.
Lat. 28° 14⅘′ N., long. 129° 53′ E.
Depth.—Three feet instead of 2½ fathoms as now shown on the charts.
Charts affected.—No. 873, Amami group.
„ 2412, Amoy to Nagasaki.
Publication.—Japan, Korea, etc., 1904, page 293.
Authority.—Tokyo Notice, No. 1516, 1st April 1910.

JAPAN, HONSHU, SOUTH COAST—TOBA KO.

Kami shima—Lights and beacons established.

No. 278 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 785 of 1910), are republished:—

1. Lighthouse erected, with main and secondary lights—

Position.—At a distance of one cable, N. 78° E., from the ▲ on the summit of the island.
Lat. 34° 33′ N , long. 136° 58¾′ E.

(*a*) Main light—

Character.—A *revolving white* light, showing one flash every 15 seconds.
Elevation.—366 feet.
Visibility.—26 miles, from the bearing S. 35° E., through south and west, to N. 14° W.

Order.—3rd.

Power.—7,000 candles.

Structure.—Iron tower, upper part circular and lower part square, painted white.

(*b*) Secondary light—

Character.—A fixed white light.

Elevation.—347 feet.

Remarks.—This light will throw its rays on the shoalest part of Kodzukami sho.

2. Beacons erected—

Description.—Wooden posts, 42 feet in height, surmounted by iron topmarks and painted white.

Topmark.	Bearing and distance from lighthouse.
(*a*) Cone ...	... N. 20° W., $\frac{5}{8}$ cable.
(*b*) Diamond ...	... N. 80° W., $\frac{1}{2}$,,
(*c*) Diamond ...	... S.E., $\frac{1}{10}$,,
(*d*) Diamond ...	... S. 26° W., $\frac{5}{8}$,,
(*e*) Cone ...	... S. 11° E., $\frac{5}{8}$,,

Variation.—5° W.

Charts affected.—No. 3650, Toba ko.
,, 952, Owasi bay to Takamatsu no saki.
,, 996, Kii channel to Tokyo.
,, 2347, Nipon, Kiusiu, &c.

Publications.—List of Lights, Part VI, 1910, page 199.
Japan, Korea, &c, 1904, pages 345, 347.

Authority.—Tokyo Department of Communications Notice, No. 540, 20th April 1910.

STRAIT OF MALACCA—SELANGOR.

Klang strait—Lights established; colour of beacons altered.

No. 279 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 786 of 1910), are republished:—

1. Lights established—

(*a*) *Position.*—On Tanjong Sau (Deepwater point), at a distance of 330 feet N. 12° W., from Tanjong Sau ▲.
Lat. 3° 0′ N., long. 101° 20$\frac{3}{4}$′ E.
Description.—Two *fixed white* lights, placed vertically.
Elevation.—68 and 59 feet.
Visibility.—13 miles.
Structure.—Steel mast with yard and gaff, 100 feet in height.
The lights are exhibited from the gaff.
Order.—6th.

(*b*) *Position.*—On beacon 3$\frac{1}{2}$ cables north-westward of Labuan Garap.
Lat. 3° 0′ N., long. 101° 21$\frac{1}{4}$′ E.
Character.—A *fixed red* light.
Order.—6th.

2. Beacons, with their topmarks, now painted entirely *white*—

Position.—(*a*) On First point, South Klang strait.
Lat. 2° 55$\frac{1}{4}$′ N., long. 101° 16$\frac{3}{4}$′ E.
(*b*) On Second point, South Klang strait.
Lat. 2° 58$\frac{1}{4}$′ N., long. 101° 19′ E.
Variation.—1° E.
Charts affected.—No. 2153, Port Swettenham.
,, 3453, Klang strait and approaches.
Publications.—List of Lights, Part VI, 1910, page 77.
China Sea Directory, Vol. I, 1906, page 192; Supplement 1909.
Notice to Mariners, No. 1932 of 1909. (*This Office No. 16 of 13th January 1910.*)
Authority.—Harbour Master, Selangor, 21st April 1910.

EASTERN ARCHIPELAGO—Sulu sea.

Muligi islands—Shoals found south-westward of.

No. 280 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 788 of 1910), are republished:—

(*a*) *Position.*—Lat. 6° 50¾′ N., long. 118° 10¼′ E.
Depth.—5 fathoms.
Description.—The shoal extends for about a mile in a north-east and south-west direction, and has a breadth of 3 cables.
Remarks.—About 1½ miles to the south-westward of the above position, light-coloured water was observed, indicating a second shoal patch, of similar size and having the same general direction as the first. This second shoal is separated from the first by a deep channel; it has been marked "unexamined" on the charts.

(*b*) *Position.*—Lat. 6° 44′ N., long. 118° 11′ E.
Depth.—4½ fathoms.
Description.—The shoal extends for about 1¼ miles in a N.N.E. and S.S.W. direction, and has a breadth of 3 cables.
Remarks.—About 2 miles south-westward of the above position, another light-coloured patch was observed, apparently due to very shoal and broken water. It was of similar size and had the same general direction as the 4½-fathom shoal. It has been marked "unexamined" on the charts.
Charts affected.—No. 287, Gaya bay to Sandakan harbour.
„ 967, Palawan island.
„ 2576, Sulu archipelago and N.E. coast of Borneo.
„ 2660*b*, China sea, southern portion.
„ 1263, China sea.
Publication.—Eastern Archipelago, Part I, 1902, page 95.
Authority.—H.M.S. *Monmouth*, Hydrographical Note, No. 1 of 1910.

SOUTH PACIFIC OCEAN—Bismarck Archipelago.

Circular reef—Position of.

No. 281 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 789 of 1910), are republished:—

Position.—Reported to be situated about 10 miles, south-eastward, from the position shown on the charts.
Position on charts, south end of reef, lat. 3° 20′ S., long. 147° 39′ E.
Remarks.—A note to the above effect has been placed on the charts.
Caution.—It is possible that Circular reef may be in the position shown on the charts, with a hitherto unknown reef situated south-eastward of it. Circular reef should therefore be given a wide berth, pending a survey of the locality.
Variation.—5° E.
Charts affected.—No. 2766, North-east coast of New Guinea, &c.
„ 780, Pacific, south-west sheet.
„ 2759*a*, Australia, northern portion.
Publication.—Pacific Islands, Vol. I, 1908, page 381.
Authority.—Berlin Notice, No. 1336 of 1910.

AFRICA, SOUTH-EAST COAST—Natal.

Port Natal, South breakwater—Permanent light re-established.

No. 282 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 791 of 1910), are republished:—

Position.—Lat. 29° 52¼′ S., long. 31° 4′ E.
Character.—A *fixed white* light, as described in the Admiralty List of Lights.
Date of re-establishment.—28th April 1910.
Remarks.—The provisional fixed white light, temporarily shown near the site of the lighthouse, has been discontinued.
Charts affected.—No. 2908, Port Natal entrance.
„ 643, Port Natal.
„ 2088, Umtamvuna river to Tugela river.

Publications.—List of Lights, Part VI, 1910, No. 31.
Africa Pilot, Part III, 1905, page 174.
Notice to Mariners, No. 521 of 1910. (*This office No. 187 of 27th April 1910.*)
Authority.—Port Captain, Port Natal, 6th May 1910.

SOUTH PACIFIC OCEAN, FIJI ISLANDS—KORO ISLAND.

(*1*) *Vunaku point—Light discontinued.*

(*2*) *Alldin point—Light established.*

No. 283 (*first publication*).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 792 of 1910), are republished :—

(1) Vunaku point—

Position.—Lat. 17° 22½′ S., long. 179° 25¾′ E.
Date of discontinuance.—1st June 1910.
Character.—A fixed red light.

(2) Alldin point—

Position.—Lat. 17° 23′ 30″ S., long. 179° 23′ 7″ E., on chart No. 382.
Date of establishment.—1st June 1910.
Character.—A *group flashing white* light, showing a group of *two* flashes *every ten seconds.*
Elevation.—194 feet.
Visibility.—17 miles.
Order.—4th. Dioptric.
Structure.—A white tower, 76 feet in height.
Charts affected.—No. 382, Vanua Levu.
„ 905, Suva harbour to Levuka.
„ 440, Fiji islands, eastern archipelago, N. portion.
„ 2691, Fiji islands.
„ 1829, Fiji islands to Samoa islands.
„ 780, Pacific, south-west sheet.
Publications.—List of Lights, Part VI, 1910, No. 1733, and Part VII, 1910, No. 938.

ERRATUM.

Irako saki—Shoals off.

The following shoals, mentioned in Revised Supplement, 1909, to Japan, Korea, &c., 1904, page 347, are omitted on certain copies of chart No. 3650:—

Position.—Irako zaki 505-foot hill, lat. 34° 35′ N., long. 137° 1½′ E.

	Bearing and distance from Irako zaki 505-foot hill.	Depth.
(*a*)	S. 60° W., 14¾ cables.	3½ fathoms.
(*b*)	S. 64° W., 13 „	5 „
(*c*)	S. 64° W., 12 „	4½ „

Variation.—5° W.

NEW ZEALAND—SOUTH ISLAND, WEST COAST.

Dusky sound—Existence of a rock.

No. 288 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 830 of 1910), are republished:—

Position.—At a distance of 1½ cables, N. 25° E., from the north-western extreme of Indian island, and at a distance of about one cable from the coast of that island.
Indian island, lat. 45° 47′ S., long. 166° 36′ E.
Depth.—2 fathoms, with from 6 to 17 fathoms between it and the island.
Remarks.—This rock is assumed to be that on which the S.S. *Waikare* struck.
Variation.—18° E.
Charts affected.—No. 719, Dusky and Breaksea sounds.
„ 2589, Foveaux strait to River Awarua.
Publication.—New Zealand Pilot, 1908, page 300.
Authority.—Wellington Notice, No. 32 of 1910.

CHINA SEA—RHIO STRAIT.

Pan reef—Light established.

No. 289 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 831 of 1910), are republished:—

Position.—On north-eastern end of reef.
Lat. 1° 9′ 48″ N., long. 104° 11′ 25″ E., on chart No. 2413.
Character.—An *occulting* red light *every three seconds*, showing thus:—

Light,	eclipse,
1½ secs.	1½ secs.

Visibility.—10 miles.
Structure.—White framework tower.
Remarks.—The light is unwatched.
Charts affected.—No. 2413, Rhio strait.
„ 2403, Singapore strait.
„ 2757, Banka strait to Singapore.
„ 3543, Approaches to Singapore.
„ 1355, Malacca strait.

Authority.—Lloyd's, 4th June 1910.

CHINA—GULF OF PE CHIILI.

Liau river entrance—Beacons omitted from chart.

No. 290 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 832 of 1910), are republished:—

(*a*) South-east beacon:

Position.—At a distance of 1 1/10 miles, S. 35° E., from Bar signal station.
Lat. 40° 39′ 4″ N., long. 122° 11′ 55″ E., on chart No. 2991.
Description.—Black beacon with black ball as topmark.

(*b*) North-west beacon :

Position.—At a distance of 2¾ miles, N. 36° W., from Bar signal station. Lat. 40° 42′ 26′ N., long. 122° 8′ 5″ E. on chart No. 2991.

Description.—Black beacon with black ball as topmark.

Remarks.—The above beacons were recently removed from the chart, as they were assumed to be for surveying purposes only; they should now be replaced, as they are intended as aids to navigation.

Note.—A new edition of chart No. 2894, which is also affected by this Notice, will very shortly be issued.

Variation.—5° W.

Chart affected.—No. 2991, Entrance to Liau river.

Publication.—China Sea Directory, Vol. III, 1904, page 645.

Authority.—Hydrographic Office.

BORNEO, SOUTH COAST.

(*1*) *Cape Selatan—Non-existence of shoals near.*

(*2*) *Cape Selatan—Non-existence of wreck near.*

No. 291 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 836 of 1910), are republished :—

(1) Cape Selatan.

(*a*) *Position.*—At a distance of 6 miles, N. 87° W., from Cape Selatan lighthouse. Lighthouse, lat. 4° 9½′ S., long. 114° 40½′ E.

Depth.—2¼ fathoms.

(*b*) *Position.*—At a distance of 7 miles, S. 44° E., from cape Selatan lighthouse.

Depth.—4 fathoms. (Reported by the S.S. *Petriana*, 1902.)

Remarks.—A careful search for these dangers having failed to find any trace of their existence, they have been expunged from the charts.

(2) Cape Selatan.

Position.—At a distance of 10½ miles, N. 45° W., from Cape Selatan lighthouse.

Description.—Wreck of the schooner *Tegal*.

Variation.—1° E.

Charts affected.—No. 941*b*, Eastern archipelago, western portion.
„ 2759*a*, Australia, northern portion (1*a*).

Publication.—Eastern Archipelago, Part II, 1904, page 266; Revised Supplement, 1909.

Authority.—Netherlands Hydrographer, 13th May 1910.

JAPAN—Inland-Sea, Hiroshima Wan.

Kure approach—Caution with regard to submarine vessels.

No. 292 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty No. 843 of 1910), are republished :—

Position.—Kure ko, lat. 34° 14′ N., long. 132° 32′ E.

Caution.

Submarine vessels are constantly manœuvring in the approaches to the Naval port of Kure, and it being difficult to discern them, vessels bound to and from Kure should keep a good lookout, and pay attention to the undermentioned signals and regulations.

1. When submarine vessels are manœuvring, they will be escorted by a vessel flying 2 large red flags, one above the other and about 2 feet apart. If necessary, the bearing from this escort-vessel of the submarine vessel or vessels will be indicated by the International code of signals.

2. Vessels sighting the escort-vessel, should give her a berth of at least one mile. If necessary to approach her within this distance, vessels should stop their engines and ask permission by the International code or other means, and on obtaining permission should approach the escort-vessel at slow speed, keeping a good lookout, and after receiving information from her as to the dangerous area, they should proceed cautiously.

3. Submarine vessels will avoid the usual route of vessels, and vessels should also avoid getting out of the usual route.

Chart affected.—No. 3469, Hiroshima wan.

Publication.—Japan, Korea, &c., 1904, page 486.

Authority.—Tokyo Notice, No. 1522, 9th April 1910.

INDIA, WEST—Goa coast.

Marmagao entrance—Rock reported.

No. 293 (first publication).—

Subject.—The Master of the S.S. *Bahadur* reports having touched on a rock with 4 fathoms over it at the entrance to Marmagao.

Position.—Marmagao Breakwater light, lat. 15° 25′ N., long. 73° 47′ E.
The shoal is 3½ cables N. 43° W. (mag.) from the light shown at the end of Breakwater as given in Admiralty Chart No. 492 corrected up to June 1906 or half way between the Black buoy marking Marmagao reef and the 5½ fathoms sounding which is 1¼ cables E. by S. of the same buoy.

Charts affected.—No. 492, Aguada to St. George islands, including Marmagao and Goa roadstead.
„ 740, Achra river to Cape Ramas.
„ 826, Karachi to Vengurla.
„ 827, Vengurla to Cape Comorin.

Publication.—West Coast of India Pilot, 5th edition, 1909, page 172.

INDIA, WEST—Malabar coast.

Talayi—Temporary removal of buoy.

No. 294 (first publication).—

Subject.—The small spherical buoy marking the pinnacle rock off the sub-port of Talayi has been removed and will be replaced about the 1st October 1910.

Charts affected.—No. 2737, Viziadrug to Cochin.
„ 827, Vengurla to Cape Comorin.

Publication.—West Coast of India Pilot, 5th edition, 1909, page 142.

Authority.—Presidency Port Officer, Madras, Notice No. 14 of 1910.

AUSTRALIA, SOUTH—Kangaroo island.

American river—Beacons; Position of buoy altered.

No. 295 (first publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 8 of 1910) that the channel in American River from the mouth up to Pelican Lagoon has been marked on the starboard hand by three (3) red beacons with circular heads, and on the port hand by eleven (11) black beacons with diamond-shaped heads.

The inner chequered buoy (red and black) has been removed and placed above No. 5 black beacon, in about five (5) feet at L.W.S., to mark the deepest water on the inner bar.

Approximate position of outer black beacon—Lat 35° 47½′ S., long. 135° 47½′ E.

This affects Admiralty charts Nos. 2389A and 3641.

The 30th June 1910.

PERSIAN GULF.

Mughu Bay—Shoal in.

No. 265 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 33M of 1910), are republished :—

Position.—Rasyarid N. 51° W.
Jebel Yarid (1,200 feet) N. 19° W.
Jebel Bistana N. 88° E.
Town of Mughu N. 52° E.

Depth.—2 fathoms at Low Water Ordinary Spring.

Chart affected.—No 2837a, Persian Gulf, Eastern portion.

Publication.—Persian Gulf Pilot, 5th edition, 1908, page 173.

Authority.—Officer Commanding H. M. S. *Sphinx*.

INDIA, WEST—Bombay coast.

Panvel Creek—Buoy adrift.

No. 266 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 34M of 1910), are republished :—

Subject.—The Sarkarkun of Panvel reports that the Inner Belapur Buoy is adrift.

Caution.—Mariners are warned.

Chart affected.—No. 737, India, Sheet III. Arnala Island to Kundari Island.

Publication.—West Coast of India Pilot, 1909, page 236.

Authority.—Commissioner of Customs, Salt, Opium and Abkári.

BAY OF BENGAL—BURMA—RANGOON RIVER.

Kings Bank Channel—Closed to navigation.

No. 267 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 35M of 1910), are republished:—

Subject.—The Kings Bank Channel will be closed until further orders in consequence of dredging operations.

Caution.—All vessels must keep clear of the dredger and pipe line.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, pages 352 and 353.

Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—BURMA—RANGOON RIVER.

Monkey Point Channel—Open to navigation.

No. 268 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 36M of 1910), are republished:—

Subject.—The Dredged Channel Monkey Point will be open for the navigation of vessels on Wednesday, 8th June 1910.

Depth.—The least water at present is 14 feet in the Cut and 14 feet in the Danne-daw Reach. There is nothing less than 15 feet of water on the leading marks.

Remarks.—A Chart of the Channel can be seen on the Notice Board in the Deputy Conservator's Office, Rangoon, and attention is drawn to shoal water close to the Black Can Buoys marking the Cut.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, page 348.

Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—BURMA—RANGOON RIVER.

Buoy replaced.

No. 269 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 37M of 1910), are republished:—

Subject.—The Centre Eastern Buoy has been replaced.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, page 348. Bombay Government Notice to Mariners No. 30M of 1910. (*This office No. 262 of 22nd June 1910.*)

Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—BURMA—RANGOON RIVER.

D'Silva Leading Lights.

No. 270 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 38M of 1910), are republished:—

Subject.—On the 14th June 1910 the back light of the D'Silva Leading Lights will be moved 160 feet to the southward and in the same transit as at present.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, page 352.

List of Lights, Part VI, 1910, No. 376.

Authority.—Principal Port Officer, Burma, Rangoon.

INDIA, WEST—BOMBAY COAST.

Whale reef buoy disappeared.

No. 271 (second publication).—The Bombay Government has given Notice (No. 384 of 1910) that the buoy marking the Whale reef has disappeared.

BAY OF BENGAL—Chittagong coast.

Karnafuli river—Depth of water in the channel.

No. 272 (second publication).—

Subject.—The following depth of water was found in the channel by soundings taken on the 24th June 1910:—

Descriptions—

	Ft.
Track No. I, outer bar—	
Disc on diamond	11½
Track No. II, inner bar—	
Disc on diamond	11½

Charts affected.—No. 84, Chittagong (Karnafuli) river.
„ 859, Mutlah river to Elephant Point.

Publications.—Bay of Bengal Pilot, 3rd edition, 1901, page 245, Revised Supplement, 1908.

Authority.—Port Officer, Chittagong.

PERSIAN GULF—Shatt al Arab river.

Busreh bar—No. 1 buoy disappeared.

No. 273 (second publication).—

Subject.—The Commander of the S.S. *Kola* reports on the 13th June 1910 that No. 1 buoy, Busreh bar (the nearest buoy to Fao), has disappeared.

Position.—Fao lights, lat. 29° 58½′ N., long. 48° 29½′ E.

Charts affected.—No. 1235, Mouths of the Euphrates, Shatt al Arab, etc.
„ 2837B, Persian Gulf, western sheet.

Publication.—Persian Gulf Pilot, 1908, pages 207, 208.

Authority.—British Consulate-General, Bushire.

The 22nd June 1910.

KOREA, WEST COAST.

North Clifford island light—Omitted from Charts Nos. 1256, 1258.

No. 251 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 752 of 1910), are republished:—

Position.—On northern end of island.

Lat. 36° 37′ 50″ N., long. 125° 33′ 30″ E., on chart No. 1258.

Remarks.—The characteristics of this light and of the fog-signal, which were established in 1909, are given in the List of Lights.

Charts affected.—No. 1258, Approaches to Seoul.
„ 1256, Pe chili and Liau tung gulfs.

Publications.—List of Lights, Part VI, 1910, No. 903.
Notice to Mariners, No. 1085 of 1909. (*This office No. 331 of 18th August 1909.*)

Authority.—Hydrographic Office.

NEW ZEALAND, SOUTH ISLAND—Cook strait.

Jackson head beacon-light—Alteration in character.

No. 252 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 753 of 1910), are republished:—

Position.—Lat. 40° 59½′ S., long. 174° 20½′ E.

Alteration.—The fixed white light has been replaced by an unwatched light having the undermentioned characteristics.

Character.—An *occulting white* light *every six seconds*, showing thus:—

$$\frac{\text{Light,}}{3\text{ secs.}} \qquad \frac{\text{eclipse.}}{3\text{ secs.}}$$

Elevation.—55 feet.

Visibility.—10 miles.

Charts affected.—No. 2684, Cook strait anchorages, sheet 1.

Authority.—Wellington Notice No. 30 of 1910.

ERRATUM.

Auckland Harbour entrance.

Notice to Mariners, No. 682 of 1910. (*This office No. 252 of 26th May 1910.*)—The light exhibited from the light-buoy, situated with Bean rocks lighthouse bearing S. 24° E., distant 9$\frac{1}{10}$ cables, is still a *fixed white* light, and not a flashing white light as stated in this Notice.

Authority.—H. M. S. *Challenger*, 12th April 1910.

BAY OF BENGAL—Gulf of Martaban.

Rangoon river approach—Non-existence of reported shoal.

No. 253 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 755 of 1910), are republished :—

Position on charts.—Lat. 15° 38′ N., long. 96° 3′ E.

Depth.—4½ fathoms.

Remarks.—A careful survey of the locality having failed to find any trace of this shoal, it has been expunged from the charts.

Charts affected.—No. 823, Koronge island to White point.
„ 830, Bassein river to Pulo Penang.
„ 70, Bay of Bengal.

Publication.—Bay of Bengal Pilot, 1901, page 345; Revised Supplement, 1908.

Authority.—R. I. M. S. *Investigator*, Hyd. Note No. 3 of 1910.

EASTERN ARCHIPELAGO.

Surabaya strait, northern entrance—Alteration in position of light-buoy.

No. 254 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 756 of 1910), are republished :—

New position—At a distance of 11½ cables, S. 25° W., from former position with Cape Piring lighthouse bearing S. 16° W., distant 8$\frac{1}{10}$ miles.

Lat. 6° 54′ S., long. 112° 43½′ E.

Description.—Light-buoy, painted white, exhibiting an *occulting white* light.

Remarks.—The Pilot-vessel is situated on the leading line at a distance of 10$\frac{1}{10}$ miles, N. 18° E., from Cape Piring lighthouse, or about 4 cables, S. 18° W., from position now shown on the charts.

Variation.—1° E.

Charts affected.—No. 934, Plan of Surabaya strait.
„ 1654, Island of Java.

Publication.—Eastern Archipelago, Part II, 1904, pages 122, 123; Revised Supplement, 1909.

Authority.—Hague Notice, No. 977 of 1910; and Netherlands Government Chart.

AFRICA, EAST COAST—Somaliland.

Athelet (Itala)—Beacons erected.

No. 255 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 759 of 1910), are republished:—

Position.—Garesa, lat. 2° 45½′ N., long. 46° 18¼′ E.

(*a*) *Position.*—At a distance of 2 miles and $1\frac{3}{10}$ cables, S. 40° W., from the Garesa, and about 8 cables, N. 14° E., from Ras Malable beacon.
Description.—Pyramid.

(*b*) *Position.*—At a distance of 1 $\frac{6}{10}$ cables, N. 79° W., from beacon (*a*).
Description.—Mast surmounted by a ball.

(*c*) *Position.*—At a distance of $1\frac{1}{10}$ cables, S. 60° W., from the Garesa.
Description.—Pyramid with inverted triangular topmark.

(*d*) *Position.*—At a distance of $11\frac{6}{10}$ cables, S. 57° W., from the Garesa.
Description.—Tripod with inverted triangular topmark.

(*e*) *Position.*—At a distance of about $5\frac{3}{10}$ cables, N. 34° E., from the Garesa.
Description.—Flagstaff.

Remarks.—Beacon (*c*) in line with the beacon on Bur el Harion hill, bearing N. 2° W., leads to the anchorage.

Beacons (*a*) and (*b*) in line, bearing N. 79° W., lead from seaward to the line of the anchorage beacons.

Variation.—2° W.
Chart affected.—No. 671, Plan of Athelet anchorages.
Publications.—Africa Pilot, Part III, 1905, page 523.

Notice to Mariners, No. 102 of 1909. (*This Office No. 89 of 15th February 1909.*)

Authority.—Genoa Notice, No. 121 (175) of 1910.

AUSTRALIA, VICTORIA—Port Phillip.

Geelong approach—Dredging operations in progress.

No. 256 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 767 of 1910), are republished:—

Position.—Hopetoun channel, lat. 38° 7¾′ S., long. 144° 25½′ E.

Regulations.

Dredging operations are now in progress in Hopetoun channel, and vessels must pass the dredger on the side on which the undermentioned signals are exhibited:—

By day—A basket ball.
By night—Two *fixed red* vertical lights.

An anchor light is also exhibited from each end of the dredger.

The Pilot or Master of every steam vessel must, when at a distance of not less than 200 yards from the dredger, cause the engines of the vessel to be put at dead slow, and before passing over or along the mooring chains thereof or any work in progress, the engines must be stopped and kept stopped whilst passing.

Note.—During the night, or when a vessel is about to pass, the dredger will be hove as close as practicable to the side of the channel.

Chart affected.—No. 2731, Geelong harbour.
Publication.—Australia Directory, Vol. I, 1907, page 485.
Authority.—Geelong Notice, No. 1 of 1910.

AUSTRALIA, WEST COAST—Shark Bay.

Cape Inscription—Light established.

No. 257 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 771 of 1910), are republished:—

Position.—On northern extremity of cape.

Lat. 25° 29½′ S., long. 112° 58′ E.

Character.—An *occulting white* light *every seven and a half seconds*, showing thus:—

Light, 5 secs. eclipse. 2½ secs.

Elevation.—127 feet.
Visibility.—17 miles, from the bearing N. 42° E., through east, south, and west, to N. 54° W.
Order.—3rd. Dioptric.
Structure.—Grey concrete tower.
Remarks.—The exact position of this lighthouse is not stated.
Charts affected.—No. 518, Shark Bay, with plan.

RESOLUTION ON THE ANNUAL REPORT ON THE REFORMATORY SCHOOL AT HAZARIBAGH FOR THE YEAR 1909.

GENERAL DEPARTMENT—EDUCATION.

Darjeeling, the 4th July 1910.

RESOLUTION—No. 1185T.—G.

READ—

The Annual Report on the Reformatory School at Hazaribagh for the year 1909.

During the year under review, the Board of Management of the Reformatory School was dissolved and the administration was placed in the hands of the Superintendent with a Committee of Visitors to advise him. To encourage the boys in their general and industrial education, half-yearly examinations have been instituted at which prizes are awarded. The system of assisting boys by means of gratuities and regular allowances for three years after their release has proved successful in helping them to lead honest lives.

2. The number of boys admitted during the year was 131, being 9 more than in the previous year. The average daily population rose from 380 in 1908 to 454 in 1909: the accommodation available was taxed to the uttermost, and some boys had to be accommodated in the hospital. With a view to relieving the pressure, the Government of India have sanctioned the transfer of boys not belonging to Bengal to the Reformatories of their own Provinces where such exist. All the new admissions were carefully scrutinized and

13 boys were released. It has been ascertained from the Judicial return that during the year 482 youthful offenders were discharged on probation under section 562 of the Criminal Procedure Code, and 39 were discharged after admonition and made over to their guardians under section 31 of the Reformatory Schools Act.

3. There were no deaths during the year under report, but there was an increase in the number of cases admitted to the hospital from 170 in 1908 to 299 in 1909 and there were 7 cases of enteric fever. A scheme for a new supply of drinking water is at present under consideration, and steps have been taken to improve the present supply.

4. There was a remarkable increase in the number of punishments awarded, the number being 240 in 1909 compared with 57 in 1908. The increase is no doubt partly due to difficulties experienced in connection with the amalgamation of the Alipore and Hazaribagh Reformatories. The management of nearly 500 boys in one institution is more difficult than the management of a similar number divided between two separate institutions; but the explanations given are not entirely satisfactory, and His Honour has called for a separate report on this point.

5. The new system of classification for educational purposes introduced in 1908 has proved successful. The boys are divided into three classes: those under the age of 14 receive three hours of schooling each morning; those between the ages of 14 and 16 receive three hours' each afternoon; and those over 16 years of age who are employed in industrial work throughout the day attend school for one hour in the evening. The results of the school examinations show that considerable progress has been made in education.

The lower primary school was attended by 114 boys, of whom 52 passed the first year examination and 43 the final examination; while 19 failed. Of the 200 boys who appeared at the junior class examination, 165 passed—77 in the first and 88 in the second division. The figures for 1908 were 56 in the first division and 57 in the second division out of a total of 244. The boys were equally successful in the examinations in industries: 198 presented themselves for examination, and 162 or 81 per cent. passed. In the agricultural section 101 boys were examined, and 87 passed.

6. In addition to the usual drill and gymnastics, the boys were encouraged in such games as cricket, hockey and football during recreation hours, and they competed successfully in local tournaments and athletic sports. An examination in physical drill, gymnastics, and first-aid was held, at which 173 out of 175 boys were successful. The boys' band gave several performances in public.

7. The number of discharged boys who have done well has increased. Two Deputy Inspectors of Schools are specially deputed to visit and so help and encourage boys after their discharge, and the information concerning these cases is now fairly complete. This year only 15 cases were untraced, 9 of which belong to other Provinces. The statistics show an apparent increase in the boys who were reconvicted (the figures being 81 in 1909 as against 58 in 1908); but the reason of this increase is that boys formerly untraced were, in many cases, found in jail. Out of 339 boys discharged during the last three years who received a training in agriculture or in trades or handicrafts, nearly half were found to be following the profession in which they had been trained and 68 per cent. were found to be leading honest lives. With the supervision now exercised and the assistance and encouragement given in the way of gratuities and allowances to boys during the first three years after their discharge, a still further improvement may reasonably be anticipated.

8. His Honour desires to record his acknowledgment of the services of Mr. Davis, the Superintendent, who was in charge of the school throughout the year.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

Offg. Secy. to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 11th July 1910.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee. This week.	Price of common rice, in seers, per rupee. Previous week.	Character of the weather, and state and prospects of the crops, etc.
1	2	3	4	5	6
		Inches.			
1	BURDWAN ...	0·97	10 5/8	10½	Transplantation of paddy going briskly. More rain wanted for high lands. Condition of sugarcane and jute satisfactory. Cattle-disease not reported from anywhere. Fodder, water and food-stocks sufficient.
2	BIRBHUM ...	2·77	14	12	Weather hot and cloudy. Rainfall at Rampurhat 2·90 inches. More rain urgently wanted. Transplantation commenced at some places. No cattle-disease. Fodder and water sufficient.
3	BANKURA ...	3·06	12½	12½	Rainfall at Vishnupur 1·34 inches. Weather cloudy. More rain wanted. No cattle-disease reported. Fodder and water sufficient.
4	MIDNAPORE	0·37	12	12	Weather hot and cloudy. Rainfall at Contai 3·49, at Tamluk 2·03 and at Ghatal 0·94 inch. More rain wanted. Transplantation of winter rice continuing. Prospects of jute and sugarcane good. Cattle-disease in one thana. Fodder and water sufficient. Common rice selling at 13½ seers a rupee at Contai, at 11 seers at Tamluk and at 11½ seers at Ghatal.
5	HOOGHLY ...	0·94	11	10½	Weather hot. More rain urgently needed. Prices of food-grains almost stationary. Stocks of food-grains sufficient. No likelihood of scarcity. Jute, sugar- and *aus* paddy doing well. Prospects of jute fair. No cattle-disease. Fodder and water sufficient.
6	HOWRAH ...	0·78	11	11	Weather seasonable. Sky cloudy. Transplantation of paddy progressing slowly. More rain wanted. Prospects of *aus* paddy and jute fair: that of sugarcane and vegetables good. Stocks of food-grains, fodder and water sufficient.
7	24-PARGANAS	0·78	12	12	Weather seasonable. Rainfall general. More rain wanted every where, specially in the Sunderban tracts. Transplantation and weeding of *aman* paddy going on. Jute plants not thriving well at places for want of moisture. Common rice selling at 11½ seers per rupee at Basirhat, at 11¾ seers at Barrackpore, at 11 seers at Barasat and at 12 5/16 seers at Diamond Harbour.
8	NADIA ...	1·59	11	11 13/16	Rainfall at Kushtia 0·66, at Meherpur 1·11, at Ranaghat 1·67 and at Chuadanga 1·53 inches. Weeding of autumn rice and jute continuing. Sugarcane plants doing well. Transplantation of *aman* paddy retarded for want of rain in the Ranaghat subdivision. Jute crops thriving. Prospects of standing crops good. Prices of staple food-grains stationary. Stocks of food-grains, fodder and water sufficient. No cattle-disease reported.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather, and state and prospects of the crops, etc.
			This week.	Previous week.

* The report is for the week ending the 2nd July 1910.

General Summary.—Rain was general all over the Province, the fall being heavy in Cuttack Angul, Puri, Ranchi, Cooch Behar and also in Darjeeling and Sambalpur, moderate in Bankura Champaran, Muzaffarpur, Darbhanga and light elsewhere. Transplantation of winter rice has commenced and is going on in some districts, but more rain is wanted for the purpose in the Sonthal Parganas, Balasore, and in the districts of the Burdwan and Presidency Divisions and for paddy seedlings in Shahabad. Sowing of *bhadoi* crops still continues. Sugarcane and jute are doing well. The price of common rice has risen in Nadia, Murshidabad, Patna, Shahabad, Saran, Darbhanga, Manbhum and Singhbhum and has fallen in Burdwan, Birbhum, Hooghly, Gaya, Bhagalpur, Cuttack, Hazaribagh and Palamau. Cattle-disease is reported from Midnapore, Murshidabad, Jessore, Gaya, Saran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, the Sonthal Parganas, Cuttack, Angul, Sambalpur, Hazaribagh and Ranchi. The fodder and water-supply is sufficient throughout the Province.

Department of Agriculture, Bengal,
Calcutta, the 12th July 1910.

W. H. Buchan,
Offg. Director of Agriculture, Bengal.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,

The 9th July 1910.

W. W CLEMESHA, M.D., D.P.H., MAJOR, I.M.S.,

Sanitary Commissioner for Bengal.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of June 1910.

	Inches.	Date.	Hour.
The mean pressure of the month	29·580		
The average pressure of June from 44 years' registers ...	29·547		
The highest pressure in the month	29·709	7th	10
The lowest pressure in the month	29·423	4th	16
The range of pressure	0·286		
	Hours.		
The total number of hours of bright sunshine during the month	?		
The maximum possible number of hours of sunshine ...	403·4		
	⊖		
The mean temperature of the month	84·8		
The average temperature of June from 20 years' registers ...	84·5		
The highest temperature in the month	98·4	2nd	
The lowest temperature in the month	73·3	4th	
The range of temperature during the month	25·1		
The mean daily range of temperature	13·5		
The greatest range of temperature in one day	21·8	2nd	
	Per cent.		
The mean humidity of the month	83		
The average humidity of June from 20 years' registers ...	83		
	Inches.		
The mean vapour tension of the month	0·970		
The average vapour tension of June from 20 years' registers ...	0·957		
The mean cloud proportion of the month	7·30		
The average cloud proportion of June from 33 years' registers	7·09		
The total rainfall of the month	6·48		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 8 feet above the ground)	?		
The average fall of June from 24 years' registers	11·04		
The greatest fall in 24 hours	1·55	7th	
	Days.		
The number of rainy days in the month	12		
The average number of rainy days in June from 24 years' registers	13		
The mean temperature of the nocturnal radiation thermometer on woollen cloth	⊖ 76·7		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	1·9		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	2·5	5th, 8th and 19th	
	Miles.		
The mean movement of the wind per day	130·7		
The greatest movement of the wind in one day	215·0	4th	
The greatest movement of the wind in one hour	20	5th	7 to 8 P.M.

The number of hours with winds from each of the eight points—

The extreme variation of temperature		17·5
The maximum temperature		94·7
	Miles.	
The highest velocity of the wind in one hour		23
	%	
The mean relative humidity		83
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office		85
	Inches.	
The total fall of rain from 3rd to 9th July 1910		1·24
The average fall of the corresponding period for 24 years, Surveyor-General's Office		2·30
The total fall from 1st January to 9th July 1910		16·96
The average fall of the corresponding period for 24 years, Surveyor-General's Office		24 93

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; p, passing temporary showers; ⚡ strong wind.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

MEDICAL DEPARTMENT.

NOTIFICATION.

No. 1017 Medl.—The 16th July 1910.—The following draft amendments which the Lieutenant-Governor intends to make in the Rules for the management of Charitable Hospitals and Dispensaries in Bengal is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 20th August 1910, and any objection or suggestion which may be received by the undersigned before that date will be considered.

DRAFT NOTIFICATION.

In exercise of the power conferred by section 69B, clause (*ii*) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and section 138, clause (*k*) of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), the Lieutenant-Governor is pleased to make the following modifications in the Rules for the management of Charitable Hospitals and Dispensaries in Bengal, published under Government Notification No. 2497 Medl., dated the 31st December 1908, at page 3—192, Part IB of the *Calcutta Gazette* of the 13th January 1909:—

(*i*) *Clause* (*b*) (*2*) *of rule 28*, (as amended by Government Notification No. 841T. Medl., dated the 25th September 1909).—Substitute "Savings Bank at the post office" *for* 'Office of the local authority and there accounted for in the usual way;" and continue as follows:—"The account should be in the name of the Secretary of the Dispensary Committee. The whole amount collected should be sent intact to the Savings Bank. Amounts required for expenditure may be withdrawn according to requirements, but there should be in support of each payment a duly vouched bill passed by either the President or Secretary, and the total expenditure under any head in the budget should not be exceeded without the sanction of the Commissioner of the division. The Secretary should maintain an account of the withdrawals from Savings Bank and the disbursements therefrom in Form XXX-A and a subscription register in Form XXXI-A."

(*ii*) *Clause* (*b*) (*3*) *of the same rule.*—After the words "Medical Officer in charge" insert the words "or from the money withdrawn according to requirements from the Savings Bank."

(*iii*) *Clause* (*b*) (*4*) *of the same rule.*—Add the following at the end of this clause:—

"All bills paid out of withdrawals from Savings Bank should be forwarded with the necessary sub-vouchers to the office of the local authority with this monthly account. Interest allowed by the Post Office should be shown against 'Miscellaneous' in Form XXIX."

2. Add the following new Form No. XXX-A after Form No. XXX in Appendix C:—

FORM No. XXXA.

Cash-book of Class III-B Dispensary Fund for the month of

Date.	Withdrawals from Savings Bank.	Date.	Nature of payment.	No. of bill.	Amount.	REMARKS.
1	2	3	4	5	6	7
	Rs. A. P.				Rs. A. P.	

3. Add also the following new Form XXXI-A after Form No. XXXI in Appendix C:—

No. 1496J.D.—The 14th July 1910.—In exercise of the powers conferred upon him by sections 12 and 15 of the Code of Criminal Procedure, 1898 (Act V of 1898), the Lieutenant-Governor is pleased to reappoint Mr. Richard Duncan and Babu Ananda Mohan Ghosh to be Magistrates of the third class for a period of three years from the date of this notification and to direct that they shall sit as members of the Budge-Budge Independent Bench, in the district of the 24-Parganas.

24-Parganas.

No. 1505J.D.—The 14th July 1910.—In exercise of the powers conferred upon him by sections 12, 14 and 15 of the Code of Criminal Procedure, 1898 (Act V of 1898), the Lieutenant-Governor is pleased to reappoint the Revd. Banamali Mazumdar to be a Magistrate of the third class for a period of three years from the date of this notification and to direct that he shall sit singly at Diamond Harbour, in the district of the 24-Parganas, for the trial of cases which may be made over to him within the limits of the Diamond Harbour subdivision of that district.

Gaya.

No. 1765J.—The 19th July 1910.—In exercise of the powers conferred upon him by sections 12 and 15 of the Code of Criminal Procedure, 1898 (Act V of 1898), the Lieutenant-Governor is pleased to reappoint Babu Lachman Lal Barik to be a Magistrate of the third class for a period of three years from the date of this notification and to direct that he shall sit as a member of the Sadar Independent Bench, in the district of Gaya.

RESIGNATION.

Burdwan.

No. 1763J.—The 19th July 1910.—The Lieutenant-Governor accepts the resignation tendered by Babu Ram Shankar Banarji of his appointment as an Honorary Magistrate of the Raniganj Independent Bench, in the district of Burdwan.

POWERS.

Sambalpur.

No. 1486J.D.—The 14th July 1910.—In exercise of the power conferred by clause (*a*), sub-section (1) of section 36 of the Bengal, Agra and Assam Civil Courts Act, 1887 (XII of 1887), as amended by section 6 of the Sambalpur Civil Courts Act, 1906 (Bengal Act IV of 1906), the Lieutenant-Governor is pleased to invest Babu Manmatha Nath Sen, Subdivisional Officer of the Sadar subdivision, in the district of Sambalpur, with the powers of the Court of a Munsif in that subdivision.

Birbhum.

No. 1500J.D.—The 14th July 1910.—Khan Bahadur Muhammad Shams-uz-Zoha, an Honorary Magistrate of the Suri Independent Bench, in the district of Birbhum, is vested with the powers of a Magistrate of the first class.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATIONS.

No. 1503J.D.—The 14th July 1910.—In exercise of the power conferred by sub-section (*2*) of section 55 of the Code of Civil Procedure, 1908 (Act V of 1908), the Lieutenant-Governor is pleased to declare that no employé of the Telegraph Department shall be liable to arrest in execution of a decree unless seven clear days' notice has been given to the officer mentioned in that behalf in column 2 of the following table :—

Employés in the—	Officer to whom notice is to be given.
1	2
Calcutta Central Telegraph Office ...	Superintendent of Telegraphs, Central Telegraph Office, Calcutta.
Calcutta Division	Superintendent of Telegraphs, Calcutta.
Bankipore ditto	Ditto, Bankipore.
Cuttack ditto	Ditto, Cuttack.
Darjeeling ditto	Ditto, Darjeeling.

No. 1778J.—The 13th July 1910.—It is hereby notified that the Subordinate Judge of Hazaribagh, Ranchi and Palamau in Chota Nagpur will hold his sittings at Palamau from the 13th July 1910, for the trial there of Original Suits and Land Acquisition cases and at Hazaribagh from the 4th August 1910 for the trial there of Original and Small Cause Court suits and Land Acquisition cases.

Hazaribagh, Ranchi and Palamau.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 1762J.—The 19th July 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Katras-Khanudih extension of the Jharia Branch of the East Indian Railway between mile 183, furlong 1 and feet 288, and mile 183, furlong 5, and feet 151, and whereas coal mines are situate under the said land, and whereas the Auckland Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 7 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Auckland Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*), of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Auckland Coal Company, Limited, in the manner and subject to the restrictions below specified, viz:—

(*a*) No gallery shall be driven where the vertical distance between the surface and the top of any such gallery is less than 50 feet.

(*b*) Where the vertical distance between the surface and the top of any gallery, if driven, exceeds 50 feet galleries may be driven not more than 10 feet wide and 9 feet high with centres not less than 40 feet apart.

(*c*) Where the vertical distance between the surface and the top of any gallery, if driven, exceeds 120 feet galleries may be driven not more than 10 feet wide and 9 feet high, with centres not less than 60 feet apart, leaving pillars 50 feet square.

(*d*) Manholes not exceeding 6 feet in height by 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(*e*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*f*) The above restrictions apply to the seam known as No. 7 seam only, and to the area edged with pink on the plan and the Auckland Coal Company, Limited, shall give notice, under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under the above area or to work coal under any other area of acquired land,

and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L.A.M.A. No. 159 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 1777J.—The 19th July 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Grand Chord Line of the East Indian Railway, situated at about mile 150, furlong 2, and whereas coal-mines are situate under the said land, and whereas the Shampur Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work a portion of the coal, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Shampur Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected, or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Shampur Coal Company, Limited, in the manner and subject to the restrictions below specified, viz.:—

(*a*) A single pair of galleries with a connection for ventilation may be driven under the acquired land in positions closely approximating to those shown by dotted lines on the plan L.A.M.A., No. 132.

(*b*) The distance apart of these galleries shall not be less than 80 feet, centre to centre.

(*c*) The width of the galleries and the connection gallery shall not exceed seven feet, but refuge-holes of the prescribed size may be made where required by the rules made under section 20 of the Indian Mines Act, 1901.

(*d*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*e*) This declaration applies only to the Fatka Top Seam and to the area edged with pink on the plan.

If it is desired to work any other seam under this area, the working thereof must be the subject of a separate notice under section IV of the Land Acquisition (Mines) Act, 1885, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L.A.M.A., No. 132, signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

No. 2395P.—The 15th July 1910.—The Lieutenant-Governor is pleased to declare the following pattern of air-rifles to be toys:—

Britannia air-rifles (No. 3 bore), new model.

The above air-rifles will not be treated as arms for the purposes of the Indian Arms Act, 1878, and the rules framed thereunder.

No. 2400P.—The 18th July 1910.—It is hereby notified for general information that the Government Railway police-station of Hooghly, in the district of Hooghly, is removed from its present site to Bandel and will henceforth be called the Bandel Railway police-station.

Hooghly.

2. In exercise of the power conferred by clause (*s*) of section 4 of the Code of Criminal Procedure, 1898 (Act V of 1898), the Lieutenant-Governor is pleased to declare that the said police-station shall be a police-station for the purposes of the said clause (*s*) and shall include the following area, namely:—

Area according to mileage.	Railway stations.
From Howrah. M. F. M. F. 19 1 to 46 6	Chardernagore. Chinsura. Hooghly. Hooghly junction. Trisbigha. Magra junction. Talandu. Khanyan. Pandooah. Simlagarh. Boinchee.
From Naihatty. M. F. M. F. 0 0 to 6 0	Garipa Flag station Hooghly ghat.

3. So much of Notification No. 313J.D., dated the 21st April 1904 (published at page 637 of Part I of the *Calcutta Gazette* of the 4th May 1904), as relates to the area included within the said Hooghly police-station, is hereby cancelled.

No. 2401P.—The 18th July 1910.—Whereas it is declared by section 134 of the Indian Railways Act, 1890 (IX of 1890), that any person committing any offence against that Act or any rule thereunder shall be triable for such offence in any place which the Local Government may notify in that behalf or any other place referred to in that section:

24-Parganas. Hooghly.

In exercise of the power conferred upon him by the said section, the Lieutenant-Governor is pleased to declare that any person committing any such offence at any place on the Naihatty branch of the East Indian Railway from the Jubilee bridge to the distant signal of Naihatty shall be triable at the head-quarters of the Hooghly district.

No. 2402P.—The 18th July 1910.—In exercise of the power conferred by sub-section (2) of section 7 of the Code of Criminal Procedure, 1898 (Act V of 1898), the Lieutenant-Governor is pleased to declare that the portion of the Naihatty branch of the East Indian Railway on the eastern bank of the river Hooghly from the Jubilee bridge to the distant signal of Naihatty should be included in the district of Hooghly.

24-Parganas. Hooghly.

No. 2409P.—The 18th July 1910.—In exercise of the power vested in him by section 14, sub-section (1), of the Code of Criminal Procedure, 1898, the Lieutenant-Governor is pleased to confer upon Babu Hriday Chandra Ray, who has been appointed to be President of the Panchayat of Union No. 8—Bagula, in Hanskhali Independent outpost, in the district of Nadia, *vice* Munshi Ghulam Usman, *resigned*, the powers of a Magistrate under sections 64, 127 and 128 of the same Code, and to declare that the said powers may be exercised by him within the limits of that Union.

Nadia.

2. The Lieutenant-Governor is further pleased to declare, in pursuance of sub-section (2) of the said section 14, that the said powers are conferred and may be exercised by Babu Hriday Chandra Ray, during such period not exceeding three years, as he continues to hold the office of President of panchayat.

No. 2410P.—The 18th July 1910.—The Notification No. 297P.D., dated the 28th April 1909, published at pages 649-56, Part I, of the *Calcutta Gazette* of the 5th May 1909, so far as it relates to the investment of Munshi Ghulam Usman as President of the panchayat of Union No. 8—Bagula, in Hanskhali Independent outpost, in the district of Nadia, with the powers of a Magistrate under sections 64, 127 and 128 of the Code of Criminal Procedure, 1898, is hereby cancelled.

Nadia.

No. 2412P.—The 18th July 1910.—In exercise of the power vested in him by section 14, sub-section (1), of the Code of Criminal Procedure, 1898, the Lieutenant-Governor is pleased to confer upon Munshi Abbas Sheik, who has been appointed to be President of the panchayat of Union No. 8—Panighatta, in thana Kaliganj, in the district of Nadia, *vice* Babu Krishna Nath Mukharji, *removed*, the powers of a Magistrate under sections 64, 127 and 128 of the same Code, and to declare that the said powers may be exercised by him within the limits of that Union.

Nadia.

2. The Lieutenant-Governor is further pleased to declare, in pursuance of sub-section (2) of the said section 14, that the said powers are conferred and may be exercised by Munshi Abbas Sheik, during such period, not exceeding three years, as he continues to hold the office of President of panchayat.

No. 2413P.—The 18th July 1910.—The notification No. 297P.D., dated the 28th April 1909, published at pages 649-56, Part I, of the *Calcutta Gazette* of the 5th May 1909, so far as it relates to the investment of Babu Krishna Nath Mukharji as President of the panchayat of Union No. 8—Panighatta, in thana Kaliganj, in the district of Nadia, with the powers of a Magistrate under sections 64, 127 and 128 of the Code of Criminal Procedure, 1893, is hereby cancelled.

No. 2415P.—The 19th July 1910.—In exercise of the power conferred by clause (4) in column 2, opposite the second entry in column 1, of the table contained in Schedule II to the Indian Arms Rules, 1909, the Lieutenant Governor is pleased to fix ten seers as the maximum quantity of sulphur to be exempted, in Bengal, from the operation of the prohibitions and directions contained in the Indian Arms Act, 1878 (XI of 1878).

No. 2441P.—The 19th July 1910.—For Rule 13 of the Rules for the recruitment of Sub-Inspectors of Police, published with notification No. 2999P., dated the 30th August 1909, at pages 1166-1171, Part I, of the *Calcutta Gazette* of the 1st September 1909, substitute the following:—

"13. At the end of the course those declared by the Examination Committee to have passed will be posted to districts as Probationary Sub-Inspectors for a period of two years. At the end of that period those pronounced competent and fit will be confirmed by the Deputy Inspectors-General as Sub-Inspectors. Those found otherwise will be discharged by them. The Inspector-General may discharge a Probationary Sub-Inspector at any time prior to his confirmation if he is satisfied that the probationer is not likely to make a satisfactory Police Officer."

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

No. 156.— Babu Sharat Chandra Sur, Sub-Engineer, is vested with the powers of a Canal Officer under Act III (B.C) of 1876, to be exercised only when in charge of an Irrigation subdivision in one of the districts in Bengal to which the Act has been extended.

No. 157.—Mr. F. A. Betterton, Assistant Engineer, Champaran Division, passed the Lower Standard Examination in Hindustani in Part I on the 4th July 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

The 19th July 1910.

No. 21.—Notification.—In connection with the opening of the Kristopur Canal as a line of navigation, as declared in Bengal Government Notification No. 16, dated the 7th June 1910, the Lieutenant-Governor of Bengal is pleased to order under sections VI and XI of the Canals Act, V (B.C.) of 1864, that tolls will be levied on all boats entering or leaving the Calcutta Canal System by this New Canal at Kristopur Toll Station on the 4th mile of the Canal, at the same rates and conditions now in force for entering or leaving the Canals at Dhappa, as given in the Schedule of Tolls published in Bengal Government Notification No. 144, dated the 23rd March 1893 (*vide* page 493 of the *Calcutta Gazette* of the 31st May 1893). The toll limit will be fixed at a point 100 feet to the east of the Kristopur regulator.

A draft of this Notification has been published, for a period of six weeks, in the *Calcutta Gazette* of the dates noted in the margin as No. 17, dated the 7th June 1910.

The 8th, 15th, 22nd and 29th June, and 6th and 13th July 1910.

No. 22.—Notification.—Agreeably to Bengal Government Notification No. 16, dated the 7th June 1910, regarding the opening of the Kristopur Canal as a line of navigation, the Lieutenant-Governor is pleased to order under sections XI and XII of the Canals Act, V (B.C.) of 1864, that the Rules for the Calcutta Canals and Tolly's Nullah, as promulgated under Bengal Government Notification No. 29, dated the 24th May 1904, and published in pages 744-46 of the *Calcutta Gazette* of the 25th May 1904, Part I, shall also apply to the Kristopur Canal.

A draft of this Notification has been published, for a period of six weeks, in the *Calcutta Gazette* of the dates noted in the margin as No. 18, dated the 7th June 1910.

The 8th, 15th, 22nd and 29th June, and 6th and 13th July 1910.

[Second publication.]

The 11th July 1910.

No. 20.—Notification.—It is hereby notified, for general information, that, in exercise of the powers conferred on him by section 99 of the Bengal Irrigation Act, III of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to make the following modification in Rule 48 of the Water-rate Rules for the Orissa Canals:—

Existing.	*Proposed.*
48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed.	48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed, *or to the payment in cash of 3 per cent. on the whole sum assessed in the village when the collection of that whole sum is completed.* (*The system of payment in cash is not applicable to long leases.*)
The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation, and may recover the rates which would otherwise have been charged, if the assistance required by Rule 47A has not been rendered to the best of the ability of the representative or representatives.	The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation *or payment in cash*, and may recover the rates which would otherwise have been charged, if the assistance required by Rule 47A has not been rendered to the best of the ability of the representative or representatives.

T. BUTLER,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 1st July 1910.

N. 64 Marine.—Notification.—Under section 10 of Act I of 1859 (an Act for the amendment of the law relating to merchant seamen), the Lieutenant-Governor proposes to make the following rules for the conduct of examinations for Masters and Mates of Foreign-going ships and Home-trade ships and as to the qualifications to be required. These rules will supersede those issued under Notification No. 30Marine, dated the 30th March 1906, and its amending notifications.

The draft rules will be taken into consideration a month after their publication in the Gazette, and the Lieutenant-Governor will be glad to consider any suggestions that may be made concerning them within that period.

T. BUTLER,
Secy. to the Govt. of Bengal.

RULES.

CHAPTER I.

Time and place of examinations.

1. The times and places at which examinations are held are shown in Appendix A, page 1029.

How to apply.

2. Candidates for examination must fill up a Form of application (Form Exn. 2) at the Port Office. The Form properly filled in, together with the Candidate's testimonials and discharges, must be lodged with the Port Officer of Calcutta, not later than the day before the day of examination, and the Candidate must conform to any regulations in this respect which may be laid down by the Government. The discharges and testimonials should be handed in, together with the Form of application, as many days as possible before the date of the examination which the Candidate desires to attend. In the absence of the necessary verification the Candidate cannot be examined. The Port Officer should be particularly careful to ascertain that there are no gaps in the Candidate's service which are not properly accounted for before he is allowed up for examination.

How to apply in special cases.

3. In cases where the services of the Candidate require verification, or where he is in doubt whether his service complies with the regulations, and wishes to submit his case for special consideration, all Certificates, discharges, testimonials, &c., together with the Form of application* properly filled in, should be submitted to the Port Officer of Calcutta. If necessary, the Port Officer will, after seeing that all the require information is clearly set forth in the papers, forward them with his observations to the Government who will deal wit the case, or transmit it to the Board of Trade for decision.

Inquires.

4 All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and Certificates, discharges, testimonials, &c., should be forwarded when they are material to the inquiry.

Nature of service determined by actual position on board ship

5. Sea service cannot be regarded as qualifying for examination for certificates of competency unless it can be verified by reference to the articles of the ship on which it was performed, *e.g.*, service claimed by testimonial or otherwise to have been as mate when the actual rating as shown by the articles was only that of boatswain or other petty officer will not be accepted where officer's service is

* Form Exn. 2 which can be obtained at the Post Office.

required. Where service as first (or second) mate it required to qualify for examination the candidate must actually have held the executive position next (or next but one) to the master.

Candidates who represent themselves as having served in a higher capacity than that actually held in the ship render themselves liable to posecution under Section 104 of the Merchant Shipping Act, 1894. (*See* paragraph 7.)

In this connection examiners should remember that it is a common practice for officers to be rated on ships articles as "second mate" although in reality they were only third or fourth mates and acted in one of those positions on board ship.

In every case where a candidate for a Master's certificate of competency claims service as second made, he should be requested to make a declaration in Divn. H of the Form Exn. 2, to the effect that during his service as second mate he had only one officer over him, or if more than one, that a third and fourth mate were also carried.

If the service claimed is as "auxiliary second mate" the candidate should be required to state the number of officers serving in a junior capacity.

A candidate with first mate's service should make a declaration that he was the senior officer under the Master, or, if not, he must comply with the requirements of para. 113, as it has been found that in some cases the second mate has been signed on the articles as first mate, the proper first mate being called chief officer simply for examination purposes.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

Age.

6. Should any doubt exist as to the age of a Candidate, he will be required to produce a certificate of birth.

Fraud and misrepresentation.

7. It is provided by section 104 of the Merchant Shipping Act, 1894, that any person who makes, assist in making, or procures to be made, any false representation for the purpose of procuring either for himself or for any other person a Certificate of Competency, shall, in respect of each offence, be guilty of a misdemeanour,—the punishment for which is imprisonment for any period not exceeding six months, with or without hard labour, or a fine not exceeding one thousand rupees.

Testimonials required.

8. Testimonials to character, including sobriety, and to experience and ability on board ship for at least the twelve months of service immediately preceding the date of application to be examined, will be required of all Candidates, and without producing them no person will be examined.

Penalty for misconduct.

9. Candidates who have neglected to join their vessels after having signed Articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Local Government, after having investigated the matter, should see fit to reduce the time.

Deafness and other physical and mental disabilities.

10. If during the progress of the examination the examiner finds that a candidate is afflicted with deafness, with an impediment in his speech, or with some other physical or mental infirmity, and he is satisfied upon further investigation that the degree of deafness or of the impediment or other infirmity is such as to render the candidate incompetent to discharge the ordinary duties of a mate or master at sea he should not allow the candidate to complete his examination and should return his examination fee; but every case in which this action is taken must be reported to the Port officer.

If the candidate subsequently produces a medical certificate to the effect that his hearing, speech, or physical or mental condition has improved or is normal, the Board will take into consideration the question of allowing the candidate to sit again for examination.

Foreigners must know English.

11. Foreigners must prove, to the satisfaction of the Examiners, that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel (*see* paragraph 19). In the case of candidates for Home Trade Certificates, the Certificates of Asiatics who may not be able to speak English shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

Issue of certificate.

12. If the Candidate passes, he will receive a Form (Form Exn. 16), authorising the Port Officer to whom it is addressed to issue the Certificate. The Candidate's testimonials and other papers will be returned to him with the Certificate. It is therefore important that the port at which the Certificate is to be issued should be the same on both the Form Exn. 16 and the Form Exn. 2. If circumstances should make any alteration necessary, the Examiner should see that it is made in both Forms, otherwise delay in the issue of the Certificate may be caused.

Service found to be insufficient.

13. If, after a Candidate has passed the examination, it is discovered on further investigation that his services are insufficient to entitle him to receive a Certificate of the grade for which he has passed, the Certificate will not be granted to him; but if the Government is satisfied that the error in the calculation of the Candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him, or have it placed to his credit. Should his services entitle him to a Certificate of a lower grade, it may be granted to him, and the difference, if any, between the fee paid by him, for the superior Certificate and the fee payable for the inferior Certificate will be returned to him or placed to his credit. The superior Certificate will not be granted until the Candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects unless the Government see fit to dispense with the re-examination.

Failure in examination.

14. In all cases of failure the Candidate must be examined anew. If a candidate fails in Seamanship, he will not be re-examined until after a lapse of six months. Whether the whole or part of this period must be served at sea must depend upon the subjects in Seamanship in which the Candidate failed, but the amount of further sea service to be required will be left to the discretion of the Port Officer, Calcutta.

Examiner's Report.

15. The Examiner, in making his report on Form Exn. 14, should state what amount, if any, of further sea service the Candidate must perform, and he should also insert this information in Form Exn. 2.

Failure in Navigation.

16. If a Candidate fails three times in Navigation within three months, he will not be re-examined until after a lapse of THREE MONTHS from the date of the last failure.

Failure in Extra Examinations.

17. Candidates for Extra Certificates will not be allowed to present themselves for examination more than three times within a period of twelve months.

Candidates failing may be examined for certificate of lower grade.

18. If a candidate fails in his examination for an Ordinary certificate, and the subjects in which he has failed are not included in the syllabus prescribed for a certificate of a lower grade, he may, if he so desires, be examined for the lower grade certificate without further formal application or payment of fee, but he will be required to complete the whole of the work prescribed for such lower grade, that portion (if any) already done standing good.

If a candidate fails for the Extra certificate, he may also, without further formal application on payment of fee, proceed with the examination for the Ordinary certificate, but, in this case, the whole of the examination prescribed for the

lower grade will have to be completed irrespective of any work which may have been done under examination for the Extra certificate. The subsequent examination for the lower grade may, if time permits, be taken during the current week, but in this case a fresh set of papers should be issued; should the time be insufficient, the candidate will be allowed to sit at the next following examination.

No part, however, of the fee he has paid will be returned to him, and on presenting himself, when qualified, for re-examination for the higher certificate, he will be required to pay a further full fee.

Failure for spelling, etc.

19. If a Candidate fails for bad spelling or writing, he will not be re-examined until after a lapse of at least three months. If he fails for ignorance of the English language, he will not be re-examined until after a lapse of six months.

Failure in Seamanship.

20. If a Candidate fails in Seamanship so far as regards the management of square-rigged Sailing Vessels, in his examination for an Ordinary Certificate, he may, if qualified as to service without further formal application or further payment of fee, proceed with the examination for a Certificate of Competency for Foreign-going Steamships, or for Fore and Aft-rigged Vessels. And if a Candidate fails in the same manner in his examination for an Extra Master's Certificate, he may, under the same conditions as above, proceed with the examination for an Extra Certificate for Steamships.

Fee always paid first.

21. Candidates for examination, in making their application on Form Exn. 2, will be required to pay the examination fee before any step is taken in the way of inquiring into their services or testing their qualifications. If the Candidate is found not to be qualified, the fee will either be returned to him or placed to his credit until he is qualified.

Where to pay fees.

22. The fee for examination must be paid to the Port Officer in the cash office. If a Candidate offers a gratuity to any officer of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be again examined for twelve months either at the port where the offence was committed, or at any other port.

Fee not returned on failure.

23. If a Candidate fails to pass the examination, no part of the fee will be returned to him.

Table of fees.

24. The fees are as follows:—

FOR "FOREIGN-GOING SHIPS."

	Rs.
Second Mate	15
First and Only Mate if previously possessing an inferior Certificate, either granted by the Board of Trade, or by the Government of a British Possession *under section 8 of "The Merchant Shipping (Colonial) Act, 1869"* ...	7-8
If not	15
Master	30
Where a Candidate is in possession of a Certificate for Fore and Aft-rigged Vessels, and requires an Ordinary or Steamship Certificate of the same grade; or where a Candidate is in possession of a Steamship Certificate, and requires an Ordinary Certificate of the same grade	Half the usual fee.

	Rs.
Master Extra, if possessing an Ordinary Master's Certificate; or Master, Extra, for Steamships if possessing a Master's Certificate for Steamships...	15*
Where a Candidate is in possession of a Certificate for Foreign-going Ships, not granted under the *Merchant Shipping (Colonial) Act, 1869*, or section 102 of the Merchant Shipping Act, 1894; or of a Provisional Certificate of qualification obtained after examination on board one of His Majesty's Ships; for an Imperial Certificate of same grade, for first attempt	No fee
Every subsequent attempt ...	Usual fee

FOR "HOME TRADE PASSENGER SHIPS."

	Rs.
Mate	7-8
Master	15

FOR VOLUNTARY EXAMINATION IN STEAM.

	Rs.
Any Master or Mate holding a Certificate of any grade, whether for the Foreign or Home Trade, or as Master of his own Pleasure Yacht ...	15

FOR VOLUNTARY EXAMINATION IN DEVIATION OF THE COMPASS.

	Rs.
Any Master or Mate holding a Certificate of any grade, whether for the Foreign or Home Trade, or as Master of his own Pleasure Yacht ...	15

VOLUNTARY EXAMINATION IN SIGNALLING.

	Rs.
Any Master or Mate who holds, or has passed for, a Certificate of any grade, whether for the Foreign or Home Trade or as Master of his own Pleasure Yacht	15

FOR "YACHTS."

	Rs.
* Master	30
Master, Extra, if possessing a Master's Certificate	15

NOTE.—No abatement will be made in the fee charged to a Candidate for a Certificate for Foreign-going Ships in consequence of his possessing a Master's or Mate's Certificate for Home Trade Passenger Ships.

FIRST AID TO THE INJURED.

25. (1) Every candidate for a certificate of competency of any grade will be required to produce a certificate from the St. John Ambulance Association, the St. Andrew's Ambulance Association or the London County Council to the effect that he has passed an examination in First Aid to the Injured.

* If the examination for the Extra Master's Certificate takes place at the same time as the examination for the Ordinary Master's Certificate, the usual fee for the Ordinary Master's Certificate in addition to the fee for the Extra Certificate must be paid. This rule as to fees also applies to the examinations for certificates as Extra Master of steamships and Yachts and for Extra Certificates of efficiency.

(2) The certificate must be an adult certificate, *i.e.*, obtained by the candidate when sixteen years of age or more, and the examination for it must have been passed not more than three years before the date of the examination for the certificate of competency.

(3) The Government have arranged with the St. John Ambulance Association for special facilities to be provided in Calcutta for the instruction and examination of candidates in this subject, and those desirous of obtaining a certificate from the Association, showing that they have a knowledge of "First Aid to the Injured," should submit their applications to the Port Officer of Calcutta, who will place them in communication with the Local Secretary of the Association. A list of the names and addresses of the local secretaries of the Associations is given in Appendix C, page 1030.

The fee payable by candidates in return for instruction and examination on this subject is Rs. 15.

(4) Besides the courses of instruction which are provided on shore at the ports in the United Kingdom, at which examinations for certificates as Master and Mate are held, courses of instruction given by qualified surgeons on board merchant vessels will be accepted by the St. John Ambulance Association as qualifying the candidate for examination for their certificate of proficiency in First Aid, provided the surgeon certifies that he has followed the syllabus of instruction laid down by the Association.

(5) The St. Andrew's Ambulance Association will also accept instruction by a ship's surgeon on board ship as qualifying a candidate for examination for their certificate of proficiency in First Aid, provided their syllabus is followed. In this case the candidate must previously have enrolled and obtained an attendance card, by applying to the local secretary of the Association, or to the head office at 176, West Regent Street, Glasgow.

(6) It will not be necessary for the candidate for a certificate as Master or Mate in all cases to produce the formal certificate of proficiency in First Aid issued by the Associations. In order to prevent delay in proceeding with the examination for the certificate as Master or Mate and in the issue of the certificate to successful candidates, the special Mercantile Marine linen Certificate issued by the St. John Ambulance Association and duly signed by the Lecturer, the Surgeon Examiner and the Association's local representative, or, in Scotland, a certificate signed by the Local Examiner of the St. Andrew's Ambulance Association to the effect that the candidate has passed the examination for a Certificate of proficiency, may be accepted as showing that the candidate possesses the required knowledge of First Aid.

SIGHT TESTS.

26. Every Candidate for a certificate of competency of any grade must pass the three tests before he can proceed to the examination in navigation and seamanship.

(1) The sight tests are open to all persons serving or intending to serve in the Mercantile Marine, and all such persons are recommended to take the earliest opportunity of ascertaining by means of these tests whether their vision is such as to qualify them for service in that profession.

(2) The three tests are:—

(*a*) Form Vision Test (*see* page 1075).
(*b*) Colour Vision Test (*see* page 1076).
(*c*) Colour Ignorance Test (*see* page 1081).

No Candidate will be examined in the Colour Vision Test until he has passed the Form Vision Test, or in the Colour Ignorance Test until he has passed the Colour Vision Test.

This rule must be observed whether the candidate has or has not on any previous occasion passed the sight tests.

(3) Any person serving or intending to serve in the Mercantile Marine if desirous of undergoing the Form Vision, Colour Vision, and Colour Ignorance Test *only*, must make application to the Port Officer on the Form Exn. 2A, and must pay a fee of one rupee.

This fee will be payable on each occasion upon which a candidate is examined in Form Vision and Colour tests.

(4) Candidates who fail to pass the Form Vision Test or Colour Ignorance Test can be re-examined at intervals of three months, but Candidates who fail to pass the Colour Vision Test cannot be re-examined. It is open, however, to any Candidate who has failed to pass the Colour Vision Test to appeal to the Government, who may, if they think fit, remit the case to a special Examiner or body of Examiners for final decision.

(5) The expenses of Candidates who are examined by such special Examiner, or body of Examiners, and are reported by them to have passed, will, under certain circumstances, be paid by the Government, at a rate which will be notified to the Candidate; but no payment whatever will be made towards the expenses of Candidates who, upon their own application, are examined by the special Examiners and are reported by them to have failed, unless the Government consider that the particular circumstances of the case justify such payment. The special examinations will be held in Calcutta only.

(6) When a Candidate fails to pass the Colour Vision Test, the Examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Examiner, and forwarded to the Government with the Examiner's remarks.

(7) The fee paid for examination for a Certificate of Competency includes the fee of one rupee for examination in Form Vision, Colour Vision, and Colour Ignorance, and if the Candidate fails to pass those tests, this fee will, with the exception of one rupee, be returned to him.

(8) Only Examiners who have themselves passed the Colour Vision Test are to undertake these Examinations.

(9) Whenever the holder of a certificate of competency fails to pass any of the three tests there is reason to believe that he is from incompetency unfit to discharge his duties, and in the public interest the Government may cause an inquiry to be held by a Court, having jurisdiction to cancel or suspend such certificate; but in the alternative the Government may accept the voluntary surrender of the certificate until such time a the applicant succeeds in passing the tests in which he failed.

27. The Government have decided that on and after January 1st, 1914, the standard of form vision in the sight tests shall be raised to that specified in Appendix O on page 1074, subject to the condition that candidates who before the above date shall have obtained any certificate of competency as Master or Mate (foreign-going or home trade), shall have the option of undergoing the present tests and shall not, in order to obtain certificates of higher grades, be required to pass the more severe test.

From March 1st, 1910, it will be possible for any person serving or intending to serve in the Mercantile Marine to be examined with reference to the higher standard and if he passes, he may receive a certificate to that effect, or if he holds a certificate of competency, the fact of his having passed the higher standard may be endorsed upon it.

The examiners should in all cases point out to boys and others coming up for the Sight Tests that unless they are in possession of a certificate of competency by the 1st January, 1914, they will after that date be required to pass the new standard of Form Vision as laid down in Appendix O, whether they are coming up for a certificate of competency or for examination in the Sight Tests only.

CHAPTER II.

QUALIFICATIONS REQUIRED FOR THE VARIOUS GRADES.*

Certificates for "Foreign-going" Ships or Ordinary Certificates.

Square-rigged service required.

28. A Candidate for an Ordinary Certificate of any grade, who has not previously held an Ordinary Certificate of a lower grade, must prove that he has served 12 months in the Foreign Trade, or 18 months in the Home or Coasting Trade in a square-rigged sailing vessel.

Value of ordinary certificates.

29. Ordinary Certificates will entitle the holders to go to sea as Mates or Masters of any vessel, sailing or steam.

Second Mate ordinary.

30. SECOND MATE.—A Candidate must be not less than seventeen years of age, and must have served four years at sea.

SECOND MATE.

Navigation.

31. *Examination in Navigation.*—A Candidate for a Second Mate's Certificate will be required—

(*a*) To write a legible hand and spell correctly; this will be tested by not less than a quarter of an hour's dictation.

(*b*) To write a short definition of various astronomical and other terms and to draw a rough sketch or diagram to illustrate their meaning (*see* Appendix D and paragraph 163).

(*c*) To show a competent knowledge of the first five rules of arithmetic and the use of logarithms.

(*d*) To work a day's work complete, correcting the courses for leeway, deviation and variation.

(*e*) To find the latitude by the meridian altitude of the sun.

(*f*) To work any practical problem in parallel sailing.

(*g*) To find the true course and distance from one given position to another by Mercator's method; also the compass course, the variation and deviation being given.

(*h*) To find the time of high water at a given port.

(*i*) To find the true amplitude of the sun and the error of the compass therefrom; also the deviation, the variation being given.

(*j*) To find the longitude by chronometer from altitude of the sun by the usual methods, computing the daily rate of chronometer from errors observed when required; also to find the true azimuth of the sun, and the error of the compass; and the deviation, the variation being given.

(*k*) To find the true azimuth of the sun by the "Time Azimuth" tables; the error of the compass; also the deviation, the variation being given.

(*l*) To find on either a "true" or "magnetic" chart† or plan the course to steer and the distance from

* These qualifications are shown in a tabular form in Appendix P., page 1082.

† The terms "true" and "magnetic" are used for brevity and convenience throughout the Regulations to indicate charts which have compasses engraved upon them showing the true or magnetic points of the compass respectively.

one given position to another; to find the ship's position on the chart or plan from cross-bearings of two objects; to find the ship's position from two bearings of the same object, the course and distance run between taking the bearings being given; also the distance of the ship from the object at the time of taking the second bearing; and to state what the small numbers and Roman numerals found on a chart indicate, and give a method of finding approximately the time of high water at any given place without the aid of the Admiralty or other Tide Tables. (*see* Appendix H, page 1058).

He will be examined orally in the following subjects:—

(*m*) The Morse and British movable semaphore alphabets, the International Code of Signals, and the British Signal Manual.

(*n*) The use and adjustments of the sextant, read off and on the arc, and the mode of finding the index error by both horizon and sun.

(*o*) The construction, use and principle of the barometer, thermometer and hydrometer.

(*p*) Weights and measures.

Second Mate, ordinary Seamanship.

32. *Examination in Seamanship.*—He must understand and give satisfactory answers on the following subjects:—

(*a*) The standing and running rigging of ships.

(*b*) Bending, unbending, setting, reefing, taking in and furling sail.

(*c*) Sending masts and yards up and down, &c.

(*d*) Management of a ship when under canvas.

(*e*) Management of ship's boats in heavy weather.

(*f*) Dunnaging and stowing cargo, &c.

(*g*) The Rule of the Road as regards both steamers and sailing vessels, their regulation lights and fog and sound signals.

(*h*) The signals of distress and the signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals.

(*i*) The marking and use of the lead and log lines.

(*j*) The use and management of the rocket apparatus in the event of a vessel being stranded.

(*k*) Any question of a like nature appertaining to the duties of a Second Mate that the Examiner may think necessary to ask.

(*l*) Also questions on the additional subjects which are specified in the Rules of Examination for Second Mates' Certificates of Competency for Foreign-going Steamships (*see* paragraph 48).

Only Mate Ordinary.

33. ONLY MATE.—A Candidate must be not less than nineteen years of age, and have served five years at sea.

First Mate Ordinary.

34. FIRST MATE.—*A Candidate must be not less than nineteen years of age, and have served five years at sea of which—

(*a*) One year must have been in a capacity not lower than Fourth Mate of a Foreign-going Vessel, whilst holding a Second Mate's Certificate for Foreign-going Vessels;

If his service was as Third or Fourth Mate, proof will be required that he had during the whole year *charge of a Watch* (*see* para. 112):

(*b*) *or* one year and-a-half must have been in a capacity not lower than Only Mate in a Home Trade or Coasting Vessel whilst holding a Second Mate's Certificate for Foreign-going Vessels, or a Mate's Certificate for Home Trade Passenger Ships;

* For convenience of calculation the service required is stated in a tabular form, Appendix P, page 1082.

(*c*) *or* one year must have been as Pilot with a First Class Pilot's Certificate (*see* para. 109).

(*d*) or eighteen months' active service as Chief Officer with a Second Mate's Certificate on a Bengal Pilot Brig.

Mate, ordinary Navigation.

35. *Examination in Navigation.*—A Candidate for an Only or First Mate's Certificate will be required—

(*a*) To work out any *three* of the nautical problems prescribed for the Second Mates' examination which may be given him by the Examiner, in addition to the chart paper (*l*) and the oral subjects (*m*, *n*, *o*, *p*) prescribed for that grade.

(*b*) To compute the time at which a given star will be on the observer's meridian. [Occasionally by inspection.]

(*c*) To describe where tables giving the names of the principal stars passing the meridian may be found.

(*d*) To describe where the meridian passage of the principal planets may be found.

(*e*) To determine what bright stars will be within an hour or more of the observer's meridian above the pole and above the horizon at any given time; also the hour angle, east or west of each of the stars, and whether to the north or south of the observer's zenith when passing the meridian.

(*f*) To describe any maps or diagrams which the Candidate knows, and prefers for further facilitating the recognition of the stars and planets.

(*g*) To compute the approximate meridian altitude of one of the stars just found, for setting the sextant.

(*h*) To find the latitude from the meridian altitude of the same star.

(*i*) To find the longitude by chronometer by altitude of a star.

(*j*) To find the true azimuth of a star by the "Time Azimuth" tables, and get the deviation therefrom.

(*k*) To find the latitude by ex-meridian altitude of the sun or a star.

(*l*) To find the *line of position* and the true bearing of the sun, and the ship's position, by Sumner's method by projection.

(*m*) To answer certain questions relative to cyclones or revolving storms (*see* Appendix I, page 1059).

(*n*) To find on a chart or plan the course to steer by compass in order to counteract the effect of a given current, and find the distance the ship will make good towards a given point in a given time; to fix a ship's position on a chart or plan by horizontial sextant angles, using a station pointer; and to work out practically the correction to apply to soundings taken at a given time and place to compare with the depth marked on the chart (*see* Appendix H, page 1058).

He will be examined orally in the following subjects :—

(*o*) How to keep a ship's log book.

(*p*) How to calculate the capacity of a given bunker or hold.

(*q*) How to calculate a freight and its commissions.

(*r*) The measurement and equipment of ship's life boats and number of persons allowed to be carried in each class of boat.

(*s*) Testing of life-buoys and life-belts.

(*t*) The screening of ships' side lights.

First Mate, Ordinary. Seamanship.

36. *Examination in Seamanship.*—In addition to the qualifications required for a Second Mate's Certificate, an Only or First Mate will be required to show a knowledge of the following subjects:—

(*a*) Shifting large spars, rigging sheers, taking lower masts in and out.

(*b*) How to moor and unmoor ship; to keep a clear anchor; and to carry out an anchor,

(*c*) How to manage a ship in stormy weather, and to cast a ship on a lee shore.

(*d*) How to secure the masts in the event of accident to the bowsprit.

(*e*) How to rig purchases for getting heavy weights, anchors, machinery, &c., in or out.

(*f*) How to dispose various kinds of cargo and weights in a stiff, and in a tender vessel.

(*g*) The ventilation of holds and the stowage of explosives.

(*h*) The stowage of grain cargoes.

(*i*) How to rig a sea anchor, and what means to employ to keep a vessel, disabled or unmanageable, out of the trough of the sea, and lessen her lee drift.

(*j*) How to get a cast of the deep sea lead in heavy weather.

(*k*) Accidents, and how to deal with them.

(*l*) Any other questions appertaining to the duties of an Only or Fist Mate which the Examiner may think necessary to ask.

(*m*) Also questions on the additional subjects which are specified in the Rules of Examination for Only and First Mate's Certificates of Competency for foreign-going Steamships (*see* para. 52).

Master, Ordinary.

37. MASTER.*—A Candidate must be not less than twenty-one years of age, and

Qualifying Service. (*a*) As First or Only Mate in the Foreign Trade.

(*a*) he must have served six years at sea, of which one year must have been in a capacity not lower than Only Mate of a Foreign-going Vessel whilst holding a Certificate not lower than an Only Mate's Certificate for Foreign-going Vessels, provided that if this service as officer was not performed whilst holding a First Mate's Certificate for Foreign-going Vessels, the Candidate will also be required to prove the officer's service prescribed for that grade (para. 34);

(*b*) As Only Mate in the Home Trade.

(*b*) *or*, he must have served six years at sea, of which one year and-a-half must have been in a capacity not lower than Only Mate of a Home Trade or Coasting Vessel whilst holding a Certificate not lower than an Only Mate's Certificate for Foreign-going Vessels provided that if this service as officer was not performed whilst holding a First Mate's Certificate for Foreign-going Vessels, the Candidate will also be required to prove the Officer's service prescribed for that grade (para. 34);

(*c*) As first or second Mate in the Foreign Trade and as Third or Fourth Mate in the Foreign Trade.

(*c*) *or* he must have served six and-a-half years at sea, one year of which must have been in a capacity not lower than Second Mate of a Foreign-going Vessel whilst holding a First Mate's Certificate for Foreign-going Vessels, provided that if this service as Second Mate was performed under an Additional or Auxiliary First Mate it will only be accepted if a Third and Fourth Mate were also carried, *and* one year and-a-half not lower than Third or Fourth Mate of a Foreign-going Vessel *in charge of a Watch* whilst holding a Second Mate's Certificate for Foreign-going Vessels (*see* para. 5.)

* For convenience of calculation the service required is stated in a tabular form, Appendix P, page 1062.

(d) As Master and for Mate in the Home Trade.

(d) *or*, he must have several nine years at sea in the Home or Coasting Trade, of which three years must have been as Master, *or* one year as Master and three years in a capacity not lower than that of Mate, *provided that in either case* he has served in such capacity for not less than one year with a Second Mate's Certificate for Foreign-going Vessels or a Master's Certificate for Home Trade Passenger Ships.

Master, Ordinary, Navigation.

38. *Examination in Navigation.*—A Candidate for an Ordinary Master's Certificate will be required to work out any *twelve* of the nautical problems prescribed for the grades of Second and First Mate that may be given him by the Examiner, in addition to the chart paper, the cyclone paper, and the oral subjects prescribed for the grades of Second and First Mate. He will also be required—

(*a*) To find the latitude by the altitude of the polar star at any time.

(*b*) To find the latitude by the meridian altitude of the moon.

(*c*) To find the magnetic bearing of any fixed object when at sea or at anchor from bearings of the object taken with the ship's head on equidistant compass points, and to compute the deviation therefrom; to construct a deviation curve upon a Napier's diagram which will be furnished by the Examiner, and show that he understands its practical application; to give satisfactory written and oral answers to certain practical questions as to the effect of the ship's iron upon the compasses, and the method of determining the deviation, and show how to compensate the deviation by magnets and soft iron by the aid of Beall's Compass Deviascope (*see* Appendix J, page 1060).

He will be examined orally in the following subjects:—

(*d*) The law as to the engagement and discharge and management of the crew, and the entries to be made in the official log.

(*e*) How to prevent and check an outbreak of survey on board ship.

(*f*) The law as to load line marks, and the entries and reports to be made respecting them.

(*g*) Invoices, charter party, bills of lading, Lloyd's agent, nature of bottomry, bills of exchange, surveys, averages, &c.

(*h*) The prevailing winds and currents of the globe.

(*i*) The trade routes.

(*j*) Tides.

Master, Ordinary, Seamanship.

39. *Examination in Seamanship.*—In addition to the qualifications required for the grades of Second and First Mate, an Ordinary Master will be required to show a knowledge of the following subjects:—

(*a*) Construction of jury rudders for both wooden and iron vessels, also rafts.

(*b*) Resources for the preservation of the ship's crew in the event of wreck.

(*c*) Management of ship in heavy weather.

(*d*) Rescuing the crew of a disabled vessel.

(*e*) Steps to be taken when a ship is on her beam ends, or in any danger or difficulty, or disabled or unmanageable and on a lee shore.

(*f*) Heaving a keel out.

(*g*) How to proceed when placing a ship in dry dock, and directing repairs, and when putting into port in distress with damage to cargo and ship.

(*h*) Any other question of a like nature appertaining to the management of a ship which the Examiner may think it necessary to ask.

(*i*) Also questions on the additional subjects which are specified in the Rules of Examination for Masters' Certificates of Competency for Foreign-going Steamships (*see* para. 55).

SPECIAL REGULATIONS RELATING TO THE EXAMINATION OF MASTERS AND MATES TO APPLY ONLY WHERE THE CANDIDATE HAS SERVED AN APPRENTICESHIP IN AN APPROVED SEAGOING TRAINING SHIP, WITH A VIEW TO PROMOTION IN THE SERVICE OF THE COMPANY TO WHICH THE TRAINING SHIP IS ATTACHED.

Recognition of service on the training ship as qualifying for examination for a certificate as Second Mate.

40. (1) The training ship must be a sea-going cargo-carrying square rigged sailing vessel, and the course of study and practical training which the cadets receive must be approved by the Board of Trade.

At the end of four years' service in the training ship the cadet will be qualified for examination for a certificate as Second Mate provided (1) he can produce a testimonial to the effect that both his conduct and his ability have given satisfaction during the whole period, and (2) that he has served *at sea* for not less than four-fifths of the time, that is to say, has not spent more than one-fifth of the time in home ports (*cf.* para. 128).

If the cadet has served previously for two years in either the "Conway" or the "Worcester" training ship, this time will be allowed to count as one year's qualifying service (*cf.* para. 126), and he will be required to serve for three years only in the Company's training ship, before he can be allowed up for examination for a certificate as Second Mate (ordinary).

Recognition of service as Junior Officer as qualifying for examination for a certificate as First Mate.

(2) A candidate who has served for four (or three) years on the training ship may be allowed up for examination for a certificate as First Mate (ordinary) when he has served, whilst holding a certificate as Second Mate, *for two years as junior bridge-keeping officer of the watch* upon vessels of the Company satisfying certain requirements [*see* sub.-para. (4)].

Recognition of service (*a*) as Senior Officer and (*b*) as Senior of the Junior Officers as qualifying for examination for a Certificate as Master.

(3) A candidate who has obtained a certificate as First Mate in the above way may be allowed up for examination for a certificate as Master (ordinary) when he has served for eighteen months whilst holding the Certificate as First Mate, as a senior watch-keeping officer upon vessels of the Company satisfying the same requirements [*see* sub-para. (4)].

If the candidate has served for eighteen months as senior of the junior officers, *i.e.*, the officers next below the junior of the officers in full charge of the watch whilst holding the certificate as First Mate, he may be allowed up for examination for a certificate as Master (ordinary) on the understanding that the certificate as Master would not be issued to him until he had completed twelve months' service as a senior watch-keeping officer, the service in both cases to be performed on vessels satisfying the same requirements [*see* sub-para. (4)].

Limits of applications sub-paras. (2) and (3).

(4) The special regulations (paragraphs 2 and 3) in regard to the acceptance of service as qualifying for the examinations for certificates as First Mate and Master shall apply only when the service is performed in the specified capacities upon ocean-going steamers of not less than 8,000 tons gross, making an average speed of 16 knots or upwards and carrying a crew of not less than 130 men, including at least six deck officers beside the Master.

CERTIFICATES FOR FOREIGN-GOING FORE AND AFT-RIGGED VESSELS.

Fore and aft Certificate.

41. Certificates for the grades of Master, First Mate, Only Mate and Second Mate of fore and aft-rigged vessels will be issued to Candidates who have not complied with the regulation which requires them to have served at least one

year in square-rigged sailing vessels, or who prove in course of examination that they are ignorant of the management of square-rigged ships. In other respects the qualifications for examination for such Certificates are the same as for Ordinary Certificates.

Character of examination.

42. The examinations for the grades of Second Mate, Only Mate, First Mate, and Master of fore and aft-rigged vessels will be precisely the same as for the Ordinary Certificates, excepting that in seamanship a knowledge of the management of square-rigged vessels is not required.

Value of Certificates.

43. A Certificate for "Fore and Aft-rigged vessels" will not entitle the possessor to act in any case in which a Certificate of square-rigged vessels is required. Amongst square-rigged vessels are classed full-rigged ships, barques, brigs, barquentines, brigantines and steamships carrying square sails.

How certificates may be changed

44. A Candidate possessing a Certificate for fore and aft-rigged vessels, and desiring to be examined for an Ordinary Certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel, *unless* he has previously held an Ordinary Certificate of a lower grade.

CERTIFICATES FOR FOREIGN-GOING STEAMSHIPS.

Steamship Certificates.

45. Certificates applying only to steamships are issued to Candidates who are either unable to comply with the regulation which requires them to have passed one year in square-rigged sailing vessels, or who prove in course of examination that they are ignorant of the management of square-rigged sailing vessels. All the qualifying Officers' service prescribed for these Certificates must have been performed in steamships.

These Certificates will entitle the holders to go to sea as Masters or Mates of Foreign-going Steamships, but will not entitle them to go to sea as Masters or Mates of Foreign-going Sailing Ships.

There will be no distinction in these Certificates between "Fore and Aft-rigged" Steamships and "Square-rigged" Steamships.

Second Mate Steamships.

46. SECOND MATE.—The qualifications as to age and service are the same as for an Ordinary Second Mate's Certificate (*see* para. 30), excepting that no service in square-rigged sailing vessels is required.

Navigation.

47. *Examination in Navigation.*—The examination in navigation for a Second Mate's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary Second Mate's Certificate.

Seamanship.

48. *Examination in Seamanship.*—The Candidate must understand and be able to give satisfactory answers as to the following subjects:—

(*a*) The standing and running rigging of steamships.

(*b*) Bending, unbending, setting, reefing, taking in and furling sail.

(*c*) Sending masts and yards up and down, &c.

(*d*) Seeing everything in readiness and clear for getting under way, and the precautions to be then observed with regard to steering gear and connections, engines, propeller, &c.

(*e*) Care and usage of patent logs and leads.

(*f*) Management of a ship's boat in heavy weather.

(*g*) Dunnaging and stowing cargo, &c.

(*h*) The Rule of the Road as regards both steamers and sailing vessels, their regulation lights and fog and sound signals.

(*i*) Signals of distress, and signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals.

(*j*) The marking and use of the ordinary lead and log lines.

(*k*) The construction, use and action of the sluices, and of the water-ballast tanks.

(*l*) Engine-room and other telegraphs used on board ship, and deck appliances generally.

(*m*) Use and management of the rocket apparatus in the event of a vessel being stranded.

(*n*) Any other questions of a like nature appertaining to the duties of the Second Mate of a steamship which the Examiner may think necessary to ask.

Only Mate, Steamship.

49. ONLY MATE.—The qualifications as to age and service are the same as for an Only Mate's Ordinary Certificate (*see* para. 33), excepting that no service in square-rigged vessels is required.

First Mate, Steamships.

50. FIRST MATE.—The qualifications as to age and service are the same as for a First Mate's Ordinary Certificate (*see* para. 34), excepting that the service required as officer must have been in steamships, and that no service in square-rigged vessels is required.

Navigation.

51. *Examination in Navigation.*—The examination in navigation for an Only or First Mate's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary First Mate's Certificate (*see* para. 35).

Seamanship.

52. *Examination in Seamanship.*—In addition to the qualifications required for a Second Mate's certificate, an Only or First Mate will be required to show a knowledge of the following subjects:—

(*a*) Shifting large spars; rigging sheers; and taking lower masts in and out.

(*b*) How to moor and unmoor ship, keep a clear anchor and to carry out an anchor.

(*c*) Management of a steamship in stormy weather.

(*d*) How to rig purchases for getting heavy weights, anchors, machinery, &c., in and out.

(*e*) How to dispose various kinds of cargo and weights, in a stiff and in a tender vessel.

(*f*) Ventilation of holds and the stowage of explosives.

(*g*) Stowage of grain cargoes.

(*h*) The effects of the screw race upon the rudder; and the effect produced on the direction of the head of the ship by going [ahead] [astern] with a [right] [left] handed screw when the rudder is [ported] [starboarded]; also the effect of twin-screws under the same conditions, and when going ahead with one and reversing the other, &c., &c.

(*i*) How to rig a sea anchor, and what means to employ to keep a steamer, with her machinery disabled, out of the trough of the sea and to lessen her lee drift.

(*j*) How to turn a steamship short round.

(*k*) How to get a cast of the deep sea lead in heavy weather.

(*l*) Any other questions of a like nature appertaining to the duties of a First Mate of a steamship which the Examiner may think necessary to put to him.

Master, Steamships.

53. MASTER.—The qualifications as to age and service are the same as for a Master's Ordinary Certificate for a Foreign-going ship (*see* para. 37), excepting that the service required as officer must have been performed in steamships, and that no service in square-rigged vessels is required.

Navigation.

54. *Examination in navigation*.—The examination in navigation for a Master's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary Master's Certificate (*see* para. 38).

Seamanship.

55. *Examination in seamanship.*—In addition to the qualifications required for the grades of Second and First Mate, a Master will be required to show a knowledge of the following subjects:—

(*a*) Construction of rafts and jury rudders suitable for screw steamships.
(*b*) The preservation of the ship's crew in the event of wreck.
(*c*) Management of steamships in heavy weather.
(*d*) Rescuing the crew of a disabled ship.
(*e*) Steps to be taken when a vessel is on her beam ends or disabled and on a lee shore.
(*f*) How to use steam appliances in the event of fire.
(*g*) Economy in coal consumption.
(*h*) The best arrangement for towing vessels under different circumstances.
(*i*) Placing ship in dry dock, directing repairs, and the mode of procedure when putting into port in distress with damage to cargo and ship.
(*j*) Any other questions of a like nature appertaining to the management of a steamship which the Examiner may think it necessary to put to him.

Steamship Certificates, how changed.

56. A candidate possessing a certificate for "Foreign-going Steamships" and desiring to be examined for an Ordinary Certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel *unless* he has previously held an Ordinary Certificate of a lower grade.

CERTIFICATES FOR HOME TRADE PASSENGER SHIPS.

Mate, Home Trade.

57. MATE.—A candidate must be not less than nineteen years of age and have served four years at sea.

Navigation.

58. *Examination in Navigation.*—He must write a legible hand and spell correctly, and understand the first five rules of arithmetic, both simple and compound. He must be able to take a bearing by compass, be conrsant with the use of a Mercator's Chart, and be able to refind, on either a "true" or "magnetic" chart or plan, the course to steer and the distance from one given position to another; to find the ship's position on a chart or plan from cross bearings of two objects, and from two bearings of the same object, the course and distance run between taking the bearings being given; also the distance of the ship from the object at the time of taking the second bearing; and to state what the small numbers and Roman numerals found on a chart indicate, and give a method of finding approximately the time of high water at any given place without the aid of the Admiralty or other Tide Tables (*see* Appendix H). He must also know both the Morse and British Movable Semaphore alphabets, and have a good working knowledge of the International Code of Signals and British Signal Manual.

Seamanship.

59. *Examination in Seamanship*—He must possess a thorough knowledge of the Rule of the Road as regards both steamers and sailing vessels, their regulation lights, and fog and sound signals. He must be able to describe the signals of distress and the signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals; also the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines, to moor and unmoor a vessel, and to manage a ship's boat in heavy weather, etc., etc. He must also understand the construction, use and action of the bulkhead sluices, the engine-room, telegraph, etc., and to answer any other questions of a like nature appertaining to the duties of the mate of a Home Trade Passenger ship which the Examiner may think proper to put to him.

60. MASTER.*—A Candidate must be not less than twenty years of age and have served five years at sea of which— Master, Home Trade.

(*a*) one year must have been in a capacity not lower than that of only Mate of a Home Trade or Coasting Vessels whilst holding a Mate's Certificate for Home Trade Passenger Ships, or a Second Mate's Certificate for Foreign-going Vessels;

(*b*) *or*, two and-a-half years must have been in a capacity not lower than Second Mate of a Home Trade or Coasting Vessel *in charge of a Watch* whilst holding a Mate's Certificate for Home Trade Passenger Ships, or a Second Mate's Certificate for Foreign-going Vessels (*see* para. 112);

(*c*) *or*, one year must have been as Pilot with a first Class Pilot's Certificate (*see* para. 109).

61. *Examination in Navigation.*—In addition to the qualifications required of a Mate of a Home Trade Passenger Ship, a Master will be required to find on a chart the course to steer by compass in order to counteract the effect of a given current and to find the distance the ship will make good towards a given point in a certain time, and to *work out practically* the correction to apply to soundings taken at a given time and place, to compare with the depth marked on the chart, etc. He will also be required to understand the use of the quadrant, to be able to observe with it, to read *off* and *on* the arc, and to find the index error by horizon. He will also be required to find the latitude by a meridian altitude of the sun, and to give written answers to certain practical question on the subject of the deviation of the compass (*see* also supplementary *viva voce* test, para. 164*j*. Master, Home Trade Navigation.

62. *Examination in Seamanship.*—In addition to the qualifications required of a Mate of a Home Trade Passenger Ship, a Master must understand how to rig a sea anchor and what means to apply to keep a steamship with machinery disabled out of the trough of the sea; also how to get a cast of the lead in heavy weather, etc. He will be examined as to his resources for the preservation of the crew and passengers in the event of wreck and the steps to be taken if his vessel is disabled and drifting towards a lee shore, and will be required to answer any other questions appertaining to the management of a Home Trade Passenger Ship which the Examiner may think necessary to put to him. Master, Home Trade. Seamanship.

EXTRA CERTIFICATE.

63. *Certificates as Extra Master.*—An Extra Master's Certificate will entitle the holder to go to sea as Master of any vessel, sailing or steam. Extra Master, Foreign-going ships.

The examination is voluntary and intended for such persons as wish to prove their superior qualifications and are desirous of having Certificates of the highest grade granted by the Board of Trade.

The extra examination may take place when the Applicant is qualified to go up for examination for an Ordinary Master's Certificate, or at any time subsequent to his having passed the examination for that Certificate.

64. *Examination in Navigation.*—The Candidate will be required to work out and show the construction of any four of the problems,† prescribed for the Ordinary Certificates and to satisfy the Examiner in the oral subject prescribed Extra Master, Navigation.

* For convenience of calculation the service required is stated in a tabular form in Appendix P, page 1082.

† Either of the chart papers E n, 9*s*. or Exn, 9*d*, may be given as one of these four problem.

for those Certificates. He must also be prepared to be examined in any of the following subjects, showing the construction of all problems* :—

(*a*) To find the latitude from double altitudes of the sun or of a star.

(*b*) To determine, from simultaneous observations of two different stars, the position of the ship, and the true bearing of the stars, by Sumner's method. The Candidate may either determine the four longitudes from the two assumed latitudes which will be given, or solve the question in any other way he may choose.

(*c*) To find the error of a chronometer from the altitude of the sun of a star, observed with an artificial, or with the natural, horizon.

(*d*) To explain clearly in writing the principles of—(1) Great Circle sailing; (2) Windward Great Circle sailing; (3) Composite Great Circle sailing; and their advantages and disadvantages.

(*e*) To show approximately on a terrestrial globe the Great Circle track and the distance from one given position to another; also the latitude and longitude of vertex; and the longitude from vertex; and to explain how the track can then be transferred to a Mercator's chart. Occasionally the Candidate will be required to lay the tract down on a chart.

(*f*) To determine the initial Great Circle course, and the distance, from one given position to another the latitude and longitude of vertex, the longitude from vertex and the latitudes and longitudes through which the Great Circle will pass, laying the track, composite or otherwise, down on a Mercator's chart, and explaining briefly how the course and distance from one point to another on this track is then found. This problem may, subject to the decision of the Examiner, be solved, either by calculation, or by any tables, graphic method, or Great Circle chart, known to and preferred by the Candidate, and it will usually be set so as to leave the choice of method to the Candidate.

(*g*) To draw a figure, and write down the trigonometrical ratios.

(*h*) Right-angled plane trigonometry; deducing and writing down the formula for each computation in the problem given.

(*i*) Oblique-angled plane trigonometry; deducing and writing down the formula, or the rule, for each computation in the problem given.

(*j*) To give Napier's rules for circular parts for the solution of right-angled spherical triangles, explaining clearly how the different angles and sides are considered in deducing the formulæ.

(*k*) Right-angled spherical trigonometry.

(*l*) The laws of the deviation of the compass in iron ships (*see* Appendix K, page 1062.)

(*m*) To construct a plan or chart on Mercator's principle and solve a given problem thereon.

(*n*) To write an essay on the "Law of Storms." He need not confine himself solely to laws and indications laid down in the various text books, but should supplement his text book knowledge by personal experience.

(*o*) To give written answers to from six to ten on Naval Architecture, and sketches questions where required.

* Two or three of these problems may usually be omitted, but all those set in the examination papers given to the Candidate must be worked.

He will be examined orally on the following subjects:—

(*p*) The leading principles of the construction of the extant and of the vernier patent logs and leads.

(*q*) The civil duties of a Shipmaster in which he will be expected to show a more extensive knowledge than a Candidate for an Ordinary Master's Certificate.

He will be required:—

(*r*) To show practical proficiency in both the Morse and Movable Semaphore methods of Signalling (*see* Appendix E).

The construction of the problems mentioned above and those in the compass syllabus must be shown as follows:—

(*a*) A circle should be drawn projected on the plane of the horizon—unless the problem can be shown better otherwise—and a correct figure drawn in it, the magnitude of the sides and angles being estimated approximately by the eye.

(*b*) The sides and angles used in solving the problem should be marked by distinguishing letters in the figure, and the Candidate should over each fresh computation write down clearly what is given and what he is required to find, together with the formula which he proposes to use.

(*c*) Opposite each quantity in the computation he should put the letters denoting the part of the triangle which it represents, writing 'comp' before the letters when the quantity is the complement of that part of the triangle.

Candidates will not be required to enter into the mathematical investigation of the rules and formulæ used in the solution of problems, involving oblique-angled spherical triangles, but credit will be given to any Candidate showing such knowledge. When, however, a problem or part of a problem is solved by right-angled spherical trigonometry, the simple process of deducing the formula from the figure, by Napier's rules for circular parts or other method, must be shown.

Where a problem is solved by right-angled plane trigonometry, the simple process of deducing the formula from the figure for each of the computations in it must be shown.

The rule for finding the latitude by meridian altitude must be proved by the figure.

Protractors must not be used in the chart construction problem either for setting off variation or laying off positions. All sketches and drawings required in the paper on Naval Architecture should be neatly done on cartridge paper supplied by the examiner.

Extra Master Seamanship.

65. *Examination in Seamanship.*—In addition to the qualifications required of an Ordinary Master, the Extra Master will be expected to give satisfactory answers to any questions in practical seamanship that the Examiner may put to him.

Extra certificates, Steamships.

66. Extra Certificates for Steamships will also be issued, subject to the examination described below to Officers who can show the necessary service in Steamships. The certificates will be marked "For Steamships only," and will only entitle the holders to go to sea as Masters of *Steamships*.

The examination is open to all who are qualified to go up for a Certificate as Master of a Foreign-going Steamship, or who have already obtained this Certificate. It is open also to Candidates who have failed in the examination for an Extra Master's Certificate to show the requisite knowledge of the management of square-rigged sailing vessels, provided they can prove the necessary amount of officer's service in Steamship (*see* para. 20).

Extra Master Steamship, Navigation.

67. *Examination in Navigation.*—The examination in navigation for an Extra Master's Certificate for steamships will be precisely the same as that prescribed for an Extra Master's Certificate.

Seamanship.

68. *Examination in Seamanship.*—In addition to the qualifications required of a Master of a Foreign-going Steamship, the Extra Master will be expected to give satisfactory answers to any questions appertaining to the management of a steamship that the Examiner may put to him.

CERTIFICATES FOR PLEASURE YACHTS.

Yacht Certificates.

69. The examination for these Certificates is purely voluntary, and is confined to persons who command their own sea-going pleasure yachts. A Master of yacht who is not also the sole owner, or who is under 21 years of age, is not eligible for examination.

Description of Certificate.

70. Only one description of Certificate will be issued whether the yacht is foreign-going or cruises within the home trade limits.

The Certificate will not entitle the holder to command any vessel except the pleasure yacht or yachts of which he is at the time the sole owner.

No sea service required.

71. Candidates are not required to have served any specified time afloat, as it is believed that their sea knowledge will be sufficiently tested by the examination they will have to pass in seamanship.

Statutory declaration necessary.

72. Testimonials of service need not be shown, but a Candidate for examination will be required to produce a statutory declaration to the effect (1) that he is sole owner of the yacht; (2) that the yacht is sea-going; (3) that it is not to be used for trading purposes. He will also be required to fill up the form of application (Form Exn. 2) and pay the fee of Rs. 30 at the Port Office, as in paragraph 2.

In other respects ordinary regulations apply.

73. In all other respects the regulations relating to examinations of Masters of Foreign-going ships will apply in these cases.

Yacht Master, Navigation.

74. *Examination in Navigation.*—The examination in navigation for a Yacht Master's Certificate will be precisely the same as that prescribed for an ordinary Master's Certificate, except that in the Civil duties of a Ship Master the Master of a yacht will only be expected to possess a knowledge of what he is required to do by the Merchant Shipping Act.

Yacht Master, Seamanship.

75. *Examination in Seamanship.*—He must give satisfactory answers as to his knowledge of making and taking in sail, and as to the management of a yacht under canvas in moderate and in stormy weather. He must have a thorough knowledge of the Rule of the Road at sea as regards both steamers and sailing vessels; their regulation lights, and fog and sound signals; and be able to describe the signals of distress and the signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals. He must also understand the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines; to cast a vessel on a lee shore; to moor and unmoor a ship; to keep a clear anchor, and to carry out an anchor. He must know how to keep his vessel out of the trough of the sea in the event of accident; how to rig rafts and jury rudders, &c., and what steps to take if his vessel is disabled or unmanageable and drifting towards a lee shore. He will also be examined as to his resources for the preservation of the crew in the event of wreck. He must also possess a knowledge of the measures he should adopt for preventing and checking an outbreak of scurvy on board, and be prepared to answer any other questions relating to the management of a yacht either steam or sailing which the Examiner may ask.

Extra Master, Yachts.

76. EXTRA MASTER OF YACHT.—An Extra Certificate will be issued to the owner of a yacht who either holds, or is qualified to be examined for a Yacht Master's Certificate, subject to the following examination.

77. *Examination in Navigation.*—The examination in navigation will be precisely the same as that prescribed for an extra Master's Certificate (*see* para. 64). Navigation.

78. *Examination in Seamanship.*—The subjects of examination in Seamanship will be the same as that prescribed for a Yacht Master's Certificate, but the Candidate for an Extra Certificate will be expected to show a more extensive practical knowledge than is required of a Candidate for the Yacht Master's Certificate. Seamanship.

CERTIFICATES OF EFFICIENCY IN NAVIGATION AND SEAMANSHIP FOR MEMBERS OF THE ROYAL NAVAL VOLUNTEER RESERVE.

79. Officers belonging to the Royal Naval Volunteer Reserve may be examined for either the Ordinary or Extra certificate of Efficiency in Navigation and Seamanship.

Candidates for Commissions in the Royal Naval Volunteer Reserve may also be examined for the Ordinary certificate of Efficiency, but not for the Extra certificate.

The examinations are, in all respects, similar to those passed by Owners of Pleasure Yachts to obtain the Ordinary or Extra certificates as Master of their own Yachts. These certificates of Efficiency are purely honorary, and are not available under the Merchant Shipping Act, 1894, for use in any capacity whatever on board a ship, which is required to carry a certificated officer.

The name of each officer or candidate for a Commission, who may desire to be examined, must first be submitted to the Board of Trade by the Commanding Officer of his Division, together with the name of the port at which he wishes the examination to be held.

If the application is approved, the candidate must attend personally at a Mercantile Marine Office, to fill up the form of application (Exn. 2) and pay the required fee.

PROVISIONAL CERTIFICATES.

80. Provisional Certificates for Foreign-going ships or for Foreign-going Steamships, according to the candidate's qualifications, are granted on the conditions stated below to any officer of the Mercantile Marine who may require such a Certificate to qualify him for appointment to or promotion in the Royal Naval Reserve. These Certificates are only issued for Royal Naval Reserve purposes, and do not authorise the holders to go to sea as First Mate or Master. Provisional Certificates.

81. Candidates for these Certificates must apply to the Port Officer of Calcutta, fill up the form of application (Exn 2), and pay the usual fee. They must produce their First or Second Mate's Certificates of Competency, and an authority from the Government before they can be examined. This authority should be obtained through the Port Officer. How to apply.

82. *Provisional Certificates as First Mate.*—Provisional Certificates as First Mate are granted to Candidates who can prove that they have served five years at sea, and that during one year of this period they have served in a capacity not lower than Fourth Mate while holding a Second Mate's Certificate. They must pass the usual examination for First Mate and pay the usual fee. The provisional Certificate is exchangeable for the full Certificate as First Mate, without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea not less than 12 months in a Foreign-going Vessel in a capacity not lower than Fourth Mate, *and that during the whole of that period he has been in regular charge of a Watch* and in possession of a Certificate of Competency as Second Mate. Provisional Certificates, First Mate.

Provisional Certificates, Master.

83. *Provisional Certificates as Master.*—Provisional Certificates as Master are granted to candidates who can prove not less than six and-a half years' service at sea, and who pass the usual examination for Mas er and pay the usual fee. Of this service two and-a-half years must have been served in a capacity not lower than Fourth Mate of an Ocean-going Steamship, during the last 12 months of which the Candidate must have been in possession of a full Certificate as First Mate. These Certificates will be exchanged for the full Certificates as Master, without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea not less than two and a-half years in a Foreign-going Vessel *in charge of a Watch* in a capacity not lower than Fourth Mate, and that during 12 months of this period he has served as Second Mate while in possession of a full Certificate of Competency as First Mate.

VOLUNTARY EXAMINATION IN COMPASS DEVIATION.

Compass deviation.

84. Any person holding a Certificate of any grade in the Foreign or Home Trade, or as Master of his own Pleasure Yacht, who wishes to pass a *voluntary* examination in Compass Deviation,* can at any time be examined upon filling up the usual form of application and paying to the Port Officer the fee of Rs. 15. If the Candidate passes the examination, a note to that effect will be made upon his Certificate.

VOLUNTARY EXAMINATION IN SIGNALLING.

85. The examination in Signalling as prescribed for candidates for the Extra Master's certificate is open as a voluntary examination to all officers holding, or who have passed for, a certificate of competency of any grade.

If the candidate passes, the fact with the date and place of passing will be recorded upon his certificate of competency.

Candidates may be examined at any port where Ordinary examinations are held upon filling up the form of application (Exn. 2) and paying the fee of Rs. 15 (*see* Appendix E, page 1032).

VOLUNTARY EXAMINATION IN STEAM.†.

Examination in steam.

86. These examinations are provided for the purpose of giving Masters and Mates who are possessed of Certificates of Competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam-engine They are conducted on the premises and under the superintendence of the Port Officer at such times as he may appoint for the purpose; and the Examiners are selected by the Government from the Engineer-Surveyors appointed under the Indian Steam Ships' Act, 1884.

Persons eligible.

87. The examination is open to any person who holds a Certificate of any grade in the foreign or home trade, or as master of his own Pleasure Yacht. Candidates should fill up the Form of application, Form (Exn. 2) at the Port Office, pay the fee of Rs. 15 and deposit their Certificates with the Port Officer. The Port Officer will inform the applicant when and where to attend to be examined. If the Candidate fails to pass, his certificate will be at once returned to him.

How to apply.

Result of Examination.

88. If he passes, the Report (Exn. 14) will be sent to the Port Officer and the Certificate together with the Form Exn. 2 will be sent to the Government; the words "certified to have passed in steam," with the date and place of

* *See* Appendix K, page 1062.
† *See* also Appendix N., page 1073.

examination, will then be entered on the Certificate and its counterpart, and the certificate will be sent to the Superintendent of the Mercantile Marine Office of the port named in the Form Exn. 2, and be delivered to the Candidate in the usual manner.

In case of failure.

89. If a Candidate fails, he may not present himself for re-examination until the expiration of three months from the date of failure.

Character of Examination.

90. The examination is for the most part *viva voce*, and extends to a general knowledge of the practical use and working of the steam-engine, and of the various valves, fittings, and pieces of machinery connected with it and of the way in which electric lighting is carried out on board ship. Intricate theoretical questions on calculations of horse power or areas of cylinders and valves, or any of the more difficult questions relating to steam-engines and boilers, will not be asked. The examination will in fact be confined to the duties which a master of a steam-vessel may be called upon to performs in the case of the death, incapacity or delinquency of the Engineer.

Practical knowledge required.

91. Examiners are to satisfy themselves that the Candidates know the names and understand the use of the various parts of engines and boilers and their connecting pipes, valves, cocks, &c. Practical knowledge, as distinguished from theories and abstruse calculations, is to be the test of the Candidate's fitness to have his Certificate endorsed.

Examination on board ship.

92. The Examiner should arrange to conduct part of the examination in the engine-room of a Steamship, unless from circumstances he finds it impossible to do so; but in the event of the Candidate passing, the Examiner should state in writing what circumstances prevented a visit to an engine-room. If an opportunity offer, the candidate should be permitted, under the guidance of the Examiner, to start and stop the engine of some vessel which may have her steam up.

Place of Examination to be reported.

93. The Examiner, in sending in his report of the examination should state where the examination has been held.

Elementary questions to be answered.

94. Candidates will be required to give written answers to sixteen out of twenty questions taken from a book of Elementary Questions published by the Government.* These questions will be altered from time to time without notice. The twenty questions are not to be difficult, theoretical or book questions, but are to be such as any man of ordinary capacity who has any *practical knowledge of the use and working of the steam-engine* ought to answer.

Answers to be sent to Govt.

95. These questions, with the candidate's answers, should be sent to the Government, with the reports, after each examination.

Copying.

96. If a Candidate refers to any book or paper or memorandum, or obtains information from another Candidate during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of three months.

Report on failure.

97. The Examiners will report, in the case of failure, the nature of the question or questions that decided the the failure, or the point in the management of the engine in which the Candidate was deficient.

Service on Steamships not essential.

98. There is nothing in the regulations requiring that Applicants for the voluntary examination shall have served on board Steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam-engine. Examiners will not fail to appreciate the fact that practical knowledge is best gained in the engine-room; and the examination of an Officer who does not produce official evidence of service in steamships, and of experience of engines, must necessarily be more searching

* Printed at the end of the Regulations relating to the examination of Engineers, Exn. 1A.

than in the case of one who produces evidence of such service and experience.

CERTIFICATES OF SERVICE.

Persons qualified.

99. A person who has attained the rank of Lieutenant, Sub-Lieutenant, Navigating Lieutenant or Navigating Sub-Lieutenant in His Majesty's Navy, or of Lieutenant in His Majesty's Indian Marine Service, is entitled to a Certificate of Service as Master of a Foreign-going Ship without examination. This certificate will not entitle the holder to go to sea as Master or Mate, of a Home Trade Passenger Ship.

Form of application

100. Applications for Certificates of Service must be made on a printed form, Exn. 18, to be obtained free of charge from the Registrar-General of Seamen, Tower Hill, London, E., or from the Port Officer.

How to apply.

101. Applications for certificates of Service by Officers of the Royal Navy on the active list must be made through their Commanding Officers, and applications from officers who have retired from the Royal Navy or who are on half pay must be made to the Secretary of the Admiralty, who in either case will forward the application to the Board of Trade.

AMBULANCE CERTIFICATES AND GOVERNMENT AWARDS.

Ambulance Certificates and Government Awards.

102. An officer in the Mercantile Marine who holds a certificate of proficiency in First Aid to the Injured from the St. John or St. Andrew's Ambulance Association or some equivalent certificate, can have the fact endorsed on his Board of Trade certificate of competency, or certificate granted, by an authority in British Possession abroad, provided the latter was issued before April 1st, 1908, by forwarding the two certificates to the Government through the Port Officer.

Recipients of Government awards can also have the fact stamped on their Certificates on application in a similar manner.

CHAPTER III.

RULES FOR ESTIMATING SEA SERVICE.

Sea service.

103. In these regulations sea service is reckoned from the commencement to the termination of the voyage. The Certificates of Discharge for service in the Foreign Trade will generally be accepted as proof of sea service, but Certificates of Discharge for service in the Home or Coasting Trade must always be sent to the Port Officer for verification. The Port Officer and Examiners will be careful to see that these discharges have not been in any way tampered with, and will report any suspicious cases to the Government.

Sea service for Foreign going Certificates.

104. For Foreign-going Certificates the term "Sea service" means, unless otherwise stated, service performed in Foreign-going Vessels.

Service in Home Trade.

105. For Home Trade Passenger Ship Certificates, service in the Home or Coasting Trade is regarded as equivalent to service in the Foreign Trade; but for Foreign-going Certificates, it is regarded as only equivalent to two-thirds of the time served in the Foreign Trade, except in the case of Indian Coasting Voyages extending beyond a distance of 500 miles from the port of departure in vessels commanded by Masters holding Foreign-going Certificates, when such service will count as foreign voyages, and will be reckoned as full time; but the time spent in the port of departure or Home Port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or Home Port and

to end on the date of arrival at the Home Port. Such service must be vouched for in the form laid down in Appendix V, page 1093.

Certificate, Meaning of.

106. By the word "Certificate" is meant a Certificate of Competency granted by the Board of Trade under the Merchant Shipping Act, or by the Government of a British Possession under an Order in Council issued in pursuance of the Merchant Shipping Act. A list of the Colonial Certificates, referred to, will be found in Appendix T, page 1091. They are of the same force as the corresponding Certificates granted by the Board of Trade.

Colonial Local Certificates.

107. The holder of a Colonial Certificate for Foreign-going Ship *not* granted under the Merchant Shipping Act, who desires to be examined for an Imperial Certificate of the same grade, must prove that he has performed the amount of service required by these regulations to entitle him to hold such a Certificate. He must also produce satisfactory testimonials as to character for at least the 12 months of sea service preceding his application to be examined.

Foreign-going Certificates.

108. Where a Foreign-going Certificate is required in order to qualify a Candidate for examination, the Certificate may be either an Ordinary Certificate, or a Certificate for Fore and Aft-rigged Vessels, or a Certificate for Foreign-going Steamships.

Pilot defined.

109. The term "Pilot" in these regulations (*see* paras. 34 and 60) means a pilot who is employed in general pilotage and holds a First Class Pilot's Certificate from some competent authority authorizing him to pilot vessels outside harbour and partially smooth water limits. A Hooghly Master Pilot is for the purpose of this rule to be considered as First Class Pilot.

Officer's service.

110. Officer's Service, to be recognized as qualifying for purposes of examination, must be performed with the requisite Certificate as specified in Appendix P, page 1082. The Officer's service performed by men who have been duly promoted during the course of a voyage (*see* paragraph 114), or who, in consequence of serving in vessels plying between ports abroad, have been unable to obtain the necessary certificates, may, however, be recogized, provided that it is in other respects satisfactory.

Foreign officers.

111. Foreign Officers who wish to apply for a British Certificate of Competency must in all cases have performed their qualifying Officer's service with the requisite British Certificate. The service may have been performed in Foreign Vessels if the Candidate can produce satisfactory testimonials to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British Certificate of Competency of the rank required by the regulations (*see* paragraph 116).

In charge of Watch.

112. When service "in charge of a Watch" in either the Foreign or Home Trade is specified in the Regulations, the Candidate will have to prove that during the whole of the time claimed he had the *regular* charge of a Watch or Watches, which if in the Foreign Trade, must amount to not less than 8 hours of each 24 hours of service. It must be distinctly understood that this service will only be accepted when the Candidate has kept his full regular watch during the whole voyage, *i.e.*, from port to port and that occasional service in charge of a Watch will not be accepted as Mate's service under the regulations. Great care must be exercised by the Port Officer in regard to such service, and unless the Candidate produces a clear and satisfactory Certificate, specially setting forth the above facts, from the Master or Owner of the Vessels in which the service was performed, it must not be accepted.

Additional Mates.

113. Service as Additional or Auxiliary First or Second Mates, in large Foreign-going vessels when in both cases Third and Fourth Mates are also carried, will count as First

Mate's or Second Mate's service, as the case may be, provided that the Candidate was entered on the Articles in one of these capacities, and that he produces the necessary Certificate (see paragraph 112) showing that he was in charge of a watch or watches during the whole time claimed.

Promotion during voyage.

114. Whenever a man has, from any cause, been regularly promoted, on the occurrence of a vacancy in the course of the Voyage, from the rank in which he first shipped, and such promotion, with the ground on which it has been made, is properly entered in the Articles and in the Official Log Book, he will receive credit for his service in the higher grade for the period subsequent to his promotion.

Officer's Service, Home Trade.

115. Service in a lower grade than First or Only Mate in the Home or Coasting Trade will not be recognized as Officer's service towards qualifying a Candidate for examination for a Foreign Trade Certificate.

Evidence as to Service in Foreign Vessels.

116. The testimonials of service of Foreigners and of British Officers and Seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country, or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case will be decided on its own merits, and, if the sufficiency of the proofs given appears to be at all doubtful, it must be referred to the Government for decision.

Auxiliary crew ships.

117. Service in Auxiliary Screw Whaling Ships and in Vessels with auxiliary steam power, which use their screws only in calms or during light winds, is considered as service performed in Sailing Vessels.

Excursion Steamers.

118. In the case of Excursion Steamers only such service as can be proved to have been performed at sea will be accepted.

Service as Carpenter, Sailmaker, Cook, Steward, etc.

119. Candidates whose service has been performed in capacities other than Apprentice, Midshipman, Cadet, Ordinary Seaman, or Able Seaman, *e g.*, men who have served as Carpenter, or Sailmaker, or as Cook in small vessels where cooking is only a part of a man's duty, will be required to satisfy the Port Officer that they have, during the whole time claimed, performed deck duties in addition to their own particular work, and that they have a good knowledge of Seamanship These facts may possibly be proved by the production of satisfactory Certificates from the masters with whom the applicant has served; but such service will only be accepted as equivalent to two-thirds of the time served as ordinary deck hand. Failing satisfactory evidence, the Applicant will be required to perform additional service in a capacity of Seaman. Service as Cook (under other conditions than the above), or as Steward, or as Purser, will not be accepted.

Service in fishing or Pilot Vessels.

120. Service performed exclusively in Trawlers and other deep sea-fishing vessels or in Pilot Vessels will not qualify a Candidate for examination. He must, in addition, prove the following service :—

(1) For a *Foreign-going-Certificate*, service for at least eighteen months in an ordinary trading vessel in the Foreign Trade, or the equivalent period (27 months) in the Home or Coasting Trade.

(2) For a *Home Trade Passenger ship Certificate* service for at least twelve months in an ordinary trading vessel in the Foreign, Home or Coasting Trade.

Service in Yachts.

121. Service in Pleasure Yachts will be accepted as qualifying service under the following conditions :—

(*a*) It must in all cases be verified by satisfactory proofs, which must set forth clearly and in detail

the nature and duration of the service claimed, and it must be distinctly understood that only actual sea service will be accepted, and that service in harbour or port is inadmissible.

(*b*) Service in foreign-going Yachts will be accepted in full; and service performed within Home Trade limits in Sailing Yachts of not less that 50 tons net register or in Steam Yachts of not less than 80 tons gross register will be accepted in the proportion stated in para. 105; but candidates must also show (1) for a *Foreign-going Certificate*, service for at least eighteen months in an ordinary trading vessel in the Foreign Trade, or for the equivalent period (27 months) in an ordinary trading vessel in the Home or Coasting Trade; (2) for a *Home Trade Passenger Ship Certificate*, service for at least twelve months in an ordinary trading vessel in the Foreign, Home, or Coasting Trade.

(*c*) Service within Home Trade limits in Sailing Yachts of 20 tons net register, or in Steam Yachts of 40 tons gross register, will be accepted towards qualifying a candidate for a Foreign-going Certificate as equivalent to half the same time served in the Foreign Trade, but no amount of such service shall count as more than two years' service in the Foreign Trade, and no such service shall count as Officer's service to qualify Candidates for Foreign-going Certificates

(*d*) Service within Home Trade limits in Sailing Yachts of not less than 20 tons net register, or in Steam Yachts of not less than 40 tons gross register will be accepted at the ordinary rate as qualifying service for Home Trade Passenger Ship Certificates, but Candidates must prove that they have in addition served for at least twelve months in an ordinary trading vessel in the Foreign, Home or Coasting Trade.

(*e*) Service within Home Trade limits in Sailing Yachts of less than 20 tons net register, or in Steam Yachts of less than 40 tons gross register will not be accepted as qualifying service for any class of Certificate.

Service in Tugs.

122. Service performed in Tugs employed in Channel Service or outside partially smooth water limits (*see* Appendix S, page 1086) may be accepted as sea service for the purpose of qualifying a Candidate for a Mate's or Master's Certificate for Home Trade Passenger Ships.

Service in dredgers.

123. Service in Steam Hopper Barges may, subject to the provisions of para. 125, be allowed to count towards qualifying a Candidate for a Mate's Certificate of Competency for Home Trade Passenger Ships, provided the Candidate can prove at least two years' service in an ordinary trading vessel in either the Home, Coasting, or Foreign Trade. Service in these Steam Hoppers will not be accepted as Officer's service towards qualifying a Candidate for a Master's Certificate.

Service in Light-ships or Engine-room.

124. Service in Light-ships or in an Engine-room will not be accepted as sea service.

Service on river.

125. Service performed on rivers, no matter of what size, and service performed within smooth or partially smooth water limits (see Appendix S, page 1086) will not be accepted.

Where any doubt whatever exists on this point, the Candidate will be required to produce a Certificate from the Master or Owner of the vessel in which the service was performed before the service can be accepted.

Service on Training Ships.

126. Half the time served on board a training ship will be allowed to count as service at sea up to a limit of one year (*i.e.*, no length of service will be allowed to count as more than one year at sea), provided that the Candidate can produce a Certificate from the Committee that he has conducted

himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters, down to the time of his leaving the ship, but this service will not be regarded as equivalent to service in square-rigged vessels.

Apprentices.

127. The *whole* of the time claimed under Indentures of Apprenticeship will be accepted as actual sea service to qualify under para 30 for a second Mate's Certificate provided-(*a*) that the Indentures have not been cancelled through some fault of the Candidate, but are endorsed by the Owner or Master to whom he was bound, to the effect that he has performed his service faithfully during the time he remained as Apprentice; and (*b*) that the Candidate has served at sea four-fifths of the time claimed, that is to say, has not spent more than one-fifth of the time in Home Ports. In cases where an Apprentice is qualified for examination before the expiration of his Indentures, *e.g.*, where he has had training ship or other sea service prior to being bound, which together with his actual time as Apprentice makes up the required four years, or where his Indentures are for a period of more than four years, a letter from the Owner or Master will be accepted in place of the endorsement referred to above.

In the event of the Candidate being short of the required four-fifths of the time claimed as Apprentice out of the United Kingdom, he will be required to show sufficient additional sea service, either as seaman or junior office, to make up the four-fifths of the time claimed.

Midshipmen and Cadets.

128. The whole of the time served as midshipman or cadet under identures will also be accepted subject to the same conditions as those laid down for apprentices; and the same will be the case even when not bound by indentures, provided that the service as midshipman or cadet has been continuous, and that on the date of the termination of the period of service claimed in this capacity the candidate was on articles of agreement, and that he is able to comply with the requirements laid down in the matter of serving or making up the four-fifths period at sea during the time claimed.

Light-house tenders.

129. Service performed in the sea-going Steam Vessels of the Trinity House, of the Commissioners of the Northern Light-houses, or of the Commissioners of Irish Lights, or in Irish and Scotch Fishery cruisers will be accepted as sea service for the purpose of qualifying a Candidate for examination for Home Trade Passenger Ship Certificate; but for a Foreign-going Certificate a Candidate must show in addition to this service calculated in accordance with paragraph 105 at least twelve months in an ordinary Trading Vessel. In order to qualify a Candidate for an Ordinary Certificate, this twelve months must have been performed in a square-rigged Sailing Vessel (*See* para. 105).

Service in Royal Navy and Royal Indian Marine.

130. Officers of the Royal Navy are at liberty to apply for Certificates of Service and to be examined for Certificates of Competency in the Mercantile Marine, but the Lords Commissioners of the Admiralty have directed that the applications of officers on the active list should be made through their commanding officers, and that the applications of officers on half-pay should be made to the Secretary of the Admiralty, who, in either case, will forward the application to the Board of Trade. In the case of Royal Indian Marine officers, applications for certificates of service should be made on a printed form, Examination 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine. Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office, on the printed form which may be obtained from that office.

The conditions on which Certificates of service are issued are stated at page 1018.

Qualifications required of Naval and Indian Marine officers.

131. Officers of the Royal Navy or of the Royal Indian Marine who wish to be examined for Certificates of Competency in the Mercantile Marine will be required to prove the following service; and if an officer wishes to obtain the Ordinary Certificate for Foreign-going Ships, he must prove that at least twelve months of this required period was served under sail alone:—

(*i*) For Second Mate.—The officer must prove four years' service at sea or that he has attained the rank of Acting Sub-Lieutenant.

(*ii*) For Only Mate.—Five years' service at sea.

(*iii*) For First Mate or Master.—The officers must prove that he has attained the rank of Sub-Lieutenant in the Royal Navy, or of Lieutenant in the Royal Indian Marine.

Service in Royal Naval Reserve.

132. Lieutenants, Sub-Lieutenants, and Acting Sub-Lieutenants of the Royal Naval Reserve who performed sea service on board His Majesty's ship will be allowed to count such service as if it had been performed in Foreign-going Merchant Ships; and the service will rank according to the Certificate of Competency held by the Candidate at the time. Midshipman of the Royal Naval Reserve, possessing a First Mate's Certificate, and temporarily granted the rank of acting Sub-Lieutenant whilst undergoing twelve months' training afloat in the Royal Navy, will only be allowed to count such service as if it had been performed in the capacity of Second Mate of a Foreign-going Merchant Ship with a First Mate's Certificate.

Service in drill and harbour ships.

133. The time spent in drill in the Royal Naval Reserve on board sea-going vessels of the Royal Navy, if accompanied by a good report, will be accepted in full; but if the drill has been performed in Harbour ships of the Royal or Colonial Navies, only half such time will be accepted as sea service and no such service must amount to more than one-fourth of the time required for the particular grade of certificate applied for.

CHAPTER IV.

CONDUCT OF THE EXAMINATIONS.

Commencement and duration of examinations.

134. The examinations will commence early in the forenoon, and will be continued from day to day until all the Candidates whose names appear upon the Port Officer's list on the day of examination are examined.

Candidate to be punctual.

135. Candidates are required to appear at the examination room punctually at the time appointed.

Loose paper and books removed.

136. Before commencing the examination, the tables or desks must be cleared of all scraps of paper or books that are not used in the examination, and care should be taken that the Candidates do not bring into the examination room any book or paper.

No strangers admitted.

137. No person will be allowed in the room during the examination, other than those whose duties require them to be present. No instructors will be allowed on the premises.

Books and papers strictly forbidden.

138. Candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this regulation will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

All work to be shown.

139. No Candidate will be allowed to work out his problems on a slate or on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the Candidate to all the penalties of a failure.

A sheet of blotting paper should be issued to each Candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the Candidate in solving his problems or for conveying information to other Candidates.

Instruments are provided.

140. All instruments necessary for use in the examinations are supplied by the Government.

Leaving room or building.

141. No Candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will a Candidate be allowed to leave the building while the examination is proceeding. Violation of this rule will subject the Candidate to all the penalties of a failure.

Copying, &c., to be prevented

142. Candidates should be so placed as to prevent one copying from the other, and no communication whatever between the Candidates should be allowed.

Penalty for copying, &c.

143. In the event of any Candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination room, he will subject himself to all the penalties of a failure, and will not be allowed to be examined for a period of six months.

Injury to books.

144. If a Candidate defaces, blots, writes in or otherwise injures any book or form belonging to the Board, his papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document, and will be subjected to all the penalties of a failure.

Silence.

145. Perfect silence is to be preserved in the examination room.

Penalty for breach of rules.

146 Any Candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination ; or if he has passed, to the detention of his Certificate for such period as the Government may direct.

Examination papers, how to be dealt with.

147. The examination papers of Candidates must in all cases be sent to the Port Officer, Calcutta, for his approval, together with the report of the examination on the Form, Exn. 14. Should the envelope containing the examination papers appear to have been opened, or in any way tampered with, the Examiner should, if he thinks it necessary, defer the examination until the following day. In the event of any case of this kind occurring, a full report of the circumstances, and of the steps taken in the matter, should be immediately forwarded to the Port Officer, Calcutta.

Papers to be issued singly.

148. The examination papers should be issued to the Candidates in half sheets only and one at a time. This will prevent a Candidate from spreading out the sheets on the table so as to enable his neighbour to look over the problems. It will also enable the Examiner to look over and report upon the work on one-half sheet, while the Candidate is at work upon another. When the errors are not too numerous, the incorrect problems may be returned to the Candidate for correction, but in no case should the errors be pointed out by the Examiner, neither should any marks be made which would indicate how far or to what extent, the work is incorrect. The incorrect problems are not to be returned to the Candidate for correction a second time, and should more than one of the problems—or two, if the errors are only slight—be still incorrect, this would involve a failure. It must be understood, however, that the day's work, latitude by meridian and ex-meridian, altitude of sun and star, chronometer problem by sun and star, and the Summer problem must always be correct.

Extra hour allowed in certain cases.

149. When, from the large number of the Candidates, it may sometimes be found impossible to look over the work on the day of examination during the office hours, an hour

in the morning of the following day may be allotted for the purpose of correcting the problems, but in no case should a Candidate have his problem returned to him for correction after he has made the second attempt.

Extra certificates.

150. In the examinations for Extra Certificates for Foreign-going Ships and for Steamships, the Candidate will be required to complete the whole of his problems and other papers, which must not be returned to the Candidate for correction, but will then be dealt with by the Examiner on the mark system. If the Candidate does not obtain 85 per cent. of the total number of marks allotted for the papers, he will be declared to have failed (*see* Appendix Q, page 1084).

Dictation.

151. The examination will commence with not less than a quarter of an hour's dictation to test handwriting and spelling. This, however, is only to be given to those Candidates who present themselves for examinations for the first time for a Foreign going Certificate. The spelling must be reasonably and fairly good, and the writing clear and legible. The spelling and writing of all Candidates must be satisfactory, and in cases where there is any doubt about the ability of a Candidate to spell correctly, he will be specially tested by dictation.

Definitions.

152. The paper of definitions (*see* Appendix D, page 1031) is only for those Candidates who present themselves for examination for the first time for a Foreign-going Certificate. In using this paper, the Examiner will place a mark against the questions which he wishes to be answered, not less than ten questions being so selected. The Candidate will then write against the questions so marked his definition of the terms in a clear and legible hand, and so as to prevent the possibility of any letter being mistaken, and also draw a rough sketch or diagram opposite to each of the questions to which he has given written answers in further illustration of its meaning. The *viva voce* questions will be asked on the answers given (*see* para. 163).

Compass deviation.

153. In the questions on the Deviation of the Compass (*see* Appendix J, page 1060), the Examiner will mark at least twelve of the questions, *including the problems*. The selected questions will be varied frequently, and no two Candidates will have precisely the same questions. The Candidate will be furnished with sheets of the blank ruled paper which is supplied for the purpose, with instructions that he is to write only on one side of the paper, and to answer in a clear and legible hand each of the questions against which a mark is placed, and to commence each answer by writing down the number of the question to which it relates in the margin. In answering question 39 on the tentative method of compass adjustment, the Candidate will be tested by Beall's Compass Deviascope, and it will not therefore be necessary for him to give the written answer and sketches. A Candidate for an Extra Master's Certificate will not be required to answer the questions on Compass Deviation on Form Exn. 7, but will be examined in the Syllabus *shown in Appendix K, page 1062*, and with the Compass Deviascope.

Barometer, tides, &c.

154. The examination on the Barometer, Thermometer, and Hydrometer, prevailing winds and currents of the globe, Trade routes and Tides will for the present be conducted orally, and the questions asked by the Examiner, which will be constantly varied, will be confined to and based on the information given in the test-books mentioned in Appendix R, page 1085. Candidates will be required to have a fair and intelligent knowledge of the contents of those books.

Adjustment of sextant.

155. Particular attention should be paid to the adjustments of the sextant, the examination in which subject will be conducted orally and practically. Every candidate will be examined practically as to his knowledge of the adjustments, and the use of the various screws; he must be able to read correctly off the arc, a supposed index error being given by the Examiner, as additive, as well as reading on the arc in the usual way, he must also be able to find the index error both by the horizon and by the sun.

Corrections.

156. Candidates will find it more convenient, both during the examination and at sea, to correct the declination and other elements from the Nautical Almanac by the hourly differences given in that work; they will thereby render themselves independent of any proportional or logarithmic table for that purpose.

Corrections by tables.

157. The corrections by inspection of tables given in some of the works on navigation, *e.g.*, Tables IX, XI, and XXI in Norie's Epitome, will not be allowed; every correction must appear on the papers of the Candidates.

Minor corrections to be shown.

158. All outstanding or minor corrections should appear in the margin of each problem paper, and on the chart papers, and the papers of the Candidate will not be considered complete without these corrections.

Degree of precision, required.

159. Degree of precision required in the solution of the problems:—

(*a*) Candidates are expected to work out their answers to all problems where the answer required is a latitude, longitude or distance within 1½′ of position from a correct result: in finding the ship's position by Sumner's method a margin of 2½′ will be allowed.

(*b*) In such problems as the "Amplitude" and "Alt-Azimuth", where the bearing, deviations, &c., only are required, a margin of *3′* or *4′* from a correct result will be sufficiently accurate.

(*c*) Candidates for Ordinary certificates are not required to correct for *second differences* in taking out the quantities from the Nautical Almanac; and even Candidates for extra Certificates are only required to show that they are acquainted with the method of second differences by correcting the elements for same in the error of chronometer problem.

(*d*) In solving the Time Azimuth problems an answer not exceeding half a degree from the exact result will be sufficiently near. But in all cases the actual latitude, declination, and time used, together with the exact bearing from the North or South as given in the tables, must be clearly shown by the candidate on his papers.

(*e*) In computing the time at which a given star will be on the observer's meridian, and the name of the stars near the meridian [sections (*b*) and (*e*) of paragraph 35], an approximation only is required, and it will be sufficienty precise if the candidate works throughout with the nearest minute of time. In computing the approximate meridian altitude of a star [section (*g*)], working throughout with the nearest minute of arc will also be sufficiently close.

(*f*) In interpolating for the correct deviation to be applied in solving the chart questions, it will usually be sufficient if the candidate works throughout with the nearest degree of deviation taken from the deviation card; and even in cases where the deviations may vary but little, the nearest half degree used throughout will be sufficiently precise. It is not necessary that the candidate should waste his time in solving the course to odd minutes, as is some times done.

(*g*) In calculating the correction to apply to soundings, the candidate is not required to work to the exact inch, as is sometimes done. It will be sufficient if he brings his answer within half a foot or so of a precise result.

It must be clearly understood in reading the foregoing instructions as to the precision required, that they only

apply when the work of the candidate is correct in principle.

160. Examiners should bear in mind that the problems to be solved are required as tests, and for the purposes of an examination, and not for sea-going or practical purposes alone. Problems are tests.

161. The Candidates will be allowed to work out the various problems according to the method and the tables they have been accustomed to use. Candidates may use own method.

162. All the problems given in the examinations, both for the Ordinary and for the Extra Certificates, will be constantly varied; and the mode of stating the times in the astronomical problems, and the mode of wording and setting these and all other problems will be varied in every possible way, so as to ensure that the Candidate has a proper knowledge of the subject. Problems to be varied.

163. Candidates are expected not only to give correct written answers to the questions set in the papers, but also to possess an intelligent knowledge of the various subjects prescribed in the regulations. The Examiner will therefore put a few *vivâ voce* questions to the Candidate as the papers are brought up for inspection or during the course of the examination. The questions, which will be based on the papers set, will be such that the Examiner may satisfy himself that the Candidate possesses a real knowledge of what he has written. Supplementary *vivâ voce*.

164. When an Examiner finds it necessary to fail a Candidate in this supplementary *vivâ voce* test, a statement to that effect will be made on the Candidate's examination papers before they are forwarded to the Port Officer, Calcutta. Failure in supplementary *vivâ voce*.

165. A candidate will not be allowed to undergo examination twice in the same week, unless under very special and urgent circumstances the Port Officer should see fit to relax this rule. In that case a special set of problems should be supplied to the candidate. No candidate to be examined twice in a week.

Time allowed.

166. Candidates for Second Mate's Ordinary Certificates must complete the whole of the examination in Navigation in *nine hours*, including the time allowed for writing the definitions on Form Exn. 4*a*, the paper on the *chart*, and the correction of *all* errors and oversights; but *the quarter of an hour's dictation and all* the nautical problems, *excepting the chart paper*, must be completed within six hours, and without the Candidates leaving the premises during that period. Second Mates.

167. Candidates for Only and First Mates' Ordinary Certificates must complete the whole of the examination in Navigation in *twelve hours*,* including the time allowed for the papers on the chart; cyclones or revolving storms; and for the correction of all errors and oversights; but the nautical problems *up to and including* (*k*) *of the Syllabus* prescribed for Only and First Mate must be completed within six hours and without the Candidates leaving the premises during that period. Only and First Mates.

168. Candidates for Ordinary Certificates as Master must complete the whole of the examination in Navigation in fifteen hours, including the time allowed for the papers on the chart; compass deviation; cyclones or revolving storms; and for the correction of all errors and oversights; but the problems given, *up to and including* (*k*) *of the Syllabus prescribed for Only and first Mate*, must be completd within six hours, and without the Candidates leaving the premises during that period. Masters, Ordinary.

169. Candidates for Certificates for Foreign-going Steamships will be allowed the same amount of time to complete the navigation work as is allowed in the case of Ordinary Certificates. Time allowed Steamship Certificates.

* A candidate who is not applying for a Second Mate's Certificate, and who has not previously passed in examination, may be allowed the time allotted to dictation and writing the definitions on Form Exn. 4*a*, in addition to the above.

Yacht Masters.

170. Candidates for Certificates as Masters of pleasure Yachts will be allowed the same amount of time for completing the examination as the Candidates for Ordinary Masters' Certificates.

Home Trade. Mates. Masters.

171. Candidates for Home Trade Mates' Certificates must complete the whole of their arithmetical chart, and other papers, within eight hours, and Candidates for Home Trade Master's Certificates within ten hours.

Extra Certificates.

172. The time allowed to Candidates for Extra Certificates to complete the whole of the problems and writings, including the Compass Syllabus, and the paper on Naval Architecture must not exceed 26 hours.

Compass syllabus.

173. A period not exceeding eleven hours will be allowed to Candidates for the completion of the whole of the examination in the Compass Syllabus, including the correction of all errors and oversights in both the problems and writings.

Papers to be collected punctually.

174. Punctually at the expiration of the prescribed time all papers will be collected whether completed or not. If the papers are not completed, the Candidate will be declared to have failed, unless the Port Officer should see fit to lengthen the period in any special case. Where such an extension of time is granted, the case must be fully reported to the Government on the Form Exn. 14.

Viva voce time extra.

175. The periods prescribed in the foregoing paragraphs are not intended to include the time occupied by the *viva voce* part of the examination.

Viva voce time allowed

176. In the *viva voce* examination a reasonable time should be allowed for the Candidate to give his answers. No assistance should be given or leading question put.

Time allowed for navigation.

177. It is anticipated that few Candidates will require the whole of the time allowed for completing the examination in Navigation, but ample time has been given so that candidates may perform their work in a careful, clear and legible manner and to the entire satisfaction of the examiners.

Order of work.

178. Candidates, after finishing the problems required in the various grades on the first day of examination, should proceed, until the end of that day, with such subjects as the definitions, chart, *questions relating to cyclones and compass deviation.*

Sumner problem.

179. The Sumner problem (Exn. 6C) must on no account be given out to any of the Candidates on the first day of the examination, but should form the commencement of the Candidates' work on the second day. On completion of this problem, if included in the lower grade problems the Candidates for Masters' Certificates should proceed with the problems (*a*), (*b*), (*c*) *of the Syllabus for that Grade.*

APPENDIX A.

EXAMINATION DAYS; EXTRA MASTERS', MASTERS' AND MATES' CERTIFICATES.

Places.	For Masters and Mates.
Aberdeen ...	2nd and 4th Tuesday in each month.
Belfast ...	1st and 3rd Tuesday in each month.
Bristol ...	1st and 3rd Tuesday in each month.
Cardiff ...	1st and 3rd Tuesday in each month.
Dublin ...	2nd and 4th Tuesday in each month.
Dundee ...	1st, 3rd, and 5th Tuesday in each month.
Glasgow ...	1st, 3rd, and 5th Tuesday in each month.
Greenock ...	2nd and 4th Tuesday in each month.
Hartlepool, West ...	4th Tuesday in each month.
Hull ...	2nd and 4th Tuesday in each month.
Leith ...	2nd and 4th Tuesday in each month.
Liverpool ...	Monday in each week.
London ...	Monday in each week. Examination in steam held on Friday in each week.
Newport, Mon ...	2nd Tuesday in each month.
Plymouth ...	2nd and 4th in each month.
Shields, So. ...	1st and 3rd Tuesday in each month.
Southampton ...	1st and 3rd Tuesday in each month.
Sunderland ...	2nd and 5th Tuesday in each month.
Swansea ...	4th Tuesday in each month.
Calcutta ...	1st Monday in January, April, July and October, and 3rd Monday in February, May, August and November.

N B—The examination days are liable to occasional alteration, and Candidates are advised to ascertain the actual date of examination from the Port Officer.

APPENDIX B.

EXAMINATION DAYS; SIGHT TESTS.

ABERDEEN.—Monday in examination week, by the Examiner of Masters and Mates.

*BELFAST.—Every Saturday morning from 10 to 12, by the Examiner of Masters and Mates.

BRISTOL.—Monday in examination week,* by the Examiner of Masters and Mates.

CARDIFF.—Any Monday between 10 A.M. and 11 A.M. by the Principal Officer; Monday in examination week, by the Examiner of Masters and Mates.

DUBLIN.—Monday in examination week, by the Examiner of Masters and Mates.

DUNDEE.—Any day, by the Superintendent of the Mercantile Marine Office or by the Examiner of Masters and Mates.

GLASGOW.—Monday in examination week, by the Examiner of Masters and Mates.

GREENOCK.—Monday in examination week, by the Examiner of Masters and Mates.

GRIMSBY.—Any day, by the Superintendent of the Mercantile Marine Office.

HARTLEPOOL, WEST.—Monday in examination week, by the Examiner of Masters and Mates.

HULL.—Any day, by the Superintendent of the Mercantile Marine Office or the Examiner of Masters and Mates.

* i.e., the week in which Masters' and Mates' examinations take place. See Appendix A.

LEITH.—Any day, by the Superintendent of the Mercantile Marine Office, or by the Examiner of Masters and Mates.

LIVERPOOL.—Every Thursday, Friday and Saturday, by the Examiner of Masters and Mates.

LONDON (DOCK ST., E).—Every Friday and Saturday, by the Examiner of Masters and Mates.

LONDON (136, E. INDIA DOCK RD., POPLAR, E).—Any day, by the Superintendent of the Mercantile Marine Office, between 10 A.M. and noon.

LONDON (TILBURY, ESSEX).—Any day, by the Superintendent of the Mercantile Marine Office

LONDON (VICTORIA DOCKS).—Any day, by the Superintendent of the Mercantile Marine Office.

MANCHESTER (SALFORD).—Any day, by the Superintendent of the Mercantile Marine Office.

NEWPORT.—Any Monday at 10 a.m. by the Board of Trade Surveyor. Monday in examination week, by the Examiner of Masters and Mates.

NORTH SHIELDS.—Any Monday at 10 A.M. by the Principal Officer. On other convenient days at 10 A.M. by special arrangement.

PLYMOUTH.—Monday in examination week, by the Examiner of Masters and Mates.

QUEENSTOWN.—Any convenient day by arrangement with the Board of Trade Surveyor.

SOUTHAMPTON.—Monday and other convenient days in examination week by the Examiner of Masters and Mates. In other weeks, Monday and other convenient days by the Board of Trade Surveyor.

SOUTH SHIELDS.—Monday in examination week, by the Examiner of Masters and Mates.

SUNDERLAND.—Monday in examination week, by the Examiner of Masters and Mates.

SWANSEA.—Any Monday at 10 A.M., by the Board of Trade Surveyor. Monday in examination week, by the Examiner of Masters and Mates.

CALCUTTA.—First Monday in January, April, July and October, and third Monday in February, May, August and November by the Examiner of Masters and Mates, and any day by the Port Officer.

APPENDIX C.

REPRESENTATIVES OF ST. JOHN AMBULANCE ASSOCIATION.

England and Wales and Ireland.

AVONMOUTH.—Dr. R. Rolfe, Roseneath, Avonmouth.

BLYTH.—Dr. Manners, Waterloo House, Blyth.

BRISTOL.—Dr. C. C. Lavington, 1, Burlington Road, Redland, Bristol.

CARDIFF.—H. Lewis, Esq., 61, Cathedral Road, Cardiff.

CORK.—Dr. E. W. Allsom, 12, St. Patrick's Place, Cork
Dr. J. Booth, 89, South Mall, Cork, and A. E. Craddy, Esq, Superintendent, Mercantile Marine Office, Cork.

DOVER.—R. E. Knocker, Esq., Castle Hill House, Dover.

DUBLIN.—Dr. J. Dallas Pratt, 25, Lower Fitzwilliam Street, Dublin.

GRAVESEND.—The Secretary, Technical Institute, Gravesend.

GRIMSBY.—J. Morley Dennis, Esq., 50, Welhome Road, West, Grimsby.

HULL.—Dr. A. W. Scott, 139, Beverley Road, Hull.

LIVERPOOL.—J. C. Ellison, Esq., 6, Wellington Buildings, 42, South Castle Street, Liverpool.

MERSEY MISSION.—The Rev. Canon Lambert, Mersey Mission to Seamen Institute, Hanover Steel, Liverpool.

LONDON DOCKS.—Dr. Godding, Missions to Seamen Institute, Poplar, E.
MANCHESTER.—L. M. Brown, Esq., 17, Cooper Street, Manchester.
MIDDLESBROUGH.—Waynman Dixon, Esq., and F. H. Marshall, Esq., Blenheim Villa, Grove Hill, Middlesbrough.
NEWCASTLE-ON-TYNE.—R. Sloan, Esq., 5, Rothbury Terrace, Heaton, Newcastle-on-Tyne.
NEWPORT (MON.).—A. G. Fudge, Esq., Devoran, Caerleon, Newport, Mon.
PLYMOUTH.—P. S. Snell, Esq., 14, Old Town Street, Plymouth.
PORTSMOUTH.—F. S. Coward, Esq., The Woodlands, 80, Laburnum Grove, Portsmouth.
RAMSGATE.—T. Venables, Esq., 17, Albert Road, Ramsgate.
N. SHIELDS.—E. P. Martin, Esq., 24, Spring Terrace, Chirton, N. Shields.
S. SHIELDS.—J. Page, Esq., Waterloo Chambers, 67, King Street, S. Shields.
SOUTHAMPTON.—Colonel G. E. Twiss, R.A.M.C., St. John's Station Road, Sholing, Hants.
SUNDERLAND.—Dr. I. G. Modlin, 148, Roker Avenue Sunderland.
TENBY.—Dr. Charles Mathias, Tenby.
WEST HARTLEPOOL.—W. Nightingale Hall, Esq., Maltby House, St. Paul's Road, West Hartlepool.
WEYMOUTH.—Dr. G. G. Morrice, 17, Royal Terrace, Weymouth.
WHITBY.—The Rev. H. Haslop, Missions to Seamen Institute, Whitby.
YARMOUTH.—B. Peart, Esq., 28, South Quay, Great Yarmouth.
CALCUTTA.—F W. Finn, Esq., Government Telegraph Store, Alipore.

REPRESENTATIVES OF ST. ANDREW'S AMBULANCE ASSOCIATION.

Scotland.

ABERDEEN.—William Smith, Esq., Secretary, Local Committee, St. Andrew's Ambulance Association, 201, Union Street, Aberdeen.

GLASGOW AND DUNDEE.—Lieut.-Col. H. J. Barnes, General Secretary, Head Office, St. Andrew's Ambulance Association, 176, West Regent Street, Glasgow.

GREENOCK.—R. A. Clapperton-Stewart, Esq., Secretary, Local Committee, St. Andrew's Ambulance, Association, 2, Church Place, Greenock.

LEITH.—Alex. Morrison, Esq., Secretary, Executive Committee, St. Andrew's Ambulance Association, 16, South Charlotte Street, Edinburgh.

The above list is liable to amendment from time to time, but notice of any changes will be given in the Mercantile Marine Offices, at the ports affected.

APPENDIX D.

DEFINITION PAPER.

THE Candidate is required to write a short definition or answer, accompanied by a rough sketch or diagram, where applicable in the case of so many of the following questions as may be marked with a cross by the Examiner. The

Examiner will mark not less than ten. Candidates must write clearly and pay attention to the spelling:—

1. Great circles.
2. Vertex of a great circle.
3. Small circles.
4. Vertical circles.
5. Right angle.
6. Oblique angle.
7. Obtuse angle.
8. Spherical angle.
9. Arc.
10. Complement of an arc or angle.
11. Supplement of an arc or angle.
12. The equator.
13. The poles.
14. A meridian.
15. The ecliptic.
16. The Tropics.
17. Equinoctial.
18. The visible horizon.
19. The sensible horizon.
20. The rational horizon.
21. Artificial horizon, and its use.
22. Parallels of latitude.
23. Difference of latitude.
24. Meridional parts.
25. Longitude.
26. Difference of longitude.
27. Departure.
28. Nautical mile.
29. Rhumb line.
30. Prime meridian.
31. First point of Aries.
32. Prime vertical.
33. Civil time.
34. Astronomical time.
35. Sidereal time.
36. Mean time.
37. Apparent time.
38. Equation of time; why it is used, and when it is at a maximum, and when at a minimum.
39. Hour angle of a celestial object.
40. Observed altitude.
41. Apparent altitude.
42. True altitude.
43. Zenith distance.
44. Azimuth.
45. Amplitude.
46. Declination.
47. Polar distance.
48. Right ascension.
49. Dip or depression of the horizon.
50. Refraction.
51. Parallax.
52. Semi-diameter.
53. Augmentation of moon's semi-diameter.
54. Magnetic meridian.
55. True course of a ship.
56. Magnetic course.
57. Compass course.
58. Variation of the compass.
59. Deviation of the compass, and how it is caused.
60. The error of the compass.
61. Leeway.
62. Does the variation change with time?
63. Is the variation the same all over the world?
64. Where do you find the variation?
65. Does the deviation change; if so, when?
66. Where is the North magnetic pole situated?
67. Where is the South magnetic pole situated?
68. Should the compass needle point to the magnetic or the true pole of the earth?
69. When is the altitude of an object most seriously affected by refraction?
70. Where is the Pole star situated?
71. Which is the most favourable time for determining the hour angle of a celestial body, and thence the longitude, and state the reason why?
72. Describe the construction of a mariner's compass.
73. Describe an Azimuth compass.
74. Describe a Pelorus, and its use.
75. Describe a Chronometer, and its use.

APPENDIX E.

EXAMINATION IN SIGNALLING.

The examination in Signalling should in all cases and for all grades commence with an examination in the International Code and be followed by an examination in the

British Signal Manual, including Morse, Flashing, Flagwaving and Semaphore.

International Code.—Examiners are recommended to frame the examination in the International Code of Signals, upon the instructions and illustrations given at the commencement of Parts I and II of the Signal Book. The information there given will be found sufficient to indicate all the characteristics of the Code.

By the form of the hoist, an observer can at sight understand the nature of any signal he sees flying; the examination should, therefore, tend to elicit a clear knowledge of all the distinctive features of the Code.

With this object in view, the examiners should question the candidates as to the distinguishing forms of the respective hoists, which will be indicated according as a burgee, a pennant, or a square flag is uppermost, and also with regard to the number of flags, and the position of the Code flag when used in the hoist; making the 1, 2, 3 and 4 flag signals with the flags supplied for the purpose, and varying the signals made, showing 2 and 3 flag signals with and without the Code flag included, or a Geographical or a Vocabulary signal, the name of a merchant ship or of a ship of war.

As the two latter signals would not be found in the Signal Book, the candidate should know where to find them and how to look them out.

The candidate should:—(*a*) Be able to read a signal at sight, so far as to name the flags composing the hoist. (*b*) Know the use of the Code pennant and of the pennants C and D, "Yes" and "No," also of the two burgees A and B, and the square flags S and P, and the flags used to indicate cholera, plague, &c., on board, and the quarantine flag. (*c*) Be required to signal some word or words not included in the vocabulary of the Code, either by letters or by the Spelling Table (page 516) or both. (*d*) Have a knowledge of the Distant Signals, and of their object, and the different modes of signalling therewith. (*e*) Know the special Morse signals indicated by certain letters as given on page 550. (*f*) Have a good knowledge of the Distress Signals and understand the penalty which may be incurred by their improper use.

The International Code is used on board His Majesty's ships, and it has been adopted by all the principal Maritime Powers for their public as well as merchant ships.

British Signal Manual.—Candidates will be expected to know the meaning of any or all of the single flag signals given therein, and the signification of the Pilot Jack when incorporated in a hoist. They should also be required to make or read from the Pilot Jack table a hoist given by the examiner. Candidates need not be expected to commit the Pilot Jack table to memory, but there should be no hesitation whatever in making or reading a signal. They should also know how to recognize any of the Special Signals given at the end of the British Signal Manual.

For the ordinary examination candidates should be required to read Morse letters made slowly and with a reasonable interval, say 3 to 5 seconds, between each letter by both flashing lamp and flagwaving, and also be able to read letters made either by hand flags or mechanical Semaphore with the same interval allowed between the letters. They must also be able to make any given letters by any of these methods. A short sentence may be used for both making and reading.

For the Extra Master's certificate and the Voluntary examination in signalling the standard of efficiency required is as follows:—

Candidates must be capable of sending and reading signals made by (1) Semaphore, at a rate of 10 words per minute, (2) Morse, flashing and flagwaving at a rate of 6 words per minute (the average length of a word to be calculated at 5 letters).

The Semaphore test will be a spelling message of 50 words.

The Morse, flashing and flagwaving, test will be a test message (*see* British Signal Manual), followed by a spelling message of 25 words.

The candidates must attain a decree of accuracy of at least 90 per cent. both in making and reading in each method, *i.e.*, Flashing, Flagwaving and Semaphore.

In the examination in Morse flashing and flagwaving the candidate should be first required to make a test message, followed by a spelling message of 25 words. The examiner should then make a test message followed by a spelling message of 25 words to be read by the candidate.

The same procedure must be observed in the Semaphore examination, except that, as a test message is not given, the candidate will be required to make a spelling message of 50 words and then to read a message of 50 words made by the examiner. The Semaphore messages may be made either by hand flags or mechanical Semaphore, or both at the discretion of the examiner.

In the Morse flashing and flagwaving examination, marks will be allotted for the test message in the proportion of 50/78 of a mark for each correct letter (*see* table at back of test cards), and for the spelling message 2 marks for each correct word or group of figures. The candidate must for a pass gain an aggregate of at least 90 per cent. of the maximum marks in both spelling and test messages.

In the Semaphore examination 2 marks will be allotted for each correct word and 90 per cent. of the maximum must be obtained for a pass.

The spelling message is left to the discretion of the examiner and may be a passage from any book or newspaper in English. When the passage contains figures and the candidate does not choose to spell them out, the examiner should see that the proper signs are made before and after the figures.

The message as read by the candidate should be taken down by another candidate, clerk, or other person according as the examiner may deem expedient.

Candidates should be thoroughly tested in the various signs and the procedure of calling up, sending and answering a signal, as laid down in the British Signal Manual, and this course should always be strictly adhered to.

Particular attention should be paid by examiners to the accurate spacing of the Morse signs, and to the intervals between letters and words, both in flashing and flagwaving, and also to the correct making of the Semaphore signs. Any attempted increase of speed at the expense of accuracy should be discouraged.

The block letter test and spelling message as read by the candidate should be forwarded on the Form Exn. 19*a*, together with the percentage of marks allotted and report on the Form Exn. 19*b* to the Principal Examiner, with any remarks the examiner may have to add with respect to the examination.

Note.—The International Code of Signals, with the Signal Letters of British Ships, is prepared by the Registrar-General of Shipping and Seamen, and may be obtained of the publishers, Messrs. Spottiswoode & Co., 54, Gracechurch Street, London, and the principal booksellers at the various ports, price 4*s.* 6*d.*

The Official Mercantile Navy List and Maritime Directory may be obtained in like manner, price 12*s.*

The British Signal Manual, which in the next edition will be entitled "The British Signal Manual, authorised for use between His Majesty's Ships and British Merchant Vessels, British Merchant Vessels and one another, and certain Signal Stations," may be obtained, either directly or through any booksellers, from Messrs. Wyman & Sons, Fetter Lane, London, E.C., price 1*s.*

APPENDIX F.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

1.—Order in Council of November 27, 1896.

SCHEDULE I.

Preliminary.

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

In the following rules every "steam-vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam-vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules when she is not at anchor, or made fast to the shore or aground.

Rules concerning Lights, &c.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1.—The Rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights, which may be mistaken for the prescribed lights, shall be exhibited.

Article 2.—A steam-vessel when under way shall carry—

(*a*) On or in front of the foremast, or if a vessel without a for mast, then in the fore part of the vessel at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the lights 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.

(*b*) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(*c*) On the port side a red light so constructed as to show on unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

(*d*) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

(*e*) A steam-vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (*a*). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to

each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3.—A steam-vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line, one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in article 2 (*a*), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam-vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4 (*a*).—A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in article 2 (*a*), where they can best be seen, and if a steam-vessel, in lieu of that light two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles, and shall by day carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(*b*) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in article 2 (*a*), and if a steam-vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line, one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than two feet in diameter of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(*c*) The vessels referred to in this article, when not making way through the water, shall not carry the side lights, but when making way shall carry them.

(*d*) The lights and shapes required to be shown by this article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in article 31.

Article 5.—A sailing vessel under way, and any vessel being towed shall carry in same lights as are prescribed by article 2 for a steam-vessel under way, with the exception of the white lights mentioned therein which they shall never carry.

Article 6.—Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted out-

side with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7.—Steam-vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in article 2 (*a*), (*b*) and (*c*), but if they do not carry them, they shall be provided with the following lights:—

1. Steam-vessels of less than 40 tons shall carry:

(*a*) In the fore part of the vessel, or on or in front of the funnel where it can best be seen and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in article 2 (*a*), and of such a character as to be visible at a distance of at least 2 miles.

(*b*) Green and red side-lights constructed and fixed as prescribed in article 2 (*b*) and (*c*), and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right-a-head to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steam-boats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (*b*).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this article shall not be obliged to carry the lights prescribed by article 4 (*a*) and article 11, last paragraph.

Article 8.—Pilot vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed 15 minutes.

On the near approach of or to other vessels they shall have their side lights lighted, ready for use, and shall for flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it to the masthead, and may, instead of the coloured lights abovementioned have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

Pilot vessels, when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage*.

Article 9.—Fishing-vessels and fishing-boats, when under way and when not required by this article to carry or show

* *See also* the Schedule to the Order-in-Council of the 7th July 1897, which deals with the lights to be carried by steam pilot vessels, page 1044.

the lights hereinafter specified shall carry or show the lights prescribed for vessels of their tonnage under way.

(*a*) Open boats, by which is to be understood boats not protected from the entry of sea water by means of a continuous deck, when engaged in any fishing at night with outlying tackle extending not more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light.

Open boats, when fishing at night, with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all-round white light, and in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying tackle is attached.

(*b*) Vessels and boats except open boats as defined in subdivision (*a*), when fishing with drift nets, shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon, and to be visible at a distance of not less than 3 miles.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(*c*) Vessels and boats, except open boats as defined in subdivision (*a*), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of subdivision (*b*), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile on the approach of or to other vessels.

Vessels, when engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam-vessels, shall carry in the same position as the white light mentioned in article 2 (*a*), a tri-coloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow, and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard

and port sides respectively; and not less than 6 nor more than 12 feet below the tri-coloured lantern a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon.

2. If sailing-vessels, shall carry a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in subdivision (*d*) 1 and 2 shall be visible at a distance of at least 2 miles.

(*e*) Oyster dredgers and other vessels fishing with dredge nets shall carry and show the same lights as trawlers.

(*f*) Fishing-vessels and fishing-boats may at any time use a flare-up light in addition to the lights which they are by this article required to carry and show, and they may also use working lights.

(*g*) Every fishing-vessel and every fishing-boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

Every fishing vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by article 11.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall on the approach of other vessels show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(*h*) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the day-signal required by subdivision (*k*); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or heavy rain-storms make the signal prescribed for a vessel at anchor. [*See* subdivision (*d*) and the last paragraph of article 15.]

(*i*) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of drag-net, and vessels line fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute make a blast: if steam-vessels, with the whistle or syren, and if sailing-vessels with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals; but if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(*k*) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their gear out, they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by article 4 (*a*), and the last paragraph of article 11.

Article 10.—A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz, for 6 points from right aft on each side of the vessel so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side lights.

Article 11.—A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear uniform and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 150 feet or upwards in length, when at anchor shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40 feet above the hull, one such light and at or near the stern of the vessel and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing, in her certificate of registry.

A vessel aground in or near a fair way shall carry the above light or lights and the two red lights prescribed by article 4 (*a*).

Article 12.—Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13.—Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorized by their respective Governments and duly registered and published.

Article 14.—A steam-vessel proceeding under sail only but having her funnel up, shall carry in day time, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound Signals for Fog, etc.

Article 15.—All signals prescribed by this article for vessels under way shall be given :

(1) By "steam-vessels" on the whistle or siren.

(2) By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this article, shall mean a blast of from 4 to 6 seconds' duration.

A steam-vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

* In all cases where the rules require a bell to be used, a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels.

In fog, mist, falling snow or heavy rain-storms, whether by day or night the signals described in this article shall be used as follows, viz.—

(*a*) A steam-vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.

(*b*) A steam-vessel under way, but stopped and having no way upon her, shall sound at intervals of not more than 2 minutes, two prolonged blasts, with an interval of about 1 second between them.

(*c*) A sailing-vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(*d*) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.

(*e*) A vessel, when towing a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these rules shall, instead of the signals prescribed in subdivisions (*a*) and (*c*) of this article, at intervals of not more than 2 minutes, sound three blasts, in succession, viz., one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.

Speed of ships to be Moderate in Fog, etc.

Article 16.—Every vessel shall in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed having careful regard to the existing circumstances and conditions.

A steam-vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES

Preliminary—Risk of Collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change such risk should be deemed to exist.

Article 17.—When two sailing vessels are approaching one another so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz —

(*a*) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(*b*) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(*c*) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d*) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(*e*) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18.—When two steam-vessels are meeting end on, or nearly end on so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or, by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

Article 19.—When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20.—When a steam-vessel and a sailing-vessel are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sailing-vessel.

Article 21.—Where by any of these rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See articles 27 and 29.)

Article 22.—Every vessel which is directed by these rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel, shall on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24.—Notwithstanding anything contained in these rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel: and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the

meaning of these rules or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25.—In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of fair way or mid channel which lies on the starboard side of such vessel.

Article 26.—Sailing-vessels under way shall keep out of the way of sailing vessels or boats fishing with nets or lines, or trawls. This rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27.—In obeying and construing these rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

Sound Signals for Vessels in Sight of one another.

Article 28.—The words "short blast" used in this article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam-vessel under way, in taking any course authorized or required by these rules, shall indicate that course by the following signals on her whistle or siren, viz.—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

No Vessel under any circumstances to neglect proper Precautions.

Article 29.—Nothing in these rules shall exonerate any vessel, or the owner, or master, or crew, thereof, from the consequences of and neglect to carry lights or signals, or of any neglect to keep a proper look-out or of the neglect to any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

Article 30.—Nothing in these rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

SCHEDULE II.

*Distress Signals.**

Article 31.—When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz.—

In the day time –

1. a gun or other explosive signal fired at intervals of about a minute;

* If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of those signals of distress, except in case of a vessel being in distress, he shall be liable to pay compensation for any labour undertaken, risk incurred, or loss sustained in consequence of that signal having been supposed to be a signal of distress, and that compensation may, without prejudice, to any other remedy, be recovered in the same manner in which salvage is recoverable [Merchant Shipping Act, 1894, Section 434 (2)].

2. the International Code signal of distress indicated by N. C;
3. the distance signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;*
4. a continuous sounding with any fog-signal apparatus.

At night—

1. a gun or other explosive signal fired at intervals of about a minute;
2. flames on the vessel (as from a burning tar-barrel, oil-barrel, etc.);
3. rockets or shells, throwing stars of any colour or description fired one at a time, at short intervals;
4. a continuous sounding with any fog-signal apparatus.

2.—ORDER IN COUNCIL OF 7TH JULY 1897.

Schedule.

LIGHTS TO BE CARRIED BY STEAM PILOT VESSELS.

A steam pilot vessel exclusively employed for the service of Pilots licensed or certified by any Pilotage Authority or the Committee of any Pilotage District in the United Kingdom, when engaged on her station on pilotage duty, and in British waters and not at anchor, shall, in addition to the lights required for all pilot boats, carry at a distance of eight feet below her white masthead light a red light visible all round the horizon, and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles, and also the coloured side lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and in British waters and at anchor, she shall carry, in addition to the light required for all pilot boats, the red light above mentioned, but not the coloured side lights.

When not engaged in her station on pilotage duty, she shall carry the same lights as other steam vessels.

EXAMINATION IN THE REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

All applicants for examination, whether for Certificates as Masters or Mates, are to be examined as to their knowledge of the Regulations each time they present themselves for examination.

Questions suggested by the following heads of examination are to be asked in addition to, and are not to supersede, any other questions, proper and necessary, to be asked by the examiner.

The following questions need not be adhered to literally by the examiner, and are not all to be asked; but the substance of the leading question should be asked, and all that are asked should be satisfactorily answered, before an applicant is reported to have passed his examination. The examiner should make such selection of the questions as each case appears to him to require.

1. Where and by what vessels are the rules to be followed?

The rules are to be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

* A further distress signal is provided in the new International Code of Signals. It is a distant signal consisting of a cone point upwards having either above it or below it a ball or anything resembling a ball. This signal has not been sanctioned by order in Council under the provisions of section 421 of the Merchant Shipping Act, 1894.

2. When is the steam-vessel considered a sailing-vessel, and when a steam-vessel?

Under the rules every steam-vessel which is under sail and not under steam is to be considered a sailing-vessels, and every vessel under steam, whether under sail or not, is to be considered a steam-vessel.

3. What does the word "steam-vessel" in the rules includes?

The word "steam-vessels" as used in the rules includes any vessel propelled by machinery.

4. When is the vessel considered to be under way by these rules?

When she is not at anchor, or made fast to the shore or aground.

5. What does the word "visible" in these rules when applied to lights, mean?

Visible on a dark night with a clear atmosphere.

6. During what time must the rules concering lights be complied with?

In all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

7. What light or lights are required by the regulations to be exhibited by sailing-vessels at anchor?

If they are under 150 feet in length, one white light; if of 150 feet or upwards, two white lights, one forward and one aft.

8. What light or lights are required by the regulations to be exhibited by steam-ships at anchor?

The same as for sailing-vessels.

9. Where is the anchor light to be exhibited in a vessel under 150 feet in length?

Forward where it can best be seen. It must be placed where there is the least chance of obstruction from spars, ropes, &c., and must not be more than 20 feet above the hull.

10. Where must the two anchor lights be shown in vessels of 150 feet and upwords?

In vessels of 150 feet or upwards in length one light must be carried in the forward part of the vessel at a height of not less than 20 feet and more than 40 feet above the hull; and another light at or near the stern not less than 15 feet lower than the forward light.

11. In what direction or directions must the anchor lights show?

They must show a clear, uniform, and unbroken light, visible all round the horizon.

12. At what distance must they be visible?

At least one mile.

13. What shall be deemed to be the length of a vessel?

The length appearing in the certificate of registry.

14. What light or lights must a vessel aground in or near a fairway carry?

The light or lights prescribed for a vessel at anchor, and in addition the two red lights prescribed for a vessel not under command.

15. What is the number of lights required by the regulations to be carried by sailing ships when under way at night?

Two side lights, and to have in readiness a white light or a flare-up light to show from their stern to any vessel overtaking them.

16. Of what colour are these lights, and how are they to be placed on board the ship?

A green light on the starboard side, and a red light on the port side.

17. What description of lights must be shown from the sides of sailing vessels under way: and over how many points of the compass, and in what directions, and how far, are they required to show?

Each light must be so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to two points abaft the beam on the starboard and port sides, respectively; and of such a character as to be visible at a distance of at least two miles.

18. What lights are they to carry when being towed at night?

The same.

19. Are the side lights required to be fitted with screens; and, if so, of what length, and how?

Yes, on the inboard side; at least 3 feet in length, measuring forward from the light so as to prevent the lights from being seen across the bow.

20. What is the number of lights required by the regulations to be carried by steam-vessels when under way at night?

Three lights, and to have in readiness a white light or flare-up light to show from their stern to any vessel overtaking them.

21. Of what colour are these lights, and how are they to be placed on board the ship?

A white light on or in front of the foremast, or if a vessel without a foremast, then in the forepart of the vessel at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height about the hull not less than such breadth, so, however, that the light need not be carried at a greater height than 40 feet. A green light on the starboard side, and a red one on the port side.

22. Over how many points of the compass in what direction and how far is the foremast-head light of a steam-vessel required to show?

Over 20 points, viz., from right ahead to two points abaft the beam on each side. It must be of such a character as to be visible at a distance of at least five miles.

23. Are the side lights required to be fitted with screens, and if so, of what length?

The green and red lights are to be fitted with screens on the inboard side, extending at least 3 feet forward from the the light, so as to prevent these lights from being seen across the bow.

24. Over how many points of the compass, in what directions, and how far, are the coloured side lights of steam-vessels required to show?

The sidelights must be so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, on each side of the ship, *i.e.*, from right ahead to two points abaft the beam on the starboard and port sides, respectively, and of such a character as to be visible at a distance of at least two miles.

25. May a steam-vessel when under way carry any additional light or lights?

Yes. A steam-vessel may carry a similar white light to the masthead light. These two lights must be so placed in line with the keel, that one shall be at least 15 feet higher than the other, and the lower light shall be forward of the upper one, and that the vertical distance between them shall be less than the horizontal distance.

26. What description of lights are steam-vessels required to carry when they are not under steam, but under sail only?

Side lights only, the same as sailing-vessels.

27. What exceptional lights may small vessels carry?

Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept at hand, lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor

the red light on the starboard side; nor, if practicable, more than two points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

28. Are steam-vessels of less than 40 tons gross tonnage compelled to carry the same lights as other steam-vessels; if not, what lights may they carry instead?

No; but if they do not carry the ordinary lights, they must carry in the forepart of the vessel or on or in front of the funnel where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light to show over the same arc as the ordinary masthead light, and to be visible at a distance of at least two miles. Also a combined lantern shewing a green light and a red light from right ahead to two points abaft the beam on their respective sides, such lantern to be carried not less than 3 feet below the white light.

29. Are small steam boats such as are carried by sea-going vessels, obliged to carry the white light 9 feet above the gunwale?

No; but it must be carried above the combined lantern.

30. What lights may vessels under oars or sails of less than 20 tons gross tonnage carry?

They shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, in the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

31 What lights must rowing boats, whether under oars or sails, carry?

They must have ready at hand a lantern showing a white light which shall be temporarily exhibited in sufficient time to prevent collision.

32. What description of lights are pilot vessels required to carry when on their stations on pilotage duty?

A pilot vessel, when engaged on her station on pilotage duty shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes. Also on the near approach of or to other vessels they shall have their side lights lighted ready for use and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side nor the red light on the starboard side.

33. What lights may pilot vessels which are obliged to go alongside of a vessel to put a pilot on board, carry?

They may show the white light instead of carrying it at the mast-head, and may, instead of the coloured side lights, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed for the colour side lights.

34. What description of lights are steam pilot vessels required to carry when on their stations on pilotage duty in British waters and not at anchor?

A steam pilot vessel, when engaged on her station on pilotage duty and in British waters, and not at anchor, shall, in addition to the lights required for all pilot vessels, carry at a distance of 8 feet below her white masthead light a red light visible all round the horizon for at least two miles, and also the coloured side lights required to be carried by vessels under way.

35. What description of lights are steam pilot vessels required to carry when on their stations on pilotage duty in British waters, and at anchor?

A steam pilot vessel, when engaged on pilotage duty in British waters and at anchor, shall carry, in addition to the lights required for all pilot vessels, the red light 8 feet below her white light, but not the coloured side lights.

36. What description of ligts are pilot vessels required to carry when not on their station on pilotage duty?

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other vessels of her tonnage.

37. What lights are open boats and fishing vessels of less than 20 tons net register required to carry when under way and not actually engaged in fishing?

Open boats and fishing-vessels of less then 20 tons net registered to tonnage, when under way and when not having their nets, trawls, dredgers, or lines in the water, shall not be obliged to carry the coloured side lights; but every such boat and vessel shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side, and on approaching to or being approached by another vessel, such lantern shall be exhibited in sufficient time to prevent collision, so that the green lights shall not be seen on the port side nor the red light on the starboard side.

38. What lights are fishing-vessels and fishing-boats of 20 tons net register, or upwards, required to carry when under way and not actually engaged in fishing?

They must carry similar lights to those of other ships when under way.

39. What lights are steam trawlers of 20 tons gross register, or upwards, whilst actually engaged in trawling, and not being stationary, required to carry?

All steam-vessels engaged in trawling must carry either one of the two following arrangements of lights:—

(*a*) The usual green and red side lights, and foremast head light, similar to those carried by other steamships; or

(*b*) they must carry on or in front of the foremast head, and in the same position as the white light which other steamships are required to carry, a lantern showing a white light ahead, a green light on the starboard side, and a red light on the port side; such lantern shall be so constructed, fitted, and arranged as to show a uniform and unbroken white light over an arc of the horizon of four points of the compass a uniform and unbroken green light over an arc of the horizon of 10 points of the compass, and an uniform and unbroken red light over an arc of the horizon of 10 points of the compass, and it shall be so fixed as to show the white light from right ahead to two points on the bow on each side of the ship, the green light from two points on the starboard bow to four points abaft the beam on the starboard side, and the red light from two points on the port bow to four points abaft the beam on the port side: and (2) a white light in a globuar lantern of not less than eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light all round the horizon; the lantern containing such white light shall be carried lower than the lantern showing the green, white and red lights as aforesaid, so, however, that the vertical distance between them shall not be less than 6 feet nor more than 12 feet.

40. What lights are sailing trawlers, whilst actually engaged in trawling, and not being stationary, required to carry?

All sailing vessels, of what ever tonnage, whilst engaged in trawling, must carry either one of the three following arrangements of lights:—

(*a*) They may carry the green and red side lights similar to those of other sailing ships; or

(*b*) they may carry on, or in front of the foremast head, a lantern having a green glass on the starboard side and a red glass on the port side, so constructed, fitted, and arranged and the red and green do not converge, and so as to show a uniform and unbroken green light over an arc of the horizon of 12 points of the compass, and an uniform and unbroken red light over an arc of the horizon of 12 points of points of the compass, and it shall be so fixed as to show the green light from right ahead to four points abaft the beam on the starboard side, and the red light from right ahead to four points abaft the beam on the port side; and (2) a white light in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear, uniform and unbroken light all round the horizon; the lantern containing such white light shall be carried lower than the lantern showing the green and red lights as aforesaid, so, however, that the vertical distance between them shall not be less than 6 feet and not more than 12 feet; or

(*c*) they may carry a white light in a globular lantern of not less eight inches in diameter, and so constructed as to show a clear uniform and unbroken light all round the horizon, and visible on a dark night, with a clear atmoshere, for a distance of at least two miles; and also a sufficient supply of red pyrotechnic lights which shall each burn for at least 30 seconds, and shall, when so burning, be visible for the same distance under the same conditions as the white light. The white light shall be shown from sunset to sunrise, and one of the red pyrotechnic lights shall be shown on approaching, or on being approached by, another ship or vessel in sufficient time to prevent collision.

41. What lights are vessels whilst actually engaged in drift net fishing required to carry?

All vessels when engaged in fishing with drift nets shall exhibit two white lights from any part of the vessel where they can be best seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 10 feet; so that the horizontal distance between them, measured in a line with the keel of the vessel, shall be net less than 5 feet and not more than 10 feet. The lower of these two lights shall be the more forward, and both of them shall be of such a character, and contained in lanterns of such construction, as to show all round the horizon, on a dark night, with a clear atmosphere, for a distance of not less than three miles.

42. What lights are vessels whilst actually engaged in the line fishing required to carry?

A vessel engaged in line fishing is required to carry the same lights as a vessel engaged in drift net fishing.

43. If a vessel, when fishing, becomes stationary in consequence of her gear getting fast to a rock or other obstruction, what signal must she make?

She must show the same light, and if a fog, mist, or falling snow or heavy rain storms prevail, she must make the same fog-signal as if she were at anchor.

44. What lights are fishing vessels and open boats required to exhibit when at anchor?

Between sunset and sunrise they must exhibit a white light, visible all round the horizon at a distance of at least one mile.

45. What sound signals are fishing vessels required to make whilst engaged in fishing in thick weather?

In fog, mist, or falling snow, a drift net vessel attached to her nets and a vessel when trawling, dredging or fishing with any kind of drag net and a vessel employed in line fishing with her lines out, shall, at intervals of not more than two minutes, make a blast with her fog-horn and ring her bell alternately.

46 May fishing vessels and open boats use flare-up lights, and if so, at what part or parts of the vessel should they be exhibited?

Yes. Fishing vessels and open boats may at any time use a flare-up in addition to the lights which they are required to carry and show. All flare-up lights exhibited by a vessel when trawling, dredging or fishing with any kind of drag net shall be shown at the after-part of the vessel, excepting that if the vessel is hanging by the stern to her trawl, dredge, or drag net, they shall be exhibited from the bow.

47. Do these regulations referring specially to fishing vessels and boats apply in all parts of the world?

No; with the exception of the *first paragraph* of article 10 of the Order in Council of the 11th August 1884, they apply only to fishing vessels and boats when in the sea off the coast of Europe lying north of Cape Finisterre.

48. What lights are steamships required to carry when towing other vessels?

A steam-vessel when towing another vessel shall in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light [article 2 (*a*) [which other steam-vessels are required to carry, except the additional light which may be carried at a height not less than 14 feet above the hull.

49. May a vessel towing carry any other light?

Yes. A small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

50. What light is a vessel which is being overtaken by another required to show?

A vessel which is being overtaken by another shall show from her stern to the other vessel a white light or a flare-up light.

51. May the white light be fixed?

Yes. But, if so, it must be so constructed and screened to show an unbroken light over an arch of the horizon of 12 points of the compass, viz., for six points from right aft on each side of the vessel so as to be visible at a distance of at least one mile. This light shall be carried as nearly as practicable on the same level as the side lights.

52. Describe the lights and to the day signals that vessels employed in laying or picking up a telegraph cable are required to carry.

A vessel employed in laying or in picking up a telegraph cable, shall at night carry in the same position as the white light which steam-vessels are required to carry, and if a steam-vessel in place of that light, three lights, in a vertical line over one another not less than 6 feet apart;

the highest and lowest of these lights shall be red and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon at a distance of at least two miles. By day she shall carry in a vertical line one over the other not less than 6 feet apart where they can best be seen, three shapes not less than 2 feet in diameter, of which the top and bottom shall be globular in shape and red in colour, and the middle one in diamond in shape and white.

53. Describe the lights and day signals that vessels which from any cause are not under command, are required to carry?

A vessel, which from any accident is not under command, shall at night carry at the same height as the white light which steam-vessels are required to carry, where they can best be seen, and if a steam-vessel, in place of that light, two red lights in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least two miles; and shall by day carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, two black balls or shapes, each 2 feet in diameter.

54. Are the abovementioned vessels to carry side-lights?

The above vessels, when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

55. What are the shapes and lights carried by telegraph-ships and ships not under command intended to indicate to approaching vessels?

These shapes and lights are to be taken by approaching vessels as signals that the ship using them is not under command and cannot therefore get out of the way.

56. Do these rules prevent squadrons and convoys from carrying special lights, or vessels exhibiting recognition signals?

No. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorized by their respective Governments, and duly registered and published.

57. May vessels exhibit any other lights in order to attract attention?

Yes. In addition to the lights which she is required to carry, she may show a flare-up light, or use any detonating signal that cannot be mistaken for a distress signal.

58. What signal must a steam-vessel proceeding under sail only, but having her funnel up, carry in the day time?

She must carry forward, where it can best be seen, one black ball or shape, 2 feet in diameter.

59. What sound signals are steam-vessels and sailing-vessels of 20 tons gross tonnage or upwards required by the regulations to be provided with?

A steam-vessel shall be provided with an efficient whistle or siren sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstructions and with an efficient fog-horn to be sounded by mechanical means, and also with an efficient bell A sailing-vessel of 20 tons gross tonnage of upwards shall be provided with a similar fog-horn and bell.

60. When are these signals to be used?

In fog, mist, falling snow, or heavy rain storms, whether by day or night.

61. What does a prolonged blast mean?

A blast of from 4 to 6 seconds' duration.

62. On what are the fog signals to be made by steam-vessels under way?

On the whistle or siren.

63. On what are the fog signals to be made by sailing-vessels and vessels towed ?

On the fog-horn.

64. What sound signal is to be made by vessels at anchor ?

Vessels at anchor shall, at intervals of not more than one minute, ring the bell rapidly for about five seconds

65. What sound signal is required to be made by a steam-vessel having way upon her ?

A steam-vessel having way upon her shall sound at intervals of not more than two minutes, a prolonged blast.

66. What sound signal is required to be made by a steam-vessel under way, but stopped, and having no way upon her ?

A steam-vessel under way, but stopped, and having no way upon her, shall sound at intervals, of not more than two minutes, two prolonged blasts, with an interval of about one second between them

67. What sound signals are required to be made by sailing-vessels when under way ?

A sailing-vessel under way shall sound at intervals of not more than one minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and, when with the wind abaft the beam three blasts in succession.

68. What sound signals are required to be made by a vessel when towing a vessel employed in laying or in picking up a telegraph cable, or a vessel under way which is unable to get out of the way, of an approaching vessel through not being under command or unable to manœuvre as required the rules ?

A vessel towing, or when laying or picking up a telegraph cable, or when unable to get out of the way, shall, at intervals of not more that two minutes, sound three blasts in succession, viz., one prolonged blast followed by two short blasts.

69. What sound signal may a vessel being towed make ?

A vessel towed may give the same signal as a vessel towing, and she shall not give any other.

70. What sound signal must sailing vessels and boats of less than 20 tons gross tonnage make ?

If they do not give the signal prescribed for other vessels, they must make some other efficient sound signal at intervals of not more than one minute.

71. Do the regulations require vessels to take any other precaution during thick weather ?

Yes. Article 16 says every vessel shall, in a fog, mist, or falling snow or heavy rain-storms go at a moderate speed, having careful regard to the existing circumstances and conditions.

72. What action must be taken by a steam-vessel hearing apparently forward of the beam the fog signal of another vessel the position of which is not ascertained ?

She shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

73. How can you generally ascertain whether there is risk of collision in approaching another vessel ?

By carefully watching the compass bearing of the other vessel, and if it does not appreciably change, such risk should be deemed to exist.

74. When a steam-vessel under way takes any course required by these rules, must she indicate that course to any vessel she has in sight ?

Yes. Article 28 provides that in taking any course authorized or required by the regulations, a steam-vessel under way may indicate that course to any other vessel which she has in sight by the following signals on her whistle or siren, viz.—

One short blast to mean "I am directing my course to starboard."

Two short blasts to mean "I am directing my course to port."

Three short blasts to mean "My engines are going full speed astern."

75. What does the expression "short blast" used in the preceding article mean?

It means a blast of about one second's duration.

76. What precaution is to be taken by steam-vessels which are directed by these rules to keep out of the way when approaching another vessel?

They shall, if necessary, slacken speed, or stop and reverse.

77. If you see two white lights in a vertical line, one over the other, what do they denote as regards the vessel carrying them?

They may denote the presence of a steam-vessel end on with her side-lights not within sight on account of distance, fog, &c, or a steam-vessel towing with her side-lights not within sight on account of distance, fog, &c.; or a vessel end on to me engaged in drift net fishing, or in line fishing; or it may be a steam trawler end on, or within two points of being end on to me, or a vessel of 150 feet or upwards in length at anchor and end on to me.

78. If you see a green, or a red light with a white light below, what do they denote?

They denote the presence of a steam-vessel engaged in trawling.

79. If you see both the green and red lights with a white light below them, what do they denote?

They denote the presence of a sailing trawler coming end no to me.

80. If you see a white light alone, what does it denote as regards the ship carrying it?

It denotes the presence of a vessel or boat at anchor; or a pilot vessel on her station; or the masthead light of a vessel, under steam with her side-lights not within sight on account of distance, fog, &c.; or a fishing vessel stationary through her gear getting fast to some obstruction, or a sailing trawler engaged in trawling, or it may be a light shown from the stern of a vessel which is being overtaken.

81. If you see a green or a red light without a white light, or both a green and a red light without a white light, is the vessel carrying the light or lights seen a vessel under steam or a vessel under sail?

A vessel under sail.

82. How do you know?

Because there is no white mast-head light.

83. If you see a white light over a coloured light, is the vessel a vessel under sail or a vessel under steam?

A vessel under steam. The mast-head light denotes that the vessel is under steam.

[The Examiner will then take one model of a vessel, which he will place on the table, and call it A. He will then take the mast or stand with a white and red ball on it, and place it at the other end of the table, and call it B.

The Examiner should be careful that the model of one vessel only is used when the questions numbered 84 to 89 are asked.]

84. A is a steam-vessel going north, seeing a white light and red light right ahead at B. Are A and the vessel B showing the two lights meeting end on, or nearly end on, or is B passing A, or is B crossing the path of A, and in what direction, and how do you know?

Passing to port, because if I see a red light ahead, I know that the head of the vessel carrying that red light must be pointing away in some direction to my own port or left hand. The vessel showing the red light has her port or left side more or less open to A.

85. If A is going north, within what points of the compass must the vessel B showing the white and red lights be steering?

B must be going from a little W. of S. to W. N. W.

86. How do you know this?

Because the screens being properly fitted, I could not see the red light of B at all with the vessel's head in any other direction.

87. A is a steam vessel going north, and seeing a white and green light ahead. Are A and B meeting, or is B passing A, or is B crossing the course of A, and in what direction, and how do you know?

B is passing to starboard of A, because if I see a green light ahead, I know that the head of the vessel carrying that green light must be pointing away in some direction to my starboard or right hand.

The ship showing the green light has her right or starboard side more or less open to me.

88. As A is going north, within what points of the compass must the vessel showing the white and green lights be steering?

B must be going from a little E. of South to E. N. E.

89. How do you know?

Because the screens being properly fitted, I cannot see the green light at all with the vessel's head in any other direction.

90. If a steam-vessel A sees the *three or four* lights of another steam-vessel B ahead or nearly ahead, are the two steam-vessels meeting, passing or crossing?

Meeting end on, or nearly end on.

91. Do the regulations expressly require the course of a vessel to be altered to starboard in any case; and, if so, when?

Yes; in the case of two steam-vessels meeting end on, or nearly end on.

92. Do they expressly require the course of a vessel to be altered to starboard in any other case; and, if so, in what other?

No, it is not in any other case expressly required by the regulations.

[The Examiner should see that the candidate places the models in the position indicated by the question 93 and following.]

93 If a steam-vessel A sees another steam-vessel's red light B on her own starboard side, are the steam-vessels meeting, passing, or crossing, and how do you know?

Crossing, because the red light of one is opposed to the green light of the other; and whenever a green light is opposed to a red light, or a red light to a green light, the vessels carrying the lights are crossing vessels.

94. Is A to stand on; and if not, why not?

A has the other vessel B on her own starboard side. A knows she is crossing the course of B because she sees the red light of B on her (A's) own starboard side. A also knows she must get out of the way of B, because Article 19 expressly requires that the steam-vessel that has the other on her own starboard side shall keep out of the way of the other.

95. Is A to starboard or to port in such a case?

A must do what is right so as to get herself out of the way of B; and must, if the circumstances of the case permit, avoid crossing ahead of B.

96. If A gets into collision by porting, will it be because she is acting on any rule?

No; the rule does not require her either to port or to starboard. If she ports, and gets into collision by porting, it is not the fault of any rule.

97. If a steam-vessel A sees the green light of another steam-vessel B on her own (A's own) port bow, are the

two steam-vessels meeting, passing or crossing; and how do you know?

Crossing, because the green light of one vessel is shown to the red light of the other.

98. What is A to do, and why?

By the rule contained in Article 21 of the regulations, A is required to keep her course and speed subject to the qualification that due regard must be had to all dangers of navigation and collision; and that due regard must also be had to any special circumstances which may exist in any particular case rendering a departure from that rule necessary in order to avoid immediate danger. The crossing vessel B on A's port side must get out of the way of A, because A is on B's starboard side.

99. A, a steam-vessel, sees the green light of another steam-vessel B, a point on her, A's port bow. Is there any regulation requiring A to port in such a case, and if so, where is it to be found?

There is not any.

100. Are steam-vessels to get out of the way of sailing-vessels?

If a steam-vessel and a sailing-vessel are proceeding in such direction as to involve risk of collision, the steam-vessel is to get out of the way of the sailing-vessel unless the sailing-vessel is overtaking the steam-vessel.

101. What is to be done by A, whether a steam-vessel or sailing-vessel, if overtaking B?

A is to keep out of the way of B.

102. When is a vessel considered to be an overtaking vessel?

Every vessel coming up on another vessel from more than two points abaft her beam, *i.e.*, in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, is an overtaking vessel; and no subsequent alteration of the bearing between the two vessels can make the overtaking vessel a crossing vessel within the meaning of the rules, or relieve her of the duty of keeping clear of the overtaking vessel until she is finally passed and clear.

103. In the day time how do you know when you are an overtaking vessel?

It is often hard to judge with any degree of certainty, but if in doubt assume you are an overtaking vessel and keep out of the way.

104. Have sailing-vessels under weigh to keep out of the way of sailing-vessels and boats fishing?

Yes; they have to keep out of the way of sailing-vessels or boats fishing with nets, or lines or trawls; but this rule does not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

105. When by the rules one of two ships is required to keep out of the way of the other, what is the other to do?

To keep her course and speed.

106. Is there any qualification or exception to this?

Yes. Due regard must be had to all dangers of navigation and collision, and to any special circumstances which may exist in any particular case, and require a departure from the regulations to avoid immediate danger.

107. Is there any general direction in the steering and sailing rules, and if so, what is it?

Yes, it is this: that nothing in the rules shall exonerate any vessel or the owner, master, or crew thereof from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

108. Can you repeat Article (———) of the regulations? I refer to the article containing the rule for (———).

[The Examiner will repeat this question, naming a different Article each time.]

109. What does the Act of Parliament provide as to the obligation of owners and masters in obeying the regulations respecting lights, fog-signals and steering and sailing?

Section 419 of the Merchant Shipping Act, 1894, provides that owners and masters shall be bound to obey the regulations, and it also provides that in case of wilful default by the master or owner, he shall be deemed to be guilty of a misdemeanour for each infringement.

110. What do breaches of the regulations imply?

If an accident happens through non-observance of the regulations, it implies wilful default on the part of the person in charge of the deck at the time, unless it is shown to the satisfaction of the court hearing the case that the special circumstances of the case rendered a departure from the rules necessary.

111. If collision ensues from a breach of the regulations, who is to be deemed in fault for the collision?

The person by whom the regulations are infringed, unless the court hearing the case decides to the contrary.

112. Is there any special rule for steam-vessels navigating narrow channels?

In narrow channels every steam-vessel must, when it is safe and practicable, keep to that side of the fairway or mid-channel which is on the starboard side of such vessel.

113. Do the regulations for preventing collisions at sea apply to sea-going vessels in harbours and in rivers?

Yes; unless there is any rule to the contrary made by a competent authority.

114. Do they apply to British vessels only?

No, to foreign vessels as well, with the exception of paragraphs (*a*), (*b*), (*c*), (*d*), (*e*), (*f*) and (*g*) of Article 10 of the Order in Council of the 11th August 1884, and Orders in Council of the 30th December 1884, 24th June 1885, and 7th July 1897, which apply only to British vessels.

115. Do you know where the present regulations are to be found?

Yes, in Article 10 of the Order in Council of the 11th August 1884 and in the Orders in Council of the 30th December 1884, 14th June 1885, 27th November 1896 and 7th July 1897.

116. Is one vessel bound to assist another in case of collision?

Yes.

117. What is the penalty for default?

If the master or person in charge of the vessel fails to render assistance without reasonable excuse, the collision is, in absence of proof to the contrary, to be deemed to be caused by his wrongful act, neglect or default.

118. Is there any other penalty attached to not rendering assistance?

Yes. If it is afterwards proved that he did not render assistance, his certificate may be cancelled or suspended by the court investigating the case.

119. Is it not expected that you should understand the regulations before you take charge of the deck of a vessel?

It is.

120. Why?

If I do not understand them and am guilty of default, the consequences will be very serious to me.

121. What would be a serious offence?

To cause a collision by porting the helm or doing anything not required by the regulations and without due consideration.

AIDS TO MEMORY in four verses, by the late MR. THOMAS GRAY, C.B.

1. *Two Steam-ships meeting.*

When both side lights you see ahead—
Port your helm and show your RED.

2. *Two Steam-ships passing.*

GREEN to GREEN—or, RED to RED—
Perfect safety—Go ahead!

3. *Two Steam-ships crossing.*

[*Note.*—This is the position of greatest danger: there is nothing for it but good look-out, caution, and judgment.]

If to your starboard Red appear,
It is your duty to keep clear;
To act as judgment says is proper—
To port—or Starboard—Back—or
Stop her.

But when upon your Port is seen
A Steamer's Starboard Light of
GREEN,
There's not so much for you to do;
For GREEN to Port keeps clear
of you.

All Ships must keep a good look-out and Steam-ships must stop, and go astern, if necessary.

Both in safety and in doubt
Always keep a good look-out;
In danger, with no room to turn,
Ease her, stop her, go astern.

APPENDIX G.

SIGNALS TO BE MADE BY SHIPS WANTING A PILOT.

In the daytime.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot in the daytime, viz.:—

1. To be hoisted at the fore, the Union Jack having round it a white border, one-fifth of the breadth of the flag; or
2. The International Code pilotage signal indicated by P. T.
3. The International Code flag S with or without the Code penant over it.
4. The distant signal, consisting of a cone, point upwards, having above it two balls or shapes resembling balls.

At night.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot at night, viz.:—

1. The pyrotechnic light commonly known as a blue light every fifteen minutes; or
2. A bright white light, flashed or shown at short or frequent intervals just above the bulwarks, for about a minute at a time.

If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of the pilot signals for any other purpose than that of summoning a pilot, or uses or causes or permits any person under his authority to use any other signal for a pilot, he shall for each offence be liable to a fine not exceeding twenty pounds. [Merchant Shipping Act, 1894, Section 615 (5).]

APPENDIX H.

EXAMINATION IN CHART.

For all Grades where the Chart is used, including Home Trade Passenger Ship Certificates.

[The candidate will be required to work out the following questions on either a "true" or "magnetic" chart,* or plan whichever may be handed to him by the Examiner; and also determine whether the chart is a "true" or "magnetic" one, and whether it is for the northern or southern, and eastern or western hemisphere.]

---

1. Using deviation [card] [curve]† No. find the course to steer by compass from to ; also the distance.

Answer.—Compass course .

Distance .

Variation .

Deviation .

2. With the ship's head on the above-named compass course, a [point] [lighthouse] bore by compass and bore by the same compass, find the ship's position.

Answer.—Latitude .

Longitude .

3. With the ship's head as above, a [point] [lighthouse] bore by compass , and after continuing on the same course miles it bore , find the position of ship and her distance from at the time of taking the second bearing.

Answer.—Latitude

Longitude

Distance

---

4. What do you understand the small numbers to indicate that you see placed about the chart, and at what time of tide?

5. What do the Roman numerals indicate that are occasionally seen on the chart near the coasts and in harbours?

6. How would you find, approximately, the time of high water at any place, the Admiralty tables not being at hand, nor any other special tables available?

All the foregoing questions must be answered, but this does not preclude the examiner from putting any other questions of a practical character or which the local circumstances of the port may require.

---

* The terms "true" and "magnetic" are used for the sake of brevity and convenience to indicate charts that have compasses delineated upon them showing the "true" or "magnetic" points of the compass respectively.

† A candidate for an Ordinary Master's certificate is expected to use either a card of deviations, or a curve of deviations on a Napier's diagram, whichever the Examiner may put before him.

Additional questions for Only and First Mates and Masters, including Masters of Home Trade Passenger-ships.

7. Find the course to steer by compass from to (*see* Question 1) to counteract the effect of a current which set at the rate of miles per hour, the ship making by log miles per hour; also the distance the ship would then make good in hours towards .

Answer.—Compass course
Distance

---

8. On being off took a cast of the lead; required the correction to be applied to the depth obtained by the lead line before comparing it with the depth marked on the chart.

9. The following horizontal sextant angles were taken to determine the ship's position:—

_____° '_____° '_____

Find the latitude and longitude, using a station pointer.

Answer.—Latitude
Longitude

All the foregoing questions, and those on Form Exn. 9c., must be answered, but this does not preclude the Examiner from putting any other questions of a practical character or which the local circumstances of the port may require.

APPENDIX I.

QUESTIONS RELATING TO CYCLONES OR REVOLVING STORMS COMMON IN TROPICAL SEAS.

The candidate must answer in writing, on paper supplied by the Examiner, the following questions, numbering the answers to correspond with the questions:—

Question.

1. The direction of the wind in a cyclone being*_____ state the probable bearing of its centre from the ship in the*_____ Hemisphere.
2. And suppose that the wind during the passage of the same cyclone were found to change towards the*_____ what would be the ship's position with reference to the line of progression of the centre of the cyclone, and what action would you take?
3. Under what conditions would the change in the direction of the wind in the cyclone be the reverse of the above?
4. What are the usual indications of a ship being on the line of progression of the centre of a cyclone?
5. What are the usual indications that a ship is (*a*) approaching the centre of a cyclone; (*b*) receding from it?
6. Describe the track usually taken by cyclones in the †_____, and state the seasons of the year in which they most frequently occur in that region.

---

* These spaces to be filled in by the Examiners, and frequently varied.

† The Examiners to fill in whether North Atlantic, Bay of Bengal, China Seas, Indian Ocean, etc., etc.

APPENDIX J.

QUESTIONS on the deviation of the Compass used in the examination of candidates for Certificates as Masters of Foreign-going Ships, as given on examination Form Exn. 7.—

The candidate is to answer correctly such of the following questions as are marked with a cross by the Examiner. At least twelve will be marked.

The Examiner's attention is specially called to the importance of questions 11, 12, 13, 14 and 39, which must be marked in all cases. .

1. State briefly the essentials of an efficient Compass.
2. State briefly the chief points to be considered when selecting a position for your Compass on board ship, and what should be particularly guarded against.
3. What do you mean by Deviation of the Compass, and how is it caused ?
4. Describe how you would determine the deviation of your Compass—(1) by reciprocal bearings ; (2) by figures on the dock walls ; (3) by bearings of a distant object ; (4) by the bearings of the sun or other celestial body.
5. Having determined the deviation with the ship's head on the various points of the compass, how do you know when it is Easterly and when Westerly ?
6. Why is it necessary, in order to ascertain the deviations, to bring the ship's head in more than one direction ?
7. For accuracy, which is the least number of points to which the ship's head should be brought for constructing a curve or table of deviations ?
8. How would you find the deviation when sailing along a well-known coast ?
9. Name some suitable objects by which you could readily obtain the deviation of the Compass when sailing along the coasts of the Channel you have been accustomed to use.
10. Supposing you have no means of ascertaining the magnetic bearing of a distant object when swinging your ship for deviations, how could you find it, approximately, from bearings of the object taken with the ship's head on equidistant Compass points, and what distance as a rule should the object be from the ship ?
11. *Example.*—Having taken the following compass bearings of a distant object, find the object's magnetic bearing, and thence the deviation—

MAGNETIC BEARING REQUIRED ;—

Ship's head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.	Ship's head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.
1	2	3	4	5	6
North N. E. East S. E.	S. 4° E. South. S. 4° W. S. 1° W.		South. S. W. West. N. W.	S. 13° E. S. 28° E. S. 21° E. S. 11° E.	

12. With the deviation as above, construct a curve of deviations on a Napier's diagram and give the courses you would steer by the Standard Compass, to make the following courses magnetic :—
Magnetic courses,—S.S.W., W.N.W., N.N.E., E S.E.

Compass courses required.

13. Supposing you have steered the following courses by the Standard Compass, find the magnetic courses made from the above curve of deviations:—
Compass courses,—W.S.W., N.N.W., E.N.E., S.S.E.
Magnetic courses required.

14. You have taken the following bearings of two distant objects by your Standard Compass as above; with the ship's head at W. ¼ S., find the bearings, magnetic:—
Compass bearings—W. by S. and N. ¾ W.
Magnetic bearings required.

15. Do you expect the deviation to change; if so, state under what circumstances?

16. How often is it desirable to test the accuracy of your table of deviations?

17. What is meant by variation of the Compass; what is it caused by; and where can you find the variation for any given position?

18. The earth being regarded as a magnet, which is usually termed the blue, and which the red magnetic pole?

19. Which end of a magnet (or compass needle) is usually termed the red or "marked" end, and which the blue?

20. What effect has the pole of one magnet of either name on the pole of another magnet?

21. What is meant by transient induced magnetism?

22. Which is the red and which is the blue pole of a mass of soft vertical iron, by induction, and what effect would the upper and lower ends of it have on the compass needle (*a*) in the Northern hemisphere, (*b*) in the Southern hemisphere, (*c*) on the magnetic Equator?

23. Describe what is usually termed the sub-permanent* magnetism of an iron ship, and state when and how it is acquired, and which is the red and which is the blue pole, and why it is called sub-permanent magnetism?

24. Describe the meaning of the expression co-efficient A?

25. Describe the meaning of the expression co-efficient B, its signs and effects.

26. Describe the meaning of the expression co-efficient C, its signs and effects.

27. Describe the meaning of the expression co-efficient D, its signs and effects.

28. Describe the meaning of the expression co-efficient E, its signs and effects.

29. Would you expect any change to be caused in the error of your compass by the ship heeling over either from the effect of the wind or the cargo, etc?

30. The compass of iron ships being more or less affected by what is termed the heeling error, on what courses is this error usually at its minimum, and on what courses at its maximum?

31. Describe clearly the three principal causes of the heeling error on board ship.

32. State to which side of the ship in the majority of cases is the north point of the compass drawn when ship heels over in the Northern hemisphere.

33. Under what conditions (that is, as regards position of ship whilst building, and the arrangement of iron in the ship) is the north point of the compass needle usually drawn to windward or the high side of the ship in the Northern hemisphere, and if not allowed for, what effect has it on the assumed

* The term sub-permanent magnetism in these questions is used in the original sense as proposed by the late Sir G. B. Airy, to denote the character of the permanent magnetism of an iron ship as distinguished from the permanent magnetism of a magnetised steel bar. The terms "sub-permanent" and "permanent" throughout these questions may, therefore, be considered as synonymous.

position of the ship when she is steering on northerly and on southerly courses in the Northern hemisphere ?

34. Under what conditions (as in question 33) is the north point of the compass needle usually drawn to leeward or the low side of the ship in the Northern hemisphere, and, if not allowed for, what effect would it have on the assumed position of the ship when she is steering on northerly, and on southerly courses in the Northern hemisphere ?

35. The effects being as you state, on what courses would you keep away, and on what courses would you keep closer to the wind in the Northern hemisphere in order to make good a given compass course (*a*) when a north point of compass is drawn to windward or the high side of ship; and (*b*) when drawn to leeward or the low side ?

36. Does the same rule hold good in both hemispheres with regard to the heeling error ?

37. State clearly how that part of the heeling error due to the permanent part of the magnetism of the ship varies as the ship changes her position on the globe, and give the reason for it ?

38. State clearly how that part of the heeling error due to the induction in transverse iron (which was horizontal when ship was upright) and iron vertical to the ship's deck, varies as the ship changes her position on the globe.

39. Your compass having a large error, show by Beall's Compass Deviascope how you would correct it by compensating magnets and soft iron (as usually practised by compass adjusters in the Mercantile Marine) in order to reduce the error within manageable limits. Show also how the heeling error can be compensated.

40. As the co-efficient B (capable of being corrected) usually consists of two parts—one due to the permanent magnetism of the ship, and the other to vertical induction in soft iron, how should each of the two parts, strictly speaking, be corrected when compensating the compass ?

41. If the whole of co-efficient B be corrected by a permanent magnet, as is usually done, what is likely to ensue as the ship changes her magnetic latitude ?

42. Provided the needles of your compass are not so long and powerful, and so near, as to cause the soft iron correctors to become magnetised by induction, would the co-efficient D, if properly compensated, be likely to remain so in all magnetic latitudes and both hemispheres ? If so, state the reason why.

43. State at what distance, as a general rule, the magnets and soft iron correctors should be placed from the compass needles, and what will be the consequence if they are placed too near the needles ?

44. Is it necessary that magnets used for compensating co-efficients B and C should be placed on the deck ? If not, state where they may also be placed and the rules to be observed in placing them into position.

45. Can the compensation of the heeling error be depended upon when the ship changes her latitude ? If not, state the reason.

APPENDIX K.

SYLLABUS OF EXAMINATION in the LAWS of the DEVIATION of the COMPASSES of an IRON SHIP, and in the Means of compensating or correcting it.

Candidates for the voluntary examination in Compass Deviation and for Extra Master's certificates will be required

to give written answers to 22 of the questions; these will be marked by a cross by the Examiner.

They will also be required to show, by means of Beall's Deviascope, a sound practical knowledge of the Tentative method of Compass Adjustment, and be able to demonstrate experimentally the effect of any given disturbing force upon the Compass, showing under what conditions (if any) it may vary and what steps should be taken to compensate it. *Viva-voce* questions by the Examiner upon the practical application of any of the questions in the Compass Syllabus must be answered clearly and concisely, and practically demonstrated on the Deviascope where possible. Questions 31, 61, 62, 69, 70, 72 and 92 will be marked by the Examiner in all cases, the other questions being constantly varied.

1. Describe an artificial magnet, and how a steel bar or needle is usually magnetized.

2. Which end of the compass needle, or a magnet, is commonly termed the red, and which the blue pole?

3. Which is the red magnetic pole of the earth, and which the blue; and give their geographical positions.

4. What effect has the pole of one magnet of either name on the pole of the same name of another magnet, and what would be the consequence of the pole of one magnet of either name, being brought near enough to effect the pole of contrary name, if in these cases both magnets were freely suspended?

5. By applying this law to all magnets, natural as well as artificial, describe what would be the result on a magnetic bar or needle, freely suspended, but constrained by weight or by the nature of its mounting to preserve a horizontal position; and what would be the result, if so mounted, but free to move in every direction; the earth being regarded as a natural magnet?

6. What is the cause of the variation of the compass?

7. What is meant by the deviation of the compass?

8. What is meant by the term "local attraction"; under what circumstances have ships' compasses, from recent careful investigation, been found to be affected by it, and name some of the localities in different parts of the world where this disturbance is to be found, and consequently where increased vigilance is necessary.

9. What do you understand by the term "soft" iron; and what are its properties as regards acquiring and retaining magnetism?

10. What do you understand by the term "hard" iron; and what are its properties as regards acquiring and retaining magnetism?

11. Describe the meaning of the term "horizontal force" of the earth; where is it the greatest, and where the least; and what effect has it in respect to the increase or decrease of the directive force of the compass needle?

12. Does the magnetic equator coincide with the geographical equator; if not, state clearly how it is situated?

13. Where can the values of the magnetic dip, the earth's horizontal force, and the variation, be found?

14. State in what parts of the globe lying in the usual tracks of navigation the variation changes very rapidly, and what special precautions should be observed when navigating these localities, also why a "variation" chart is then very useful.

15. Why is a knowledge of the magnetic dip and the earth's horizontal force important in dealing with compass deviations?

16. Describe the meaning of the term "vertical force of the earth"; where is it the greatest and where the least?

17. Would you expect a compass to be the more seriously affected by any given disturbing force when near the magnetic equator, or near the poles, and state the reason.

18. State briefly (*a*) the essentials of an efficient compass; and (*b*) what you would consider a good arrangement of

the needles (that is, whether long or short, single or double, etc.) with the view to good compensation.

19. In stowing away spare compass cards or magnets, how would you place them with regard to each other, or what might be the probable consequence?

20. State briefly the chief points to be considered when selecting a position for your compass on board ship, and what should be particularly guarded against.

21. What is meant by transient induced magnetism?

22. Which is the *red* and which the *blue* pole of a mass of soft vertical iron (for of any soft iron not in a horizontal position) by induction, and what effect would the upper and lower ends of it have on a compass needle in the *Northern* hemisphere.

23. Which is the *red* and which the *blue* pole of a mass of soft vertical iron by induction, and what effect would the upper and lower ends of it have on the compass needle in the *Southern* hemisphere?

24. What effect would a bar of soft vertical iron have on the compass needle on the magnetic equator?

25. Describe what is usually termed by the sub-permanent* magnetism of an iron ship, and state when and how it is acquired, and which is the sub-permanent *red* and which is the *blue* pole, and why it is called sub-permanent magnetism.

26. What is meant by "the composition of forces" and "the parallelogram of forces," and show how the knowledge of these is valuable in ascertaining and compensating the sub-permanent magnetism of an iron ship?

27. Describe the nature of the co-efficients B and C *plus* (+) and *minus* (−), and the different magnetic forces they represent; also why they are said to produce semicircular deviations.

28. Can semicircular deviations be produced by any other force than the sub-permanent magnetism of the ship? If so, by what?

29. On what points by compass bearings of the ship's head does + B give westerly deviation, and on what points does it give easterly; also on what points does − B give westerly, and on what points easterly?

30. On what points does + C give westerly deviation, and on what points easterly; also on what points does − C give westerly, and on what points easterly deviation?

31. The value of either co-efficient B or C being given also the magnetic direction of the ship's head while she was being built, determine by the traverse tables the approximate value of the other co-efficient C or B and the value of both these co-efficient being given, determine approximately the direction by compass of the ship's head whilst being built, assuming, of course, that these co-efficients resulted altogether from sub-permanent magnetism.

32. Would you expect the greatest disturbance of the needle from the effects of sub-permanent magnetism alone to take place when ship's head is in same direction as when building, or when her head is at right angles to that direction, and in what direction of the ship's head would you expect to find the least disturbance?

33. Describe quadrantal deviation, and state what co-efficients represent it; also on what points of the ship's head, by compass, each of these co-efficients gives the greatest amount of deviation, and why it is called quadrantal deviation?

34. On what points of the compass will each of the co-efficients, D and E, + and −, give easterly, and on what points westerly, deviation?

35. What conditions of the iron of a ship will produce + D and what − D?

---

* The term "sub-permanent" magnetism in the Syllabus is used in the sense proposed by the late Sir G. B. Airy to denote the character of the permanent magnetism of an iron ship as distinguished from the permanent magnetism of a magnetised steel bar. The terms "sub-permanent" and "permanent" throughout the Syllabus may therefore be considered as synonymous.

36. State clearly which end of horizontal iron running athwartship (such as beams, etc.), and of horizontal iron running fore and aft of a ship, acquires *red* and which *blue* polarity, by induction, when ship's head is at N.E., S.E., S.W., and N.W., respectively.

37. Describe the nature of the deviation represented by co-efficients + A and − A, and describe the errors in the construction of the compass, and other causes, that frequently produce it.

38. What is the object of compensating the compass by magnets, etc., and what are the general advantages of a compensated compass over an uncompensated one?

39. Before adjusting the compass of an iron ship, what it is desirable to do with the view to eliminating, as far as possible, what may be termed the unstable part of the magnetism of the ship?

40. Describe clearly the tentative method of compass adjustment (that is, the compensation of co-efficients B, C, and D, with ship upright) as generally practised by compass adjusters in ships of the Mercantile Marine.

41. State at what distance, as a general rule, the magnets and soft iron correctors should be placed from the compass needles, and what will be the consequence if they are placed too near the needles?

42. Is it necessary that the magnets used for compensating co-efficients B and C should be placed on deck? If not, state where they may also be placed, and the rules to be observed in placing them into position.

43. Does the B found on board ship usually arise altogether from sub-permanent magnetism, or does part of it usually arise from some other cause or causes?

44. If the part of B due to induced magnetism in vertical soft iron, as well as the part due to sub-permanent magnetism, are corrected by a magnet alone, as is generally the case, what is frequently the consequence on the ship changing her magnetic latitude and hemisphere?

45. How should each of these two parts of B, strictly speaking, be compensated?

46. Assuming, for the sake of clearness, that your steering compass is unavoidably placed very near to the head of the sternpost (and other vertical iron at the stern), thereby causing a very large − B from induced magnetism; describe briefly any method by which the approximate position for the compensating vertical iron bar (Flinder's or Rundle's) could be estimated in order to reduce the error; describe also how you would proceed, in order to improve, if not, to perfect, its position after observations have been made on the magnetic equator.

47. State if standard compasses, as well as steering compasses, are generally subject to this disturbance from induced magnetism in vertical iron; also whether the attraction in all cases is found to be towards the stern; and if not, state the conditions under which it might be towards the bow, and how the compensating soft iron bar should then be placed.

48. Generally speaking, does the magnetism induced in vertical iron usually have any effect of producing the co-efficient C, ship upright, or is it generally produced by sub-permanent magnetism alone? State also your reasons for saying so.

49. Provided the needles of your compass are not so long and powerful, and so near, as to cause the soft iron correctors to become magnetised by induction, would the co-efficient D, if properly compensated as you have described (Ans. 40), be likely to remain so in all latitudes and both hemispheres? If so, state the reason why.

50. Under what circumstance does the character of A and E so change as to render it desirable that these co-efficients should be disregarded or modified?

51. Supposing your compasses were allowed to remain uncompensated, explain clearly what would be the probable changes (ship upright) in the deviations produced separately

by (1) the sub-permanent magnetism of the ship alone; (2) by the induced magnetism in vertical soft iron; (*a*) on reaching the equator; (*b*) in the southern hemisphere?

52. Assuming you were able to arrive at the proper proportions to be corrected, and were then to exactly compensate the sub-permanent magnetism of the ship by means of a permanent magnet, and the induced magnetism in the vertical iron by a soft iron bar, would you expect any deviation to take place in your compass as the ship changed her latitude and hemisphere? And state your reasons for saying so.

53. Supposing the co-efficient D from horizontal soft iron were allowed to remain uncompensated, would you or would you not, expect the D to differ in name or amount on the ship changing her magnetic latitude and hemisphere? And state the reason.

54. Describe how you would determine the deviation of your compass (1) by reciprocal bearings; (2) by figures on the dock walls; (3) by bearings of a distant object.

55. Describe, in detail, how you would determine the deviation of your compass by the bearings of the sun. Also by a star or planet.

56. Describe the uses to which the Napier's diagram can be applied, and its special advantages.

57. Describe clearly how the Napier's diagram is constructed.

58. For accuracy, what is the least number of points to which the ship's head should be brought for constructing a complete curve of deviations, or a complete table of deviations?

59. Nearing land, and being anxious to check your deviations on a few courses you may probably require to steer, what is the least number of points it will be necessary to steady the ship's head upon, if making use of a Napier's diagram, in order to ascertain the deviation on each of the points, say in a quadrant of the compass and describe clearly how you would do this at sea?

60. Supposing you have no means of ascertaining the magnetic bearing of the distant object when swinging your ship for deviations, how could you find it, approximately, from bearings of the object taken with the ship's head on equi-distant compass points, and how far, as a rule, should the object be from the ship when swinging or steaming round.

61. *Example.*—Having taken the following compass bearings of a distant object, find the object's magnaso bearings, and thence the deviations:—

(*a*) MAGNETIC BEARING REQUIRED:—

Ship's head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.	Ship's head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.
1	2	3	4	5	6
North.	S. 75° W.		South.	S. 34° W.	
N. E.	S. 64° W.		S. W.	S. 31° W.	
East.	S. 56° W.		West.	S. 49° W.	
S. E.	S. 50° W.		N. W.	S. 71° W.	

(*b*) Construct a curve of deviations on a Napier's diagram with the deviations as above, and give the courses you would steer by the Standard Compass to make the following courses magnetic.—

Magnetic courses—N.N.W., S.S.E., W.N.W., E.S.E.

Compass courses required.

(*c*) Supposing you have steered the following courses by the Standard Compass, find the magnetic courses made from the above curve of deviations:—

Compass courses—N.N.E., E.N.E., S.S.W., W.S.W.

Magnetic courses required.

(*a*) You have taken the following bearings of two distant objects by your Standard Compass as above; with the ship's head at N. E. ½ E., find the bearings, magnetic:—

Compass bearings—S. E. by S. and N.N.W.

Magnetic bearings required.

62. Assuming the deviations observed with ship's head by compass to be as follows [or as in question 61, whichever may be given], determine the value of the co-efficients A, B, C, D, and E, and from them construct a complete table of deviations (or for as many points as the Examiner may direct):—

Deviation at North	[ ]	South	[ ]
N. E.	[ ]	S. W.	[ ]
East	[ ]	West	[ ]
S. E.	[ ]	N. W.	[ ]

63. When swinging your ship, if it be required to construct deviation tables for two or more compasses situated in different parts of the vessel, describe the process, and how you would employ the Napier's diagram for this purpose.

64. State your rule for determining whether deviation is easterly or westerly.

65. Is a knowledge of the value of the various coefficients of any advantage? If so, state why.

66. Describe (*a*) what is commonly known by the term "retentive" or "retained" magnetism, and how the ship acquires it when in port and at sea; (*b*) its effect on the compass needle whilst ship's head continues in the same direction; (*c*) the immediate consequence when the direction of the ship's head is altered, and (*d*) the special precautions to be invariably observed at sea on the alteration of the ship's course.

67. Describe a "Dumb-card" or "Pelorus" and its use (*a*) in compensating a compass, (*b*) in determining the deviation.

68. If you determine the deviation by an azimuth or an amplitude of a heavenly body, it is then combined with variation which together is sometimes called the *correction* for the compass. State when the deviation is the difference between the variation and the *correction*, and when the sun; and when it is of the same name as that of the *correction*, and when of the contrary name.

69. In observing azimuths of heavenly bodies, the best method is by "time azimuths," since these can be observed without an altitude when the ship is in port, or when the horizon cannot be defined from any cause. Given the sun's declination, the hour or the day, and the latitude, to find the true bearing of the sun.*

70. By night, if it be desirable to observe the *correction* of the compass. Given the day of the year, and time at ship, also the latitude of the place, to determine what stars will be in good position for this purpose.

71. If your correcting magnets are so mounted that their positions can be altered, describe the process by which on open sea you can place the ship's head magnetic N. (or S.), and magnetic E. (or W.), and can make the correction perfect.

72. Given the name of a star, the time, the place of ship, the variation of the compass, and the bearing of the

* The process of finding time azimuths by the ordinary formulæ of spherical trigonometry is tedious, and since on board an iron ship these observations should be often repeated, the candidate will be allowed to use any table or graphic or linear method that will solve the problem within a half of a degree, the altitude of the heavenly body not being given.

star by compass, determine the deviation, and name it east or west.

73. Would you expect any change to be caused in the error of your compass by the ship heeling over either from the effect of the wind or the cargo ?

74. Describe clearly the three principal causes of the heeling error on board an iron ship.

75. Towards which side of the ship would that part of magnetism induced in continuous transverse iron (which was horizontal while ship was upright) help to draw the north point of the needle when ship heels over (*a*) in the Northern hemisphere, (*b*) in the Southern hemisphere ?

76. Supposing the compass were placed between the two parts of a divided beam or other athwartship iron, towards which side of the ship would iron so situated help to draw the north point of the needle when ship heels over (*a*) in the Northern hemisphere, (*b*) in the Southern hemisphere ?

77. Would you expect that part of the magnetism induced in iron exactly perpendicular to the ship's deck, such as stanchions, bulkhead etc, if below the compass, to cause any part of the heeling error when ship heels over, and if so, towards which side of the ship (*a*) in the Northern hemsiphere, (*b*) in the Southern hemisphere ?

78. If an ordinary standard compass placed higher than the iron top sides be compensated whilst the ship is upright, what co-efficient will be effected by heeling ?

79. Under what conditions (that is, as regards position whilst building and the arrangement of iron in the ship) is the north point of the compass needle usually drawn to windward, or the high side of the ship, in the Northern hemisphere ?

80. Under what conditions, as a rule, is the north point of the compass needle usually drawn to leeward, or the low side of the ship, in the Northern hemisphere ?

81. State to which side of the ship, in the majority of cases, is the north point of the compass drawn when ship heels over in the Northern hemisphere ; and when this is the case, and it is not allowed for, what effect has it on the assumed position of the ship when she is steering on northerly and also on southerly courses ?

82. On what courses would you keep away, and on what courses would you keep closer to the wind in both the Northern and Southern hemispheres, in order to make good a given compass course (*a*) when north point of compass is drawn to windward, or the high side of ship, and (*b*) when drawn to leeward or the bow side ?

83. If a ship is beating to windward, when she tacks, under what circumstances will the heeling error retain the same name, and under what circumstances will it take the contrary name ?

84. If a ship is placed on the opposite tack by the change of wind, the ship's course being the same by compass will the heeling error change its name ?

85. In which direction of the ship's head does the heeling error attain its maximum value, and in which direction does it generally vanish ?

86. Explain clearly how that part of the heeling error due to the permanent part of the magnetism of the ship varies as the ship changes her geographical position, and what is the reason of this ?

87. Explain clearly how that part of the heeling error due to the induction in transverse iron (which was horizontal when ship was upright), and iron vertical to the ship's deck, varies as the ship changes her geographical position.

88. What, then, would be the probable nature of the heeling error, that is, whether to high or low side of the ship, and whether the error would be equal to the sum or difference, etc., of the forces given (1) in high north latitudes, (2) on magnetic equator, (3) in high south latitudes ? Assuming the polarity of the sub-permanent magnetism of the ship under, and affecting, the compass, to be as given below ; the vertical induction in soft iron, of course,

obeying the ordinary laws in the above geographical positions (1), (2), (3)—

(*a*) In cases where the effect of *red* vertical sub-permanent magnetism is equal to that of the vertical induction in the soft iron of the ship.

(*b*) Where the effect of *red* vertical sub-permanent magnetism is greater than that of the vertical induction in the soft iron.

(*c*) Where the effect of *red* vertical sub-permanent magnetism is less than that of the vertical induction in the soft iron.

(*d*) Where the effect of *blue* vertical sub-permanent magnetism is equal to that of the vertical induction in the soft iron.

(*e*) Where the effect of *blue* vertical sub-permanent magnetism is greater than that of the vertical induction in the soft iron.

(*f*) Where the effect of *blue* vertical Sub-permanent magnetism is less than that of the vertical induction in the soft iron.

89. Can the heeling error be compensated? If so, state the means to be employed, and how the compensation may be effected?

90. Can the compensation of the heeling error be depended on in every latitude? If not, state the reason?

91. Do the soft iron correctors used for compensating the co-officient—D have any effect on the compass needle when the ship heels over, and if so, do they draw the needle towards the low or the high side of the ship, and do they counteract, or otherwise, the effect produced by the vertical induction in the soft iron, (*a*) in the Northern hemisphere, (*b*) in the Southern hemisphere; and what is the reason of this?

92. Given the heel, the direction of the ship's head by compass, and the heeling error observed, to find the approximate heeling error, with a greater or less given heel, and with the ship's head on some other named point of the compass, the ship's magnetic latitude being in both cases the same.

93. Describe any instrument to show the ship's heel (generally called a clinometer), and state how and where it should be fixed.

94. Should the clinometer be observed when the ship is swung to determine the deviation when the ship is upright? If so, state the reason why?

95. Would you expect the table of deviation supplied by the compass adjuster from observations made in swinging the ship to remain good during the voyage, or would you expect the deviations to change? If so, state under what circumstances?

96. Is it desirable that a record of your observations for deviations should be kept as a guide for any subsequent voyage in case the ship should be in the same locality, or for further correction of the compass? If so, describe some suitable form for keeping such record.

97. Would you under any circumstances consider it a safe and proper procedure to place implicit confidence in your compasses however skilfully they may have been adjusted? If not, what precautions is it your duty to take at all times?

APPENDIX L.

Deviation of The Compass.

For Masters' Certificates for Home Trade Passenger Ships.

The applicant must answer in writing, on paper given him by the Examiner, all the following questions, numbering his answers to correspond with the numbers of the questions:—

1. When taking a meridian altitude, how do you know when the sun is on the meridian; or, in other words, when it is noon?

2. How does the sun bear (*true* and magnetic) when on the meridian of an observer in these latitudes (Home Trade Limits)?
3. What do you mean by deviation of the compass, and how is it caused?
4. Having determined the deviation, how do you know when it is easterly, and when westerly?
5. Supposing the sun when on the meridian bore by your compass _____, what would be the deviation of that compass for the direction of the ship's head at the time, the variation given on the chart being _____?
6. How could you find the deviation of your compass when in port, or when sailing along a coast?
7. Name some suitable objects by which you could readily obtain the deviation of your compass, when sailing along the coasts of the channel you have been accustomed to use.
8. The bearing of two objects when in a line with each other was found on the chart to be _____ magnetic; but when brought in a line on board they bore _____ by your compass; required the deviation of your compass for the direction of the ship's head at the time.
9. What means are there for checking the deviation of your compass by night?
10. Supposing the North Star (*Polaris*) bore _____ by your compass, what would be the deviation (approximately) of that compass for the direction of the ship's head at the time, supposing the variation given on the chart to be _____
11. Do you expect the deviation to change? If so, state under what circumstances.
12. What is meant by the variation of the compass, and what is the cause of it?

APPENDIX M.

COMPASS ADJUSTMENT.

It is of the utmost importance that Masters of ships should thoroughly understand the tentative method of compass adjustment as generally practised in merchant ships, and Examiners are therefore directed to fully satisfy themselves that all candidates for Masters' certificates have this particular knowledge. It should be tested in connection with the Form Exn. 7 with the aid of Captain Beall's Deviascope, and candidates will be required to prove (1) their knowledge of the laws of deviation, and the tentative method of compass adjustment; (2) that they understand the practical application of the answers given by them to any of the other questions on Form Exn. 7 that the Examiner may ask.

A concise statement of the present method of tentative compass adjustment is appended for the use of Examiners. It is, however, distinctly to be understood that the Board of Trade are not in any way advocating the correction of that part of co-efficient B which arises from vertical induction in soft iron by a permanent magnet instead of by a soft iron bar. The Board have no authority to interfere with the methods in use amongst compass adjusters for the adjustment of compasses in iron ships, but the Examiners must satisfy themselves that Masters are acquainted with the ordinary method as at present practised.

The TENTATIVE METHOD of COMPASS ADJUSTMENT as generally practised by COMPASS ADJUSTERS in SHIPS of the MERCANTILE MARINE.

Before describing the practice, it will be as well to briefly state the co-efficients used to express the different magnetic forces:—

Co-efficient A represents a constant quantity.
„ B „ semicircular deviation due to fore and aft magnetic forces.

Co-efficient C represents a semi-circular deviation due to transverse magnetic forces.

" D " quadrantal deviation due to horizontal induction in soft iron.

" E " quadrantal deviation due to horizontal induction in soft iron unsymmetrically distributed.

SIGNS AND EFFECTS OF CO-EFFICIENTS A, B, C, D AND E.

Co-efficient A represents a constant deviation of the same nature and amount on all points of the compass; + A signifying easterly, and — A, westerly deviation.

Co-efficient + B represents an attraction towards the ship's head, and causes easterly deviations with ship's head in the eastern semi-circle of the compass, and westerly deviations in the western semi-circle, attaining a maximum value on the east and west points, decreasing to zero on north and south points, by compass.

Co-efficient — B represents an attraction towards the ship's stern, and causes easterly deviations with ship's head in the western semi-circle, and westerly deviations with the ship's head in the eastern semi-circle, with a maximum value on the east and west points, decreasing to zero on the north and south points, by compass.

Co-efficient + C represents an attraction towards the starboard side of the ship, and causes easterly deviations with ship's head in the northern semi-circle, and westerly deviations in the southern semi-circle, attaining a maximum value on the north and south points, decreasing to zero on the east and west points by compass.

Co-efficient — C represents an attraction towards the port side of the ship, and causes westerly deviations with ship's head in the northern semi-circle, and easterly in the southern semi-circle, attaining a maximum value on the north and south points, decreasing to zero on the east and west points, by compass.

Co-efficient + D gives easterly deviations with ship's head between N. and E. and S. W.; and westerly deviations between S. and E. and N. and W.

Co-efficient — D gives results exactly the reverse to + D.

Note—Both + D and — D have a maximum value on the four quadrantal points, and become zero on the cardinal points by compass.

Co-efficient + B gives easterly deviations with ship's head between N. E. and N. W. and S. E. and S. W.; and westerly deviations between N. E. and S. E. and N. W. and S. W.

Co-efficient — E gives results exactly the reverse to + E.

Note.—Both + E and — E have a maximum value on the cardinal points, and become zero on the four quadrantial points, but are usually very small in amount in compasses placed in the middle line of the ship.

Heeling Error.—The heeling error arises partly from vertical induction in transverse iron, and iron vertical to the ship's deck, and partly from the vertical component of the sub-permanent magnetism of the ship. In the Northern hemisphere in the majority of cases the N. point of the compass needle is drawn to windward or the high side of the ship, with, as a rule, a maximum heeling error on N. and S. points, and zero on E. and W. points by compass. If the compass is not properly placed in the ship, there may be a sensible heeling deviation on E. and W. courses.

TENTATIVE CORRECTIONS.

To correct co-efficient C.—With ship's head north or south magnetic place a bar magnet (or more than one if necessary) horizontally and exactly athwartship, either on the deck or on any convenient platform with its centre on the fore and aft line passing through the centre of the compass card, placing its red or marked end to starboard if the N. point of the needle deviates to the starboard side, or to port if it deviates to the port side of the ship, moving the magnet to or from the compass until it points correctly.

Note.—The deviation represented by co-efficient C varies inversely as the earth's horizontal force, provided the iron is symmetrically arranged on each side of the compass.

To correct co-efficient B.—With ship's head east or west magnetic place a bar magnet (or more than one if necessary) horizontally and exactly parallel to the fore and aft midship line of the ship, either on the deck or on any convenient platform, with its centre on the athwartship line passing through the centre of the compass, the red or marked end of the magnet being directed aft if the N. point of the compass needle deviates towards the stern, or forward if it deviates towards the bow, moving the magnet to or from the compass until it points correctly.

Note.—The co-efficient B consists of two parts; one is due to the permanent magnetism of the ship, which varies inversely as the earth's horizontal force; the other to vertical induction in the soft iron, which varies as the tangent of the dip. As ships in the Merchant service are rarely built with a view of providing a satisfactory position for the standard compasses, it is very difficult in many ships to find a position for it where it will not be affected by vertical iron. It follows, therefore, that if this deviation be compensated, as is customary, by a fore and aft permanent magnet instead of by a vertical soft iron bar, the poles of the magnet may in some cases require to be reversed in high southern latitudes.

To correct co-efficient + D.—With ship's head on one of the quadrantal points magnetic the + D is generally corrected by boxes of small chain, cylinders of soft iron, or soft iron globes, placed athwartships on the same level, and at equal distances, on the port and starboard sides of the compass, with the centre of their mass on a level with the compass needle, move them to or from the compass till the needle points correctly.

To correct co-efficient — D.—Co-efficient — D, which is of very rare occurrence, is corrected by placing the above correctors on the fore and aft sides of the compass.

Note.—When once the co-efficient D is properly corrected by soft iron, it is correct for all magnetic latitudes, provided the distribution of the iron in the ship is not materially changed, and provided the magnetism of the soft iron has not been affected by the compass needles. With short needles having small magnetic power, such, for instance, as Sir Wm. Thomson's, there will probably be no change; but when a compass with long and powerful needles is employed, soft iron correctors placed very near it become magnetised by induction according to the power of the needles, and the resulting correction will not remain strictly perfect in all latitudes.

To correct Heeling Error.—The heeling error is corrected for any given magnetic latitude by placing a vertical magnet exactly under the centre of the compass card, with its N. or red pole uppermost if the heeling error is to windward or to the high side of ship, or its S or blue end

uppermost if to leeward or to the low side of ship, moving the magnet to or from the compass until the heeling error is corrected.

Note.—The heeling error due to the permanent part of the magnetism varies inversely as the earth's horizontal force, and consequently is greatest in high latitudes, diminishes as the ship approaches the magnetic equator and increases again, still retaining the same name as the ship recedes from the magnetic equator in the Southern hemisphere. The heeling error due to transverse and vertical soft iron decreases as the ship approaches the magnetic equator, where it is zero, and is of a contrary name in the Southern hemisphere. It is probable that the poles of the vertical magnet may require to be reversed in high southern latitudes.

A divided scale should be marked or fitted outside the tube or some other convenient place so as to show the proper position for the correcting magnet as found in any given magnetic latitude, and the same recorded as a guide for approximately placing the magnet in position on any subsequent voyage in the same locality, and especially on the return of the ship to the United Kingdom.

Candidates should understand that the object of tentative adjustment is to bring the deviations within manageable limits and also to equalise the directive force of the needle so far as is practicable on all courses; but no system of adjustment whatever is sufficiently reliable in character to absolve the navigator from the necessity of using every precaution, and especially of ascertaining the deviation on every available opportunity by observations of the sun by day and the other heavenly bodies by night.

APPENDIX N.

EXAMINATION OF A MASTER OR MATE IN STEAM.

The regulations under which these examinations are conducted are printed at pages 1016 and 1017.

A candidate for this examination is required to have a thorough grasp of the constructon of the steam-engine and boiler, to enable him to understand the nature and importance of any defect which may be reported to him by the Engineer and work in harmony with the Engineer in affording time and facilities for disconnexions, inspections adjustments, and repairs.

To have a knowledge of what the principal repairs are which are needed in engines and boilers and pipes, and how these repairs are usually accomplished.

To be able to form an independent opinion as to a breakdown and the consequent propriety or impropriety of proceeding under reduced steam with temporarily repaired or defective machinery. To understand how to estimate approximately the reduction of fuel required for reduced speed, and consequently to sanction such reduction of speed as may seem to him to be warranted by the report of the Engineer, and to satisfy himself before leaving port that there is sufficient coal for the voyage.

To have an intelligent grasp of the general run of pipes and connexions in the engine-room, the marking of cocks, the opening and closing of cocks and valves, how mistakes of importance may be made in the confusion of an accident and how best to guard against such mistakes

To be capable of being left in charge of the feeding of a set of boilers, to understand the working of the water-gauge and to be able to guard against being misled by false indications of the gauge glass.

To understand about blowing down and surfacing, the reasons for doing so, and the danger which may result from the neglect of these under certain circumstances. A Master or Mate presenting himself for examination in steam

must be understood to have made up for his want of practical experience by reading up about the steam-engine. He ought, therefore, to show that he has given his mind to intelligently understanding the *rationale* of the action of the steam-engine. Under this head he should therefore be able to state approximately the quantity of heat required in the formation of steam, the remarkable, relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is what is the action of the slide-valve, the course of the steam through the engine, and the advantage of working expansively, and how the expansive action is shown by the indicator diagram. To know the uses of various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull: how wires are jointed insulated and cased; why it is desirable that they should be led along places which are dry and accessible; what is "sparking" and what are the causes which produce it; what is its danger in coal bunkers and petroleum-carrying steamers; what are the uses of switches and cutouts, and why is it so important to prevent short-circuiting taking place.

The candidate has to answer in writing 16 out of 20 questions selected from the book of Elementary Questions* Selections for this examination are given on the alphabetic sheet for "Steam" Generally, these answers are given by candidates as learned by rote from a book; the candidate should therefore, be asked such *viva voce* questions as will necessitate his giving his answers in different words, so as to discover whether he has the root of the matter in him.

The principal part of the *viva voce* is the examination on board a steamer, preferably one with which he is unacquainted. He is told to look about and try to find out the run of the machinery without the assistance of any one; the Examiner to be in the engine-room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the whole arrangement of the machinery, the Examiner will then question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, etc., also the dynamo, its field magnets, armature commutators, brushes, cables, etc. He must show that he understands the run of the pipes in the bilges not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valve or cocks in connection therewith It will not often be practicable for the candidate to be asked to actually work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware what precaution have to be taken in regard to water in the cylinder, etc. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position. A Mate may be examined, but such examination implies that the Mate will one day be a Master when the possession of the knowledge will be an advantage to him in the discharge of his duties as Master.

APPENDIX O.

THE SIGHT TESTS.

These tests must be conducted under the strict personal supervision of the Examiner. A careful record must be kept

*Printed at the end of the Regulations relating to the Examinations of Engineer, Exn. 1A.

of all mistakes made by the candidate in the form vision test, and on *no account whatever* must a candidate be allowed to make his selections in the colour vision test during any temporary absence of the Examiner.

Each Examiner must keep a record of all candidates passed by him for reference when required.

1.—FORM VISION TEST.

(1) The test for form vision is the first test which the candidate is required to undergo, and until he has passed this test he cannot be allowed to proceed further with the examination. (*See* paragraph 26, page 1000.) Test for form vision to be passed first.

(2) The test to be used is the letter test on Snellen's principle, for all candidates. Tests to be used.

The sets of tests which have been supplied to the Examiners consist of eight sheets of letters.

(3) The chief object of the tests for form vision is to show whether the candidate possesses eyesight of sufficient strength and acuity, or in other words they are means of discovering whether the candidate has good or bad sight. Object of the tests.

They also afford a means of detecting whether a candidate is suffering from that form of colour blindness which is caused by the excessive use of tobacco, and by illness or similar affections. All candidates who are suffering from colour blindness arising from causes of that nature will be found to be incapable of passing the tests for form vision.

(4) Candidates will be tested with each eye separately, and they must not be allowed to use spectacles or glasses of any kind. General conduct of the tests.

The set of tests is to be hung on the wall, *in a good light*, at a height of about five or six feet from the ground.

(5) The candidate should be placed at a distance of exactly 16 feet from the letter test sheets, and exactly opposite them. The distance should be carefully measured, and never varied under any circumstances whatever. Conduct of the letter test.

One of the eight sheets of letters should then be exposed, and the candidate should be asked to read the letters, beginning at the top and going downwards. If he can read correctly nine of the twelve letters in the sixth line from the top and eight of the fifteen letters in the seventh line with one eye, and the whole of the eight letters in the fifth line with the other eye, he may be considered to have passed the test. If he cannot do so his case should be submitted to the Principal Examiner of Masters and Mates.

(6) All candidates must be tested with at least two sheets of letters, viz., one to each eye, and the order of the test sheets must be varied with different candidates. In cases of candidates failing to reach the required standard, they should be tested with at least eight sheets, viz., four to each eye and the result noted on the Form Exn. 17B.

(7) The Examiner must take care, by varying the test sheets in form vision, and by every other means, to guard against the possibility of any deception on the part of the candidates. Tests to be varied.

(8) Every candidate who fails to pass the form vision test is to be examined with the pellet test as follows:— Pellet test.

> The pellets should be placed on a white plate, and the first test pellet (which is of the same colour as the first wool test skein) should then be placed a little distance from the box on another white plate. The candidate should be required to pick out and lay by the side of the test pellet all pellets of the same colour. The same should be done with the other test pellets, and the examination should proceed in the same way as the wool test.

(9) Should the candidate pass the pellet test, the Form Exn. 17 B, properly filled up, together with the remarks of the Examiner, is to be forwarded to the Port Officer for his instructions as to whether the candidate is or is not to be regarded as having failed in form vision.

(10) Should, however, the candidate fail in the pellet test, thus indicating that the defective form sense is due to disease, etc., it will not be necessary to submit the case to the Port Officer, but the Examiner should report the candidate as having failed in form vision, and in forwarding the usual papers a description of the colours of the pellets incorrectly selected as matches in the respective tests, with any remarks, should be given on the Form Exn. 17C, in the space allotted for the incorrect wools.

Result of tests to be reported.

(11) The result of every test in form vision is to be reported to the Government. on the Form Exn. 2,and to the Port Officer, on the Form Exn. 14, when the candidate is up for examination for a certificate: and to the Government on the Form Exn. 2 A, when the candidate is up for examination in colours only.

All cases of failure to pass the test are also to be reported to the Port Officer on Form Exn. 17 B.

2.—COLOUR VISION TEST.

Nature of the test.

(1) The colour vision of candidates is to be tested by means of Holmgren's wools.

The wools are always to be kept in the tins provided for the purpose, except when in use at an examination, in order that they may not become faded or dirty. Each set contains about 135 skeins of wool.

General instructions.

(2) Before the examination commences the skeins should be separated from one another, but each separate skein should be kept tied up as when first received.

The five test skeins which must *always* be used at each examination, and in the order named, are labelled respectively I (light green), II (pink), III (red), IV (purple), and V (yellow).

Care must be taken that the labels do not get detached.

The colour vision test should be held only by daylight. If a good natural light is not obtainable the test must be postponed. When the weather is dark or foggy, and a candidate cannot be examined in colours before his examination in navigation commences, he may be allowed to proceed with the examination in navigation provided he is examined in colours on the first available opportunity.*

Full instructions as to the conduct of the examination will be found on pages 1077 to 1081.

Course to be followed if incorrect selections are made by candidates.

(3) The Examiner, as the examination proceeds, should carefully place on one side the skeins, the selection of which by the candidate seems to indicate a defect in colour vision, taking care to discriminate between those selected as matching each of the five test skeins.

The skeins, which have been correctly selected, should be returned to the general heap on the completion of each of the five tests.

Pieces of the wools incorrectly selected by a candidate who fails are to be sent to the Principal Examiner of Masters and Mates.

(4) In every case in which the Examiner rejects a candidate, or is in doubt as to whether he should reject him or not he is, when the examination is finished, to cut a small piece (say, an inch) off *every one of the actual skeins incorrectly selected by the candidate*, and to stitch the pieces cut off on to Form Exn. 17 C, keeping the pieces cut off the skeins selected as matches to the first test skein in one line, the pieces cut off the skeins selected as matches to the second test skein in a second line, and the pieces cut off the skeins selected as matches to the third test skein in a third line, and similarly for the fourth and fifth tests. The Form (Exn. 17 C) with the pieces of wool attached to it is then to

* When the examination in navigation precedes the colour tests the candidates should be informed that the examination in navigation will be cancelled if they should fail to pass the colour tests.

be forwarded to the Port Officer with the Examiner's report, on Form Exn. 17 B.

The greatest care must be taken that the pieces forwarded are cut off the actual skeins selected by the candidate, in order that there may be a reliable record of the actual selections made by the candidate if any question should subsequently arise.

Pieces need not be cut off the test skeins, but only off the skeins incorrectly selected by the candidate.

(5) The Examiner should also note any incorrect skeins selected and withdrawn or seriously handled or compared with the test skein by the candidate, and should when this occurs submit the case with similar portions of the incorrect skeins and his remarks on Form Exn. 17 C, together with the Form Exn. 17 B, to the Port Officer for his decision as to whether the candidate should be passed or failed.

(6) In cases in which the candidate passes the test, pieces need not be cut off the skeins he has selected.

(7) During the colour vision test the Examiner should avoid naming the colours of any of the wools, and should explain to the candidate that he does not require them to be named to him.

Candidates are not required to name the colours of the wools.

In the test for colour ignorance the candidate has to name three colours (*see* page 1081.)

(8) As soon as the skeins become discoloured, or unduly reduced in size (say by one-third), owing to pieces having been cut off, the matter should be reported to the Government.

(9) In the remarks which follow reference is made to different kinds of colour blindness (red blindness and green blindness), but the Examiner is not required to form any conclusion as to th kind of colour blindness from which the candidate suffersand should not offer the candidate any opinion on this point,

Examiners are not required to decide from what form of colour blindless an unsuccessful candidate is suffering.

All that is required. is that the Examiner shall conduct the examination according to the rules laid down, the nature of the candidate's colour blindness being immaterial.

(10) The result of every test should be reported to the Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the candidate is up for examination for a certificate of competency: and to the Government on the Form Exn. 2 A, when the candidate is up for examination in colours only.

Result of tests to be reported.

All cases of failure should also be reported to the Port Officer on Form Exn. 17B, to which should be attached Form Exn. 17C, containing the pieces of the wools incorrectly selected by the candidate. (*See* paragraph 4, page 1076.)

METHOD OF TESTING FOR COLOUR.

The method of testing consists in asking the candidate to select from variously coloured objects those which appear of the same colour as one which the Examiner selects The most suitable objects and at the same time the most readily obtainable are skeins of wool, which can be procured of almost every desired hue and tone. An advantage of skeins of wool, besides their portability, is that, owing to their want of gloss, they appear of approximately the same tone from whichever side they are viewed. The colours of the skeins to be selected include reds, oranges, yellows, yellowish-greens, pure greens, blue-greens, blues, violets, purples, pinks, browns, and greys. Several shades of each colour, with at least five graduations of each tint, are provided, from the deepest to the lightest greens and grey. Varieties of pinks, blues, and violets, and of light grey, together with shades of brown, yellow, red, and pink, are well represented. The test skeins with which the examinees are to compare the other skeins are five in number:—(1) a light green; (2) a pink: (3) a bright red; (4) a purple; and (5) a yellow. These five colours will suffice to indicate approximately the amount and kind of colour blindless which may exist. The light green skein,

which is a tolerably pure green mixed with a large proportion of white, is chosen as the colour which closely matches the spectrum colour which the red and green blind distinguish as white or grey. It is chosen of a pale tint, as it then becomes puzzling to the colour blind to distinguish its colour by luminosity. A light grey or drab skein will represent the same brightness to him that this pale colour does, and although he may be trained to distinguish bright colours by their relative luminosities, in the case of these pale varieties he will be unable to do so. The spink is chosen for similar reasons, and in fact it is nearly a complementary colour to the green. The pink is, according to the Young-Helmholtz theory, a mixture of two fundamental colours, the blue and the red, and as in the green blind it excites both the blue and red sensations it may be confused with grey, or with a green. In the red colour blind it excites in excess the blue sensations mixed with what they call white. A blue or violet may therefore be matched with it.

The method of examination is as follows:—

Method of Examination and Diagnosis.

The wools are placed in a heap on a large table covered by a white cloth or white paper, and in broad daylight. The first test skein is taken from the pile, and laid far enough away from the others not to be confounded with them during the examination. The person examined is requested to look carefully at the test skein and then to select other skeins from the pile most nearly resembling it in colour, and to place them by the side of the sample. At the outset, it is necessary that he should thoroughly understand that he is required to search the heap for the skeins which make an impression on his chromatic sense or sense of colour, similar to that made by the test skein, and quite independently of any name he may give the colour. The examiner should explain that resemblance in every respect is not necessary; that there are no two specimens exactly alike; that the only question is the resemblance of the *colour;* and that, consequently, the candidate must endeavour to find something similar in shade and something lighter and something darker of the same colour.

If the person examined cannot succeed in understanding this by a verbal explanation, *resort must be had to action.* The Examiner should himself pick out the skeins, thereby showing in a practical manner what is meant by a shade, and then restore the whole to the pile, except the sample skein. *This should always be done before a candidate is reported as failed.*

As it would require too much time to examine every individual in this way, it is advisable, when examining large numbers, to instruct them all at once, and to ask them to attentively observe the examination of those preceding them so as to become more familiar themselves with the process. This saves time, and there is no loss of security, for no one with a defective chromatic sense will be able to find the correct skeins in the heap the more easily from having a moment before seen others looking for and arranging them. He will make the same characteristic mistakes; but the normal observer, on the other hand, will generally accomplish his task much better and more quickly after having seen how it has to be done.

The coloured plate shows the test colours, that is, those which the Examiner presents to the persons examined.

As to the similarity between the confusion colours and the wools which the colour blind take from the heap, reliance must be placed simply on the hue, and not their brightness or degree of colour saturation.

We can now pass directly to the test itself. The following are the directions for conducting it, and for making a diagnosis of the results:—

TEST I.—The *green* test skein, which is labelled Test No. I in the bundle, is placed before the candidate. This sample is

the palest shade (the lightest) of very pure green, which is neither a yellow-green nor a blue-green to the normal eye, but fairly intermediate between the two, or at least not verging upon yellowish-green.

Rule.—The examination must continue until the examinee has placed near the test skein all or nearly all the skeins of the same colour, or else, with these or separately, one or more incorrect skeins, or until he has sufficiently proved that he can easily and unerringly distinguish the correct colours, or else has given unmistakable proof of a difficulty in accomplishing it.

Diagnosis.—An examinee who places with the test skein "incorrect colours"—that is to say, who thinks that they resemble the "test colour"—is *colour blind*, whilst if he evinces a manifest disposition to do so, though he does not absolutely do so, he has a *feeble chromatic sense* or sense of colour.

TEST II.—The pink skein, which is labelled No. II, is placed before the candidate. The colour is midway between the lightest and darkest. It only approaches that given as II of the plate, as the colour of the wool is much more brilliant and saturated, and bluer

Rule.—The trial must be continued until the examinee has placed all or the greater part of the skeins of the same colour near the test skein, or else, together or separately, several incorrect skeins. If he is colour blind he will probably select either the light or deep shades of blue and violet, especially the deep, or the light or deep shades of one kind of green or grey inclining to blue.

TEST III.—The *red* skein labelled No. III is placed before the candidate. It is necessary to have a vivid red colour, like the red flag used as signals on railways. The colour should be that of III of the plate, rather towards yellowish-red.

Rule.—This test should be continued until the person examined has placed beside the test skein the greater part of the skeins belonging to this hue, or else several "incorrect skeins."

TEST IV.—The *purple* skein labelled No. IV is placed before the candidate.

Rule.—This test should be continued until the person examined has placed beside the test skein all or nearly all of the skeins belonging to that colour, or else several incorrect skeins. If he is colour blind, he will most probably select any shade of blue or green, also pinks and greys.

TEST V.—The *yellow* skein labelled No. V is placed before the candidate.

Rule.—This test should be continued until the person examined has placed beside the test skein all or nearly all of the skeins belonging to that colour, or else several incorrect skeins If he is colour blind he will most probably select greenish-yellows, light yellow-greens, fawns and pinks.

Remark.—Every case of comparatively complete colour blindness does not always give precisely the same mistakes Instances occur of persons who are not completely colour blind, or of completely colour blind persons who have been practised in the colours of signals, and who endeavour not to be discovered. They usually confound at least green and brown, but even this does not always happen.

Mono-chromatic Vision.—The absence of every colour sensation except one will be recognised by the confusion of all the hues, which will appear to be of the same intensity of light or brightness.

SPECIAL INSTRUCTIONS TO EXAMINERS.

In the conduct of the colour test the sole question under consideration is whether or not the candidate has normal colour vision, and in order to answer this question satisfactorily no pains must be spared by the Examiner to make

the candidate fully understand what he is expected to do. As the result of the local examination often hinges upon the adequacy or otherwise of the instruction given to the candidate together with the intelligent interpretation of the rules laid down for the guidance of the Examiner, it is very important that Examiners should be able to modify their mode of procedure with different candidates in order to gain the best results from the varied types which come up for examination in these tests.

Before going into the question of how to treat different cases, Examiners should always bear in mind that no amount of verbal explanation is equivalent to practical instruction, and as the test is in no wise vitiated by being seen beforehand, opportunity should be given, when possible, to prospective candidates to see others tested. Candidates undergoing the colour tests may be broadly divided into two classes irrespective of whether they are colour normal or not: viz (*a*) those who make a rapid selection of a large number of skeins to the required test; and (*b*) those who are slow and hesitating.

In the majority of cases the simple request by the Examiner for the candidate to "pick out from the heap of wools all those skeins which are of the same colour—both lighter and darker—as the test skein" will be found sufficient, but where a candidate shows a tendency to pick out a large number of skeins which even remotely resemble the test skein in colour as in (*a*) he should at once be stopped, and be given to understand that it is not desired that the original test colour should be graded of into another, *i.e.*, by his introduction of, say, yellow green skeins into the first test, he can easily be shown that a simple graduation of shade will speedily land him in yellow, or a very near approach to it. This can best be demonstrated by the Examiner taking one of the shades of yellow green verging on yellow and placing it beside the test skein at the same time asking the candidate if it is the same *colour*, when, if the candidate is colour normal, he will very likely at once remark that it is too yellow. The candidate should then be told to return the whole of his selections to the heap, and, after reshuffling them, be made to commence afresh, when in all probability he will understand what is required and the test will be rapidly completed. The same remarks apply to cases where the blue green range of skeins is introduced.

It will be seen that the introduction of these mixed green skeins need not be taken as a positive indication of defective colour vision, as the chances are that these selections are made through ignorance of what is required. Should, however, the candidate introduce amongst the selections any obviously incorrect skeins, *i.e.*, skeins in which there is no green, the Examiner must proceed carefully, noting at the same time any tendency to handle incorrect skeins and to compare them with the test skein. In cases of this kind when there are other candidates up for examination it is best to postpone the trial until the candidate has had an opportunity of seeing what is done by others or, failing this, the Examiner himself should pick out all the correct skeins to the test, showing the candidate what he is expected to do. If the candidate has defective colour vision the same characteristic mistakes will be made. The second case (*b*)—where a candidate is slow and hesitating—may be due to several causes, nervousness, anxiety as to result, real or fancied defective colour vision, etc. All candidates, the latter especially, must be tactfully dealt with, in order to get the best results from the examination. Candidates of this latter type often evince a tendency to obstruct their own work by gathering up handfuls of the skeins with one or both hands and turning them over without any result, at the same time bending over the wools in a more or less strained position. The Examiner should then quietly tell the candidate to stand back a moment, and having spread out the skeins again tell him to put his hands by his side, look at the heap

of wools, and when he thinks he sees a skein of the required colour to pick it up and place it beside the test skein, at the same time showing him practically what he means him to do. This will tend to reassure him, and at the same time give him a chance of seeing the skeins required, and the test should be continued until all or nearly all the correct skeins have been picked out. Again, candidates will be found who show a tendency to compare skeins with the test skein, and if not exactly the same shade (though perhaps quite correct in colour) to reject them. This is very likely due to failure to understand the instructions given by the Examiner, and the candidate should then be reminded that he will find no exact match, but that several shades of the same colour both lighter and darker are to be found in the heap. Should he, however, evince a tendency to compare obviously incorrect skeins with the test skein, careful note should be taken of the colours. Candidates of this type whose colour vision is defective, and who may be aware of the defect, will probably select few wools on the chance that what they pick out may be correct. It is accordingly essential that in all cases a fair number of skeins to each test should be required, as the colour-blind candidate may of course pick out correct skeins as well as incorrect ones, since all look more or less alike to him. The experienced Examiner can usually recognise such cases by the tentative manner in which the various skeins are handled; and although the candidate may not actually compare incorrect skeins with the test skein, the fact that he has seriously handled them with a view to selection should be carefully noted.

When the candidate has successfully passed the first test, as a rule, the other tests will be passed easily; but the same care must be taken to see that the test colour and that only is selected, or if incorrect colours are seriously handled or compared with the test skein, a careful note of them must be taken as before.

In no case should an Examiner pick up incorrectly selected skeins and ask the candidate "Do they match the test"? If the Examiner is not satisfied that the candidate knows what he is expected to do, the whole of the wools should be returned to the heap and the test commenced anew, when, if the candidate is really defective in colour sense, the same characteristic mistakes will be made.

Examiners should bear in mind that these tests should always be conducted in a good light. The skeins of wool should be placed on a table covered with a white cloth or paper of sufficient size so that ample room is given for the candidate to search the heap and place his selections well clear of both the heap of wools and the test skein. It is also advisable that the table should be placed so that a strong sunlight should not fall directly on the wools and white table cover, as this has rather a dazzling effect upon the eyes.

In view of the extreme importance of the proper and efficient conduct of these colour tests Examiners should strictly adhere to the rules laid down, and on no account should candidates be passed who make incorrect selections though they may be subsequently withdrawn, or who seriously handle or compare incorrect skeins. All such cases should be submitted to the Principal Examiner for his decision.

3.—Colour Ignorance Test.

Object of test for colour ignorance.

(1) The object of this test is simply to ascertain whether the candidate knows the names of the three colours—red, green, and white—which it is important for every seaman to be acquainted with, and the test is to be confined to naming those colours.

Manner in which the test is to be conducted.

(2) One or two of the purest red and green skeins should be selected from the set of wools, and the candidate should be required to name their colours. He should also be required to name the colour of any white object, such as a piece of white paper.

Grounds on which candidates should be treated as having passed or failed.

(3) If he answers correctly he should be considered to have passed the test. If he makes any mistake he should be failed.

(4) The result of every test should be reported to the Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the candidate is up for examination for a certificate of competency: and to the Government on the Form Exn. 2 A, when the candidate is up for examination in colours only.

All cases of failure should be reported to the Port officer on Form Exn. 17 B.

APPENDIX Oa.

The standard in form vision to be required of all candidates prior to January 1, 1914, except when they elect to take the higher standard and thereafter in the case of candidates who already hold certificates of competency is as follows:—

If the candidate can read correctly *five of the eight letters in the fifth line* from the top of the sheet of letters he may be considered to have passed the test. If he cannot do so, his case should be submitted to the Principal Examiner of Masters and Mates.

Candidates may use both eyes or either eye when being tested for this standard, but the candidate should be tested with at least two sheets of letters, and the test should be conducted in other respects in accordance with the general instructions in Appendix O.

The colour vision and colour ignorance tests are the same for both standards.

Note.—The Examiners should in all cases point out to boys and others coming up for the sight tests that unless they are in possession of a certificate of competency by the 1st January 1914 they will after that date be required to pass the new standand of Form Vision as laid down in Appendix O, whether they are coming up for a certificate of competency or for examination in the Sight Tests only.

APPENDIX P.

TABLE showing the REQUIREMENTS as to SEA SERVICE necessary to QUALIFY for EXAMINATION for CERTIFICATES OF COMPETENCY

Note.

Service in square-rigged sailing vessels.

A candidate for an ordinary certificate of any grade, who has not previously held an Ordinary certificate of a lower grade, must prove that he has served twelve months in the foreign trade or eighteen months in the home or coasting trade in a square-rigged sailing vessel.

Nature of Certificates.

Where Foreign-going certificates are required to be held to qualify candidates for examination, they may be either the Ordinary certificates, or those for fore and aft rigged vessels or for foreign-going steamships.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

Rank.	Minimum age.	Total Sea service (years).	Officer's Service in Merchant Vessels.		
			Years.	Lowest capacity.	Lowest certificate required.
ORDINARY CERTIFICATES FOR FOREIGN-GOING SHIPS.					
2nd Mate	17	4	—	No officer's service required.	None.
Only Mate	9	5	—	No officer's service required.	None.
1st Mate	19	5	1	3rd or 4th Mate in foreign trade *in charge of watch*.	2nd Mate foreign-going.
				Or	
			1½	Only Mate in home or coasting trade.	2nd Mate foreign-going, or home trade mate.
				Or	
			1	Pilot with 1st Class pilot's certificate.	None.
Master ..	21	6	1	Only Mate in foreign trade ...	Only Mate foreign-going.
				Or	
			1½	Only Mate in home or coasting trade.	Only Mate foreign-going.
				And in addition, unless the above service was performed with a First Mate's Foreign-going certificate, he will also be required to prove one of the following services prescribed for that grade.	
			1	3rd or 4th Mate in foreign trade *in charge of watch*,	2nd Mate foreign-going.
				Or	
			1½	Only Mate in home or coasting trade.	2nd Mate foreign-going, or home trade Mate.
				Or	
			1	Pilot with 1st class pilot's certificate.	None.
				OR HE MUST HAVE SERVED.	
		6½	1	2nd Mate in foreign trade ...	1st Mate foreign-going.
				(*Provided that, if this service as 2nd Mate was performed under an Additional or Auxiliary 1st Mate it will only be accepted if a 3rd and 4th Mate were also carried.*)	
				And in addition	
			1½	3rd or 4th Mate in foreign trade *in charge of watch*.	2nd Mate foreign-going.
				OR HE MUST HAVE SERVED.	
		9*	3	Master in home or coasting trade.	2nd Mate, foreign-going or Master, home trade, for one year of such service.
				Or	
			1	Master in home or coasting trade.	Ditto.
				And in addition.	
			3	Mate in home or coasting trade.	
Extra Master.	.....	.....	...	Same as master	.....
CERTIFICATES FOR FOREIGN-GOING FORE AND AFT RIGGED VESSELS.					
2nd Mate Only Mate 1st Mate Master ... Extra Master.	Same as for ordinary certificates ; except that no service in *square-rigged sailing vessels* is required.				

* If all the service was in home or coasting trade.

Rank.	Minimum age.	Total Sea service (years).	Officer's Service in Merchant Vessels.		
			Years.	Lowest capacity.	Lowest certificate required.
CERTIFICATES FOR FOREIGN-GOING STEAMSHIPS.					
2nd Mate Only Mate 1st Mate Master Extra Master.	Same as for foreign-going ships ; except that the service as officer must have been performed in a steamship and that no service in square-rigged sailing vessels is required.				
CERTIFICATES FOR HOME TRADE PASSENGER SHIPS.					
Mate ...	19	4	...	No officer's services required	None.
Master ...	20	5	1	Only Mate	Mate home trade or 2nd Mate foreign-going.
				Or	
			2½	2nd Mate *in charge of watch*	Mate, home trade, or 2nd Mate foreign-going.
				Or	
			1	As pilot with 1st class pilot's certificate.	None.

APPENDIX Q.

LIST OF MARKS obtainable in the Extra Examinations.

(*a*) Marks will be awarded according to the degree of precision with which a candidate does his work, no marks being given for any problem or work in which the candidate in wrong is principle.

(*b*) An incorrect figure or incorrect formula will involve the loss of one third of the marks allotted for the problem in question.

(*c*) Marks, at the discretion of the Examiner, but not in any case to exceed 50, will be given for orderly working and general method, &c.

(*d*) Marks at the discretion of the examiner, but not in any case to exceed 50, will be given for the supplementary *viva voce* test on problems and written answers.

(*e*) Thirty marks are allotted to each of the following :—

"Ordinary" problems. Only four will be set

Multiplication by logarithms.
Division by logarithms
Day's work.
Latitude by meridian altitude of sun.
Parallel sailing.
Mercator's sailing.
Time of high water.
Amplitude by sun.
Longitude by chronometer and altitude azimuth by sun.
Time azimuth by sun.
Finding meridian passage of star.
Tables for finding stars' meridian passage.
Meridian passage and altitude of planets.
Where meridian passage of planets can be found.
Finding names of stars near the meridian.
Maps, etc., for finding stars.
Computing approximate meridian altitude of stars.
Latitude by meridian altitude of star.
Longitude by chronometer by a star.
Time azimuth by a star.
Latitude by ex-meridian altitude of sun or star.
Sumner problem by sun.
Latitude by altitude of Polar star.
Latitude by meridian altitude of moon.
Chart paper Exn. 9c.
Chart paper Exn. 9d.

(*f*) The numbers opposite the following problems represent the full marks obtainable :—

Latitude by double altitudes, sun or star ...	30
Finding position, etc., by simultaneous altitudes of two stars	40
Error of chronometer with artificial horizon, etc.	25
Explanation in writing *re* great circle sailing	20
Showing great circle track, etc., by globe ...	40
Problem in great circle sailing ...	50
Drawing figure and giving trigonometrical ratios	25
Right-angledplane trigonometry (problem)	20
Oblique-angled plane trigonometry (problem)	25
Napier's rules for circular parts ...	20
Right-angled spherical trigonometry (problem)	15
Compass syllabus (5 marks for each written answer, and 10 for each problem ...	145
Deviascope	20
Naval Architecture	150
Constructing a Mercator's chart ...	50
Law of storms	20
Orderly working and general method, etc. ...	50
Supplementary *viva voce* test on problems and written answers	50

APPENDIX R.

TEXT-BOOKS TO BE USED IN THE EXAMINATIONS.

For Naval Architecture.—"The Modern Practice of Shipbuilding in Iron and Steel," by Samuel J. P. Thearle. Published by William Collins, Sons & Co. Price Eleven Shillings and Threepence nett.

For Barometer, Thermometer, and Hydrometer.—"A Barometer Manual for the use of Seamen; with an appendix on the Thermometer, Hygrometer, and Hydrometer," issued by the authority of the Meteorological Council, and to be purchased, either directly or through any bookseller, from Wyman & Sons, Fetter Lane, E.C.; or Oliver and Boyd, Tweedale Court, Edinburgh; or Edward Ponsonby, 116, Grafton Street, Dublin.

For Prevailing Winds and Currents of the Globe.—"The "Principal Winds and Currents of the Globe, &c.," compiled from the various Admiralty Sailing Directions, Weather Charts, etc, by Captain Robert Jackson, R.N., and to be purchased, either directly or through any bookseller, from Simpkin, Marshall & Co., Paternoster Row, London; or Henry Lewis, 114, High Street, Portsmouth. Price One Shilling.

For Trade Routes.—"Ocean Passages," compiled from the various Admiralty Sailing Directions by Captain Robert Jackson, R.N., and to be purchased, either directly or through any bookseller, from Simpkin, Marshall & Co., Paternoster Row, London; or Henry Lewis, 114, High Street, Portsmouth. Price One Shilling.

For Tides.—"Tide Tables for the British and Irish Ports," published annually by the Admiralty, and to be purchased, either directly or through any bookseller, from J. D. Potter, 145, Minories, E., and 11, King Street, Tower Hill, E. Price Two Shillings.

For Signalling.—The "British Signal Manual" may be obtained, either directly or through any bookseller, from Messrs. Wyman & Sons, Ltd., Fetter Lane, E.C.; or Oliver and Boyd, Tweedale Court, Edinburgh; or Edward Ponsonby, 116, Grafton Street, Dublin. Price One Shilling.

Intending candidates are advised to procure a copy of these books to take to sea with them, so that they may study them during their leisure hours.

Instruments.—The Barometer (Kew pattern Marine Barometer), Thermometer, and Hydrometer used in the examinations, will be precisely similar to those supplied to shipmasters by the Meteorological Office for making observations on board ship.

APPENDIX S.

TABLE SHOWING THE RIVER OR SMOOTH WATER, THE PARTIALLY SMOOTH WATER, AND THE EXCURSION LIMITS OF THE VARIOUS PORTS.

Name of Port.	Smooth Water Limits.	Partially Smooth. Water Limits.	Excursion Limits.
District of the Eastern Coast of Scotland.			
Inverness ...	Within a line from Fort George to Channonry Point to Fort William.	Nil	Lossiemouth or Dunrobin.
Banff	Nil	Nil	Peterhead or Lossiemouth.
Peterhead ...	Nil	Nil	Aberdeen or Banff.
Aberdeen ...	Inside the Harbour	Nil	Peterhead or Montrose.
Montrose ...	Nil	Nil	Dundee or Aberdeen.
Dundee	Within a line from Dundee and Newport Ferries.	Within a line from Broughty Castle to Tayport.	Montrose or Leith.
Queensferry ...	Above the Forth Bridge.	Within a line from Kirkcaldy to Portobello.	Berwick-on-Tweed or Dundee.
Leith	Nil	Within a line from Kirkcaldy to Portobello.	Berwick-on-Tweed or Dundee.
District of the North-Eastern Coast of England.			
Berwick-on-Tweed.	Spittal Point ...	Nil	North Berwick or Newcastle.
Amble	Amble Bar	Nil	St. Abb's Head or Middlesborough.
Blyth	Inside the Pier Heads.	Nil	Berwick-on-Tweed or Whitby.
Newcastle, North and South Shields.	Inside the Tyne Pier Heads.	Nil	Berwick-on-Tweed or Scarborough.
Sunderland ...	Inside the Sunderland Pier Heads.	Nil	Berwick-on-Tweed or Scarborough.
Seaham	Nil	Nil	Berwick-on-Tweed or Scarborough.
Hartlepool, East	Hartlepool Bar ...	Nil	Amble or Bridlington.
Hartlepool, West	Nil	Nil	Amble or Bridlington.
Stockton ...	Fourth Buoy .	Nil	Amble or Bridlington.
Whitby... ...	Inside the Whitby Pier Heads.	Nil	Bridlington or Newcastle.

Name of Port.	Smooth Water Limits.	Partially Smooth Water Limits.	Excursion Limits.
DISTRICT of the EASTERN COAST of ENGLAND			
Scarborough ...	Nil	Nil	Newcastle or Hull.
Hull	In Winter, within a line from Whitten Ness to Brough. In Summer, above Hull and New Holland.	In Winter, within a line from New Holland to Paull. In Summer, within a line from Cleethorpes Pier to Patrington Church.	Lynn or Scarborough.
Goole	Same as Hull ...	In Winter, within a line from New Holland to Paull. In Summer, within a line from Cleethorpes Pier to Patrington Church.	Lynn or Scarborough
Gainsborough, Lincoln, Nottingham, York.	Same as Hull ...	In Winter, within a line from New Holland to Paull. In Summer, within a line from Cleethorpes Pier to Patrington Church.	Spurn Point Donna Hook.
Grimsby	Nil	In Winter, Nil ... In Summer, within a line from Cleethorpes Pier to Patrington Church.	Lynn or Scarborough.
Boston	Inside the New Cut	Nil	Cromer or Hull.
LONDON DISTRICT.			
Wisbech	Inside Wisbech Cut	Nil	Cromer or Hull.
King's Lynn ...	Inside Lynn Cut ...	Nil	Cromer or Hull.
Norwich or Yarmouth.	On all the inland navigation from Norwich to inside the piers at Yarmouth or Lowestoft.	Within a line from the S.W. Barnard Buoy to the North Cockle Buoy inside the Banks.	Cromer or Walton-on-the-Naze.
Lowestoft ...	Same as Norwich or Yarmouth.	Within a line from the S.W. Barnard Buoy to the North Cockle Buoy inside the Banks.	Cromer or Walton-on-the-Naze.
Harwich or Ipswich.	Inside Languard Fort.	Within a line from Walton-on-the-Naze to Languard Fort.	London or Yarmouth.
Maldon	Within a line from West Mersea Point to Bradwell Point at the mouth of the River Blackwater.	Nil	Nil.
Burnham-on-the-Crouch.	Within a line from Hollywell Point to Foulness Point.	Within a line from Clacton Pier to Herne Bay Pier.	Dover or Harwich.
London ...	Gravesend	*Vessels navigating the North side of the Thames.* For vessels of approved construction and of not less than 16 knots speed—within a line from the Girdler Lightship to the North-east Gunfleet Buoy and thence to Walton-on-the-Naze. For other vessels—within a line from Clacton Pier to Herne Bay Pier. *Vessels navigating the South side of the Thames.* Within a line from Southend Pier to the Girdler Lightship and from the Girdler Lightship to Foreness.	Dover or Harwich
Rochester ...	Sheerness and Whitstable inside Sheppey.	Within a line from Clacton Pier to Herne Bay Pier.	Dover or Harwich.
Dover	Nil	Nil	Newhaven or Sheerness.
Folkestone ...	Nil	Nil	Newhaven or Sheerness.
Newhaven ...	Nil	Nil	Portsmouth or Dover.
Littlehampton ...	Above Littlehampton Pier.	Nil	Poole or Rye.

Name of Port.	Smooth Water Limits.	Partially Smooth Water Limits.	Excursion Limits.
LONDON DISTRICT—*contd.*			
Langston and Chichester.	From a line drawn from the north point of Cumberland Fort to Gunner Point across the entrance of Langston Harbour to a line drawn from the East Saltern to the Watch House; across the mouth of Chichester Harbour. For Inland navigation only.	Nil	Nil.
Portsmouth ...	Inside Portsmouth Harbour.	St. Helen's and the Needles within the Isle of Wight and to Langston Harbour. *For small launches not carrying boats.* In Summer, a line from Brading Harbour to Langston Harbour inside the Isle of Wight to Hurst Castle; in Winter, Spithead.	Newhaven or Weymouth.
Southampton ...	Calshot Castle ...	Same as Portsmouth	Newhaven or Weymouth.
Cowes	Between East and West Cowes within the River Medina.	Nil	Nil.
Christchurch ...	Within the Bar ...	Nil	Nil.
Poole	Inside the Harbour	Nil	Weymouth or the Nab.
Weymouth ...	Nil	Portland Harbour ...	Portsmouth or the Start.
SOUTH AND SOUTH-WEST OF ENGLAND DISTRICT.			
Exeter	Inside the Bar ...	Nil	Weymouth or Plymouth.
Teignmouth ...	Within the Harbour.	Nil	Weymouth or Plymouth.
Torquay ...	Nil	Nil	Weymouth or Plymouth.
Dartmouth ...	River Dart	Nil	Weymouth or Plymouth.
Plymouth ...	Within a line from the inside of Drakes Island to Mount Batten Pier. The River Yealm within a line from Warren Point to Misery Point.	Within a line from Cawsand to Breakwater and Breakwater to Staidon Pier.	Exeter or the Lizard.
Fowey ...	Inside the Harbour	Nil	Falmouth or Plymouth.
Par	Nil	Nil	Falmouth or Plymouth.
Falmouth ...	A line from Zoze Point to Pendennis Point.	In Winter nil; in Summer within a line from Nare Point to St. Anthony's Point during daylight and in fine weather only.	Start Point or Penzance.
Penzance ...	Nil	Nil	Falmouth or St. Ives.
St. Ives	Nil	Nil	Padstow or Penzance.
Padstow ...	Padstow Harbour, above a line from Gun Point to Brae Hill.	Within a line from Stepper Point to Trebetherick Point.	St. Ives or Barnstaple, including Lundy Island.
Barnstaple ...	Inside the Bar ...	Nil	Padstow or Bridgwater, including Lundy Island.

Name of Port.	Smooth Water Limits.	Partially Smooth Water Limits.	Excursion Limits.
SOUTH WALES DISTRICT.			
Bridgwater ...	Inside Stert Point...	Within the Bar	Ilfracombe or Swansea.
Bristol	Within a line from Avonmouth Pier to Wharf Point.	In Winter, Nil ... In Summer, within a line from Barry Dock Pier to Steepholm, thence to Bream Down. In Winter.—for tenders to ocean-going steamers—to King Road and not below Walton Bay, during fine weather only.	Ilfracombe or Swansea.
Gloucester ...	River Severn or Avon to Sharpness Point and Gloucester Canal.	In Winter, Nil ... In Summer, within a line from Barry Dock Pier to Steepholm, thence to Bream Down.	Watchet or Barry Dock.
Chepstow ...	River Wye above Chepstow.	Same as Gloucester ...	Nil.
Cardiff	Within a line from Lowwater Pier Head to the Lifeboat House near Penarth Dock entrance.	In Winter, Nil ... In Summer, within a line from Barry Dock Pier to Steepholm, thence to Bream Down.	Tenby or Ilfracombe.
Barry Dock ...	Inside Dock ...	Same as Gloucester...	Milford or Ilfracombe.
Neath	Inside the Bar ...	Nil	Barnstaple or Milford.
Swansea	Nil	Nil	Barnstaple or Milford including Lundy Island.
Milford	Within a line from Hubberston Beach to Angle Point.	Within a line from South Hook Point to Thorn Island	Swansea or Cardigan.
Fishguard ..	Nil	For tenders to ocean-going steamers within a radius of three miles from the end of the breakwater in Fishguard Harbour.	Barmouth or Tenby.
Cardigan ...	Inside the Bar ...	Nil	Portmadoc or Milford.
Barmouth ...	Inside Barmouth Ferry.	Nil	Cardigan or Bardsey Island.
LIVERPOOL DISTRICT.			
Portmadoc ...	Inside the Bar Buoy.	Nil	Cardigan or Carnarvon.
Holyhead ...	Inside the Breakwater.	Nil	Liverpool or Portmadoc or round the Island of Anglesea.
Carnarvon ...	Menai Straits to Aber Menai or Beaumaris.	Menai Straits from Carnarvon Bar to Puffin Island.	Liverpool or Portmadoc or round the Island of Anglesea.
Conway ...	Within a line from Mussel Hill to Tremlyd Point.	Nil	Liverpool or Portmadoc or round the Island of Anglesea.
Chester ...	River Dee, not below Connah's Quay.	Inside the West Hoyle Bank.	Barrow, Holyhead or Carnarvon.
Liverpool ...	The Rock Light House.	In Winter, Nil .. In Summer, within a line from Formby Point to Hilbre Point. Special limit for tenders to ocean-going steamers—within a radius of 3½ miles of Formby Lightship—during fine weather only. The Bell Buoy and Bar Lightship for tugs taking passengers from ships outside the Bar.	Barrow, Holyhead, or Carnarvon.

Name of Port.	Smooth Water Limits.	Partially Smooth Water Limits.	Excursion Limits.

LIVERPOOL DISTRICT—*concld.*

Preston ...	Lytham	Within a line from Southport or Blackpool inside the Banks.	Llandudno or Barrow.
Fleetwood ...	Within a line from Low Light to Knotend Pier. Within Fleetwood Harbour, for tugs plying as tenders to Belfast and Isle of Man steamers.	Nil	Whitehaven or Liverpool.
Lancaster ...	Within a line from Sunderland Point to Chapel Point.	Nil	Whitehaven or Liverpool.
Morecambe Bay	Special Limit for tenders to Belfast and Isle of Man steamers within a radius of three miles of Heysham Piers.	In Winter, Nil ... In Summer, from Heysham to Sunderland Point and to Morecambe and Grange.	Whitehaven or Liverpool.
Bowness ...	Anywhere on the Lakes.	Nil	Nil.
Barrow ...	Inside Walney Island.	Nil	Whitehaven or Liverpool.
Douglas ...	From Battery Pier to Victoria Pier.	Nil	Round the Island.
Whitehaven ...	Nil	Nil	Barrow or Carlisle.
Carlisle ...	Above Port Carlisle.	Within a line from Southerness to Silloth.	Whitehaven or Port Whithorn.

DISTRICT OF THE WESTERN COAST OF SCOTLAND.

Dumfries ...	Inside Aird Point and Glenhaven Point.	Within a line from Southerness to Silloth.	Wigtown or Whitehaven.
Wigtown ...	Nil	Nil	Stranraer or Dumfries.
Stranraer ...	Inside Cairn Ryan	Loch Ryan, within a line from Kinnaird Point to Milleur Point.	Wigtown or Greenock.

The 15th July 1910.

No. 70 Marine.—The following Order of His Majesty in Council, dated the 22nd April 1910, is published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

AT THE COURT AT ST. JAMES.

The 22nd day of April 1910.

PRESENT:

HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Lord President—SIR FLEETWOOD EDWARDS.

Lord Steward—COLONEL SEELY.

WHEREAS His Majesty was pleased, by His Commission dated the 5th day of March one thousand nine hundred and ten, to nominate and appoint His Royal Highness the Prince of Wales, in His Majesty's absence from His Realm in Foreign Parts, to hold on His Majesty's behalf, His Privy Council, and to signify thereat His approval of any matter or thing whereunto His Royal Highness should be authorized by writing under His Majesty's Sign Manual and to do further on His Majesty's behalf any matter or thing for

the purposes of the said Commission whereunto His Royal Highness should be authorized in manner aforesaid:

And whereas by section 4 of the Merchant Shipping Act, 1906, it is provided that sections 427 to 431 of the Merchant Shipping Act, 1894 (hereinafter called the Principal Act), relating to life-saving appliances shall, after the appointed day, apply to all foreign ships while they are within any port of the United Kingdom as they apply to British ships: Provided that His Majesty may by Order in Council direct that those provisions shall not apply to any ship of a foreign country in which the provisions in force relating to life-saving appliances appear to His Majesty to be as effective as the provisions of Part V of the Principal Act, on proof that those provisions are complied with in the case of that ship:

And whereas by section 15 of the said Act it is provided that the said appointed day shall be the first day of January 1909, or such other day, not being more than twelve months later as the Board of Trade may appoint:

And whereas the Board of Trade appointed the first day of October 1909 to be the day after which the provisions of the Principal Act relating to life-saving appliances should apply to all foreign ships while they are within any port of the United Kingdom as they apply to British ships:

And whereas it appears to His Majesty that the provisions in force in Denmark relating to life-saving appliances are as effective as the provisions of Part V of the Principal Act:

Now, therefore, His Royal Highness the Prince of Wales, being authorised thereto by writing under His Majesty's Sign Manual, doth, by and with the advice of His Majesty's Privy Council, on behalf of His Majesty direct that the provisions of sections 427 to 431 of the Principal Act shall not apply to any Danish ship while within any port of the United Kingdom, if it is proved that the aforesaid Danish provisions relating to life-saving appliances are complied with in the case of that ship.

ALMERIC FITZROY.

The 15th July 1910.

No. 71Marine.—Mr. S. A. Glanley, Junior Master Pilot, is appointed to act as a Senior Master Pilot, with effect from the 9th July 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 15th July 1910.

No. 72Marine.—It is hereby notified, for general information, that Mangalore is declared free from plague, and that the regulations for the prevention of the introduction of plague by sea, which were imposed in the ports of Orissa, against vessels arriving from Mangalore, are hereby withdrawn.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 18th July 1910.

No. 73Marine.—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following additional proviso to rule 5 in Chapter III of Part II of the rules for the possession, transport and importation of petroleum, sanctioned under the Notification of this Department No. 43Marine, dated the 24th May 1909:—

Condition for the storage of petroleum having a flashing point above 150° F.

"Provided also that in the case of installations or storage sheds intended for the storage of petroleum which has a flashing point above 150° F., the license may contain, in lieu of the conditions endorsed on the form prescribed for it by these rules, such conditions as may in each case be approved by the licensing authority on the recommendation of the Chief Inspector of Explosives."

T. BUTLER,
Secy. to the Govt. of Bengal.

The 19th July 1910.

No. 74Marine.—Mr. P. J. Wilson, Senior Master Pilot, is granted leave on medical certificate for two weeks, under article 672 of the Civil Service Regulations, in further extension of the leave granted to him under this Department Notifications Nos. 54Marine and 63Marine, dated the 31st May 1910 and the 1st July 1910, respectively.

T. BUTLER,
Secy. to the Govt. of Bengal.

By order,

HIGH COURT, CROWN OFFICE,
The 6th day of July 1910.

W. A. BONNAUD,
Clerk of the Crown.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 11th July 1910.—Pending the arrival of Maulvi Mazhrul Huq, who was appointed to be a Sub-Inspector of Schools in the district of Bankura, Babu Lal Behari Set, Inspecting Pandit, Kotalpur thana, acted as a Sub-Inspector of Schools in the Bankura district and in class VIII of the Subordinate Educational Service, with effect from the afternoon of 15th October 1909.

Babu Mahadev Prasad, an Assistant in the office of the Director of Public Instruction, Bengal (class VIII), is allowed leave of absence, under article 260 of the Civil Service Regulations, for twenty days in extension of the leave already granted to him under the orders of 2nd June 1910.

He is permitted, under article 220 of the Civil Service Regulations, to affix Sunday, the 31st July 1910, to his leave.

Babu Debendra Nath Ghosh, an Assistant in the office of the Director of Public Instruction, Bengal (class I of the Lower Subordinate Educational Service), will continue to act in the Subordinate Educational Service, *vice* Babu Mahadev Prasad, on leave.

The 12th July 1910.—Pending the arrival of Babu Sriharsa Bhattacharji, Babu Raj Krishna Biswas, Assistant Master, Uttarpara Government School (class II) of the Lower Subordinate Educational Service, acted in the Subordinate Educational Service, *vice* Babu Upendra Nath Banerji, resigned.

The 13th July 1910.—Babu Bidhu Bhusan Mukherji, First Assistant to the Bengali Translator to Government (class I), is allowed leave of absence, under article 260 of the Civil Service Regulations, for three months, from the afternoon of 16th June 1910.

Babu Manmohan Chandra, B.A., Head Master, Northbrook School, Darbhanga, and Officiating Assistant Head Master of the Dumka Zilla School (substantive *pro tempore* in class III), was on leave, under article 271 of the Civil Service Regulations, for fourteen days, from 23rd April 1910.

The 14th July 1910.—Maulvi Reza Karim, B.A., Temporary Assistant Master, Patna Collegiate School, on a salary of Rs. 50 a month, outside the grades, is appointed to be an Assistant Master of the same institution and substantive *pro tempore* to class VIII of the Subordinate Educational Service, *vice* Maulvi Akbar Hossain, deceased.

Maulvi Mahammad Fazl-i-Huq, Assistant Master, Arabic Department, Calcutta Madrasa (senior section), on probation (substantive *pro tempore* in class V), is allowed leave of absence, under article 339 of the Civil Service Regulations, for six months from 22nd June 1910.

Babu Akshay Kumar Sen Gupta, Assistant Master, Purulia Zilla School (substantive *pro tempore* in class VI), who died on 5th June 1910, was on leave, on medical certificate under article 336 of the Civil Service Regulations, up to the date of his death in continuation of the leave granted to him under the orders of 10th March 1910.

Babu Jogeswar Prasad, B.A., Science Teacher, Bhagalpur Zilla School (substantive *pro tempore* in class VIII), was on leave, under article 339 of the Civil Service Regulations, for three days from 4th July 1910.

The 15th July 1910.—The following arrangements are sanctioned:—

(1) Maulvi Moshin Ali, Additional Deputy Inspector of Schools, Nadia, at present Officiating Additional Deputy Inspector of Schools, Khulna (class V), is appointed to be Additional Deputy Inspector of Schools, Jessore, *vice* Maulvi Izad Baksh, transferred.

(2) Babu Suresh Chandra Ray, B.A., a Sub-Inspector of Schools in the district of Khulna on Rs. 60 a month outside the grades is appointed on probation for one year to be Additional Deputy Inspector of Schools, Nadia, *vice* Maulvi Moshin Ali.

He is also appointed substantive *pro tempore* to class VI of the Subordinate Educational Service, *vice* Babu Upendra Nath Banerji, late Assistant Head Master, Uttarpara Government School, resigned.

(3) Babu Durga Das Chatterji, B.A., a Sub-Inspector of Schools, in the district of Bankura, at present Officiating Additional Deputy Inspector of Schools, Hooghly (class VII), is appointed on probation for one year to be Additional Deputy Inspector of Schools, Khulna, *vice* Babu Lalit Kumar Chakravarti transferred, but he will act as Deputy Inspector there during the period of Maulvi Abdul Latif's deputation to Nadia as Officiating Deputy Inspector.

He is also appointed substantive *pro tempore* to class VI of the Subordinate Educational Service in the resulting vacancy consequent on the retiral of Babu Jadu Nath Pal, late Head Master, Uttarpara Government School.

The 16th July 1910.—Babu Jharkandi Prasad, Sub-Inspector of Schools, Bangaon Circle, in the district of Bhagalpur (class VIII), was on leave, under article 260 of the Civil Service Regulations, for three weeks, from 13th June 1910.

Babu Bhupal Sahu, Inspecting Pandit of Bangaon Circle, in the district of Bhagalpur, acted, subject to the consent of the District Board of Bhagalpur, as Sub-Inspector of Schools in that Circle and in class VIII of the Subordinate Educational Service, *vice* Babu Jharkandi Prasad, on leave.

Babu Tarak Nath Sain, B.A., is appointed, on probation for one year, to be a Sub-Inspector of Schools in the district of Sonthal Parganas and substantive *pro tempore* to class VIII of the Subordinate Educational Service, with effect from the date on which he joins the appointment, *vice* Babu Mati Lal Ganguli, reverted to the teaching line.

This cancels the orders of 16th April 1910, appointing Babu Satya Kinkar Sarkar to be a Sub-Inspector of Schools in the district of Sonthal Parganas and substantive *pro tempore* to class VIII of the Subordinate Educational Service.

The 18th July 1910.—Babu Srinath Banerji, Additional Deputy Inspector of Schools, Calcutta, and now Officiating Deputy Inspector of Schools, Calcutta (class III), is allowed leave of absence, under article 260 of the Civil Service Regulations, for one month, from 5th July 1910.

G. W. KÜCHLER,
Director of Public Instruction, Bengal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 3392B.

NOTICE is hereby given that the Eighth Sale of Opium, the Provision of 1907-1908 and 1908 1909, will be held at the Government Opium Sale Room, No. 2, Charnock Place, on Wednesday, the 3rd August 1910, at 11 A.M., and will comprise 3,300 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, consisting of season 1907-1908.	1,650
Opium manufactured at the Ghazipur Factory, consisting of season 1908-1909.	1,650
Total ...	3,300

2nd.—The general conditions of the Sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 26th November 1909, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th August 1910, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale Room will be received after 3-30 P.M. of Monday, the 8th August 1910, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th August 1910.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next, on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATE.	Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.
On or about Wednesday, 7th September 1910 ...	1,650	1,650	3,300
" " 28th " " ...	1,650	1,650	3,300
" Thursday, 3rd November " ...	1,650	1,650	3,300
" Tuesday, 6th December " ...	1,650	1,650	3,300
Total ...	6,600	6,600	13,200

By order of the Board of Revenue, L. P.,

SRIGOPAL BHATTACHARJI, *Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 28th June 1910.*

NOTIFICATION.

No. 3806B.—The 13th July 1910.—In exercise of the power conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Board of Revenue make the following amendments in paragraph 142 of Notification No. 5977B., dated the 27th November 1909, published on page 1754 of Part I of the *Calcutta Gazette* of the 1st December 1909, namely—

[*Reprinted from the "Gazette of India" of the 2nd July 1910.*]

The following order, issued by the Government of India in the Finance Department, is republished for general information.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

No. 3205-P., dated Simla, the 27th June 1910.

RESOLUTION—By the Government of India, Finance Department.

READ—

Resolution No. 546, of 31st January 1888.
Resolution No. 2255-P., of 17th May 1899.

1. In a case which recently came before them, the Government of India observed some misconception regarding the conditions upon which a Government officer may transfer his services to another Government office or department. It seems desirable therefore to affirm and in some measure to amplify the principles embodied in the existing orders on the subject. The Resolutions cited in the preamble are accordingly cancelled, and the Governor-General in Council is pleased to convey the following instructions for general observance.

2. It is the duty of a Government officer, who wishes to transfer his services to a different Government office or department, to obtain the consent of the authority which appoints to his existing post before taking up the new employment. If he takes up the new employment without such consent, he commits a breach of discipline and is liable to be punished, in the last resource, by dismissal from his former post and consequent loss of pensionable service. Resignation of his former appointment will not, it should be noted, protect him from this penalty.

3. In granting or withholding consent to the acceptance by a subordinate of other Government employment, the head of an office or department must consider whether the transfer will be consistent with the interests of the public service. Permission should not be refused, however, without strong reason, which should be recorded in writing.

4. The head of an office or department shall not employ, either temporarily or permanently, an officer whom he knows, or has reason to believe, to belong to another establishment without the previous consent of the head of the office or department in which he is employed. In the rare cases in which, for reasons which appear satisfactory to the new employer, an officer cannot obtain the required consent before taking up the new appointment, the employment may be made conditional on consent being obtained at the earliest opportunity.

5. The foregoing instructions apply equally to officers on leave, whether with or without allowances. All leave allowances must *ipso facto* cease, on the taking up of new employment, other than work of a purely casual nature.

[*Reprinted from the "Gazette of India" of the 16th July 1910.*]

WEDNESDAY, JULY 20, 1910.

PART IB.

Municipal and Local.

NOTIFICATIONS.

No. 965M.—The 18th July 1910.—It is hereby notified that the Commissioners of the Chapra Municipality, in the district of Saran, having at a meeting requested the Local Government, under section 23 of the Bengal Municipal Act, III of 1884, to appoint a Chairman, the Lieutenant-Governor is pleased to appoint Mr. B. Foley, I.C.S., to be their Chairman, *vice* Mr. W. H. Boyce, I.C.S., resigned.

Saran.

No. 967M.—The 16th July 1910.—The following draft amendments which the Lieutenant-Governor intends to make in the Account Rules under the Bengal Municipal Act, 1884 (Bengal Act III of 1884), is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 20th August 1910, and any objection or suggestion which may be received by the undersigned before that date will be considered.

Draft Notification.

In exercise of the power conferred by section 82 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Lieutenant-Governor is pleased to make the following amendments in the rules framed under the above section of the Act for keeping the accounts of Municipalities and for the audit of such accounts, published under Notification No. 5472M., dated the 13th December 1897, at pages 297-358, Part IB of the *Calcutta Gazette* of the 15th idem:—

(1) *Rule 103, Form XL.*—In the heading of column 11 after the word "treasury" *add* "or Savings Bank."

(2) *Rule 104* (as amended by Notification No. 293Medl., dated the 3rd February 1910).—For the first sentence *substitute* "All subscriptions and donations and other miscellaneous receipts collected by Managing Committees of Municipal Hospitals and Dispensaries in class III-B shall be deposited intact in the Postal Savings Bank in the name of the Secretary of the Managing Committee, who is authorised to withdraw therefrom such amounts as may be required for expenditure within budget limits. The Managing Committee shall send monthly *pro formâ* account in Form XXIX of the Dispensary Manual showing separately the charges paid from the Municipal office and those paid in cash by the Secretary. The latter amount will be brought to account in the Municipal office through the Adjustment Register, Form XIV, by debit to the head "4—Hospitals and Dispensaries—Charges to be met from Special Receipts" by credit to "D—Grants, etc., 3—From other sources—For medical purposes." Care should be taken to make this adjustment for the month of March before the accounts of the year are closed.

3. In the second sentence of the same rule, for Form XXIX (of the rules for the management of Charitable Hospitals and Dispensaries) substitute "Form XL-A as it originally stood before revision."

No. 969M.—The 18th July 1910.—The following by-laws made by the Municipal Committee, Sambalpur, under sections 71, 102 and 105 of the Central Provinces Municipal Act, 1903 (XVI of 1903), have been confirmed by the Government of Bengal:—

Sambalpur.

1. The slaughter-house near Motijharan and situate at mauza Motijharan, owned and managed by the Sambalpur Municipality, is, with the approval of the Deputy Commissioner, fixed until further orders as the only place for slaughtering bullocks, cows and calves for sale.

2. No animal shall be slaughtered in the slaughter-house except between the hours of 7 A.M. and 10 A.M.

3. (1) An animal brought to the slaughter-house for slaughter shall not be killed unless it is examined and passed by the Superintendent.

(2) The flesh of an animal killed in the slaughter-house shall not be removed therefrom for sale unless it is examined and passed by the Superintendent as fit for human consumption.

(3) The flesh so removed for sale may be branded as first class or second class.

Explanation.—Good meat with a good proportion of fat may be taken as first class, and good meat with a fair proportion of fat as second class.

4. When any meat is being removed from the slaughter-house it must be covered up so as to conceal it from view and to protect it from flies and dirt.

5. A fee of two annas will be charged by the Committee for every animal slaughtered in the slaughter-house.

Sale of meat.

6. No person shall offer for sale the flesh of any bullock, cow or calf unless the animal has been slaughtered in conformity with the foregoing by-laws.

Penalties.

7. If any person commits a breach of by-law 2, or clause (1) or (2) of by-law 3, by-law 4 or by-law 6, he shall be punishable with fine which may extend to fifty rupees.

No. 972M.—The 18th July 1910.—It is hereby notified that, under section 59 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor approves the election by the Commissioners of the Titagarh Municipality, in the district of 24-Parganas, of Mr. T. Burns to be their Chairman, *vice* Mr. C. L. Thomson, resigned.

24-Parganas.

No. 978M.—The 19th July 1910.—The Commissioners of the Sitamarhi Municipality, in the district of Muzaffarpur, recommended, at a meeting held on the 1st December 1909, that a local area, known as *tola Bhubdepur Nala Boha*, which is comprised in that Municipality and the boundaries of which are hereinafter described, shall be excluded from the said Municipality, and the Lieutenant-Governor is pleased to declare his intention to give effect to that recommendation.

Muzaffarpur.

2. The boundaries of the said area are as follows :—

On the North—Ninety feet west of the Railway Telegraph post No. 209-7 and Railway stone pillar.

On the East—Fields of Rajdulari Kuer, Mohar Mean (at present Jailal Sonar), Karamat Mean, Chanderdeo Narain Singh's kast fields and fields of Bisundeo Narain and Nursingh Narain, west crossing of the road running from Boha to Bhubdepur.

On the South—Municipal road running from Bhubdepur to Boha, measuring 580 feet, within the eastern and western boundaries, and fields of Kudrat Mean, Kakho Mean, Jalim Mean and Gopi Rouniar.

On the West—Municipal road running from Sitamarhi to Boha from Pakar tree on the south to the Municipal limit on the north.

3. The boundaries of the Sitamarhi Municipality after the exclusion of the said area will be as follows :—

On the North—The southern boundary of three-anna partitioned putti of Mahsoul extending from the Batnaha road to the river Lakhandai; thence in the mauza Bhubdepur from the river to the Soubersa road along the southern boundary of the zeerat lands of Rambahadur Sinha, Phekan Sinha and Rudal Sinha; thence the road leading to Sitamarhi hât as far as the Kaproul road; thence up to the Telegraph post No. 209-7; thence southward fields of Rajdulari Koer, Mohar Mean (at present Jailal Sonar), Karamat Mean, Chanderdeo Narain Sinha, Bishundeo Narain Sinha and Nursingh Narain Sinha, west crossing of road running from Boha to Bhubdepur; thence westward road running from Bhubdepur to Boha, measuring 580 feet, within the eastern and western boundaries and fields of Karamiat, Rakho and Jalim Mean.

On the West—The western boundary of Sitamarhi mauza.

On the South—The southern boundary of Sitamarhi mauza to the eastern boundary of Budhai Singh's zeerat; thence southwards by Budhai Singh's well to the field of Kandeb Kumhar; thence the fields of Soman Dhanuk, Ramtahal's gachi, Kamal Kurmi's bamboo clumps, and the fields of Budhan Kabari, Gopee Sahu and Durbari Jolaha up to the Doomrah road; thence the south boundary of mauza Kot bazar.

On the East—The eastern boundary of Kot bazar up to the boundary of mauza Rajopatti, which is west of the river Lakhandai; thence a line drawn from the east bank of the river opposite the boundary between Kot bazar and Bhubdepur up to the boundary between Rajapatti and Mahsoul and the field of Jhura Mean; and thence a line running due north to the point where the boundary of the three-anna putti of Mahsoul crosses the Batnaha road.

4. Any ratepayer of the said Municipality, or any inhabitant of the said local area, who objects to the exclusion of the said local area from the said Municipality should submit his objection in writing, through the District Magistrate, to the undersigned before the 7th day of September 1909.

No. 983M.—The 19th July 1910.—In exercise of the power conferred by section 23 (4) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Lieutenant-Governor is pleased to remove the name of the Bhatpara Municipality, in the district of the 24-Parganas, from the second schedule to that Act.

24-Parganas.

SIBPUR,
The 11th January 1909.

B. HEATON,
Principal, Civil Engineering College.

PLEADERS' SURVEY CLASSES, 1911.

1. Classes for the training of Pleaders in Surveying will be opened in January and February 1911 in connection with the Civil Engineering, College, Sibpur, the Bihar School of Engineering, Bankipur, the School of Engineering, Dacca, and the Survey School at Cuttack.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the head of institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the Pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 15th November. The application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join *i.e.*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centres and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed:—

(*a*) Practical work—

Chain surveying. | Prismatic compass. | Plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.	Variation of compass.
Construction of scales.	Preparation of field-books from maps.
Mensuration of areas.	Elementary principles of levelling.
Plotting.	Plotting of level sections.

Candidates who obtain the required percentage of attendance at this course of instruction are qualified to appear at the Practical Examination held in 1912.

B. HEATON,

Principal Civil Engineering College, and
Secretary, Pleader's Survey Examination Board.

NOTIFICATION.

ANNUAL EXAMINATION OF PLEADERS IN SURVEYING.

(See Government Notification No. 3157J., dated 25th November 1909.)

1. The next examination will be held in February 1911 and will be conducted at the following centres, provided that not less than five names be registered at each centre:—Sibpur, Bankipur, and Cuttack in Bengal, and at Dacca in Eastern Bengal and Assam.

2. Candidates practising in the Courts of the Presidency and Burdwan Division, will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhuts, Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Eastern Bengal and Assam, at Dacca.

3. In the event of more than 20 or less than five names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

4. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and

(i) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack and Dacca not less than one year and not more than four years previous to the date of the examination, or

(ii) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(iii) has passed the Sub-Overseer Examination, or

(iv) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(v) be specially exempted from the operation of this rule by the Board controlling the examination.

5. Candidates wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose court he is enrolled and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 15th December.

6. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, which will in no case be returned.

7. No candidate will be admitted to this examination more than three times. Each examination is complete in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the Examiner in it.

8. The programme of the examination will be published in the *Calcutta* and *Eastern Bengal and Assam Gazettee*.

B. HEATON,

Principal, Civil Engineering College,
and Secretary, Pleaders' Survey Examination Board.

NOTICE.

THE next half-yearly examination in the Art of Teaching of the teachers of English and of Vernacular subjects of the Bhagalpur Division will be held in the Bhagalpur Zilla School on the 8th August 1910.

2. The examination will be conducted on the lines laid down in the Government order No. 1500T.—G., dated the 17th September 1904. Teachers of English subjects, who appear at the examination, must have passed the Entrance or some other higher examination. The cases of experienced teachers who have not passed the Entrance examination, will be considered as exceptional. Teachers of Vernacular subjects intending to appear at the examination, must have at least passed the Middle Vernacular Standard examination.

3. The examination will be mainly practical, and will consist of—

(*a*) A practical examination in class control, the candidate being required to keep a class of at least a dozen boys, attentive, fully occupied throughout a lesson.

(*b*) A practical test of teaching ability, the candidates being required to give a lesson on some of the following subjects. :—

Teachers of English subjects.	*Teachers of Vernacular subjects.*
(*a*) English Literature, including Grammar.	(*a*) Hindi Literature, including Grammar.
(*b*) History (English or Indian).	(*b*) History (Indian).
(*c*) Arithmetic.	(*c*) Arithmetic.
(*d*) Algebra.	(*d*) Euclid or Practical Geometry.
(*e*) Euclid.	(*e*) Geography.
(*f*) Geography.	(*f*) Science Reader.

(*c*) An oral examination on the Art of Teaching, object-lessons, class management, organization and discipline. The study of the following books is recommended in this connection :—

English.	*Vernacular.*
(*a*) Salmon's Art of Teaching.	(*a*) Senior Teacher's Manual, by D. N. Neogy.
(*b*) Landon's Principles and Practice of Teaching.	(*b*) Junior Teacher's Manual, by D. N. Neogy.

4. The teachers will be examined by the Inspector and Additional Inspector of Schools, Bhagalpur Division.

5. Each candidate should submit to this office, through the proper channel, on or before the 31st July 1910, his application containing the following particulars :—

Name.
Father's name.
Age.
Residence (village, thana, district).
Present employment.
Educational qualifications.
Number of years he has served as a teacher.

6. Each candidate should bring with him to the place of examination, any certificate he may have obtained from any University or from an educational Institution.

BHAGALPUR,
The 3rd July 1910.

G. E. FAWCUS,
Inspector of Schools, Bhagalpur Division.

NOTIFICATION.

TEST EXAMINATION OF PRIVATE CANDIDATES FOR MATRICULATION EXAMINATION, 1911.

A TEST EXAMINATION of private students who have not read in any High School recognised or unrecognised for at least one year and in the case of plucked students since the last University examination previous to the Matriculation examination for admission to the next Matriculation examination will be held at the office of the Inspector of Schools, Presidency Division, 285, Bow Bazar Street, Calcutta, on Monday, the 5th, Tuesday, the 6th, Wednesday, the 7th, and Thursday, the 8th December 1910. Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination. The term "Private students" includes school-masters.

2. Candidates will be required to furnish satisfactory proof that they have not read in any school for one year or since the last Matriculation examination. They should produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last, or the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Matriculation examination, must be submitted in original along with the application for permission to appear at the test examination. A student who failed to pass the annual examination for promotion to the first class at the end of session 1909-10 and then left the school will, under no circumstances be allowed to appear at the Matriculation examination of 1911.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination; they must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation examination unless he completes the age of sixteen years on the first day of the month in which the Matriculation examination is held.

5. Each candidate should submit to this office, not later than the 5th November 1910, his application for admission to the test examination, with the following particulars:—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation examination, (5) second language besides English, (6) Vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.
(*b*) Additional paper in the Classical language.
(*c*) History.
(*d*) Geography.
(*e*) Elementary Mechanics.

6. The admission-fee for the examination is Rs. 6 for each candidate, and is to be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay. Under no circumstances the admission-fee will be refunded.

7. No private student will be admitted to the test examination unless he is satisfactorily identified.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, with special permission, present themselves at the test examination held by the head master of the nearest zilla or Government high school within the Presidency Division on condition that they appear at the centre selected by the candidates from that institution. The head master of such school is hereby authorized to sign the applications, which must afterwards be countersigned by the undersigned. The fees and fines paid by these candidates as per paragraph 6 above should be utilized in meeting the cost of the examination.

10. The Matriculation examination in 1911 will be held on the 1st of March 1911 and following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 16th of January 1911.

INTERMEDIATE AND B.A. EXAMINATIONS IN 1911.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of English schools in the Presidency Division who have been employed as such for at least three years preceding the examination will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory Assistants and Demonstrators and Librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 23rd of January 1911.*

1. In accordance with section 9, Chapter XV, of the Revised Regulations dealing with the registration of University students, all candidates, who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of some affiliated institutions and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Entrance or Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. examination must send their F.A. certificates, and candidates for the Intermediate examination their Entrance certificates, together with a letter, in original, from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the informations required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The Intermediate and B.A. examinations in 1911 will be held on the 13th March 1911 and following days.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must be sent to the *offices of the Registrar on or before the 23rd of January 1911* by the candidates direct.

CALCUTTA, 285, BOW BAZAR STREET;
The 8th July 1910.

P. MUKERJI,
Inspector of Schools, Presidency Division.

NOTICE.

THE half-yearly examination in the Art of Teaching of Teachers of English subjects employed in the Government Aided, Unaided, High English and Middle English Schools in the Burdwan Division will be held on Monday, the 29th August 1910, in the Hooghly Branch School.

The examination of those teaching Vernacular subjects in the same class of schools will be held in the Hooghly Training School on the 30th August 1910.

Candidates are requested to apply in writing by the 15th August 1910 to the undersigned for admission to the examination and to furnish the information required below :—

1. Name (in full).
2. Name of father (in full).
3. Names of native village and district.
4. Name of school in which at present employed.
5. Designation and full address.
6. Name of University or Departmental examination he has passed and the year of passing.

Candidates are required to bring their University or other certificates with them to the examinations.

The examination will be mainly practical and will consist of—

(*a*) A practical examination in class control.

(*b*) A practical test of teaching ability.

(*c*) An oral examination in which some questions will be put on the Art of Teaching object-lessons, class management, organization and discipline.

CHINSURA,
The 12th July 1910.

H. LAMBERT,
Inspector of Schools, Burdwan Division.

NOTICE.

THE half-yearly examination for teachers of English subjects will be held by the undersigned at the Ram Mohan Roy Seminary, Bankipore. The examination for teachers of vernacular subjects will be held at the Patna Training School by the Head Master of that institution in the presence of the Additional Inspector of Schools. Both the examinations will be held on Tuesday, the 30th August 1010, from 11 A M. to 4 P M., and will be continued, if necessary, from day to day until finished.

The candidates for examination in English subjects must have passed the Entrance, and those in Vernacular subjects the Middle Vernacular, Examination. Experienced teachers holding no University qualification may be examined, provided special application is made.

The examination will consist of—

(*a*) A practical test of teaching ability.
(*b*) An oral examination on the Art of Teaching.

For the practical test candidates will be required to give one lesson on each of the following subjects:—

English candidates.	Vernacular candidates.
1. English Literature.	1. Hindi Literature.
2. Arithmetic or Algebra.	2. Arithmetic or Practical Geometry.
3. Indian History.	3. Indian History.

They must come prepared with full notes on the lessons they intend to give and should also bring stencilled or typed copies of the Reading lessons they wish to teach. The notes must specify—

(*a*) The aim of the lesson.

(*b*) The time it will take to give the lesson.

(*c*) The class to which it is to be given.

(*d*) The subject-matter.

(*e*) The method or methods to be adopted in imparting the subject-matter.

Candidates for English subjects are recommended to study "The Art of Teaching" by Salmon, "The Suggestive Handbook for practical School Method" by Cox and Macdonald, and "A New School Method" by Garlick. Candidates for vernacular subjects should read the "Senior and Junior Teachers' Manual" by Babu D. N. Neogy.

Applications must be made by the 20th August 1910, giving the following particulars:—

(1) Name in full; (2) Name of father; (3) Name of native village and district; (4) Name of school in which at present employed; (5) Number of years served as a teacher; (6) Year of passing the Entrance or Middle Vernacular Examination; (7) Designation and full address.

Candidates will be required to bring their University or other certificates with them to the examination.

BANKIPORE,
The 12th July 1910.

BHAGVATI SAHAY,
Offg. Inspector of Schools, Patna Division.

NOTICE.

THE Krishnagar College Pleadership classes have opened on the 8th instant. Intending candidates are to apply to the Principal for admission without delay.

SATIS CHANDRA DE, *Offg. Principal, Krishnagar College.*

KRISHNAGAR, *the 11th July 1910.*

LAND SALE NOTICES.

Notification A.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Puri will be put up for sale, at the office of the Collector of that district, on the 22nd August 1910, at 12 o'clock, for arrears of revenue and other demands, which by law are realizable as arrears of land revenue.

NOTE 1.—When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share.

NOTE 2.—After specifying in column 5 the share in each estate to be sold a note should be inserted as follows:—All other shares besides that specified will be excluded from the sale:—

Tauzi No.	Name of mahal and pargana.	Sadar jama of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

APPENDIX XXX.

(See Chapter III, Rule 9.)

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, Sini section, in the district of Singhbhum, will be put up to sale at 12 o'clock on Thursday, the 1st September 1910, corresponding with the 12th Bhadra 1317 Fusli, at the Chaibassa Deputy Commissioner's Office, district Singhbhum.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Deputy Commissioner of the orders of the Commissioner confirming the sale.

Lot Consecutive number.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the Railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.

Chaibassa, the 6th July 1910.

A. W. COOK, Deputy Commissioner, Singhbhum.

Notification A.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Cuttack will be put up for sale at the office of the Collector of that district on the 29th August 1910 at 12 noon for arrears of revenue and other demands which by law are realizable as arrears of land revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share.

Tauzi No.	Name of mahal and pargana.	Sadar jama of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

Lot No. 1.—A moiety of taluk called or known by the name of kismat Jhoom Jhoomi, pargana Mundolghat, formerly in the 24-Parganas, but now in the Registration district of Howrah and sub-district and thana of Syampore containing thirteen mauzas, viz., mauza Nij Jhoom Jhoomi, mauza Sayeberiah, mauza Ajoodhya, mauza Paltabariah, mauza Barasomodra, mauza Prosadpore, mauza Pookhooria, kismat Kalidaha, kismat Kamdebpore, kismat Kasimnagore, kismat Chandpore, kismat Kollya and kismat Kidderpore, paying an annual revenue in respect of the said half share Rs. 4,466-2 and the annual cesses in respect of the said half share Rs. 447-10-9 to the Collector of Hooghly and formerly numbered as tauzi 555 in the books of the 24-Parganas and now the said half share has been separately numbered by the Collector of Hooghly in the name of the sons of Gopal Dass Sen, deceased, being tauzi, Nos. 3980-(5) to 3980-(12) and the said taluk is now in possession of the putnidar Babu Paresh Nath Mookerjee, of Utturpara, and the yearly rent for the said half share payable by the putnidar is as follows, namely, Rs. 6,705-3 on account of putni rent and Rs. 334-4-4½ on account of putni cess.

The abstract of title and conditions of sale may be seen at the office of Babu Nalin Chandra Gupta, Attorney for the plaintiffs, except the plaintiff Khoka, at No. 11, Old Post Office Street, Calcutta, on any day before and will be produced at the sale.

R. BELCHAMBERS, Commissioner of Partition.

Nalin Chandra Gupta, Attorney for the plaintiffs, except the plaintiff Khoka.
The 4th July 1910. (880—1—963)

In the Court of the Subordinate Judge of Bhagalpur.

TITLE EXECUTION CASE No. 185 OF 1910.

Mr. H. D. Christian, at present residing at Bangaon, pargana Uttarkhand, district Bhagalpur, decree-holder, *versus* Turanti Lal Sahoo and others, residing at Sour Bazar, pargana Nisankhpur Kurha, district Bhagalpur, judgment-debtors.

THE following property of the judgment-debtors in the above case will be sold by the Nazir of the District Judge's Court in his sale-room on the 1st August 1910 at 12 o'clock noon for the realization of Rs. 541-7-3 :—

Four annas out of 16 annas mauza Sour, pargana Nisankhpur Kurha, bearing tauzi No. 4136 and having a jama sadar of Rs 232-10, appertaining to thana and sub-registry Madhepura, district Bhagalpur, valued at Rs. 15,000.

K. M. SIKDAR, Subordinate Judge.

Bhagalpur, the 16th July 1910. (865—1)

SALE NOTIFICATION.

In the Court of the 1st Subordinate Judge of Jessore.

PRESENT:

Babu Bhagavati Charan Mitra, 1st Subordinate Judge of Jessore.

TITLE EXECUTION CASE No. 67 OF 1910.

Jessore Loan Company, Limited, decree-holders, *versus* Basanta Kumari Dasi, judgment-debtor.

THE following properties of the judgment-debtor will be sold at public auction by the Nazir of the District Judge's Court within precincts of the Court on the 15th August 1910 at Jessore for the realization of Rs. 6,334 9 6 due under a mortgage decree No. 191 of 1907 : —

Lot No. I.—The right, title and interest of the judgment-debtor in five annas share of the patni of villages Ghoshpur and Simakhali within the subdivision and sub-registry of Narail, pargana Naldi, appertaining to tauzi No. 203 of the Jessore Collectorate, under zamindar Kumar Sarat Chandra Singh Bahadur, annual rental of the whole patni being Rs. 345-14-10 and the sadar jama of the judgment-debtor's five annas share being Rs. 108-1-8.

Lot No. II.—The right, title and interest of the judgment-debtor in the three annas four gundas share of tauzi No. 697 of the Jessore Collectorate, villages Kalora and Durbajuri, within the subdivision and sub-registry Narail, pargana Naldi, annual revenue payable to the Collector of Jessore for the above 3 annas 4 gundas share being Rs. 2-2-9, all subordinate right under the above tauzi.

Lot No. III.—The right, title and interest of the judgment-debtor in darmaurashi and all subordinate rights under the darmaurashi of villages Hariarghope, Shurarghope, Bardanga, in subdivision Narail, sub-registry Saigia Sholepur, pargana Naldi, under Baninath Ghosh, Shyama Sundari Dassi and Ambika Charan Ghosh, who hold the maurashi of above villages under Babu Kiran Chandra Roy and others in tauzi No. 98 of Jessore Collectorate. The annual rent of the darmaurashi accruing to the patta of 1280 is Rs. 926, of which Rs. 703-8 is payable to the superior landlords Babu Kiran Chandra Roy and others, and profits, Rs. 222-8, payable to the landlords Bani Nath Ghosh and others. But the profit of 5 annas 4 pies share of Nalini Nath Ghosh and Surendra Nath Ghosh, the heirs of Ambica Charan Ghosh, has subsequently been reduced by a deed, dated 1306 6th Ashar, to Rs. 30 only. So the annual rent of the darmaurashi has thus been reduced from Rs. 926 to Rs. 841-13-4.

BHAGAVATI CHARAN MITRA,

Subordinate Judge, 1st Court, Jessore.

Jessore, the 14th July 1910. (851—1)

SALE NOTIFICATION.

In the Court of the 1st Subordinate Judge of Jessore.

PRESENT :

Babu Bhagavati Charan Mitra, 1st Subordinate Judge, Jessore.

TITLE EXECUTION CASE No. 68 OF 1910.

Jessore Loan Company, Limited, decree-holders, *versus* Manada Prasanna Sen and another, judgment-debtors.

THE following properties of the judgment-debtors will be sold at public auction by the Nazir of the District Judge's Court, Jessore, within precincts of the Court on the 15th August 1910 at Jessore for the realization of Rs. 7,612-2-3 due under a mortgage decree No. 75 of 1909 :—

1. The 16 annas share of tauzi No. 4980 of the Jessore Collectorate, kismat *Chapta*, in pargana Jahangirabad within police-station and sub-registry Shailkupa, the annual revenue of the tauzi being Rs. 47-12 and all under rights of the judgment-debtors within the above tauzi.

2. The 16 annas share of tauzi No. 454 of the Jessore Collectorate, kismat *Armaghi*, in pargana Naldi, within police-station and sub-registry Mohamadpur, the annual revenue of the tauzi being Rs. 14-2-2 and all under rights of the judgment-debtors within the above tauzi.

3. Two annas share of tauzi No. 15 of the Jessore Collectorate, kismat Char Astail and kismat Burair in pargana Naldi within police-station Lohagara, sub-registry Lakshmipasa and kismat Aterhat within police-station and sub-registry Narail in district Jessore, and mauza Arpara, kismat Burasar, Byaspur and Damukdia within police-station and sub-registry Mukshudpur, mauza Bashanshi and Sarkole within police-station and sub-registry Pangsa, kismat Bhimnagore Charkanda, Muchidaha, Suchidaha within police-station Belgachi and sub-registry Goalundo, kismat Surakandi and Kadirdi within police-station Bhusna and sub-registry Saidpur in district Faridpur, the annual revenue of the whole tauzi being Rs. 222-9-10 and Rs 23-13-2½ in the 2 annas share and all under rights of the judgment-debtors within the tauzi.

4. The 16 annas share of the mourashi ijara of kismat Hatmachandpur and all under rights of the judgment-debtors under the above in pargana Isafpur, Amirabad, within police-station and sub-registry Narail, under Malik Umatara Debi, the annual rent payable being Rs. 80.

5. Eight annas share of the patni of kismat Pearakanda within pargana Naldi, police-station and sub-registry Kalia under Malik Sarat Chandra Ray, the rent payable being Rs. 11-4 and 8 annas share of darpatni of the above kismat under Malik Baroda Kanto Ghosh, the annual rent payable being Rs. 52-8. Thus the whole of kismat Pearakanda in patni and darpatni right and all under rights of judgment-debtors within the above patni and darpatni.

BHAGAVATI CHARAN MITRA,

Subordinate Judge, 1st Court, Jessore.

Jessore, the 14th July 1910. (852—1)

SUMMONS FOR DISPOSAL OF SUIT.

(ORDER 5, RULES 1 AND 5)

In the Court of Judge, Small Cause Court, Jhansi District.

SUIT No. 25 OF 1910.

Chunni Lal, owner of the shop of Manik Chand, of Sadar Bazar, Jhansi, plaintiff, *versus* Doctor Abdul Majid.

To Doctor Abdul Majid, Sunder Khan Tea Estate, Post Office Kali Ghat, South Sylhet, defendant.

WHEREAS the plaintiff has instituted a suit against you for Rs. 163-13 with costs, you are hereby summoned to appear in this Court in person or by a pleader duly instructed and able to answer all material questions relating to the suit, or who shall be accompanied by some person able to answer all such questions on the 26th day of July 1910 at 11 o'clock in the forenoon to answer the claim; and as the day fixed for your appearance is appointed for the final disposal of the suit, you must be prepared to produce on that day all the witnesses upon whose evidence and all the documents upon which you intend to rely in support of your defence.

Take notice that, in default of your appearance on the day before mentioned, the suit will be heard and determined in your absence.

Given under my hand and the seal of the Court this 13th day of July 1910.

M. STEVENS, LT.-COL., Judge, Small Cause Court.

Notification under section 5 of the Treasure Trove Act, VI of 1878.

NOTICE is hereby given, under section 5 of the Indian Treasure Trove Act, VI of 1878, that the marginally-noted articles of treasure, namely, stone idols valued at about Rs. 110, were found at the beginning of January 1910 by the son of one Tota Chandrappa, a raiyat of Ravinuthala, Ongole taluk, while excavating in Government poramboke lying between the village tope and the Dharmadayam tamarind tope in the village of Ravinuthala.

Articles.	Approximate value.
	Rs.
1 Nandi idol ...	100
3 Panavattams ...	10
1 Dwarasakha ...	
7 Lingams ...	
10 Small idols ...	
(all of stone.)	

2. All persons claiming the treasure or any part thereof are required to appear personally or by duly authorised agent before the Collector of Guntur at his office at Guntur on 1st December 1910, in order that the matter may be enquired into and determined according to law.

(ILLEGIBLE), *for* Acting Collector.

Guntur Collector's Office, the 12th July 1910.

Treasure Trove.

A. R. KNAPP, ESQ., I.C.S., Collector of South Arcot.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act, VI of 1878, that on the 12th November 1909, treasure consisting of the undermentioned jewels and valued at Rs. 19-13 was found in S. No. 153H in the village of Komalur, in the Tirukkoyilur taluk, South Arcot District, Madras Presidency.

2. All persons claiming the said treasure or part thereof are hereby required to appear personally or by agent before the Collector of South Arcot at his office at Cuddalore on Friday, the 25th day of November 1910, in order that the matter may be enquired into and determined according to law.

A. R. KNAPP, Collector.

South Arcot Collector's Office, the 11th July 1910.

Treasure Trove.

A. R. KNAPP, ESQ., I.C.S., Collector of South Arcot.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act, VI of 1878, that in July 1909, treasure consisting of silver coins of the total amount of Rs. 300 was found in the village of Kalimalam, in the Tindivanam taluk, South Arcot District, Madras Presidency, in the house of Doraisami Eidaiyan, who purchased the same from Rukmani Ammal in May 1907.

2. All persons claiming the said treasure or part thereof are hereby required to appear personally or by agent before the Collector of South Arcot at his office at Cuddalore on Friday, the 26th day of November 1910, in view to the matter being enquired into or determined according to law.

A. R. KNAPP, Collector.

South Arcot Collector's Office, the 11th July 1910.

Notice.

THE Inspector-General of Police, Lower Provinces, is prepared to receive applications for appointments as Sub-Inspectors of Police from young men of respectable parentage who have passed the Entrance or Matriculation Examination of an Indian University, or the final "B" or "C" class examination of a Zilla or High School. Candidates must have a fluent knowledge of English. Preference will be given to graduates and under-graduates and to natives of a Commissioner's Division in filling up the appointments allotted to it. A limited number of applicants who have obtained the B.L. degree will be appointed to a higher grade, and, if they subsequently give proof of special aptitude for conducting prosecutions, may look for special promotion to the post of Court Inspector.

No person will be deemed qualified who does not satisfy the following conditions:—

I.—That he has no disease, constitutional affection or bodily infirmity unfitting him, or likely to unfit him, for police duties, and that he is not less than 5 feet 3 inches in height and 30 inches round the chest.

(NOTE.—"Stuttering or stammering" is a constitutional defect, and represents a physical disqualification.)

II.—That he is of good moral character.

III.—That he belongs to a repectable family and is of good social standing.

IV.—That he will be over 21 and under 25 years of age on 1st January 1911.

Printed forms of applications are obtainable in the office of all Superintendents of Police. Applications should be submitted to the Superintendent of Police of the district within which the candidate resides, Calcutta for the purpose of this rule being regarded as a part of the 24-Parganas district. Applications much reach the office of Superintendents of Police not later than the 30th September 1910.

Selected candidates will undergo a 42-weeks' course of instruction, commencing from 2nd January 1911, at the Police Training College. This course will include drill, riding, gymnastics, instruction in taking finger-prints and Police portraits, elementary surveying and training in conducting prosecutions in Magistrates' Courts and in other practical duties of an investigating officer.

At the end of the 42 weeks, candidates obtaining a certificate of proficiency will be posted to districts as probationers for two years. If at the end of that period they are pronounced competent and fit, they will be confirmed as Sub-Inspectors. During the period of instruction they will be subject to the rules and regulations of the Training College, and will receive Rs. 25 a month as salary. On being passed out of the Training College, they will receive the full salary of the grade to which they are appointed.

The position of selected candidates in the Range lists from which promotions are made will be determined by the places obtained at the final examination held at the conclusion of the Training College term.

The nomination-rolls of candidates rejected by the District Committee, the Deputy Inspector-General or the Inspector-General will not be returned to them.

L. F. MORSHEAD,
Offg. Inspector-General of Police.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
COMPLETE SERIES—	Rs. A. P.	Rs. A. P.	Rs. A. P.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JULY 20, 1910.

NOTICES TO MARINERS.

THE following Notices are published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 13th July 1910.*

EASTERN ARCHIPELAGO—JAVA SEA.

Kangean group—Reef reported north-eastward of.

No. 296 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 845 of 1910), are republished :—

Position.—Lat. 6° 27½′ S., long. 116° 16′ E.

Depth.—5 to 7 fathoms (estimated).

Remarks.—The reef is marked by discoloured water. "Position approximate" has been placed against it on the charts.

Charts affected.—No. 1654, Island of Java, eastern portion.
„ 2637, Makassar strait, south part.
„ 941*b*, Eastern archipelago, western portion.

Publication.—Eastern Archipelago, Part II, 1904, page 164.

Authority.—Hague Notice, No. 1170 of 1910.

KOREA, EAST COAST—YUNG HING BAY.

Won san chin—Light established; Buoy withdrawn.

No. 297 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 849 of 1910), are republished :—

1. Light established :

Position.—On outer end of new breakwater, at a distance $2\frac{1}{10}$ cables, N. 75° W., from Chotoku to lighthouse.

Lat. 39° 10¾′ N., long. 127° 26′ E.

Character.—An unwatched *flashing white* light *every three seconds*, showing thus:—

Light, $\frac{3}{10}$ sec. eclipse. $2\frac{7}{10}$ secs.

Elevation.—31 feet.

Visibility.—9 miles.

Structure.—White square framework beacon, 25 feet in height.

Remarks.—From the position given above, the breakwater curves in a north-westerly direction to a point on the shore situated close north-eastward of the 71-foot ▲.

2. Buoy withdrawn:

Position.—At a distance of 3 cables, N. 67° W., from Chotoku to lighthouse and about half a cable, north-westward, from the new light.

Description.—Conical buoy, painted in red and black horizontal stripes, with spherical topmark.

Variation.—6°. W.

Charts affected.—No. 3087, Port Lazaref and Yung hing bay, with plan.
,, 1316, Cape Duroch to Linden point.

Publications.—List of Lights, Part VI, 1910, page 175.

Japan, Korea, &c, 1904, page 136; Revised Supplement, 1909.

Authority.—Tokyo Notice, No. 1525, 26th April 1910.

CHINA SEA—BANKA STRAIT.

Palembang river light-vessel—Alteration in character of light.

No. 298 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 850 of 1910), are republished:—

Position.—Lat. 2° 12′ S., long. 104° 57′ E.

Alteration.—The fixed white light has been replaced by a light having the undermentioned characteristics.

Character.—A *flashing white* dioptric light *every six seconds*, showing thus:—

Flash, 2 secs. eclipse. 4 secs.

Elevation.—75 feet.

Visibility.—14 miles.

Charts affected.—No. 3471, Banka strait.
,, 2597, Banka strait.
,, 2757, Banka strait to Singapore.
,, 2149, Banka and Gaspar straits.

Publications.—List of Lights, Part VI, 1910, No. 531.

China Sea Directory, Vol. I, 1906, page 462.

Authority.—Hague Notice, No. 1181 of 1910.

GULF OF ADEN—SOMALILAND.

Zeila roadstead—Information with regard to buoyage.

No. 299 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 855 of 1910), are republished:—

Position.—Aibat island, lat. 11° 29½′ N., long. 43° 27¼′ E.

Details.—(*a*) The black conical buoy marking the eastern edge of the reef extending from Aibat island has been withdrawn.

(*b*) The red can buoy with staff and cage, eastward of Sad ad din island, is situated at a distance of 9½ cables, N. 5° W., from former position, with the south-eastern extreme of Sad ad din island bearing S. 76° W., distant 2 miles.

(*c*) The black can buoy northward of Sea Gull shoal has a staff and cage.

Variation.—2° W.
Charts affected.—No. 919, Zeila roadstead.
„ 253, Jebel Jan to Shab Kulangarit.
„ 6*b*, Gulf of Aden, western portion.
„ 8*e*, Red sea, sheet 5.
Publication.—Red Sea and Gulf of Aden Pilot, 1908, pages 437, 436.
Authority.—H. M. S. *Alert*, Hyd. Note, No. 4 of 1910.

INDIA, WEST—Bombay coast.

Panwell Creek—Buoy realaid.

No. 300 (*first publication*).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 45M. of 1910), are republished :—

Subject.—The Inner Bellapur Buoy has been relaid.
Chart affected.—No. 737, India, Sheet III. Arnala Island to Kundari Island.
Publications.—West Coast of India Pilot, 1909, page 236.

Bombay Notice to Mariners, No. 34M. of 1910. (*This Office No. 266 of 30th June 1910.*)

Authority.—Commissioner of Customs, Salt, Opium and Abkári.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide river—No. 5 Beacon.

No 301 (*first publication*).—The President of the Marine Board, Port Adelaide, has given Notice (No. 9 of 1910) that No. 5 Beacon, Port Adelaide River, has been knocked down, and that pending its restoration a temporary White Light will be exhibited from one of the piles remaining in position.

This affects Admiralty chart No. 1750.

The 5th July 1910.

NEW ZEALAND—South island.

Otago harbour—Lights established.

No. 274 (*second publication*).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 781 of 1910), are republished :—

(*a*) *Position.*—At northern end of shoal on eastern side of channel, abreast of Deborah bay, at a distance of three-quarters of a cable, North, from the existing beacon.

Lat. 45° 48½′ S., long. 170° 39¾′ E.

Character.—A *fixed white* light.

Structure.—Beacon, in course of erection (light temporarily shown from pile-driver).

Remarks.—The fixed white light formerly shown from the existing beacon on this shoal has been discontinued.

Vessels must pass northward of the new light-beacon.

(*b*) *Position.*—On eastern extreme of Goat island.

Lat. 45° 50′ S., long. 170° 39′ E.

Character.—A *fixed red* light.

Structure.—Description not stated.

Variation.—18° E.

Chart affected.—No. 2411, Otago harbour.

Publications.—List of Lights, Part VI, 1910, No. 1683, and page 309.

New Zealand Pilot, 1908, page 253.

Authority.—Wellington Notice, No. 34 of 1910.

NEW ZEALAND—South island, west coast.

Dusky sound—Existence of a rock.

No. 275 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 782 of 1910), are republished :—

Position.—North-western extreme of Parrot island, N. 28° E., distant one mile, and summit of islet south-eastward of Parrot island, S. 85° E.

Parrot island, lat. 45° 42½′ S., long. 166° 32¾′ E.

Depth.—3 fathoms (estimated).
Remarks.—The rock has not yet been examined, and "Position approximate" has therefore been placed against it on the charts.
Variation.—18° E.
Charts affected.—No. 719, Dusky and Breaksea sounds.
„ 2589, Foveaux strait to River Awarua.
Publication.—New Zealand Pilot, 1908, page 299.
Authority.—Wellington Notice, No. 35 of 1910.

JAPAN—Inland sea.

Motoyama zaki—Wreck south-westward of.

No. 276 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 783 of 1910), are republished :—

Position.—At a distance of $2\frac{7}{10}$ miles, S. 16° W., from Kariya summit (431 feet).

Lat. 33° 54′ 45″ N., long. 131° 9′ 16″ E., on chart No. 3225.

Description.—Wreck of the steamship *Takechiyo Maru*, with mast showing above water.
Variation.—4° W.
Charts affected.—No. 3225, Shimonoseki kaikyo to Maruyama zaki.
„ 2875, Naikai (Seto uchi).
Publication.—Japan, Korea, &c, 1904, page 497.
Authority.—Tokyo Notice, No. 1518, 9th April 1910.

JAPAN, LIU KIU ISLANDS—Amami group.

Ogame reef—Amended depth.

No. 277 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 784 of 1910), are republished :—

Position.—At a distance of about 3 miles, south-westward, from Kikai sima.

Lat. 28° 14¾′ N., long. 129° 53′ E.

Depth.—Three feet instead of 2½ fathoms as now shown on the charts.
Charts affected.—No. 873, Amami group.
„ 2412, Amoy to Nagasaki.
Publication.—Japan, Korea, etc., 1904, page 293.
Authority.—Tokyo Notice, No. 1516, 1st April 1910.

JAPAN, HONSHU, SOUTH COAST—Toba ko.

Kami shima—Lights and beacons established.

No. 278 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 785 of 1910), are republished :—

1. Lighthouse erected, with main and secondary lights—
Position.—At a distance of one cable, N. 78° E., from the ▲ on the summit of the island.

Lat. 34° 33′ N , long. 136° 58¾′ E.

(*a*) Main light—

Character.—A *revolving white* light, showing one flash every 15 seconds.
Elevation.—366 feet.
Visibility.—26 miles, from the bearing S. 35° E., through south and west, to N. 14° W.

Order.—3rd.
Power.—7,000 candles.
Structure.—Iron tower, upper part circular and lower part square, painted white.

(*b*) Secondary light—

Character.—A fixed white light.
Elevation.—347 feet.
Remarks.—This light will throw its rays on the shoalest part of Kodzukami sho.

2. Beacons erected—

Description.—Wooden posts, 42 feet in height, surmounted by iron topmarks and painted white.

Topmark.		Bearing and distance from lighthouse.
(*a*) Cone	...	... N. 20° W., $\frac{5}{8}$ cable.
(*b*) Diamond	...	... N. 80° W., $\frac{1}{2}$,,
(*c*) Diamond	...	... S.E., $\frac{1}{10}$,,
(*d*) Diamond	...	... S. 26° W., $\frac{2}{5}$,,
(*e*) Cone	...	... S. 11° E., $\frac{5}{8}$,,

Variation.—5° W.
Charts affected.—No. 3650, Toba ko.
,, 952, Owasi bay to Takamatsu no saki.
,, 996, Kii channel to Tokyo.
,, 2347, Nipon, Kiusiu, &c.
Publications.—List of Lights, Part VI, 1910, page 199.
Japan, Korea, &c., 1904, pages 345, 347.
Authority.—Tokyo Department of Communications Notice, No. 540, 20th April 1910.

STRAIT OF MALACCA—SELANGOR.

Klang strait—Lights established; colour of beacons altered.

No. 279 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 786 of 1910), are republished:—

1. Lights established—

(*a*) *Position.*—On Tanjong Sau (Deepwater point), at a distance of 330 feet N. 12° W., from Tanjong Sau ▲.
Lat. 3° 0′ N., long. 101° 20½′ E.

Description.—Two *fixed white* lights, placed vertically.
Elevation.—68 and 59 feet.
Visibility.—13 miles.
Structure.—Steel mast with yard and gaff, 100 feet in height.
The lights are exhibited from the gaff.
Order.—6th.

(*b*) *Position.*—On beacon 3½ cables north-westward of Labuan Garap.
Lat. 3° 0′ N., long. 101° 21¼′ E.

Character.—A *fixed red* light.
Order.—6th.

2. Beacons, with their topmarks, now painted entirely *white*—

Position.—(*a*) On First point, South Klang strait.
Lat. 2° 55¼′ N., long. 101° 16¾′ E.
(*b*) On Second point, South Klang strait.
Lat. 2° 58¼′ N., long. 101° 19′ E.

Variation.—1° E.
Charts affected.—No. 2153, Port Swettenham.
,, 3453, Klang strait and approaches.
Publications.—List of Lights, Part VI, 1910, page 77.
China Sea Directory, Vol. I, 1906, page 192; Supplement 1909.
Notice to Mariners, No. 1932 of 1909. (*This Office No. 16 of 13th January 1910.*)
Authority.—Harbour Master, Selangor, 21st April 1910.

EASTERN ARCHIPELAGO—Sulu sea.

Muligi islands—Shoals found south-westward of.

No. 280 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 788 of 1910), are republished:—

(*a*) *Position.*—Lat. 6° 50¾′ N., long. 118° 10¼′ E.

Depth.—5 fathoms.

Description.—The shoal extends for about a mile in a north-east and south-west direction, and has a breadth of 3 cables.

Remarks.—About 1½ miles to the south-westward of the above position, light-coloured water was observed, indicating a second shoal patch, of similar size and having the same general direction as the first. This second shoal is separated from the first by a deep channel; it has been marked "unexamined" on the charts.

(*b*) *Position.*—Lat. 6° 44′ N., long. 118° 11′ E.

Depth.—4¼ fathoms.

Description.—The shoal extends for about 1¼ miles in a N.N.E. and S.S.W. direction, and has a breadth of 3 cables.

Remarks.—About 2 miles south-westward of the above position, another light-coloured patch was observed, apparently due to very shoal and broken water. It was of similar size and had the same general direction as the 4¼-fathom shoal. It has been marked "unexamined" on the charts.

Charts affected.—No. 287, Gaya bay to Sandakan harbour.
„ 967, Palawan island.
„ 2576, Sulu archipelago and N.E. coast of Borneo.
„ 2660*b*, China sea, southern portion.
„ 1263, China sea.

Publication.—Eastern Archipelago, Part I, 1902, page 95.

Authority.—H.M.S. *Monmouth*, Hydrographical Note, No. 1 of 1910.

SOUTH PACIFIC OCEAN—Bismarck Archipelago.

Circular reef—Position of.

No. 281 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 789 of 1910), are republished:—

Position.—Reported to be situated about 10 miles, south-eastward, from the position shown on the charts.

Position on charts, south end of reef, lat. 3° 20′ S., long. 147° 39′ E.

Remarks.—A note to the above effect has been placed on the charts.

Caution.—It is possible that Circular reef may be in the position shown on the charts, with a hitherto unknown reef situated south-eastward of it. Circular reef should therefore be given a wide berth, pending a survey of the locality.

Variation.—5° E.

Charts affected.—No. 2766, North-east coast of New Guinea, &c.
„ 780, Pacific, south-west sheet.
„ 2759*a*, Australia, northern portion.

Publication.—Pacific Islands, Vol. I, 1908, page 381.

Authority.—Berlin Notice, No. 1336 of 1910.

AFRICA, SOUTH-EAST COAST—Natal.

Port Natal, South breakwater—Permanent light re-established.

No. 282 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 791 of 1910), are republished:—

Position.—Lat. 29° 52½′ S., long. 31° 4′ E.

Character.—A *fixed white* light, as described in the Admiralty List of Lights.

Date of re-establishment.—28th April 1910.

Remarks.—The provisional fixed white light, temporarily shown near the site of the lighthouse, has been discontinued.

Charts affected.—No. 2908, Port Natal entrance.
„ 643, Port Natal.
„ 2088, Umtamvuna river to Tugela river.

Publications.—List of Lights, Part VI, 1910, No. 31.
Africa Pilot, Part III, 1905, page 174.
Notice to Mariners, No. 521 of 1910. (*This office No. 187 of 27th April 1910.*)

Authority.—Port Captain, Port Natal, 6th May 1910.

SOUTH PACIFIC OCEAN, FIJI ISLANDS—KORO ISLAND.

(1) *Vunaku point—Light discontinued.*

(2) *Alldin point—Light established.*

No. 283 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 792 of 1910), are republished :—

(1) Vunaku point—

Position.—Lat. 17° 22½′ S., long. 179° 25¾′ E.
Date of discontinuance.—1st June 1910.
Character.—A fixed red light.

(2) Alldin point—

Position.—Lat. 17° 23′ 30″ S., long. 179° 23′ 7″ E., on chart No. 382.
Date of establishment.—1st June 1910.
Character.—A *group flashing white* light, showing a group of *two* flashes *every ten seconds.*
Elevation.—194 feet.
Visibility.—17 miles.
Order.—4th. Dioptric.
Structure.—A white tower, 76 feet in height.
Charts affected.—No. 382, Vanua Levu.
„ 905, Suva harbour to Levuka.
„ 440, Fiji islands, eastern archipelago, N. portion.
„ 2691, Fiji islands.
„ 1829, Fiji islands to Samoa islands.
„ 780, Pacific, south-west sheet.
Publications.—List of Lights, Part VI, 1910, No. 1733, and Part VII, 1910, No. 938.
Pacific Islands, Vol. II, 1908, page 141.

Authority.—Board of Trade, 27th May 1910.

AUSTRALIA, NEW SOUTH WALES—PORT JACKSON.

Robertson point—Light established.

No. 284 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 797 of 1910), are republished :—

Position.—On the edge of the drying reef which extends from Robertson point, with Fort Denison light bearing S. 35° W., distant 5$\frac{1}{10}$ cables, and Bradley head light, S. 74° E.

Lat. 33° 51½′ S., long. 151° 15′ E.

Date of establishment.—1st April 1910.
Character.—A *fixed white* light.
Elevation.—24 feet.
Structure.—A white, circular tower, 28 feet in height.
Variation.—10° E.
Charts affected.—No. 1069, Port Jackson.
„ 1020, Beecroft head to Port Jackson.
„ 1021, Port Jackson to Port Stevens.
Publications.—List of Lights, part VI, 1910, page 257.
Australia Directory, Vol. I, 1907, page 810.
„ „ „ II, 1907, page 64.
Authority.—H. M. Surveying vessel *Fantome*, 21st April 1910.

SUMATRA, NORTH-EAST COAST.

Langkat river—Alteration in character of front leading light.

No. 285 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 816 of 1910), are republished :—

Position.—On eastern side of entrance to river.

Lat. 4° 0′ N., long. 98° 29¼′ E.

Alteration.—The fixed white front leading light has been replaced by a *group occulting white* light showing a group of *three* eclipses *every thirty seconds*, thus :—

Light,	eclipse,	light,	eclipse,	light,	eclipse.
15 secs.	3 secs.	3 secs.	3 secs.	3 secs.	3 secs.

Charts affected.—No. 1353, Diamond point to Pulo Berhala.
„ 1355, Malacca strait.
„ 2760, Acheh head to Chingkuk bay.

Publications.—List of Lights, Part VI, 1910, No. 410.

China Sea Directory, Vol. I, 1906, page 97.

Notice to Mariners, No, 784 of 1910. (*This office No. 248 of 15th June 1910.*)

Authority.—Hague Notice, No. 1135 of 1910.

CHINA SEA—Banka island.

Liat bay—Reef in approach.

No. 286 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 818 of 1910), are republished :—

Position.—Tanjong Laijang, bearing S. 67° W., distant 4$\frac{8}{10}$ miles ; and Tanjong Raja eastern extreme, S. 3° W.

Lat. 1° 46½′ S., long. 106° 12½′ E.

Depth.—4¼ fathoms, coral bottom.

Remarks.—The reef is surrounded by depths of 10 and 11 fathoms.

Variation.—1° E.

Charts affected.—No. 2597, Banka strait.
„ 2149, Banka and Gaspar straits,
„ 941*a*, Eastern archipelago, western portion.

Publication.—China Sea Directory, Vol. I, 1906, page 535.

Authority.—Hague Notice, No. 1136 of 1910.

JAPAN, HONSHU, SOUTH COAST—Toba ko.

Irako channel—Kodsukami sho buoy discontinued.

No. 287 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 821 of 1910), are republished :—

Position.—On eastern side of shoal.

Lat. 34° 33¼′ N., long. 136° 59½′ E.

Description.—Truncated conical buoy, with cylindrical topmark, painted black.

Charts affected—No. 3650, Toba ko.
„ 952, Owasi bay to Takamatsu no saki.
„ 996, Kii channel to Tokyo.

Publications.—Japan, Korea, &c., 1904, page 345; Revised Supplement, 1909.

Notice to Mariners, No. 785 of 1910. (*This office No. 278 of 5th July 1910.*)

Authority.—Tokyo Notice No. 1527 of 1910.

ERRATUM.

Irako zaki—Shoals off.

The following shoals, mentioned in Revised Supplement, 1909, to Japan, Korea, &c., 1904, page 347, are omitted on certain copies of chart No. 3650:—

Position.—Irako zaki 505-foot hill, lat. 34° 35′ N., long. 137° 1½′ E.

Bearing and distance from Irako zaki 505-foot hill.	Depth.
(*a*) S. 60° W., 14¾ cables.	3½ fathoms.
(*b*) S. 64° W., 13 „	5 „
(*c*) S. 64° W., 12 „	4½ „

Variation.—5° W.

NEW ZEALAND—SOUTH ISLAND, WEST COAST.

Dusky sound—Existence of a rock.

No. 288 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 830 of 1910), are republished:—

Position.—At a distance of 1½ cables, N. 25° E., from the north-western extreme of Indian island, and at a distance of about one cable from the coast of that island.

Indian island, lat. 45° 47′ S., long. 166° 36′ E.

Depth.—2 fathoms, with from 6 to 17 fathoms between it and the island.
Remarks.—This rock is assumed to be that on which the S.S. *Waikare* struck.
Variation.—18° E.
Charts affected.—No. 719, Dusky and Breaksea sounds.
„ 2589, Foveaux strait to River Awarua.
Publication.—New Zealand Pilot, 1908, page 300.
Authority.—Wellington Notice, No. 32 of 1910.

CHINA SEA—RHIO STRAIT.

Pan reef—Light established.

No. 289 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 831 of 1910), are republished:—

Position.—On north-eastern end of reef.

Lat. 1° 9′ 48″ N., long. 104° 11′ 25″ E., on chart No. 2413.

Character.—An *occulting* red light *every three seconds*, showing thus:—

$$\frac{\text{Light,}}{1\frac{1}{2}\text{ secs.}} \qquad \frac{\text{eclipse.}}{1\frac{1}{2}\text{ secs.}}$$

Visibility.—10 miles.
Structure.—White framework tower.
Remarks.—The light is unwatched.
Charts affected.—No. 2413, Rhio strait.
„ 2403, Singapore strait.
„ 2757, Banka strait to Singapore.
„ 3543, Approaches to Singapore.
„ 1355, Malacca strait.
Publications.—List of Lights, Part VI, 1910, No. 545*a*.
China Sea Directory, Vol. I, 1906, page 608.
Notice to Mariners, No. 1619 of 1909. (*This office No. 482 of 24th November 1909.*)
Authority.—Lloyd's, 4th June 1910.

CHINA—GULF OF PE CHIHLI.

Liau river entrance—Beacons omitted from chart.

No. 290 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 832 of 1910), are republished:—

(*a*) South-east beacon:

Position.—At a distance of $1\frac{1}{10}$ miles, S. 35° E., from Bar signal station.
Lat. 40° 39′ 4″ N., long. 122° 11′ 55″ E., on chart No. 2991.
Description.—Black beacon with black ball as topmark.

(*b*) North-west beacon :

Position.—At a distance of 2¾ miles, N. 36° W., from Bar signal station.

Lat. 40° 42′ 26″ N., long. 122° 8′ 5″ E. on chart No. 2991.

Description.—Black beacon with black ball as topmark.

Remarks.—The above beacons were recently removed from the chart, as they were assumed to be for surveying purposes only; they should now be replaced, as they are intended as aids to navigation.

Note.—A new edition of chart No. 2894, which is also affected by this Notice, will very shortly be issued.

Variation.—5° W.

Chart affected.—No. 2991, Entrance to Liau river.

Publication.—China Sea Directory, Vol. III, 1904, page 645.

Authority.—Hydrographic Office.

BORNEO, SOUTH COAST.

(*1*) *Cape Selatan—Non-existence of shoals near.*

(*2*) *Cape Selatan—Non-existence of wreck near.*

No. 291 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 836 of 1910), are republished :—

(1) Cape Selatan.

(*a*) *Position.*—At a distance of 6 miles, N. 87° W., from Cape Selatan lighthouse. Lighthouse, lat. 4° 9½′ S., long. 114° 40½′ E.

Depth.—2¼ fathoms.

(*b*) *Position.*—At a distance of 7 miles, S. 44° E., from cape Selatan lighthouse.

Depth.—4 fathoms. (Reported by the S.S. *Petriana*, 1902.)

Remarks.—A careful search for these dangers having failed to find any trace of their existence, they have been expunged from the charts.

(2) Cape Selatan.

Position.—At a distance of 10½ miles, N. 45° W., from Cape Selatan lighthouse.

Description.—Wreck of the schooner *Tegal*.

Variation.—1° E.

Charts affected.—No. 941*b*, Eastern archipelago, western portion.
„ 2759*a*, Australia, northern portion (1*a*).

Publication.—Eastern Archipelago, Part II, 1904, page 266; Revised Supplement, 1909.

Authority.—Netherlands Hydrographer, 13th May 1910.

JAPAN—Inland-Sea, Hiroshima Wan.

Kure approach—Caution with regard to submarine vessels.

No. 292 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty No. 843 of 1910), are republished :—

Position.—Kure ko, lat. 34° 14′ N., long. 132° 32′ E.

Caution.

Submarine vessels are constantly manœuvring in the approaches to the Naval port of Kure, and it being difficult to discern them, vessels bound to and from Kure should keep a good lookout, and pay attention to the undermentioned signals and regulations.

1. When submarine vessels are manœuvring, they will be escorted by a vessel flying 2 large red flags, one above the other and about 2 feet apart. If necessary, the bearing from this escort-vessel of the submarine vessel or vessels will be indicated by the International code of signals.

2. Vessels sighting the escort-vessel, should give her a berth of at least one mile. If necessary to approach her within this distance, vessels should stop their engines and ask permission by the International code or other means, and on obtaining permission should approach the escort-vessel at slow speed, keeping a good lookout, and after receiving information from her as to the dangerous area, they should proceed cautiously.

3. Submarine vessels will avoid the usual route of vessels, and vessels should also avoid getting out of the usual route.

Chart affected.—No. 3469, Hiroshima wan.

Publication.—Japan, Korea, &c., 1904, page 486.

Authority.—Tokyo Notice, No. 1522, 9th April 1910.

INDIA, WEST—Goa coast.

Marmagao entrance—Rock reported.

No. 293 (second publication).—

Subject.—The Master of the S.S. *Bahadur* reports having touched on a rock with 4 fathoms over it at the entrance to Marmagao.

Position.—Marmagao Breakwater light, lat. 15° 25′ N., long. 73° 47′ E.
The shoal is 3½ cables N. 43° W. (mag.) from the light shown at the end of Breakwater as given in Admiralty Chart No. 492 corrected up to June 1906 or half way between the Black buoy marking Marmagao reef and the 5½ fathoms sounding which is 1½ cables E. by S. of the same buoy.

Charts affected.—No. 492, Aguada to St. George islands, including Marmagao and Goa roadstead.
„ 740, Achra river to Cape Ramas.
„ 826, Karachi to Vengurla.
„ 827, Vengurla to Cape Comorin.

Publication.—West Coast of India Pilot, 5th edition, 1909, page 172.

INDIA, WEST—Malabar coast.

Talayi—Temporary removal of buoy.

No. 294 (second publication).—

Subject.—The small spherical buoy marking the pinnacle rock off the sub-port of Talayi has been removed and will be replaced about the 1st October 1910.

Charts affected.—No. 2737, Viziadrug to Cochin.
„ 827, Vengurla to Cape Comorin.

Publication.—West Coast of India Pilot, 5th edition, 1909, page 142.

Authority.—Presidency Port Officer, Madras, Notice No. 14 of 1910.

AUSTRALIA, SOUTH—Kangaroo island.

American river—Beacons; Position of buoy altered.

No. 295 (second publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 8 of 1910) that the channel in American River from the mouth up to Pelican Lagoon has been marked on the starboard hand by three (3) red beacons with circular heads, and on the port hand by eleven (11) black beacons with diamond-shaped heads.

The inner chequered buoy (red and black) has been removed and placed above No. 5 black beacon, in about five (5) feet at L.W.S., to mark the deepest water on the inner bar.

Approximate position of outer black beacon—Lat 35° 47½′ S., long. 135° 47½′ E.

This affects Admiralty charts Nos. 2389A and 3641.

The 30th June 1910.

PERSIAN GULF.

Mughu Bay—Shoal in.

No. 265 (third publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 33M of 1910), are republished:—

Position.—Rasyarid N. 51° W.
Jebel Yarid (1,200 feet) N. 19° W.
Jebel Bistana N. 88° E.
Town of Mughu N. 52° E.

Depth.—2 fathoms at Low Water Ordinary Spring.

Chart affected.—No 2837a, Persian Gulf, Eastern portion.

Publication.—Persian Gulf Pilot, 5th edition, 1908, page 173.

Authority.—Officer Commanding H. M. S. *Sphinx*.

NDIA, WEST—Bombay coast.

Panvel Creek—Buoy adrift.

No. 266 (third publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 34M of 1910), are republished :—

Subject.—The Sarkarkun of Panvel reports that the Inner Belapur Buoy is adrift.
Caution.—Mariners are warned.
Chart affected.—No. 737, India, Sheet III. Arnala Island to Kundari Island.
Publication.—West Coast of India Pilot, 1909, page 236.
Authority.—Commissioner of Customs, Salt, Opium and Abkári.

BAY OF BENGAL—Burma—Rangoon River.

Kings Bank Channel—Closed to navigation.

No. 267 (third publication).—The following particulars, etc., relative to the above, is ued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 35M of 1910), are republished :—

Subject.—The Kings Bank Channel will be closed until further orders in consequence of dredging operations.

Caution.—All vessels must keep clear of the dredger and pipe line.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, pages 352 and 353.

Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—Burma—Rangoon River.

Monkey Point Channel—Open to navigation.

No. 268 (third publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 36M of 1910), are republished :—

Subject.—The Dredged Channel Monkey Point will be open for the navigation of vessels on Wednesday, 8th June 1910.

Depth.—The least water at present is 14 feet in the Cut and 14 feet in the Danne-daw Reach. There is nothing less than 15 feet of water on the leading marks.

Remarks.—A Chart of the Channel can be seen on the Notice Board in the Deputy Conservator's Office, Rangoon, and attention is drawn to shoal water close to the Black Can Buoys marking the Cut.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.— Bay of Bengal Pilot, 1901, page 348.

Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—Burma—Rangoon River.

Buoy replaced.

No. 269 (third publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 37M of 1910), are republished :—

Subject.—The Centre Eastern Buoy has been replaced.
Chart affected.—No. 833, Rangoon River and approaches.
Publication.—Bay of Bengal Pilot, 1901, page 348. Bombay Government Notice to Mariners No. 30M of 1910. (*This office No. 262 of 22nd June 1910.*)
Authority.—Principal Port Officer, Burma, Rangoon.

BAY OF BENGAL—Burma—Rangoon River.

D'Silva Leading Lights.

No. 270 (third publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 38M of 1910), are republished:—

Subject.—On the 14th June 1910 the back light of the D'Silva Leading Lights will be moved 160 feet to the southward and in the same transit as at present.

Chart affected.—No. 833, Rangoon River and approaches.

Publication.—Bay of Bengal Pilot, 1901, page 352.
List of Lights, Part VI, 1910, No. 376.

Authority.—Principal Port Officer, Burma, Rangoon.

INDIA, WEST—Bombay coast.

Whale reef buoy disappeared.

No. 271 (third publication).—The Bombay Government has given Notice (No. 384 of 1910) that the buoy marking the Whale reef has disappeared.

BAY OF BENGAL—Chittagong coast.

Karnafuli river—Depth of water in the channel.

No. 272 (third publication).—

Subject.—The following depth of water was found in the channel by soundings taken on the 24th June 1910:—

Descriptions—

	Ft.
Track No. I, outer bar—	
Disc on diamond	11½
Track No. II, inner bar—	
Disc on diamond	11½

Charts affected.—No. 84, Chittagong (Karnafuli) river.
„ 859, Mutlah river to Elephant Point.

Publications.—Bay of Bengal Pilot, 3rd edition, 1901, page 245, Revised Supplement, 1908.

Authority.—Port Officer, Chittagong.

PERSIAN GULF—Shatt al Arab river.

Bushreh bar—No. 1 buoy disappeared.

No. 273 (third publication).—

Subject.—The Commander of the S.S. *Kola* reports on the 13th June 1910 that No. 1 buoy, Bushreh bar (the nearest buoy to Fao), has disappeared.

Position.—Fao lights, lat. 29° 58½′ N., long. 48° 29½′ E.

Charts affected.—No. 1235, Mouths of the Euphrates, Shatt al Arab, etc.
„ 2837B, Persian Gulf, western sheet.

Publication.—Persian Gulf Pilot, 1908, pages 207, 208.

Authority.—British Consulate-General, Bushire.

RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER, BENGAL, FOR THE YEAR 1909.

MUNICIPAL DEPARTMENT—SANITATION.

Dated Calcutta, the 16th July 1910.

RESOLUTION No. 1022 San.

READ—

The Report of the Sanitary Commissioner, Bengal, for the year 1909.

Read also—

The Report on Vaccination in Bengal for the year 1909-10.

Lieutenant-Colonel F. C. Clarkson, I.M.S., was in charge of the Department throughout the year under report, but proceeded on long leave on the 1st March 1910, being succeeded by Major W. W. Clemesha, I.M.S., by whom the Reports now under consideration are submitted.

2. *Climatic Conditions.*—The rainfall during the monsoon period began early and was, on the whole, well distributed, being above the normal in all Divisions except Chota Nagpur. The outturn of the crops generally was excellent, and a marked improvement in the general health of the people is chronicled.

3. *Births and Deaths.*—The number of births during the year under review showed an increase over the figure of the preceding year as well as over that of 1907, while the number of deaths was less than in either of the two preceding years, this being the first occasion since 1904 that these two phenomena have occurred together. The number of births registered in the Province (exclusive of Angul) was 1,909,547, or 37·79 per mille of population, in comparison with 1,823,716, or 36·09 per mille, during 1908. The increase in the birth-rate is attributed to the improved condition of the people, and was shared by all Divisions except Orissa, where the circumstances of the previous year had been particularly unfavourable, and their effect continued to be shown. The total number of deaths reported was 1,543,971, or 30·55 per mille, against 1,948,513, or 38·56 per mille during the preceding year. In the opinion of the Sanitary Commissioner this satisfactory decrease was due mainly to the reduced mortality from cholera, fever and dysentery and diarrhœa. In comparison with other Provinces Bengal stood third in the order of birth-rate, in place of sixth during 1908, while it stood fifth in the order of death-rate, as against third in the preceding year. These results afford reason for congratulation, and the mortality recorded was the lowest since 1899. Within the Province the most unhealthy Division was that of Patna, which showed no increase in the birth-rate and stood first as regards the death-rate, though the latter figure was less than in 1908. Orissa, which returned the highest mortality last year, this year shows the lowest.

4. The experiment for testing the accuracy of the registration of vital statistics in a portion of the Burdwan district came to a close in July 1909. Out of 6,890 deaths reported since 1906 in the area under observation the causes of death in no less than 2,751 instances were found to have been wrongly reported, and almost half the "fever" deaths returned were really due to other diseases. The numerical accuracy of registration was checked, as usual, by vaccination officers. The Lieutenant-Governor regrets to observe the bad results reported from Purnea, Hazaribagh and Jessore. The results in Saran, though not good, show an improvement over those of the preceding year. The District Officers concerned are requested to give the matter their particular attention.

5. *Cholera.*—The mortality which, in the preceding year, was the highest ever recorded, fell in the year under report to almost normal proportions, the total number of deaths registered amounting to only 56,711, or 1·12 per mille, compared with 268,908, or 5·32 per mille, in the preceding year. The seasonable rainfall and the better agricultural outturn were responsible for this satisfactory result. Sixty-one registering circles were entirely free from the disease, as against six such areas only during 1908. The use of permanganate of potash for disinfecting wells used for drinking water is beginning to be appreciated, and in several cases is reported to have had an excellent effect in arresting the progress of the disease.

6. *Small-pox and Vaccination.*—The mortality due to small-pox has been steadily on the increase since 1905, and a further increase was observable in the year under report, the number of deaths being 38,609, as compared with 35,966 in the preceding year, and 21,108, the average of the years 1904—1908. In spite of the general increase in the death-rate from this disease, the mortality among infants and children, for the second year in succession, showed a decrease, clearly proving the value of the protection afforded by vaccination.

7. The total number of vaccination operations performed during the year was 2,053,773, of which 185,188 were revaccinations, as against 2,019,531 original cases and 209,318 revaccinations in 1908-1909. The system of realizing vaccinators' fees through the village panchayats has not been a success, in the absence of any legal power possessed by these bodies to enforce payment.

8. *Plague.*—It is satisfactory to record a still further decrease in the mortality from plague, the total being the lowest on record since 1901. Only 11,779 deaths occurred, as against 15,948 in the preceding year. As in that year, 13 districts were free from the disease, which was not severely prevalent in any town or rural area. The mortality was nowhere above 5 per mille,

except in Monghyr town. Only 704 anti-plague inoculations were performed during the year under report, of which more than half (363) were in Calcutta. This prophylactic is still looked upon with disfavour, though no cases of plague took place among those inoculated. Evacuation continued to be the most popular preventive measure. Disinfection with kerosine oil emulsion was carried out to some extent, but it is expensive and requires careful supervision. The efficacy of rat destruction as a preventive measure is said to show signs of more general recognition, and it was carried on in Bihar on a considerable scale, noticeably in Monghyr and Saran. The work was generally done by organized rat-catching gangs.

9. *Fever.*—The mortality from this disease showed a satisfactory decrease, the number of deaths being 1,056,237, as against 1,184,704 in 1908, and 1,145,195, the average of the five years 1904—1908. The reduction was shared by both rural and urban areas, but was especially noticeable in the former. The most affected district was Darbhanga, with 33·14 deaths per mille, and, as in the preceding year, a noticeable feature was the prominence of non-water-logged districts among those returning a high death-rate. Among towns, Sahibganj, in the Sonthal Parganas, again returned the highest death-rate. Anti-malarial operations were confined to the North Barrackpore Municipality. The measures taken, so far as can be ascertained, were a success, though in the absence of scientific investigation this cannot be definitely asserted.

10. The enquiry undertaken by Captain Foster, I.M.S., in the preceding year into the prevalence of malaria was continued on a smaller scale during the year under report. The principal conclusions at which Captain Foster arrived were that—

(*a*) there was a definite relationship between splenomegaly and the total mortality of the test areas;

(*b*) the total mortality in the test areas was largely the result of the operation of the causes of splenomegaly;

(*c*) measured by the endemic index, the test thanas were not strikingly malarious;

(*d*) there was not the relationship between spleen rates and endemic indices which might have been expected if the spleen rates were entirely due to malaria; and

(*e*) the spleen rates were not entirely due to malaria.

Nineteen Sub-Assistant Surgeons were deputed to malarious districts during the year for the distribution of quinine. Their operations extended over 36 thanas in the districts of Murshidabad, Nadia, Jessore, 24-Parganas, Purnea and Birbhum, and are reported to have been greatly appreciated. This measure will be repeated during the current year. More effective measures were introduced for the sale of quinine in pice packets, the size of which was also increased, and it is satisfactory to notice that the number of parcels sold increased greatly, 25,514 being disposed of as against 13,307 in the previous year. In addition 4,818 phials, each containing three hundred 3½ grain tablets, were sold. The whole subject has recently been again examined in the light of the recommendations of the Malaria Conference held at Simla in October 1909, and although no material departure is contemplated, minor reforms, based upon the experience of other Provinces, will be tried.

11. *Dysentery and Diarrhœa.*—There was a large reduction in the mortality from this cause, the total number of deaths being 35,981, or ·71 per mille, as against 64,899, or 1·28 per mille in 1908. The same causes which led to a decrease in the mortality from cholera were operative in this instance also. As usual the Orissa Division was the chief sufferer from the disease, though in a greatly decreased ratio, the deaths being 2·82 per mille as against 6·68 per mille during the previous year.

12. *Respiratory Diseases.*—The number of deaths registered in 1909 was 15,071, or practically the same as the figure—15,399—for 1908. Owing to the difficulty in obtaining reliable diagnoses in these cases, the figures are not reliable, and exact conclusions cannot be drawn.

13. *Injury.*—The deaths under this head exhibited an increase, and numbered 27,280 as compared with 24,896 in 1908. Deaths from snake-bite decreased from 8,789 in 1908 to 8,605 during the year under report. Seventy dozen permanganate lancets were distributed by Civil Surgeons to selected persons, and of the cases treated by this method (namely, 59) it is claimed that 84·74 per cent. were successful. Three cases were treated successfully with antivenene.

14. *Sanitary Improvements.*—The gradual increase in expenditure by municipalities upon sanitary improvements, which was remarked upon last year, was maintained in 1908-1909, the total expenditure on conservancy, drainage and water-supply being Rs. 21,97,380, or an increase of Rs. 2,48,557 over the figures for 1907-1908. The 4½ lakhs grant made by the Government of India for sanitary improvements was fully utilised in assisting local bodies to carry out schemes of drainage and water-supply. The Lieutenant-Governor agrees with the opinion expressed by Colonel Clarkson that, for the present at any rate, this grant should as far as possible be devoted to large schemes and not frittered away on a large number of petty projects. The latter are usually such as should be carried out by local bodies without special help, and if the grants available are used in furtherance of large and permanent measures it follows that in the course of a few years considerable progress in the way of sanitary improvement should be visible.

15. The appointment of an Inspector of Septic Tank Installations has proved successful, and as a result of Major Clemesha's inspection of these installations various improvements have been effected.

16. *Sanitary Board.*—During the year under report, the estimates of various water-supply schemes were prepared by the Board and others were revised. The construction of water-works at Darjeeling, Monghyr and Bhagalpur was in progress.

Eleven drainage schemes were under preparation during the year at Bhagalpur, Gaya, Jessore, Murshidabad, Berhampore, Hooghly-Chinsura, Azimganj, Bhadreswar, Chapra, Purulia and Ranchi, while the drainage schemes for Daltonganj, Monghyr and Serampore were further considered. The drainage schemes of Howrah, Puri, Barasat, Basirhat, Baruipur, Budge-Budge, Baranagore, Bhatpara and Arrah were in progress during the year. The improvement of the procedure in submitting projects of drainage and water-supply, in order to ensure their prompt disposal and the avoidance of unnecessary enquiries, was under consideration.

17. The Lieutenant-Governor's thanks are due to Lieutenant-Colonel Clarkson and his subordinates for their administration of the Department.

By order of the Lieutenant-Governor of Bengal,

H. L. STEPHENSON,

Offg. Secy. to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1910.

[On an average of five years ending 1907-08, the area under jute in the territory to which the Bengal forecast relates has represented 21·1 per cent. of the total area under jute in British India.]

This forecast deals only with the estimated area sown before the end of June. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. *Acreage.*—The estimated area sown during the current year and four preceding years is shown below:—

Years.	Acreage.
1906	780,400
1907	931,200
1908	548,700
1909	555,400 (revised).
1910	573,100

In addition there is in Cooch Behar an area of 14,000 acres under jute, which represents a decrease of 6,000 acres in the figure of last year.

3. *Weather conditions.*—During sowing time in almost all the important jute-growing districts the rainfall was defective. In March it was scanty, Purnea alone receiving a normal fall. The total rainfall in the months of April and May was deficient in all districts except Nadia and Jessore, where it was in slight excess of the normal. Sowings though begun in normal time were prolonged to a late season in many parts, and in Midnapore, Hooghly, Champaran and the Sonthal Parganas they were not completed by the end of June. The rainfall in June was, on the whole, not unfavourable; but in the important district of Purnea the crop on the low lands suffered from heavy rain and floods.

Below is the usual statement of the rainfall in the seven principal jute-growing districts from March to June for the current and the four preceding years:—

Name of District.	1906.	1907.	1908.	1909.	1910.
Purnea	15·54	16·87	10·97	33·90	31·47
24-Parganas ...	14·01	27·75	22·58	28·27	14·32
Hooghly ...	12·52	24·70	22·09	25·67	15·69
Jessore	17·26	29·19	24·74	26·40	23·74
Nadia	13·36	24·87	24·45	28·58	21·69
Howrah	13·06	27·18	28·05	28·12	16·87
Murshidabad ...	11·71	20·06	16·48	23·26	16·09

4. *District returns.*—In the reports of District Officers and of the Superintendent of Cooch Behar, the total area under jute is estimated at 455,000 as compared with 531,000 acres last year. The estimates in many cases appear to be unduly pessimistic. The principal reasons ascribed for the decrease are the fall in the price of jute, unfavourable weather conditions and (in certain districts) the high price of seeds. But the price of jute was not materially less than in the previous year; and, on the other hand, the marked decline in the price of rice must have re-acted favourably on the cultivation of jute. If this consideration is balanced against the adverse conditions mentioned, it is reasonable, on general grounds, to assume that the area under jute is at least not less than it was last year. Special enquiries which I have had made in some of the more important districts bear out this view, and I have therefore raised a number of the estimates, notably in the case of Purnea. The revised estimate of last year's area I would now place at 575,400, and this year I estimate the area to be 587,100.

5. *Conditions and prospects.*—The crop in the 24-Parganas, Nadia, Murshidabad, Burdwan, Midnapore, Cuttack, Bhagalpur, Balasore, the Sonthal Parganas and Muzaffarpur is reported to be good. It is poor in Cooch Behar and Darjeeling and fair in Purnea and the remaining districts.

6. *General.*—Very little of last year's crop remains in the district.

7. *Combined forecast of Bengal and Eastern Bengal and Assam.*—The Director of Agriculture of Eastern Bengal and Assam reports that, according to the estimates of District Officers, the total area under the crop is 2,218,600 acres or an increase of 17,100 acres over last year's figures. He himself considers that last year's area was underestimated by at least a lakh of acres, that the acreage of the present year is not less than that of last year, and that on the assumption the total area sown this year comes to considerably over 23 lakhs of acres. Taking the two Provinces together and including Cooch Behar the area sown this year is calculated to be nearly 2,900,000 acres.

W. H. BUCHAN,
Offg. Director of Agriculture, Bengal.

CALCUTTA,
The 13th July 1910.

APPENDIX I.

First forecast of the Jute Crop of Bengal, 1910.

Division.	District.	Total area of the district.	Estimated total area under cultivation.	Approximate area sown last year (1909).	Estimated area sown this year (1910).	Whether much, little, or no jute remains in the district from the crop of the year 1909.	Figures from the Cadastral Survey. Total area of the district which has been cadastrally surveyed.	Figures from the Cadastral Survey. Years during which the cadastral survey took place.	Figures from the Cadastral Survey. Area found under this crop during the cadastral survey.	Date at which the sowing of the crop was begun this year.	Remarks by District Officers.	Remarks by the Director of Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11	12	13
		Acres.	Acres.	Acres.	Acres.		Acres.		Acres.			
Burdwan.	Burdwan ...	1,721,999	1,284,200	16,300	16,900	Very little	84,891	1889-92 and 1903-04 to 1908-09.	1,217	During the month of May.	The weather and rainfall have been favourable. The condition of the crop is good. Sowings were normal and have been completed. The crop is expected to be better than that of last year. The increase in the area sown this year is due to favourable weather.	
	Midnapore ...	3,319,640	2,190,600	10,700	10,100	Little ...	494,142	1909-10	Not known.	Middle of April	The rain came later than usual this year and the sowing was therefore delayed in considerable areas. Latterly the weather and rainfall have been favourable. The condition of the crop is good on the whole. The sowings in the greater portion of the district were late. They are still going on. The crop is likely to be rather better than that of last year. The decrease in the area sown this year is due to the late rainfall.	

Division.	District.	Total area of the district.	Estimated total area under cultivation.	Approximate area sown last year (1909).	Estimated area sown this year (1910).	Whether much, little, or no jute remains in the district from the crop of the year 1909.	Figures from the Cadastral Survey.			Date at which the sowing of the crop was begun this year.	Remarks by District Officers.	Remarks by the Director of Agriculture, Bengal.
							Total area of the district which has been cadastrally surveyed.	Years during which the cadastral survey took place.	Area found under the crop during the cadastral survey.			
1	2	3	4	5	6	7	8	9	10	11	12	13
		Acres.	Acres.	Acres.	Acres.		Acres.		Acres.			
Burdwan—*contd.*	Hooghly ...	760,715	445,900	52,400	52,000	None ...	Not cadastrally surveyed			From latter part of April to middle of May.	The weather and rainfall were not favourable in the Serampore subdivision and in a small part of the Sadar subdivision. Elsewhere they were favourable. The condition of the crop is fair. Sowings were normal, except in parts of the Serampore subdivision, where they were late. Sowings are still going on in parts of the Sadar subdivision only. The crop of this year is expected to be better than that of last year. In some parts of the Sadar subdivision the seedlings had to be ploughed up for want of timely rain.	
	Howrah ...	326,460	250,600	33,800	33,800	Little ...	...	...	...	End of May.	The weather and rainfall were not favourable at the sowing season. The condition of the crop is fair. Sowings were late. They have been completed. The crop of this year is expected to be worse than that of last year. The decrease in the area sown is due to the following causes :— (*a*) Fall in the price of jute. (*b*) Want of rain in the beginning of the season. (*c*) Non-cultivation of jute in certain thanas.	The Collector reported 27,900 acres. The figure has been raised after local enquiry.
	24-Parganas ...	3,106,833	1,063,700	80,000	80,000	Very little	...	...	...	Middle of April.	The weather and rainfall were favourable in the Basirhat subdivision, but rainfall was insufficient in other subdivisions. The condition of the crop is good in the Basirhat subdivision and fair in other subdivisions. Sowings were normal in the Basirhat subdivision, but late in other subdivisions. Sowings were completed. The crop is expected to be better in the Basirhat subdivision, but worse in other subdivisions in comparison with the crop of the last year. The decrease in the area sown this year was due to late and deficient rain in all the subdivisions, except Basirhat, where the crop is principally grown.	The Collector reported 73,900 acres. Raised after local enquiry.

PRESIDENCY.	Nadia ...	1,788,015	1,046,800	36,100	35,000	Little ...	Not cadastrally surveyed.			End of April.	The weather and rainfall conditions have generally been favourable. The condition of the crop is good in all the subdivisions, except Kushtia, where the crop is reported to be poor. Sowings were normal and have been completed. The crop is expected to be better than that of last year, excepting Kushtia, where the crop will be worse than that of last year. The decrease in the area sown is due to the prevailing low prices of jute and to want of seeds.	The Collector has shown 30,395 acres.
	Murshidabad	1,371,520	966,500	18,800	27,700	None ...	...	...	...	April to June.	The weather and rainfall conditions have been favourable. The condition of the crop is good. Sowings were normal and have been completed. The crop is expected to be better than that of last year.	
	Jessore ...	1,872,153	1,191,000	48,700	48,000	Little ...	...	...	...	15th April	The weather and rainfall conditions were tolerably favourable at the time of sowing, but the rain of June has somewhat retarded the growth of the crop. The condition of the crop is fair. Sowings were normal and have been completed. The crop of this year is expected to be the same as that of last year. The decrease in the area sown is due to the high price of seeds and want of timely rain.	The Collector reported 44,500 acres.
	Khulna ...	2,049,016	870,000	16,200	16,400	Little ..	177,900	1903-04 to 1909-10.	16,177	April and May.	The weather and rainfall conditions have been favourable in the Satkhira and Bagerhat subdivisions, but unfavourable in the Sadar subdivision. The condition of the crop is fair. Sowings were normal in the Sadar and Satkhira subdivisions, but late in the Bagerhat subdivision. They have been completed. The crop is expected to be better than that of last year. The increase in the area sown is due to favourable weather.	
TIRHUT ...	Champaran ...	2,259,940	1,447,600	2,000	800	A little ...	2,259,940	1892 to 1899.	606	May ...	The weather has been favourable. The condition of the crop is fair. Sowings were normal and have not yet been completed in the Bettiah subdivision. The crop is expected to be better than that of last year. The decrease in the area sown as compared with that of last year is due to the fall in the price of jute and want of rain.	

Division.	District.	Total area of the district.	Estimated total area under cultivation.	Approximate area sown last year (1909).	Estimated area sown this year (1910).	Whether much, little, or no jute remains in the district from the crop of the year 1909.	Figures from the Cadastral Survey.			Date at which the harvesting of the crop was begun this year.	Remarks by District Officers.	Remarks by the Director of Agriculture, Bengal.
							Total area of the district which has been cadastrally surveyed.	Years during which the cadastral survey took place.	Area found under this crop during the cadastral survey.			
1	2	3	4	5	6	7	8	9	10	11	12	13
		Acres.	Acres.	Acres.	Acres.		Acres.		Acres.			
Tirhut—*concluded.*	Muzaffarpur...	1,942,400	1,627,000	2,000	400	Nothing...	1,942,400	1892-93 to 1898-99.	500	May and June.	The weather and rainfall conditions have not been favourable. Sowings were normal and have been completed. The crop is expected to be better than that of last year. The decrease in the area sown is due to unfavourable weather and bad prices obtained.	
Bengal-pur.	Bhagalpur ...	2,704,640	1,694,100	3,000	2,000	Little ...	2,695,011	1902 to 1904.	350	Middle of May.	The weather and rainfall conditions have been favourable. The condition of the crop is good. Sowings were normal and have been completed. The crop is expected to be better than that of last year. The decrease in the area sown is due to the fall in the market price of jute.	The Collector reported 5,200 acres for this year's area against 6,000 acres of last year. On the results of a local enquiry I regard the figures as too high, and have reduced this year's area to 2,000 acres and last year's area to 3,000 acres.
	Purnea ...	3,196,183	1,694,400	220,000	230,000	Very little. They keep sufficient quantity for domestic consumption.	2,224,779	1901-02 and 1905-06.	115,456	April and May.	The figures shown for this year's area represent the area under jute as returned by the Police and the Subdivisional officers. In absence of any other information this area has been shown. Detailed enquiry is being made and, if necessary, revised area will be shown in the final forecast. The weather and rainfall conditions have been favourable, but the recent heavy rain has interfered with weeding and in some parts damaged the crop by causing floods. The condition of the crop is fair. Sowings have been completed. The crop is on the whole better than that of last year. The area in column 10 has been taken from the Jinswar statement of the Settlement Department. The area sown this year is probably much the same as last year, but this year's figure is based on the Police reports after careful consideration, whereas last year's figure was based on rough office estimate, the Police reports being rejected.	The Collector reports 118,500 acres for this year's area against 175,000 acres of last year. After a special enquiry I consider that the figures are too low, and have raised this year's area to 230,000 acres and last year's area to 220,000 acres.

	Darjeeling ...	744,956	166,600	4,000	5,000	Very little	276,577	1897-98 1901-02 1908-09.	2,339	1st week of April.	The weather and rainfall conditions have not been favourable. The condition of the crop is poor. Sowings were normal, except in some cases in which it was late owing to heavy rainfall and they have been completed. The crop of this year is not expected to be better than that of last year. The increase in the area sown is due to large sale of jute last year.	The Deputy Commissioner reported 1,800 acres for this year against 1,500 acres of last year. After local enquiry I have raised this year's area to 5,000 acres and last year's area to 4,000 acres.
	Sonthal Parganas.	3,691,447	1,549,800	600	1,100	Nothing...	3,444,416	1898 to 1908.	1,513	Last week of May.	The weather and rainfall conditions have been favourable. The condition of the crop is good except at Sahebganj. Sowings were somewhat late except Rajmehal where they were normal. They have not yet been completed at Rajmehal. The crop is expected to be better than that of last year. The increase in the area sown this year is due to sufficient rainfall in May and June and to the higher rate offered in the price of jute. Figures for columns 8, 9 and 10 have been taken from the final settlement report.	
Orissa ...	Cuttack ...	2,338,560	1,223,500	9,900	10,000	A small quantity remains for domestic consumption.	2,068,437	1888-95 to 1906-07.	652	15th April to 15th June.	The weather and rainfall conditions were favourable. The condition of the crop is good. Sowings were normal and have been completed. The crop is expected to be better than that of last year. The decrease in the area sown is due to the fall in the price of jute. The figures for this year's area are based on the reports of the several Subdivisions. From what I have heard, however, I should estimate that the area sown this year is not at all less than that of last year.	The Collector reported 9,600 acres for this year's area. I agree with him that the area this year is probably not less than that of last year and I have raised the figure to 10,000 acres.
	Balasore ...	1,334,368	932,200	3,900	3,900	Little ...	1,095,778	1891-92 to 1894-95.	138	Last week of May.	The weather and rainfall have been favourable. The condition of the crop is good. Sowings were normal and have been completed. The crop is expected to be better than that of last year.	
	Total Bengal ...	35,521,746	19,675,500	555,400	573,100	.....	.....	.....	.....	.....	.....	
	Add for Cooch Behar.	836,480	527,900	20,000	14,000	Little ...	843,439	1872 and 1887-92.	Not ascertained.	April ...	The weather and rainfall conditions have been unfavourable. The condition of the crop is poor. Sowings were late and have been completed. The decrease in the area sown is due chiefly to (i) unfavourable rainfall, (ii) dullness of the jute market and partly to increase in the area under early rice.	
	Total, including Cooch Behar.	36,358,226	20,203,400	575,400	587,100	...	...	...	...	...		

APPENDIX II.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JUNE 1910.

I. *Character of the season.*—The monsoon set in about a fortnight earlier this year, but it was not vigorous except for a short interval about the middle of the month under review. During the month the rainfall was below the average in all the districts of the Burdwan and Presidency Divisions, excepting Burdwan, Birbhum, Howrah, Nadia and Jessore. It was above the normal in Bihar, Orissa and Chota Nagpur excepting Gaya, Shahabad, Saran, Balasore, Puri, Sambalpur, Palamau and Manbhum, where it was slightly below the normal. The statement showing the rainfall district by district is appended.

II. *Progress of Agricultural operations.*—Preparation of lands, sowing of *bhadoi* crops and weeding of jute continued. Transplantation of winter rice commenced in some districts, but more rain is wanted for the purpose in most districts of Lower Bengal and also in Shahabad.

III. *State of standing crops.*—Sugarcane, jute and *bhadoi* crops generally are doing well.

IV. *Prospects and probable outturn of harvests.*—The condition of the standing crops is favourable. The prospects of the autumn harvest is fair so far.

V. *Damage to crops.*—No serious damage to the standing crops was reported. Some injury was done to the standing crops in parts of Bhagalpur and the Sonthal Parganas by heavy rain and to jute on low lands in Purnea by floods.

VI. *Condition of Agricultural stock.*—The condition of cattle was, on the whole, satisfactory. Cases of cattle diseases were reported from Midnapore, Jessore, Gaya, Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas, Cuttack, Puri, Sambalpur, Hazaribagh and Palamau.

VII. *Failure of pasturage and fodder.*—The fodder and water-supply was sufficient throughout the province.

VIII. *Prices of food-grains.*—Prices of food-grains are lower than in the corresponding period of last year. The price of common rice rose in nine districts and fell in two during the second fortnight of the month under review.

IX. *Condition of Agricultural people.*—The condition of agriculturists is good.

CALCUTTA,
The 18th July 1910.

N. N. SIRCAR,
for *Offg. Director of Agriculture, Bengal, on tour.*

WEATHER AND CROP REPORT.

For the week ending the 18th July 1910.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather, and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	BURDWAN ...	2·67	10¼	10¼	Transplantation of paddy seedlings retarded for want of sufficient rain. Thinning of jute and tying of sugarcane going on. No cattle-disease. Stocks of food-grains, fodder and drinking water sufficient.
2	BIRBHUM ..	1·93	14	14	Weather hot and cloudy. Rainfall at Rampurhat 3·66 inches. More rain wanted. Transplantation going on. No cattle-disease. Fodder and water sufficient.
3	BANKURA ...	0·08	12	12½	Weather hot and cloudy. Rainfall at Vishnupur 0·85 inch. More rain urgently needed. Transplantation delayed. No cattle-disease. Fodder and water sufficient.
4	MIDNAPORE	1·31	12	12	Weather hot. Rainfall at Contai 1·58, at Tamluk 0·72 and at Ghatal 1·16 inches. Rain badly wanted everywhere. Transplantation of winter rice going on except in considerable tracts where there has been little or no rainfall Prospects of jute and sugarcane good. Cattle-disease in one thana. Fodder and water sufficient. Common rice selling at 13½ seers a rupee at Contai, at 11 seers at Tamluk and at 11½ seers at Ghatal.
5	HOOGHLY ...	1·56	11	11	Weather hot. More rain urgently needed. Prices of food-grains stationary. Stocks of food-grains sufficient. No likelihood of scarcity. Jute, sugarcane and *aus* paddy doing well. Prospects of jute fair. No cattle-disease. Fodder and water sufficient.
6	HOWRAH ...	2·02	11	11	Weather hot. Sky cloudy. More rain wanted. Transplantation of paddy in lowlands progressing. Prospects of jute fair, that of *aus* paddy, sugarcane and vegetables good. Stocks of food-grains, fodder and water sufficient.
7	24-PARGANAS	0·48	11	12	Weather sultry. More rain wanted everywhere. Transplantation and weeding of *aman* paddy continuing. Jute plants suffering from want of moisture at Basirhat. Prospects of jute and *aus* paddy fair. Common rice selling at 11 seers per rupee at Basirhat, at 11½ seers at Barrackpore, at 11 seers at Barasat and at 13 seers at Diamond Harbour.
8	NADIA ...	5·86	11½	11	Rainfall at Kushtia 6·82, at Meherpur 4·97, at Ranaghat 2·51 and at Chuadanga 5·47 inches. Weeding of autumn rice and jute almost finished. Transplantation of *aman* paddy retarded for want of more rain in the Ranaghat subdivision. Jute plants thriving. Prospects of standing crops good. Prices of staple food-grains stationary. Stocks of food-grains, fodder and water sufficient. No cattle-disease reported.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather, and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
9	Murshidabad	1·89	$13\frac{1}{3}\frac{1}{2}$	$13\frac{1}{16}$	Weather cloudy with occasional showers. Rainfall at Kandi 3·62, at Lalbagh 3·41 and at Jangipur 3·01 inches. Transplantation of winter paddy going on. More rain wanted. Cattle-disease reported from Jangipur and Kandi subdivisions.
10	Jessore ...	3·52	$11\frac{1}{2}$	$11\frac{1}{2}$	Weather seasonable. Rainfall at Jhenida 2·29, at Narail 1·30 and at Bongaon 1·42 inches. Standing crops benefited by the recent rain, but more rain urgently wanted for transplantation of *aman* paddy. Condition of jute favourable. Stocks of food-grains, fodder and water sufficient. Cattle-disease reported from Narail. Condition of agricultural stock good.
11	Khulna ...	3·61	10	10	Weather seasonable. Rainfall at Bagerhat 1·34 and at Satkhira 1·07 inches. Transplantation of winter rice commenced. Prospects of jute and other standing crops fair.
12	Patna ...	4·85	12 $16\frac{1}{2}$*	12 $17\frac{1}{2}$*	Weather hot and cloudy. Standing crops doing well. Rain wanted in the Bihar subdivision for transplantation of paddy. Condition of agricultural stock good. Fodder and water for cattle sufficient. No cattle-disease.
13	Gaya ...	1·40	$12\frac{1}{16}$	$13\frac{1}{16}$	Weather cloudy with occasional rainfall. Sugarcane doing well. Sowing of *bhadoi* crops and paddy still going on. More rain wanted in the Jehanabad and Aurangabad subdivisions. *Makai* not sold. Cattle-disease reported from five villages in the Jehanabad and Nawadah subdivisions. Fodder and water sufficient.
14	Shahabad ...	1·23	11 $16\frac{1}{2}$*	12 16*	Rainfall at Buxar 1·95, at Bhabhua 0·63, and at Sasaram 2·39 inches. Sugarcane doing well. Sowing of *bhadoi* crops and paddy seedlings retarded for want of sufficient rain. Prices rising. Food-stocks normal. Fodder and water sufficient. Condition of agricultural stock good.
15	Saran ...	0·71	12 18*	12 18*	Weather hot and cloudy. Rainfall at Siwan 0·88 and at Gopalganj 1·77 inches. Rain rather deficient specially in the Sadar subdivision. Weeding of *bhadoi* crops going on. Transplantation of *aghani* paddy and *marua* proceeding in Gopalganj. Prices of food-crops stationary. Condition of agricultural stock good. Fodder and water sufficient. Cattle-disease reported from Parsa police-station.
16	Champaran ...	1·70	12 $19\frac{1}{2}$*	$11\frac{1}{2}$ $17\frac{1}{2}$*	Weather hot and rainy. Rainfall at Bettiah 2·79 inches. Sowings of *bhadoi* crops approaching completion. Transplantation of *aghani* paddy progressing. Prospects of crops and condition of agricultural stock good. Condition of jute good. No cattle-disease. Fodder and water sufficient.
17	Muzaffarpur	1·53	12 18*	12 18*	Weather hot and cloudy. Rainfall at Sitamarhi 2·93 and at Hajipur 2·05 inches. Common rice and *makai* selling at 12 and 20½ seers a rupee respectively at Sitamarhi and 12 and 16 seers a rupee respectively at Hajipur. *Bhadoi* crops being sown and transplantation of paddy going on. Cattle-disease reported from Sitamarhi, Sheohar and Belsand thanas. Fodder, water and food-stocks sufficient. Condition of jute good.

* The figures indicate the price of maize in seers per rupee.

1	2	3	4	5	6
		Inches.			
18	DARBHANGA ...	2·69	12⅜ 19¾*	13⅜ 19$\frac{13}{16}$*	Weather hot and cloudy. Sufficient rainfall received in the Sadar and Samastipur subdivisions. A heavy shower of rain wanted in the Madhubani subdivision for transplantation of paddy crops. Sowing of *bhadoi* crops and transplantation of paddy crops going on. Stocks of food-grains, fodder and water sufficient. Cattle-disease reported from two villages in Warisnagar and Mahiuddinnagar thanas and from Jhanjharpur and Rosera thanas. Common rice (average quality) selling at 12 seers a rupee at Sadar. *Makai* selling at 19¾ seers a rupee in Darbhanga bazar.
19	MONGHYR ...	1·29	13⅛	12⅞	Weather cloudy with east winds. The rain doing much good to the standing crops. Sowing of *bhadoi* crops and paddy continuing. Prospects of the crops good. Sugarcane growing well. Prices of food-grains stationary. Cattle-disease reported from Tegra and Buriarpur. Fodder and water sufficient.
20	BHAGALPUR ...	1·37	12⅜ 17⅜*	12⅜ 17½*	Weather seasonable. Sowing of *bhadoi* crops nearly completed, that of paddy going on. Condition of jute good. Prices of staple food-grains almost stationary. Fodder and water sufficient. Cattle-disease reported from Banka and Supaul thanas.
21	PURNEA ...	0·50	13	13	Weather very hot and at times sultry. Rainfall at Kishanganj 4·20 and at Araria 2·07 inches. Prospects of crops good. Condition of jute fair. More rain wanted for *aghani* paddy. Steeping and washing of jute commenced in places. Fodder and water sufficient. Cattle-disease reported from three thanas. Common rice selling at 14 seers a rupee at Kishanganj and Araria.
22	DARJEELING ...	7·10	10 10*	10 10*	Weather seasonable. Hills—Maize and potatoes ripening. *Bhadoi* paddy, *bara* and *chota marua* and *haimantic* paddy growing. Terai—report not received.
23	SONTHAL PARGANAS.	0·90	14 20*	14 20*	Weather hot and cloudy. Rainfall at Deoghar 0·72, at Godda 3·45, at Jamtara 0·82, at Pakour 1·57 and at Rajmahal 1·26 inches. Prospects of maize and sugarcane favourable. Transplantation of paddy seedlings retarded for want of rain. Prices of staple food-grains rising slowly. Stocks food-grains likely to last till next harvest. Prospects of jute favourable. Fodder and water sufficient.
24	CUTTACK ...	Nil	11$\frac{13}{16}$	11$\frac{13}{16}$	*Biali* paddy being weeded. *Saradh* paddy, jute, *rahar*, early cotton and sugarcane growing. Weather favourable to jute crop. Fodder and water sufficient. Cattle-disease reported from Jajpur and Banki.

* The figures indicate the price of maize in seers per rupee.

* The report is for the week ending the 9th July 1910.

General Summary.—Rain fell in all districts excepting Cuttack and Singhbhum. The fall was heavy in Cooch Behar, Darjeeling, Nadia and also in Patna, moderate in parts of Birbhum, Murshidabad, Jessore, Khulna, Purnea, the Sonthal Parganas and light elsewhere. Transplantation of paddy is going on, but it is being retarded in some districts for want of sufficient moisture. More rain is urgently wanted in most districts of Lower Bengal and also in Gaya, Shahabad, the Sonthal Parganas, Balasore, Puri, Sambalpur, Palamau, Manbhum and Singhbhum. The standing crops are generally doing well. The jute crop is reported to be suffering from want of sufficient moisture in parts of the 24-Parganas; it has also been damaged to some extent in Cooch Behar by the excessive rainfall. The price of common rice has risen in Burdwan, Bankura, the 24-Parganas, Gaya, Shahabad, Darbhanga, Ranchi and Palamau and has fallen in Nadia, Murshidabad, Champaran, Monghyr, Angul, Manbhum and Singhbhum. Cattle-disease is reported from Midnapore, Murshidabad, Jessore, Gaya, Saran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Cuttack, Angul, Puri, Sambalpur, Hazaribagh and Ranchi. The fodder and water-supply is sufficient throughout the Province.

Department of Agriculture, Bengal,
Calcutta, the 19th July 1910.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF JUNE 1910.

"ALTHOUGH the bay current arrived upwards of a fortnight before its normal date, it was not very vigorous, except for a short interval about the middle of the month."

Supplement to the India Daily Weather Report for the 3rd July 1910.

In June the rainfall was below the average in all the districts of South-West Bengal, except in Burdwan, Birbhum, Howrah, Nadia and Jessore, where it was in slight excess.

In Bihar, Orissa and Chota Nagpur, the fall was above the normal everywhere, except in Gaya, Shahabad, Saran, Sambalpur, Balasore, Puri, Palamau and Manbhum, where it was in defect. The excess was greatest in Purnea, where the departure from the normal was +11·98 inches.

On an average South-West Bengal received 9·93 inches, Bihar 10·58 inches, Orissa 9·48 inches and Chota Nagpur 8·58 inches of rain. The departure from the normal was −0·83 inch in South-West Bengal, +2·24 inches in Bihar, +0·42 inch in Orissa and −0·64 inch in Chota Nagpur.

The following table compares the rainfall in the four Divisions during the month of June with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past six months of the year 1910:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	Actual rainfall of first six months of 1910 expressed as a percentage of the normal fall for the period.
South-West Bengal	250	22	41	104	88	92	89
Bihar	8	60	11	49	68	127	99
Orissa	252	18	5	98	63	105	84
Chota Nagpur	47	22	13	101	64	93	80

The total fall of rain from 10th to 16th July 1910	Inches. 0 41
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2·86
The total fall from 1st January to 16th July 1910	17·37
The average fall of the corresponding period for 24 years, Surveyor-General's Office	27·79

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

Saran.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

POLITICAL DEPARTMENT.

POLITICAL.

NOTIFICATION.

No 2610P.—The 25th July 1910.—The attention of Government has been drawn to statements which have appeared in the press to the effect that it is in contemplation to organize demonstrations to celebrate what is known as "Boycott day" on the 7th August next.

In the Lieutenant-Governor's judgment the boycott movement has been, and must be, productive of nothing but harm. This is not due wholly, or even chiefly, to the disturbances of the public peace to which it is liable to give rise, though these have by no means been absent. A graver evil is that it tends to inflame racial passions, and to keep alive those feelings of animosity and opposition towards established order which have been so prejudicial to the cause of good government in the past.

The Lieutenant-Governor would greatly have preferred that this mischievous movement should be finally abandoned, without the direct interposition of Government, by the common consent of all concerned; and there is evidence in his possession which indicates that that course commends itself to a large proportion of the more responsible sections of the community. Even now, he ventures to hope that wiser counsels will prevail, and that the

influence of those who have weight with their fellow-countrymen will be effectual in averting demonstrations which are incompatible with any idea of genuine co-operation with the Government, and inconsistent with those professions of loyalty which have evidenced the true sentiments of the country during the past two months.

But if this expectation should be disappointed, it should be made known to all that it is the Lieutenant-Governor's intention to put in force the legal powers which he possesses to prohibit any celebration in connection with the boycott, and that orders are being issued to the local authorities to take all necessary steps to give effect to this decision.

E. V. LEVINGE,

Offg. Chief Secy. to the Govt. of Bengal.

POLICE.

NOTIFICATIONS.

No. 2474P.—The 21st July 1910.—In exercise of the power vested in him by section 14, sub-section (1) of the Code of Criminal Procedure, 1898, the Lieutenant-Governor is pleased to confer upon Babu Ashutosh Ghosh, who has been appointed to be President of the panchayat of Belkhas Union in thana Burdwan, in the district of Burdwan, the powers of a Magistrate under sections 64, 127 and 128 of the same Code, and to declare that the said powers may be exercised by him within the limits of that Union.

2. The Lieutenant-Governor is further pleased to declare, in pursuance of sub-section (2) of the said section 14, that the said powers are conferred and may be exercised by Babu Satish Chandra Ray, during such period not exceeding three years, as he continues to hold the office of President of panchayat.

E. V. LEVINGE,

Offg. Chief Secy. to the Govt. of Bengal.

PROCLAMATION.

No 2612P.—The 25th July 1910.—In exercise of the powers conferred by section 15 of the Police Act, 1861 (V of 1861, as amended by Act VIII of 1895), the Lieutenant-Governor is pleased to declare that the conduct of the inhabitants of the village of Choramba, in the district of Monghyr, has rendered it expedient to increase the number of police by the appointment of an additional force to be quartered in the said village at the cost of the inhabitants thereof, subject to any orders which may be passed exempting any persons or class or section of the inhabitants. This proclamation shall remain in force for a period of one year with effect from the 1st August 1910.

Monghyr.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 22nd July 1910.

No. 161.—Mr. A. J. G. Maflin, Assistant Engineer, has passed the Professional Examination prescribed in paragraphs 167-169 of the Public Works Department Code, Vol. I, on the 5th July 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 22nd July 1910.

No. 162.—Mr. P. H. Barboza, Assistant Engineer, has passed the Professional Examination prescribed in paragraphs 167-169 of the Public Works Department Code, Volume I, on the 5th July 1910.

The 25th July 1910.

No. 165.—Mr. H. Wardle, Executive Engineer, Chota Nagpur Division, is granted, under article 260 of the Civil Service Regulations, privilege leave for fifteen days, with effect from the 16th August 1910, or such subsequent date as he may avail himself of it.

No 166.—Babu Gyananjan Shaha, Assistant Engineer, is appointed to officiate as Executive Engineer of the Chota Nagpur Division, during the absence, on privilege leave, of Mr. H. Wardle, Executive Engineer, or until further orders.

A. S. THOMSON,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

[Third publication.]

The 11th July 1910.

No. 20.—Notification.—It is hereby notified, for general information, that, in exercise of the powers conferred on him by section 99 of the Bengal Irrigation Act, III of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to make the following modification in Rule 48 of the Water-rate Rules for the Orissa Canals:—

Existing.	*Proposed.*
48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed.	48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed, *or to the payment in cash of 3 per cent. on the whole sum assessed in the village when the collection of that whole sum is completed.* (*The system of payment in cash is not applicable to long leases.*)
The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation, and may recover the rates which would otherwise have been charged, if the assistance required by Rule 47A has not been rendered to the best of the ability of the representative or representatives.	The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation *or payment in cash*, and may recover the rates which would otherwise have been charged, if the assistance required by Rule 47A has not been rendered to the best of the ability of the representative or representatives.

T. BUTLER,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 26th July 1910.

No. 75Marine.—In exercise of the power conferred on him by section 5 of the Indian Explosives Act, 1884, the Lieutenant-Governor proposes to substitute the following for rules 1 and 2 of the rules published under the notification of this Department No. 76Marine, dated the 6th August 1909, relating to the transport and importation of explosives other than those mentioned in section 14 of the Act in the Port of Calcutta.

The proposed rules will be taken into consideration after the expiry of a month from the date of their publication in the Gazette, and the Lieutenant-Governor will be glad to consider any suggestions or observations that may be made by any persons concerning them within that period.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosives, as defined in section 4, Act IV of 1884, except two storm or danger signals and six smaller lights of the same description, 24 blue lights, 24 rockets, 24 detonating signals with friction tubes, or, in lieu thereof, 24 one-pound charges of gunpowder for use in a gun and 24 private signals of any Company. Detonators and their friction tubes to be stored separately. All explosives which vessels are by this rule permitted to keep on board in port shall be stored in all cases in separate, detached and completely enclosed magazines for each description of signals. The magazines should be kept in a house on deck and stowed or ranged as far apart as possible, so that in the event of fire they can be removed or thrown overboard.

All explosives which by this rule may be ordinarily retained on board vessels in port shall be discharged before a vessel is taken into dry dock.

2. All inward-bound vessels carrying explosives in excess of the quantity prescribed in rule 1 are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the port, which shall have on board any explosives in contravention of these rules, shall be liable to a fine which may extend to the sum mentioned in clause (*a*) or clause (*b*), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 26th July 1910.

No. 76Marine.—In accordance with the provisions of section 18 of the Calcutta Port Act, 1890, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to authorize the Commissioners of the Port of Calcutta to raise a debenture loan of thirty lakhs of rupees, bearing interest at a rate not exceeding 4 per cent. per annum and repayable in thirty years, for the construction of works necessary for carrying out the purposes of the Act and for the acquisition of movable and immovable property requisite for such construction.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 26th July 1910.

No. 77Marine.—Mr. I. S. Wells, Branch Pilot, is granted leave on medical certificate for twelve months, under article 672 of the Civil Service Regulations, with effect from the 27th May 1910.

T. BUTLER,
Secy. to the Govt. of Bengal.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 21st July 1910.—In supersession of the orders of 16th May 1910, Babu Aswini Kumar Das, Deputy Inspector of Schools, Murshidabad (class III), is allowed leave of absence, under article 260 of the Civil Service Regulations, from 27th May to 2nd July 1910 inclusive and is permitted, under article 220 of the Civil Service Regulations, to affix to his leave Sunday, the 3rd of July.

The 23rd July 1910.—The following appointments are sanctioned in the Subordinate Educational Service, with effect from 1st April 1910, in connection with the scheme for increasing the staff of Government Colleges:—

(1) Babu Hari Har Banerji, M.A., Assistant Master (Head Pandit), Hare School (class VI), is appointed to be Lecturer in Sanskrit and Bengali, Presidency College. He is also appointed substantive *pro tempore* to class IV of the Subordinate Educational Service, in the resulting vacancy arising from the retirement of Babu Kshetra Mohan Banerji, the temporary appointment on Rs. 125, which he now holds being abolished.

(2) Babu Panchanan Ghosh, M A., is appointed to be an Assistant in the Physical Laboratory, Presidency College, and substantive *pro tempore* to class V of the Subordinate Educational Service, in an appointment created under the scheme referred to. The temporary appointment on Rs. 100 a month, which Babu Panchanan Ghosh now holds is abolished.

(3) Maulvi Hidayet Hossain is appointed to be Lecturer in Persian and Arabic, Presidency College. He is also appointed substantive *pro tempore* to class IV of the Subordinate Educational Service, in the resulting vacancy arising from the death of Babu Hari Charan Chatterji, the temporary appointment of Rs. 125 a month, which the Maulvi now holds being abolished.

(4) Babu Dwijendra Kumar Mazumdar, M.A., Laboratory Assistant, Presidency College (substantive *pro tempore* in class V), is promoted substantive *pro tempore* to class IV of the Subordinate Educational Service, in the resulting vacancy arising from the retirement of Babu Mahendra Nath Lahiri.

(5) Babu Hem Chandra Datta Gupta, M.A., is appointed to be Demonstrator in Chemistry, Patna College, and substantive *pro tempore* in class III of the Subordinate Educational Service in an appointment created under the scheme referred to. The temporary appointment on Rs. 150 a month which Babu Hem Chandra Datta Gupta holds is abolished.

(6) Babu Ashutosh Mukherji, M.A., Laboratory Assistant, Patna College (class I of the Lower Subordinate Educational Service), is appointed to be 2nd Demonstrator in Physics, Patna College. He is also appointed substantive *pro tempore* to class IV of the Subordinate Educational Service in the resulting vacancy arising from the death of Babu Umesh Chandra Chatterji. The temporary appointment on Rs. 125 a month which Babu Ashutosh Mukherji now holds is abolished.

(7) Babu Banku Behari Pandit, B.A., is appointed to be Laboratory Assistant in Hooghly College and substantive *pro tempore* to class VIII of the Subordinate Educational Service in an appointment created under the scheme referred to.

(8) Babu Bankim Das Banerji, M.A., is appointed to be Lecturer in Mathematics, Ravenshaw College. He is also appointed substantive *pro tempore* to class IV of the Subordinate Educational Service in the resulting vacancy arising from the retirement of Babu Hari Nath Chatterji. The temporary appointment on Rs. 125 a month which Babu Bankim Das Banerji now holds is abolished.

(9) Babu Kamada Charan Chakravarti, M.A., Demonstrator in Physics, Patna College (class VI), is appointed to be Demonstrator in Chemistry, Civil Engineering College. He is also appointed substantive *pro tempore* to class III of the Subordinate Educational Service in the resulting vacancy arising from the retirement of Babu Bindu Lal Banerji. The temporary post on Rs. 150 a month which Babu Kamada Charan Chakraverti now holds is abolished.

(10) Babu Tulsi Das Kar, M.A., Laboratory Assistant, Civil Engineering College (class VI), is appointed on one year's probation to be Demonstrator in Physics, Civil Engineering College. He is also appointed substantive *pro tempore* to class IV of the Subordinate Educational Service in the resulting vacancy arising from the retirement of Babu Becharam Ganguli.

Babu Jatindra Nath Chatterji, M.A., Laboratary Assistant, Hooghly College (class I of the Lower Subordinate Educational Service), and now officiating Laboratory Assistant, Civil Engineering College, Sibpur, is appointed substantively *pro tempore* to the latter post and to class VI of the Subordinate Educational Service, *vice* Babu Tulsi Das Kar, on deputation, with effect from 1st April 1910.

Maulvi Mahammad Yasin, Assistant Master (Head Maulvi), Chapra Zilla School (class V), and now Officiating Lecturer on Arabic and Persian, Patna College, is promoted substantive *pro tempore* to class IV of the Subordinate Educational Service with effect from 1st April 1910, *vice* Maulvi Abdul Hai, promoted substantive *pro tempore* to class VIII of the Provincial Educational Service. The temporary appointment on Rs. 125 a month which Maulvi Mahammad Yasin now holds is abolished.

The 23rd July 1910.—Babu Syama Charan Batabyal, Sub-Inspector of Schools, Labpur Circle, in the district of Birbhum (class VIII), is allowed leave of absence, under article 260 of the Civil Service Regulations, for two months, from 1st July 1910, or from any subsequent date on which he may avail himself of it.

Babu Rakhahari Mukherji, Assistant Sub-Inspector of Schools, Labpur Circle, in the district of Birbhum (class III of the Lower Subordinate Educational Service), is appointed to act as Sub-Inspector of Schools in the same Circle and in the Subordinate Educational Service, *vice* Babu Syama Charan Batabyal, on leave.

Babu Mahendra Nath Chakravarti, an Assistant in the office of the Director of Public Instruction, Bengal (class VII), is allowed leave of absence, under article 260 of the Civil Service Regulations, for one month, from 4th July 1910.

Babu Dhirendra Nath Mukherji, a temporary Assistant in the office of the Director of Public Instruction, on a salary of Rs. 30 a month, is appointed to act in the Subordinate Educational Service, *vice* Babu Mahendra Nath Chakravarti, on leave.

The 25th July 1910.—Babu Mahadeo Prasad, an Assistant in the office of the Director of Public Instruction, Bengal (class VIII), is allowed leave of absence, under article 260 of the Civil Service Regulations, for ten days in continuation of the leave already granted to him under the orders of 11th July 1910.

The order permitting him, under article 220 of the Civil Service Regulations, to affix Sunday, the 31st July 1910, to his leave is cancelled.

Babu Debendra Nath Ghosh, an Assistant in the office of the Director of Public Instruction, Bengal (class I of the Lower Subordinate Educational Service), will continue to act in the Subordinate Educational Service, *vice* Babu Mahadeo Prasad, on leave.

G. W. KUCHLER,
Director of Public Instruction, Bengal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTIFICATION.

No. 3996B., dated the 22nd July 1910.—In exercise of the power conferred by section 86 of the Bengal Excise Act, 1909, (Bengal Act V of 1909) the Board of Revenue make the following amendment in Rule 83 of the Rules published with Notification No. 5977B., dated the 27th November 1909, at page 1754 of Part I of the *Calcutta Gazette* of the 1st December 1909, namely:—

For "Re. 1-1" against "Bhagalpur" and "Purnea" *substitute* "Re. 1-0."

By order of the Board of Revenue, L. P.,

SRIGOPAL BHATTACHARJI,
Secretary.

NOTIFICATION.

No. 4030B., dated the 23rd July 1910.—In exercise of the power conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Board of Revenue make the following addition to Rule 117 of the Rules published with Notification No. 5977B., dated the 27th November 1909, at page 1754 of Part I of the *Calcutta Gazette* of the 1st December, 1909, namely:—

"Provided that in the Darjeeling district all country spirit shops shall be closed at sunset."

By order of the Board of Revenue, L. P.,

SRIGOPAL BHATTACHARJI,
Secretary.

No. 3392B.

NOTICE is hereby given that the Eighth Sale of Opium, the Provision of 1907-1908 and 1908-1909, will be held at the Government Opium Sale Room, No. 2, Charnock Place, on Wednesday, the 3rd August 1910, at 11 A.M., and will comprise 3,300 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, consisting of season 1907-1908.	1,650
Opium manufactured at the Ghazipur Factory, consisting of season 1908-1909.	1,650
Total ...	3,300

2nd.—The general conditions of the Sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 26th November 1909, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th August 1910, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale Room will be received after 3-30 P.M. of Monday, the 8th August 1910, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th August 1910.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next, on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATE.	Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.
On or about Wednesday, 7th September 1910 ...	1,650	1,650	3,300
" " 28th " " ...	1,650	1,650	3,300
" Thursday, 3rd November " ...	1,650	1,650	3,300
" Tuesday, 6th December " ...	1,650	1,650	3,300
Total ...	6,600	6,600	13,200

By order of the Board of Revenue, L. P.,

SRIGOPAL BHATTACHARJI, *Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 28th June 1910.*

NOTIFICATION.

B. HEATON,
Principal, Civil Engineering College.

NOTIFICATION.

ANNUAL EXAMINATION OF PLEADERS IN SURVEYING.

(See Government Notification No. 3157S., dated 25th November 1909.)

1. The next examination will be held in February 1912 and will be conducted at the following centres, provided that not less than five names be registered at each centre—Sibpur, Bankipur, and Cuttack in Bengal, and at Dacca in Eastern Bengal and Assam.

2. Candidates practising in the Courts of the Presidency and Burdwan Divisions will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhut, Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Eastern Bengal and Assam at Dacca.

3. In the event of more than 20 or less than five names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

4. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and

(i) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack and Dacca in 1911, and has not previously appeared at the examination more than twice, or

(ii) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(iii) has passed the Sub-Overseer Examination, or

(iv) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(v) be specially exempted from the operation of this rule by the Board controlling the examination.

5. Candidates wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose court he is enrolled and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 15th December.

6. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, which will in no case be returned.

7. No candidate will be admitted to this examination more than three times. Each examination is complete in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the Examiner in it.

8. The programme of the examination will be published in the *Calcutta* and *Eastern Bengal and Assam Gazettes*.

B. HEATON,

Principal, Civil Engineering College,
and Secretary, Pleaders' Survey Examination Board.

PLEADERS' SURVEY CLASSES, 1911.

1. Classes for the training of Pleaders in Surveying will be opened in January and February 1911 in connection with the Civil Engineering, College, Sibpur, the Bihar School of Engineering, Bankipur, the Dacca School of Engineering, and the Survey School at Cuttack. Candidates obtaining credit for attendance at this course will be entitled to appear at the Practical Examination of those times during the years 1912, 1913, 1914, 1915.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the head of the institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the Pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 15th November. The application must be endorsed by the District Judge, to whom it should be submitted before 3rd October. It should state the centre which the candidate wishes to join, *i.e*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then in orm the heads of the institutions of the names and addresses of the candidates registered at their centres and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed:—

(*a*) Practical work—

Chain surveying. | Prismatic compass. | Plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.	Variation of compass.
Construction of scales.	Preparation of field-books from maps.
Mensuration of areas.	Elementary principles of levelling.
Plotting.	Plotting of level sections.

Candidates who obtain the required percentage of attendance at this course of instruction are qualified to appear at the Practical Examination held in 1912.

B. HEATON,
Principal, Civil Engineering College, and
Secretary, Pleaders' Survey Examination Board.

CIVIL ENGINEERING COLLEGE, SIBPUR.

INSTRUCTION IN THE CHEMISTRY OF DYEING.

CLASSES in the Chemistry of Dyeing will be opened at the Civil Engineering College, Sibpur, in November 1910 on a date that will be announced later. For rules and regulations apply to the Principal.

B. HEATON,
Principal, Civil Engineering College.

SIBPUR, *the 14th July 1910.*

NOTICE.

THE Krishnagar College Pleadership classes have opened on the 8th instant. Intending candidates are to apply to the Principal for admission without delay.

SATIS CHANDRA DE, *Offg. Principal, Krishnagar College.*

KRISHNAGAR, *the 11th July 1910.*

NOTICE.

THE half-yearly examination in the Art of Teaching of Teachers of English subjects employed in the Government Aided, Unaided, High English and Middle English Schools in the Burdwan Division will be held on Monday, the 29th August 1910, in the Hooghly Branch School.

The examination of those teaching Vernacular subjects in the same class of schools will be held in the Hooghly Training School on the 30th August 1910.

Candidates are requested to apply in writing by the 15th August 1910 to the undersigned for admission to the examination and to furnish the information required below :—

1. Name (in full).
2. Name of father (in full).
3. Names of native village and district.
4. Name of school in which at present employed.
5. Designation and full address.
6. Name of University or Departmental examination he has passed and the year of passing.

Candidates are required to bring their University or other certificates with them to the examinations.

The examination will be mainly practical and will consist of—

(*a*) A practical examination in class control.
(*b*) A practical test of teaching ability.
(*c*) An oral examination in which some questions will be put on the Art of Teaching object-lessons, class management, organization and discipline.

CHINSURA,
The 12th July 1910.

H. LAMBERT,
Inspector of Schools, Burdwan Division.

OFFICE MEMORANDUM BY THE INSPECTOR OF SCHOOLS, BURDWAN DIVISION.

UNIVERSITY MATRICULATION EXAMINATION, 1911.

PRIVATE STUDENTS.

1. *Private students* are those who have not attended any recognized or unrecognized high English school for at least one year previous to the examination. The term "private students" includes *school masters*.

2. Private students must appear at the test examination of one of the following institutions on the dates mentioned against it :—

Those from the	At the test examination of	Date of commencement of test examination.
1	2	3
1. Howrah district ...	Howrah Zilla School ...	14th December 1910.
2. Bankura „ ...	Bankura ditto ...	12th „ „
3. Birbhum „ ...	Birbhum ditto ...	14th „ „
4. Midnapore „ ...	Midnapore Collegiate School ...	19th „ „
5. Hooghly „	Uttarpara Government School ...	14th „ „
	Hooghly Branch School ...	19th „ „
6. Burdwan „ ...	Burdwan Raj Collegiate School (with the Principal's permission).	19th „ „

Each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for the test examination. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners. No private student will be admitted to the test examination, unless he is accompanied, for the purpose of identification, by some person known to the Head master of the institution at which he appears.

3. Applications for permission to appear must be sent in time to reach *this office* not later than the 1st November. The information to be given and the documents to be appended in original are the following :—

(*a*) The name of the school in which the candidate last studied.
(*b*) The transfer certificate (in original) granted to the candidate by the Head master of the school in which he last read; or
(*c*) in the case of a candidate who previously appeared at the Entrance examination the Registrar's receipt (in original) for the fee paid.

(*d*) Age of the candidate. No candidate who has not completed the age of 16 years on the first day of the Matriculation examination will be allowed to appear at it.

(*e*) In the case of school masters, a certificate of good conduct from the Secretary or proprietor of the school in which the candidate is serving.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation examination held in March 1910.

4. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission *to the test examination.*

5 The Head master of an institution (one of those named above) should direct private students who satisfy the tests to appear before him in due time with their applications for admission to the Matriculation examination and to sign them in his presence. He will then grant the necessary certificates, and forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. *In no circumstances should the fee for the Matriculation examination be sent to this office.* It should be sent to the Registrar by the candidates themselves, together with the countersigned applicat ons.

7. Private students must understand that the test examination of any schools other than those named above will not be accepted by this office.

8. The address of each private student should be supplied to this office.

9. The Matriculation examination in 1911 will be held on the 1st March 1911 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 16th January 1911.

INTERMEDIATE AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* masters of English schools who have served as such for the full period of three academical years preceding the examination will be admitted to the above-mentioned examinations.

2. Candidates for the Intermediate and B.A. examinations must produce certificates of character and length of service from the Secretaries of their respective schools. Candidates for the B.A. examination must forward with their applications their F.A. certificates, and those for the Intermediate examination their Entrance certificates. Those candidates who have been admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, the candidates for the Intermediate and B.A. examinations are requested, in the first instance, to apply for and obtain the permission of the Senate. Their applications will not be accepted, unless they are supported by the permission of the Senate. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully filled in and submitted to this office *on or before the 8th January 1911*, together with other papers as mentioned in rules 2 and 3, after which no applications will be received.

5. The Intermediate and B.A. examinations in 1911 will be held on the 13th March 1911 and following days. The applications and fees for admission must reach the office of the Registrar on or before the 23rd January 1911.

CHINSURA,
The 25th July 1910.

H. LAMBERT,
Inspector of Schools, Burdwan Division.

NOTICE.

THE half-yearly examination for teachers of English subjects will be held by the undersigned at the Ram Mohan Roy Seminary, Bankipore. The examination for teachers of vernacular subjects will be held at the Patna Training School by the Head Master of that institution in the presence of the Additional Inspector of Schools. Both the examinations will be held on Tuesday, the 30th August 1010, from 11 A.M. to 4 P.M., and will be continued, if necessary, from day to day until finished.

The candidates for examination in English subjects must have passed the Entrance, and those in Vernacular subjects the Middle Vernacular, Examination. Experienced teachers holding no University qualification may be examined, provided special application is made.

The examination will consist of—

(*a*) A practical test of teaching ability.

(*b*) An oral examination on the Art of Teaching.

For the practical test candidates will be required to give one lesson on each of the following subjects:—

English candidates.	Vernacular candidates.
1. English Literature.	1. Hindi Literature.
2. Arithmetic or Algebra.	2. Arithmetic or Practical Geometry.
3. Indian History.	3. Indian History.

They must come prepared with full notes on the lessons they intend to give and should also bring stencilled or typed copies of the Reading lessons they wish to teach. The notes must specify—

(*a*) The aim of the lesson.
(*b*) The time it will take to give the lesson.
(*c*) The class to which it is to be given.
(*d*) The subject-matter.
(*e*) The method or methods to be adopted in imparting the subject-matter.

Candidates for English subjects are recommended to study "The Art of Teaching" by Salmon, "The Suggestive Handbook for practical School Method" by Cox and Macdonald, and "A New School Method" by Garlick. Candidates for vernacular subjects should read the "Senior and Junior Teachers' Manual" by Babu D. N. Neogy.

Applications must be made by the 20th August 1910, giving the following particulars:—

(1) Name in full; (2) Name of father; (3) Name of native village and district; (4) Name of school in which at present employed; (5) Number of years served as a teacher; (6) Year of passing the Entrance or Middle Vernacular Examination; (7) Designation and full address.

Candidates will be required to bring their University or other certificates with them to the examination.

BANKIPORE,
The 12th July 1910.

BHAGVATI SAHAY,
Offg. Inspector of Schools, Patna Division.

UNIVERSITY OF CALCUTTA.

[N.B.—Advertisements, Notices, &c., intended for insertion in this Part of the "Gazette" cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Notification A.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Puri will be put up for sale, at the office of the Collector of that district, on the 22nd August 1910, at 12 o'clock, for arrears of revenue and other demands, which by law are realizable as arrears of land revenue.

NOTE 1.—When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share.

NOTE 2.—After specifying in column 5 the share in each estate to be sold a note should be inserted as follows:—All other shares besides that specified will be excluded from the sale:—

Tauzi No.	Name of mahal and pargana.	Sadar jama of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

* Land Revenue. Estate under attachment by order of Judicial authority.

Balasore Collectorate, the 27th June 1910. M. M. RAY, Senior Deputy Collector in charge.

Notification A.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Cuttack will be put up for sale at the office of the Collector of that district on the 29th August 1910 at 12 noon for arrears of revenue and other demands which by law are realisable as arrears of land revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share.

Tauzi No.	Name of mahal and pargana.	Sadar jama of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

(877 –1)

NOTICE TO TENDERERS.

(SEE A. R. I, VOL. III, PARAS. 135 AND 136.)

SEALED TENDERS for the supply of the undermentioned supplies from 1st November 1910 to 31st March 1911 will be received by the Superintendent, Remount Depôt, Calcutta, up to 4 P.M. on the 19th August 1910.

II.—Forms of "Tenders" and Schedules" (I. A. F. 2120, 2121 and 2122) of the stores for the supply of which tenders are invited are obtainable on payment at the rate of Re. 1 per set on application in writing, and samples of the articles to be supplied can be inspected at the depôt godown, 25, Garden Reach, Calcutta, any day (Sundays and holidays excepted) between the hours of 10 A.M. and 2 P.M.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English, and should specify in words as well as in figures the rate at which each description of article named in them will be delivered Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ Receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds, as earnest money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs. 25, which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest money.

VI.—The approval or rejection of tenders rests with the Quartermaster-General in India, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 A.M. on Saturday, the 20th August 1910. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover, securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of grain and fodder" and addressed to the Superintendent, Calcutta Remount Depôt, Babugarh (U. P.), and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

C. F. TEMPLER, MAJOR,
Superintendent, Remount Depôt, Calcutta.

Camp Babugarh, the 23rd July 1910.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.

* Agents for sale of the Legislative Department publications.

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through the Local Government, to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agent to the particular Government under whose orders they were originally issued.

(The amounts within parentheses are for packing and postage.)

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 15th July, 1910.

No. 42.—The Governor General has been pleased, under rule 23 of the Rules for the Conduct of the Legislative Business of the Council of the Governor General, to order the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the Gazette of India in English, and the Bill and Statement of Objects and Reasons are accordingly hereby published for general information. It is proposed to introduce the Bill at a meeting of the Legislative Council of the Governor General to be held on Friday, the 5th August, 1910:

NO. 11 OF 1910.

A Bill to provide for the continuance of the Prevention of Seditious Meetings Act, 1907.

WHEREAS it is expedient to provide for the continuance of the Prevention of Seditious Meetings Act, 1907; It is hereby enacted as follows:— VI of 1907.

1. This Act may be called the Continuing Act, 1910. Short title.

2. The Prevention of Seditious Meetings Act, 1907, shall be continued until the thirty-first day of March 1911, and shall then expire, unless further continued. VI of 1907. Continuance of Act VI of 1907.

STATEMENT OF OBJECTS AND REASONS.

IN May 1907 the Governor General in Council was constrained, in the interests of law and order, to make and promulgate, under section 23 of the Indian Councils Act, 1861, Ordinance No. 1 of 1907 with the object of regulating the holding of meetings in the Punjab and Eastern Bengal and Assam. It was subsequently necessary, for the preservation of the peace and for the protection of the law-abiding members of the community, to incorporate in the general law a measure for the prevention of seditious meetings and to take power to bring its provisions into operation in any part of India as occasion might require. This measure was passed into law as Act VI of 1907 which received the assent of the Governor General in Council on the 1st November 1907, and as by section 9 its duration was limited to three years from the date of passing, it will cease to have operation after the 31st October 1910.

2. In November 1907 the Act was extended to the province of Eastern Bengal and Assam, where it was enforced in the district of Bakarganj. In January 1910 it was extended to Madras, Bombay, Bengal, the United Provinces, the Punjab and the Central Provinces and was enforced in March 1910 in three districts in Eastern Bengal and Assam and in June 1910 in one district in the Punjab. Where put into actual operation it has been effective in stopping several meetings, which, it was feared, if held, would have given rise to disturbances; and, even where it has not been enforced, its moral effect as a preventive measure has been invaluable. On the unanimous advice of Local Governments, the Government of India are convinced that the continuance of the Act for the present is essential to the preservation of the peace, and they propose that it should be continued in force up to the 31st March 1911.

3. The Bill now published has accordingly been prepared with the object of giving effect to this proposal.

The 11th July 1910. J. L. JENKINS.

R. SHEEPSHANKS,
Offg. Secretary to the Government of India.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JULY 27, 1910.

NOTICES TO MARINERS.

THE following Notices are published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 22nd July 1910.*

KOREA, WEST COAST.

(*1*) *Chemulpho approach—Position of White rock beacon.*

(*2*) *Chemulpho—Time and weather signals established.*

No. 302 (*first publication*).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 864 of 1910), are republished:—

(1) Chemulpho approach—

Position.—On south-western extreme of White rock, and not on rock situated at a distance of 2½ cables, S. 71° W., from White rock lighthouse, as now shown on the charts.

Lat. 37° 13½′ N., long. 126° 24¾′ E.

Description.—A red framework beacon surmounted by staff and globe.

(2) Chemulpho—

(*a*) Time signal—

Position.—At Observatory, situated at a distance of about 2¼ cables, N. 60° E., from Mepoguche summit.

Lat. 37° 28′ 45″ N., long. 126° 37′ 32″ E., on chart No. 1270.

Description.—A gun fired daily at noon, Korean standard time, corresponding to 3h. 30m. 0s. a.m. Greenwich mean time.

(*b*) Weather signals—

Position.—On red and white flagstaff, close westward of Observatory.

Description.—The signals are in accordance with the Japanese system, and are made daily at 3-0 P.M., Korean standard time, forecasting the weather for the ensuing 24 hours.

Remarks.—These signals are repeated from a red and white flagstaff, situated on the south-eastern slope of Kheum Wòlmi.

Caution.—Vessels of heavy draught should approach the outer anchorage with caution, as the mud dredged from the inner harbour is being deposited in the anchorage, at about one mile, W. S. W., from So Wolmi.

Variation.—5° W.

Charts affected.—No. 1270, Approaches to Chemulpho anchorage, with plan.
„ 1258, Approaches to Seoul (1).

Publications.—List of Time Signals, 1908, page 68.

Japan, Korea, &c., 1904, pages 57, 62; Revised Supplement, 1909.

Authority.—H. M. S. *Flora*, Hyd. Notes, Nos. 3 and 2 of 1910.

AFRICA, SOUTH COAST—Cape Colony.

Zitzikamma point—Obstruction southward of.

No. 303 (first publication),—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 881 of 1910), are republished:—

Position.—At a distance of about 3 miles S. 33° W., from Zitzikamma point.

Lat. 34° 12½′ S., long. 24° 28½′ E.

Depth.—The S.S. *Ardova* drawing about 21 feet of water struck on this obstruction which has been placed on the charts as having a depth of 3 fathoms over it, and marked "position approximate."

Remarks.—The presence of the obstruction or shoal was not indicated by kelp, discoloured water, or breakers.

Variation.—26° W.

Charts affected.—No. 2084, Mossel bay to Cape St. Francis.
„ 2095, Hondeklip bay to Port Natal.

Publication.—Africa Pilot, Part III, 1905, page 119.

Authority.—United States Hydrographic Office Notice, No. 1317 of 1910.

CHINA SEA—Banka, east coast.

List bay and approach—Existence of reefs.

No. 304 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 892 of 1910), are republished:—

(1) *Position.*—Near southern shore of bay, with Gunong Puak bearing S. 23° W., distant $2\frac{9}{10}$ miles, and Tanjong Lajang N. 41° W.

Gunong Puak, lat. 1° 54½′ S., long. 106° 10½′ E.

Depth.—1½ fathoms.

(2) *Position.*—Westward of Palmer reef, with Gunong Puak bearing N. 74° W., distant 11½ miles, and summit of Pulo Panjang, S. 19° W.

Depth.—1½ fathoms.

Variation.—1° E

Charts affected.—No. 2597, Banka strait.
„ 2149, Gaspar and Banka straits.
„ 941*a*, Eastern archipelago, western portion (2).

Publication.—China Sea Directory, Vol. I, 1906, pages 532, 535.

Authority.—Hague Notice, No. 1182 of 1910.

WESTERN AUSTRALIA, SOUTH-WEST COAST.

Cape Leeuwin—Wreck southward of.

No. 305 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 897 of 1910), are republished:—

Position.—In a depth of 16 fathoms, at a distance of $2\frac{7}{10}$ miles, S. 3° E., from Cape Leeuwin lighthouse.

Lighthouse, lat. 34° 22′ S., long. 115° 8′ E.

Description.—Wreck of the S.S. *Pericles* with one mast showing about 6 feet above water.
Remarks.—"Position approximate" has been placed on the charts against the position of this wreck.
Variation.—5° W.
Charts affected.—No. 1037, Flinders bay.
„ 413, Cape Mentelle to White point.
„ 1034, Cape Naturaliste to King George sound.
Publications.—Australia Directory, Vol. I, 1907, page 70.
Ditto, Vol. III, 1905, page 348.
Authority.—Fremantle Notice and "Shipping Gazette."

PACIFIC OCEAN—PHILIPPINE ISLANDS.

(1) *Mindoro island—Non-existence of reef eastward of* .

(2) *Tablas island, north-west coast—Amended details with regard to reef.*

No. 306 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 898 of 1910), are republished:—

(1) Mindoro island—

Position on charts.—At a distance of 1½ miles, S. 84° E., from Duyagan point.

Duyagan point, lat. 12° 38′ N., long. 121° 32¼′ E.

Description.—A reef with less than 6 feet of water over it.
Remarks.—A careful search for this reef having failed to find any trace of its existence, it has been expunged from the charts.

(2) Tablas island—

Position.—At a distance of about 3 miles, N. 70° E., from the position now shown on the charts, with the islet (Origon islet) off the north-west extreme of Tablas island, bearing S. 89° E., distant 2¼ miles.

Origon islet, lat. 12° 41′ N., long. 122° 7′ E.

Depth.—4¾ fathoms instead of 4 fathoms as given in a former Notice.
Description.—The reef is about three-quarters of a mile in extent.
Variation.—1° E.
Charts affected.—No. 2577, St. Bernardino strait to Mindoro strait.
„ 943, Molucca passage to Manila.
„ 2661*b*, China Sea, northern portion (2).
„ 1263, China Sea (2).
Publications.—Eastern Archipelago, Part I, 1902, pages 232, 236; Revised Supplement, 1909.
Notice to Mariners, No. 1152 of 1909. (*This office No. 347 of 1st September 1909.*)
Authority.—Manila Notices, Nos. 17 and 18 of 1910.

PHILIPPINE ISLANDS—MINDANAO, NORTH COAST.

Dapitan bay and approach—Information with regard to reefs.

No. 307 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 899 of 1910), are republished:—

1. Existence of reefs—

(*a*) *Position.*—In narrows of entrance to Port Talaguilong.

Entrance, lat. 8° 41½′ N., long. 123° 25½′ E.

Depth.—3½ fathoms.
Remarks.—The exact position of this reef is not given.

(*b*) *Position.*—Tagolo point lighthouse, bearing N. 49° E., distant 6 miles, and centre of Aligbay island, N. 42° W.

Tagolo point, lat. 8° 44′ N., long. 123° 22′ E.

Depth.—1½ fathoms.

2. Non-existence of reefs —

(*a*) *Position on charts.*—At a distance of about two miles northward from Aligbay island.

Aligbay island, lat. 8° 45′ N., long. 123° 13′ E.

Description.—An extensive reef with depths of from 7 to 9 fathoms over it.

(*b*) *Position on charts.*—At a distance of 5 miles, S. 20° E., from Aligbay island.

Description.—A 6-fathom reef.

Remarks.—These reefs have been expunged from the charts.

Variation.—1° E.

Charts affected.—No. 957, Plan of Dapitan bay 1 (*a*).
„ 2578, Sulu or Mindoro sea, eastern part.
„ 943, Molucca passage to Manila.
„ 1263, China sea.

Publication.—Eastern Archipelago, Part I, 1902, pages 321, 320.

Authority.—Manila Notice, No. 19 of 1910.

CHINA SEA—Tong King gulf.

Port Courbet approaches—Existence of rocks.

No. 808 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 902 of 1910), are republished :—

(*a*) *Position.*—At a distance of $1\frac{3}{10}$ cables, S. 32° E., from the summit of Orange island.

Orange island, lat. 20° 44¼′ N., long. 107° 9¾′ E.

Depth.—6½ fathoms.

(*b*) *Position.*—At a distance of 3 cables, S. 20° E., from the summit of L'Escabeau island.

L'Escabeau island, lat. 20° 44½′ N., long. 107° 10¾′ E.

Depth.—4½ fathoms.

Caution.—Vessels of heavy draught should pass southward of rocks (*a*) and (*b*), on which there may be less water than is given above.

(*c*) *Position.*—At a distance of 2½ cables, S. 49° W., from the summit of La Boule island.

La Boule island, lat. 20° 48¾′ N., 107° 10¾′ E.

Depth.—2½ fathoms.

(*d*) *Position.*—At a distance of 8¾ cables, S. 44° E., from the summit of La Boule island.

Depth.—2¾ fathoms.

(*e*) *Position.*—At a distance of $7\frac{4}{10}$ cables, N. 89° W., from the summit of Entreé island.

Entreé island, lat. 20° 50′ N., long. 107° 17¾′ E.

Depth.—2¾ fathoms.

(*f*) *Position.*—At a distance of $1\frac{3}{10}$ cables, S. 44° W., from the summit of Entreé island.

Depth.—Dries at low water.

Variation.—1° E.

Charts affected.—No. 1169, Approaches to Port Courbet.
„ 1965, Kua lakh to Kao tau shan islands.

Publication.—China Sea Directory, Vol. II, 1906, pages 485, 489.

Authority.—Paris Notices Nos. 1386, 1387, 1393 of 1910.

JAPAN—Kiusiu, east coast.

Hososhima ko—Light established.

No. 309 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 905 of 1910), are republished :—

Position.—On 331-foot summit of peninsula, southern side of entrance to harbour.

Lat. 32° 25′ 15″ N., long. 131° 41′ 15″ E., on chart No. 3375.

Date of exhibition.—On or about 10th May 1910.
Character.—A *fixed white* light.
Elevation.—340 feet.
Visibility.—6 miles, from the bearing S. 30° W., through west, and north, to N. 35° E.
Structure.—White hexagonal tower, 14 feet in height from base to centre of lantern.
Variation.—4° W.
Charts affected.—No. 3375, Plan of Hososhima ko.
„ 1648, Osumi kaikyo to O Shima.
„ 358, Western coasts of Kiusiu and Nipon.
„ 2412, Amoy to Nagasaki.
„ 2347, Nipon, Kiusiu, and Shikoku, &c.
Publications.—List of Lights, Part VI, 1910, page 181.

Japan, Korea, &c., 1904, page 304.

Authority.—Tokyo Notice, No. 1531, 4th May 1910.

JAPAN—Yezo, west coast.

Iwanai anchorage—Buoy temporarily established.

No. 310 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 906 of 1910), are republished :—

Position.—In a depth of 4½ fathoms, at outer end of breakwater under construction, with the Observation spot bearing S. 41° E., distant $5\frac{5}{10}$ cables.

Observation spot, lat. 42° 59½′ N., long. 140° 31′ E.

Description.—Red truncated conical buoy, with ball as topmark.
Variation.—6° W.
Charts affected.—No. 2975, Plan of Iwanai anchorage.
„ 3448, O shima to Furubira wan.
Publication.—Japan, Korea, &c., 1904, page 707.
Authority.—Tokyo Notice, No. 1530, 4th May 1910.

AUSTRALIA, EAST COAST—Inner route, Torres strait.

Beacon on V reef down.

No. 311 (first publication).—The Port Master, Brisbane, has given Notice (No. 5 of 1910) that the square Black Beacon on V reef is reported to be washed away. The beacon will be replaced as soon as practicable.

Chart affected No. 2919; Australia Directory, Vol. II.

AUSTRALIA, EAST COAST—Wide Bay Bar.

Alterations in north and south channels.

No. 312 (first publication).—The Port Master, Brisbane, has given Notice (No. 6 of 1910) that owing to the heavy weather recently experienced, the North Channel, Wide Bay, has undergone considerable alteration, and should only be used during fine weather, and then with the utmost caution. The greatest depth is 14 ft. at L.W.O.S., and the present directions for its use are as follows :—When crossing from seaward the square beacons on Hook Point must be kept open twice their own width to the northward until the triangular beacons on Inskip Point are open four times their width to the westward, when steer

for them, keeping them so until the line of leads for the South Channel is passed, when haul out and bring them into line; then proceed as formerly.

SOUTH CHANNEL.—This Channel carries a depth of 13 ft. 6 in. at L.W.O.S., but as it is inclined to work to the northward the line should be slightly opened in that direction. It has been decided to substitute, from and after the 12th July, a white light in lieu of the red light at present shown.

Strangers are warned not to use these Channels without the services of a Pilot, and Masters of Vessels are cautioned against their use except in fine weather and at about the time of high water.

Charts affected,—Nos. 1030 and 1068; Australia Directory, Vol. II.

INDIA, WEST—KATHIAWAR COAST.

Diu Harbour—Lights temporarily discontinued.

No. 313 (first publication).—The following particulars, etc, relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 46M of 1910), are republished:—

Subject.—During the months of June, July and August 1910, the following lights will be discontinued:—

Lights.—"Forte de Mar," "Courace," "Forte de Simbor" and "Forte de Barra" in Brancavara.

Chart affected.—No. 2736, Gulf of Kutch to Viziadrug, with plan of Diu Harbour.

Publications.—West Coast of India Pilot, 1909, page 283. List of Lights, Part VI, 1910, page 37.

Authority.—Captain of the Port of Marmagao.

INDIA, WEST—GOA COAST.

Marmagao Harbour—Buoy missing.

No. 314 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 47M of 1910), are republished:—

Subject.—The Black Buoy marking the rocks North of the entrance of Marmagao Port has been washed away. It will be replaced as soon as the weather permits.

Caution.—Mariners are warned not to enter the port without a Pilot until the buoy has been replaced in its position unless the lights of S. Jacinto and Chiquilim are distinctly visible.

Chart affected.—No. 492, Aguada to St. George Islands including Marmagao and Goa Roadstead.

Publication.—West Coast of India Pilot, 1909, page 171.

Authority.—Captain of the Port, Marmagao.

INDIA, WEST—GOA COAST.

Mandovi River Entrance—Lights temporarily discontinued.

No. 315 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 49M of 1910), are republished:—

Subject.—From the 15th June to 10th August 1910, the following lights will be discontinued:—

Lights.—"Campal," "Malim," "Reis Magos" and "Marca Tejo."

Remarks.—During this period the Life Boat Station will be removed to Vasco de Gama.

Chart affected.—No. 492, Aguada to St. George Islands, including Marmagao and Goa Roadstead.

Publications.—West Coast of India Pilot, 1909, pages 177 and 178.

List of Lights, Part VI, 1910, No. 257 (Remarks).

Authority.—Captain of the Port, Marmagao.

BAY OF BENGAL—Orissa coast.

Dhamra river—Depth.

No. 316 (first publication)—

Particulars.—The following reduced soundings were found in the Dhamra river:—

	Feet.	
South Channel Bar	10	
Course into "E" buoy W.S.W. Magnetic.		
"E" buoy	25	
"D" "	13	
"C" "	15	
Between "C" and "B" buoy ...	10	Chandipal Bar.
"B" buoy	16	
"A" "	10	
Juta Bar.	6	

Chart affected.—No. 754, Dhamra river.
Publication.—Bay of Bengal Pilot, 1901, page 203.
Authority.—Port Officer, Cuttack and Balasore Ports, Chandballi.

BAY OF BENGAL—Chittagong coast.

Karnafuli river—Depth of water in the channel.

No. 317 (first publication)—

Subject.—The following depth of water was found in the channel by soundings taken on the 15th July 1910:—

Descriptions—

	Feet.
Track No. I, outer bar—	
Disc on diamond	11½
Track No. II, inner bar—	
Disc on diamond	10½

Charts affected.—No. 84, Chittagong (Karnafuli) river.
" 859, Mutlah river to Elephant Point.
Publications.—Bay of Bengal Pilot, 1901, page 245, Revised Supplement, 1908.
Authority.—Port Officer, Chittagong.

BAY OF BENGAL—Burma coast—Rangoon river.

Hastings Shoal—Alteration in buoyage.

No. 318 (first publication)—

Position.—Monkey Point, lat. 16° 46′ N., long. 96° 11¾′ E.

(*a*) Position of buoy altered.

Lower Monkey Point black buoy has been moved to a position about 400 feet N. by W. ½ W. from its former position.

(*b*) New Track.

A new Track called No. 6 has been brought into use, the inward marks for which are the Time Ball in transit with the Port Commissioners' Flagstaff.

(*c*) The Track Board at Syriam has been altered to show the least water on the Tracks as follows:—

3. 4. 5. 6. Cut.

Variation.—1° E.
Chart affected.—No. 833, Rangoon river and approaches.
Publication.—Bay of Bengal Pilot, 1901, page 353.
Authority.—Deputy Conservator of the Port, Rangoon.

The 13th July 1910.

EASTERN ARCHIPELAGO—JAVA SEA.

Kangean group—Reef reported north-eastward of.

No. 296 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 845 of 1910), are republished :—

Position.—Lat. 6° 27½′ S., long. 116° 16′ E.

Depth.—5 to 7 fathoms (estimated).

Remarks.—The reef is marked by discoloured water. "Position approximate" has been placed against it on the charts.

Charts affected.—No. 1654, Island of Java, eastern portion.
„ 2637, Makassar strait, south part.
„ 941*b*, Eastern archipelago, western portion.

Publication.—Eastern Archipelago, Part II, 1904, page 164.

Authority.—Hague Notice, No. 1170 of 1910.

KOREA, EAST COAST—YUNG HING BAY.

Won san chin—Light established; Buoy withdrawn.

No. 297 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 849 of 1910), are republished :—

1. Light established :

Position.—On outer end of new breakwater, at a distance $2\frac{1}{10}$ cables, N. 75° W., from Chotoku to lighthouse.

Lat. 39° 10$\frac{3}{4}$′ N., long. 127° 26′ E.

Character.—An unwatched *flashing white* light *every three seconds*, showing thus :—

$$\frac{\text{Light,}}{\frac{3}{10}\text{ sec.}} \qquad \frac{\text{eclipse.}}{2\frac{1}{10}\text{ secs.}}$$

Elevation.—31 feet.

Visibility.—9 miles.

Structure.—White square framework beacon, 25 feet in height.

Remarks.—From the position given above, the breakwater curves in a north-westerly direction to a point on the shore situated close north-eastward of the 71-foot ▲.

2. Buoy withdrawn :

Position.—At a distance of 3 cables, N. 67° W., from Chotoku to lighthouse and about half a cable, north-westward, from the new light.

Description.—Conical buoy, painted in red and black horizontal stripes, with spherical topmark.

Variation.—6°. W.

Charts affected.—No. 3037, Port Lazaref and Yung hing bay, with plan.
„ 1316, Cape Durooh to Linden point.

Publications.—List of Lights, Part VI, 1910, page 175.

Japan, Korea, &c., 1904, page 136; Revised Supplement, 1909.

Authority.—Tokyo Notice, No. 1525, 26th April 1910.

CHINA SEA—BANKA STRAIT.

Palembang river light-vessel—Alteration in character of light.

No. 298 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 850 of 1910), are republished :—

Position.—Lat. 2° 12′ S., long. 104° 57′ E.

Alteration.—The fixed white light has been replaced by a light having the undermentioned characteristics.

Character.—A *flashing white* dioptric light *every six seconds*, showing thus :—

Flash,	eclipse.
2 secs.	4 secs.

Elevation.—75 feet.
Visibility.—14 miles.
Charts affected.—No. 3471, Banka strait.
„ 2597, Banka strait.
„ 2757, Banka strait to Singapore.
„ 2149, Banka and Gaspar straits.
Publications.—List of Lights, Part VI, 1910, No. 531.

China Sea Directory, Vol. I, 1906, page 462.

Authority.—Hague Notice, No. 1181 of 1910.

GULF OF ADEN—Somaliland.

Zeila roadstead—Information with regard to buoyage.

No. 299 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 855 of 1910), are republished :—

Position.—Aibat island, lat. 11° 29½′ N., long. 43° 27¼′ E.
Details.—(*a*) The black conical buoy marking the eastern edge of the reef extending from Aibat island has been withdrawn.

(*b*) The red can buoy with staff and cage, eastward of Sad ad din island, is situated at a distance of 9½ cables, N. 5° W., from former position, with the south-eastern extreme of Sad ad din island bearing S. 76° W., distant 2 miles.

(*c*) The black can buoy northward of Sea Gull shoal has a staff and cage.

Variation.—2° W.
Charts affected.—No. 919, Zeila roadstead.
„ 253, Jebel Jan to Shab Kulangarit.
„ 6*b*, Gulf of Aden, western portion.
„ 8*c*, Red sea, sheet 5.
Publication.—Red Sea and Gulf of Aden Pilot, 1908, pages 437, 436.
Authority.—H. M. S. *Alert*, Hyd. Note, No. 4 of 1910.

INDIA, WEST—Bombay coast.

Panwell Creek—Buoy realaid.

No. 300 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 45M. of 1910), are republished :—

Subject.—The Inner Bellapur Buoy has been relaid.
Chart affected.—No. 737, India, Sheet III. Arnala Island to Kundari Island.
Publications.—West Coast of India Pilot, 1909, page 236.

Bombay Notice to Mariners, No. 34M. of 1910. (*This Office No. 266 of 30th June 1910.*)

Authority.—Commissioner of Customs, Salt, Opium and Abkári.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide river—No. 5 Beacon.

No. 301 (second publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 9 of 1910) that No. 5 Beacon, Port Adelaide River, has been knocked down, and that pending its restoration a temporary White Light will be exhibited from one of the piles remaining in position.

This affects Admiralty chart No. 1750.

The 5th July 1910.

NEW ZEALAND—SOUTH ISLAND.

Otago harbour—Lights established.

No. 274 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 781 of 1910), are republished :—

(*a*) *Position.*—At northern end of shoal on eastern side of channel, abreast of Deborah bay, at a distance of three-quarters of a cable, North, from the existing beacon.

Lat. 45° 48½′ S., long. 170° 39¾′ E.

Character.—A *fixed white* light.
Structure.—Beacon, in course of erection (light temporarily shown from pile-driver).
Remarks.—The fixed white light formerly shown from the existing beacon on this shoal has been discontinued.

Vessels must pass northward of the new light-beacon.

(*b*) *Position.*—On eastern extreme of Goat island.

Lat. 45° 50′ S., long. 170° 39′ E.

Character.—A *fixed red* light.
Structure.—Description not stated.
Variation.—18° E.
Chart affected.—No. 2411, Otago harbour.
Publications.—List of Lights, Part VI, 1910, No. 1683, and page 309.

New Zealand Pilot, 1908, page 253.

Authority.—Wellington Notice, No. 84 of 1910.

NEW ZEALAND—SOUTH ISLAND, WEST COAST.

Dusky sound—Existence of a rock.

No. 275 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 782 of 1910), are republished :—

Position.—North-western extreme of Parrot island, N. 28° E., distant one mile, and summit of islet south-eastward of Parrot island, S. 85° E.

Parrot island, lat. 45° 42½′ S., long. 166° 32¾′ E.

Depth.—3 fathoms (estimated).
Remarks.—The rock has not yet been examined, and "Position approximate" has therefore been placed against it on the charts.
Variation.—18° E.
Charts affected.—No. 719, Dusky and Breaksea sounds.
„ 2589, Foveaux strait to River Awarua.
Publication.—New Zealand Pilot, 1908, page 299.
Authority.—Wellington Notice, No. 85 of 1910.

JAPAN—INLAND SEA.

Motoyama saki—Wreck south-westward of.

No. 276 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 783 of 1910), are republished :—

Position.—At a distance of $2\frac{1}{10}$ miles, S. 16° W., from Kariya summit (431 feet).

Lat. 33° 54′ 45″ N., long. 131° 9′ 16″ E., on chart No. 3225.

Description.—Wreck of the steamship *Takechiyo Maru*, with mast showing above water.
Variation.—4° W.
Charts affected.—No. 3225, Shimonoseki kaikyo to Maruyama saki.
„ 2875, Naikai (Seto uchi).
Publication.—Japan, Korea, &c., 1904, page 497.
Authority.—Tokyo Notice, No. 1518, 9th April 1910.

JAPAN, LIU KIU ISLANDS—Amami group.

Ogame reef—Amended depth.

No. 277 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 784 of 1910), are republished :—

Position.—At a distance of about 3 miles, south-westward, from Kikai sima.

Lat. 28° 14½′ N., long. 129° 53′ E.

Depth.—Three feet instead of 2½ fathoms as now shown on the charts.
Charts affected.—No. 873, Amami group.
„ 2412, Amoy to Nagasaki.
Publication.—Japan, Korea, etc., 1904, page 293.
Authority.—Tokyo Notice, No. 1516, 1st April 1910.

JAPAN, HONSHU, SOUTH COAST—Toba ko.

Kami shima—Lights and beacons established.

No. 278 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 785 of 1910), are republished:—

1. Lighthouse erected, with main and secondary lights—

Position.—At a distance of one cable, N. 78° E., from the ▲ on the summit of the island.

Lat. 34° 33′ N., long. 136° 58¾′ E.

(*a*) Main light—

Character.—A *revolving white* light, showing one flash every 15 seconds.
Elevation.—366 feet.
Visibility.—26 miles, from the bearing S. 35° E., through south and west, to N. 14° W.
Order.—3rd.
Power.—7,000 candles.
Structure.—Iron tower, upper part circular and lower part square, painted white.

(*b*) Secondary light—

Character.—A fixed white light.
Elevation.—347 feet.
Remarks.—This light will throw its rays on the shoalest part of Kodzukami sho.

2. Beacons erected—

Description.—Wooden posts, 42 feet in height, surmounted by iron topmarks and painted white.

	Topmark.		Bearing and distance from lighthouse.
(*a*)	Cone	...	... N. 20° W., $\frac{2}{3}$ cable.
(*b*)	Diamond	...	... N. 80° W., $\frac{1}{3}$ „
(*c*)	Diamond	...	... S.E., $\frac{1}{16}$ „
(*d*)	Diamond	...	... S. 26° W., $\frac{2}{3}$ „
(*e*)	Cone	...	... S. 11° E., $\frac{2}{3}$ „

Variation.—5° W.
Charts affected.—No. 3650, Toba ko.
„ 952, Owasi bay to Takamatsu no saki.
„ 996, Kii channel to Tokyo.
„ 2347, Nipon, Kiusiu, &c.
Publications.—List of Lights, Part VI, 1910, page 199.
Japan, Korea, &c., 1904, pages 345, 347.
Authority.—Tokyo Department of Communications Notice, No. 540, 20th April 1910.

STRAIT OF MALACCA—SELANGOR.

Klang strait—Lights established; colour of beacons altered.

No. 279 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 786 of 1910), are republished :—

1. Lights established—

(*a*) *Position.*—On Tanjong Sau (Deepwater point), at a distance of 330 feet N. 12° W., from Tanjong Sau ▲.

Lat. 3° 0′ N., long. 101° 20½′ E.

Description.—Two *fixed white* lights, placed vertically.
Elevation.—68 and 59 feet.
Visibility.—13 miles.
Structure.—Steel mast with yard and gaff, 100 feet in height.
The lights are exhibited from the gaff.
Order.—6th.

(*b*) *Position.*—On beacon 3½ cables north-westward of Labuan Garap.
Lat. 3° 0′ N., long. 101° 21¼′ E.

Character.—A *fixed red* light.
Order.—6th.

2. Beacons, with their topmarks, now painted entirely *white*—
Position.—(*a*) On First point, South Klang strait.
Lat. 2° 55¼′ N., long. 101° 16¾′ E.
(*b*) On Second point, South Klang strait.
Lat. 2° 58¼′ N., long. 101° 19′ E.
Variation.—1° E.
Charts affected.—No. 2153, Port Swettenham.
„ 3453, Klang strait and approaches.
Publications.—List of Lights, Part VI, 1910, page 77.
China Sea Directory, Vol. I, 1906, page 192; Supplement 1909.
Notice to Mariners, No. 1932 of 1909. (*This Office No. 16 of 13th January 1910.*)
Authority.—Harbour Master, Selangor, 21st April 1910.

EASTERN ARCHIPELAGO—Sulu sea.

Muligi islands—Shoals found south-westward of.

No. 280 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 788 of 1910), are republished:—

(*a*) *Position.*—Lat. 6° 50¾′ N., long. 118° 10¼′ E.
Depth.—5 fathoms.
Description.—The shoal extends for about a mile in a north-east and south-west direction, and has a breadth of 3 cables.
Remarks.—About 1½ miles to the south-westward of the above position, light-coloured water was observed, indicating a second shoal patch, of similar size and having the same general direction as the first. This second shoal is separated from the first by a deep channel; it has been marked "unexamined" on the charts.

(*b*) *Position.*—Lat. 6° 44′ N., long. 118° 11′ E.
Depth.—4½ fathoms.
Description.—The shoal extends for about 1¼ miles in a N.N.E. and S.S.W. direction, and has a breadth of 3 cables.
Remarks.—About 2 miles south-westward of the above position, another light-coloured patch was observed, apparently due to very shoal and broken water. It was of similar size and had the same general direction as the 4½-fathom shoal. It has been marked "unexamined" on the charts.
Charts affected.—No. 287, Gaya bay to Sandakan harbour.
„ 967, Palawan island.
„ 2576, Sulu archipelago and N.E. coast of Borneo.
„ 2660*b*, China sea, southern portion.
„ 1263, China sea.
Publication.—Eastern Archipelago, Part I, 1902, page 95.
Authority.—H.M.S. *Monmouth*, Hydrographical Note, No. 1 of 1910.

SOUTH PACIFIC OCEAN—Bismarck Archipelago.

Circular reef—Position of.

No. 281 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 789 of 1910), are republished:—

Position.—Reported to be situated about 10 miles, south-eastward, from the position shown on the charts.
Position on charts, south end of reef, lat. 3° 20′ S., long. 147° 39′ E.

Remarks.—A note to the above effect has been placed on the charts.
Caution.—It is possible that Circular reef may be in the position shown on the charts, with a hitherto unknown reef situated south-eastward of it. Circular reef should therefore be given a wide berth, pending a survey of the locality.
Variation.—5° E.
Charts affected.—No. 2766, North-east coast of New Guinea, &c.
„ 780, Pacific, south-west sheet.
„ 2759*a*, Australia, northern portion.
Publication.—Pacific Islands, Vol. I, 1908, page 381.
Authority.—Berlin Notice, No. 1336 of 1910.

AFRICA, SOUTH-EAST COAST—Natal.

Port Natal, South breakwater—Permanent light re-established.

No. 282 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 791 of 1910), are republished:—

Position.—Lat. 29° 52½′ S., long. 31° 1′ E.
Character.—A *fixed white* light, as described in the Admiralty List of Lights.
Date of re-establishment.—28th April 1910.
Remarks.—The provisional fixed white light, temporarily shown near the site of the lighthouse, has been discontinued.
Charts affected.—No. 2908, Port Natal entrance.
„ 643, Port Natal.
„ 2088, Umtamvuna river to Tugela river.
Publications.—List of Lights, Part VI, 1910, No. 31.
Africa Pilot, Part III, 1905, page 174.
Notice to Mariners, No. 521 of 1910. (*This office No. 187 of 27th April 1910.*)
Authority.—Port Captain, Port Natal, 6th May 1910.

SOUTH PACIFIC OCEAN, FIJI ISLANDS—Koro Island.

(*1*) *Vunaku point—Light discontinued.*

(*2*) *Alldin point—Light established.*

No. 283 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 792 of 1910), are republished:—

(1) Vunaku point—

Position.—Lat. 17° 22½′ S., long. 179° 25¾′ E.
Date of discontinuance.—1st June 1910.
Character.—A fixed red light.

(2) Alldin point—

Position.—Lat. 17° 23′ 30″ S., long. 179° 23′ 7″ E., on chart No. 382.
Date of establishment.—1st June 1910.
Character.—A *group flashing white* light, showing a group of *two* flashes *every ten seconds.*
Elevation.—194 feet.
Visibility.—17 miles.
Order.—4th. Dioptric.
Structure.—A white tower, 76 feet in height.
Charts affected.—No. 382, Vanua Levu.
„ 905, Suva harbour to Levuka.
„ 440, Fiji islands, eastern archipelago, N. portion.
„ 2691, Fiji islands.
„ 1829, Fiji islands to Samoa islands.
„ 780, Pacific, south-west sheet.
Publications.—List of Lights, Part VI, 1910, No. 1733, and Part VII, 1910, No. 938.

Pacific Islands, Vol. II, 1908, page 141.

Authority.—Board of Trade, 27th May 1910.

AUSTRALIA, NEW SOUTH WALES—Port Jackson.

Robertson point—Light established.

No. 284 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 797 of 1910), are republished :—

Position.—On the edge of the drying reef which extends from Robertson point, with Fort Denison light bearing S. 35° W., distant $5\frac{1}{10}$ cables, and Bradley head light, S. 74° E.

Lat. 33° 51½′ S., long. 151° 15′ E.

Date of establishment.—1st April 1910.

Character.—A *fixed white* light.

Elevation.—24 feet.

Structure.—A white, circular tower, 28 feet in height.

Variation.—10° E.

Charts affected.—No. 1069, Port Jackson.
„ 1020, Beecroft head to Port Jackson.
„ 1021, Port Jackson to Port Stevens.

Publications.—List of Lights, part VI, 1910, page 257.
Australia Directory, Vol. I, 1907, page 810.
„ „ „ II, 1907, page 64.

Authority.—H. M. Surveying vessel *Fantome*, 21st April 1910.

SUMATRA, NORTH-EAST COAST.

Langkat river—Alteration in character of front leading light.

No. 285 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 816 of 1910), are republished :—

Position.—On eastern side of entrance to river.

Lat. 4° 0′ N., long. 98° 29½′ E.

Alteration.—The fixed white front leading light has been replaced by a *group occulting white* light showing a group of *three* eclipses *every thirty seconds*, thus :—

Light,	eclipse,	light,	eclipse,	light,	eclipse.
15 secs.	3 secs.	3 secs.	3 secs.	3 secs.	3 secs.

Charts affected.—No. 1353, Diamond point to Pulo Berhala.
„ 1355, Malacca strait.
„ 2760, Acheh head to Chingkuk bay.

Publications.—List of Lights, Part VI, 1910, No. 410.

China Sea Directory, Vol. I, 1906, page 97.

Notice to Mariners, No, 784 of 1910. (*This office No. 248 of 15th June 1910.*)

Authority.—Hague Notice, No. 1135 of 1910.

CHINA SEA—Banka island.

Liat bay—Reef in approach.

No. 286 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 818 of 1910), are republished :—

Position.—Tanjong Laijang, bearing S. 67° W., distant $4\frac{8}{10}$ miles ; and Tanjong Raja eastern extreme, S. 3° W.

Lat. 1° 46½′ S., long. 106° 12½′ E.

Depth.—4¼ fathoms, coral bottom.

Remarks.—The reef is surrounded by depths of 10 and 11 fathoms.

Variation.—1° E.
Charts affected.—No. 2597, Banka strait.
„ 2149, Banka and Gaspar straits.
„ 941*a*, Eastern archipelago, western portion.
Publication.—China Sea Directory, Vol. I, 1906, page 535.
Authority.—Hague Notice, No. 1136 of 1910.

JAPAN, HONSHU, SOUTH COAST—Toba ko.

Irako channel—Kodzukami sho buoy discontinued.

No. 287 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 821 of 1910), are republished:—

Position.—On eastern side of shoal.

Lat. 34° 33½′ N., long. 136° 59½′ E.

Description.—Truncated conical buoy, with cylindrical topmark, painted black.
Charts affected—No. 3650, Toba ko.
„ 952, Owasi bay to Takamatsu no saki.
„ 996, Kii channel to Tokyo.
Publications.—Japan, Korea, &c., 1904, page 345; Revised Supplement, 1909.
Notice to Mariners, No. 785 of 1910. (*This office No. 278 of 5th July 1910.*)
Authority.—Tokyo Notice No. 1527 of 1910.

Erratum.

Irako saki—Shoals off.

The following shoals, mentioned in Revised Supplement, 1909, to Japan, Korea, &c. 1904, page 347, are omitted on certain copies of chart No. 3650:—

Position.—Irako zaki 505-foot hill, lat. 34° 35′ N., long. 137° 1½′ E.

Bearing and distance from Irako zaki 505-foot hill.	Depth.
(*a*) S. 60° W., 14¾ cables.	3½ fathoms.
(*b*) S. 64° W., 13 „	5 „
(*c*) S. 64° W., 12 „	4½ „

Variation.—5° W.

NEW ZEALAND—South island, west coast.

Dusky sound—Existence of a rock.

No. 288 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 830 of 1910), are republished:—

Position.—At a distance of 1½ cables, N. 25° E., from the north-western extreme of Indian island, and at a distance of about one cable from the coast of that island.

Indian island, lat. 45° 47′ S., long. 166° 36′ E

Depth.—2 fathoms, with from 6 to 17 fathoms between it and the island.
Remarks.—This rock is assumed to be that on which the S.S. *Waikare* struck.
Variation.—18° E.
Charts affected.—No. 719, Dusky and Breaksea sounds.
„ 2589, Foveaux strait to River Awarua.
Publication.—New Zealand Pilot, 1908, page 300.
Authority.—Wellington Notice, No. 32 of 1910.

CHINA SEA—RHIO STRAIT.

Pan reef—Light established.

No. 289 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 831 of 1910), are republished :—

Position.—On north-eastern end of reef.

Lat. 1° 9′ 48″ N., long. 104° 11′ 25″ E., on chart No. 2413.

Character.—An *occulting* red light *every three seconds*, showing thus :—

$$\frac{\text{Light, } 1\frac{1}{2} \text{ secs.}}{\text{eclipse, } 1\frac{1}{2} \text{ secs.}}$$

Visibility.—10 miles.

Structure.—White framework tower.

Remarks.—The light is unwatched.

Charts affected.—No. 2413, Rhio strait.
„ 2408, Singapore strait.
„ 2757, Banka strait to Singapore.
„ 3543, Approaches to Singapore.
„ 1355, Malacca strait.

Publications.—List of Lights, Part VI, 1910, No. 545*a*.
China Sea Directory, Vol. I, 1906, page 608.
Notice to Mariners, No. 1619 of 1909. (*This office No. 482 of 24th November 1909.*)

Authority.—Lloyd's, 4th June 1910.

CHINA—GULF OF PE CHIHLI.

Liau river entrance—Beacons omitted from chart.

No. 290 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 832 of 1910), are republished :—

(*a*) South-east beacon :

Position.—At a distance of $1\frac{1}{10}$ miles, S. 35° E., from Bar signal station.
Lat. 40° 39′ 4″ N., long. 122° 11′ 55″ E., on chart No. 2991.

Description.—Black beacon with black ball as topmark.

(*b*) North-west beacon :

Position.—At a distance of $2\frac{3}{4}$ miles, N. 36° W., from Bar signal station.

Lat. 40° 42′ 26″ N., long. 122° 8′ 5″ E. on chart No. 2991.

Description.—Black beacon with black ball as topmark.

Remarks.—The above beacons were recently removed from the chart, as they were assumed to be for surveying purposes only; they should now be replaced, as they are intended as aids to navigation.

Note.—A new edition of chart No. 2894, which is also affected by this Notice, will very shortly be issued.

Variation.—5° W.

Chart affected.—No. 2991, Entrance to Liau river.

Publication.—China Sea Directory, Vol. III, 1904, page 645.

Authority.—Hydrographic Office.

BORNEO, SOUTH COAST.

(*1*) *Cape Selatan—Non-existence of shoals near.*

(*2*) *Cape Selatan—Non-existence of wreck near.*

No. 291 (third publication).—The following particulars, etc., relative to the above issued by the British Admiralty (No. 836 of 1910), are republished :—

(1) Cape Selatan.

(*a*) *Position.*—At a distance of 6 miles, N. 87° W., from Cape Selatan lighthouse.
Lighthouse, lat. 4° 9½′ S., long. 114° 40½′ E.
Depth.—$2\frac{1}{2}$ fathoms.

(*b*) *Position.*—At a distance of 7 miles, S. 44° E., from cape Selatan lighthouse.
Depth.—4 fathoms. (Reported by the S.S. *Petriana*, 1902.)
Remarks.—A careful search for these dangers having failed to find any trace of their existence, they have been expunged from the charts.

(2) Cape Selatan.

Position.—At a distance of 10½ miles, N. 45° W., from Cape Selatan lighthouse.
Description.—Wreck of the schooner *Tegal.*
Variation.—1° E.
Charts affected.—No. 941*b*, Eastern archipelago, western portion.
„ 2759*a*, Australia, northern portion (1*a*).
Publication.—Eastern Archipelago, Part II, 1904, page 266; Revised Supplement, 1909.
Authority.—Netherlands Hydrographer, 13th May 1910.

JAPAN—Inland-Sea, Hiroshima Wan.

Kure approach—Caution with regard to submarine vessels.

No. 292 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty No. 843 of 1910), are republished:—

Position.—Kure ko, lat. 34° 14′ N., long. 132° 32′ E.

Caution.

Submarine vessels are constantly manœuvring in the approaches to the Naval port of Kure, and it being difficult to discern them, vessels bound to and from Kure should keep a good lookout, and pay attention to the undermentioned signals and regulations.

1. When submarine vessels are manœuvring, they will be escorted by a vessel flying 2 large red flags, one above the other and about 2 feet apart. If necessary, the bearing from this escort-vessel of the submarine vessel or vessels will be indicated by the International code of signals.

2. Vessels sighting the escort-vessel, should give her a berth of at least one mile. If necessary to approach her within this distance, vessels should stop their engines and ask permission by the International code or other means, and on obtaining permission should approach the escort-vessel at slow speed, keeping a good lookout, and after receiving information from her as to the dangerous area, they should proceed cautiously.

3. Submarine vessels will avoid the usual route of vessels, and vessels should also avoid getting out of the usual route.

Chart affected.—No. 3469, Hiroshima wan.
Publication.—Japan, Korea, &c., 1904, page 486.
Authority.—Tokyo Notice, No. 1522, 9th April 1910.

INDIA, WEST—Goa coast.

Marmagao entrance—Rock reported.

No. 293 (third publication).—

Subject.—The Master of the S.S. *Bahadur* reports having touched on a rock with 4 fathoms over it at the entrance to Marmagao.

Position.—Marmagao Breakwater light, lat. 15° 25′ N., long. 73° 47′ E.

The shoal is 3½ cables N. 43° W. (mag.) from the light shown at the end of Breakwater as given in Admiralty Chart No. 492 corrected up to June 1906 or half way between the Black buoy marking Marmagao reef and the 5½ fathoms sounding which is 1½ cables E. by S. of the same buoy.

Charts affected.—No. 492, Aguada to St. George islands, including Marmagao and Goa roadstead.

Talayi—Temporary removal of buoy.

No. 294 (third publication).—

Subject.—The small spherical buoy marking the pinnacle rock off the sub-port of Talayi has been removed and will be replaced about the 1st October 1910.

Charts affected.—No. 2737, Viziadrug to Cochin.
,, 827, Vengurla to Cape Comorin.
Publication.—West Coast of India Pilot, 5th edition, 1909, page 142.
Authority.—Presidency Port Officer, Madras, Notice No. 14 of 1910.

AUSTRALIA, SOUTH—KANGAROO ISLAND.

American river—Beacons; Position of buoy altered.

No. 295 (third publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 8 of 1910) that the channel in American River from the mouth up to Pelican Lagoon has been marked on the starboard hand by three (3) red beacons with circular heads, and on the port hand by eleven (11) black beacons with diamond-shaped heads.

The inner chequered buoy (red and black) has been removed and placed above No. 5 black beacon, in about five (5) feet at L.W.S., to mark the deepest water on the inner bar.

Approximate position of outer black beacon—Lat 35° 47¼′ S., long. 135° 47⅓′ E.

This affects Admiralty charts Nos. 2389A and 3641.

RULES FOR THE GRANT OF MEDICAL CERTIFICATES.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 23rd July 1910.

RESOLUTION—No. 1096Medl.

READ—

Government of Bengal Resolution No. 3399 Medl., dated the 30th June 1897, and Circular order No. 36Medl. of the 2nd August 1897, laying down rules for the grant of medical certificates to officers in Government service.

Also a letter from the Home Department of the Government of India, No. 621, dated the 7th June 1910, empowering Heads of offices to dispense in certain cases with the countersignature now required by Article 833 of the Civil Service Regulations.

The great advance which has been made in medical education in India during the last 20 years led the Government of India to consider whether certificates granted to non-gazetted officers of Government by selected private practitioners of repute, possessing the higher degrees granted by recognised European or Indian Universities or Colleges, could not be accepted without countersignature by a Presidency Surgeon or by the officer in chief medical charge of the district as required by Articles 833 and 834 of the Civil Service Regulations. They have accordingly decided to relax the existing rules by making the addition, noted in the margin, to Article 833 of the Civil Service Regulations.

"Subject, however, to any orders on the subject issued by the Local Governments, the Head of the office may, at his discretion, accept a certificate from the applicant's medical attendant without such countersignature."

In accordance with the provisions of this rule, the Lieutenant-Governor now directs that countersignature may be dispensed with in the case of certificates given by the medical practitioners whose names appear in the "List of qualified medical practitioners in Bengal" which is published triennially by the Inspector-General of Civil Hospitals, Bengal. In the case of certificates given by medical practitioners whose names do not appear in this list, countersignature should be required as hitherto.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Heads of Departments for information and communication to officers subordinate to them.

Ordered also that a copy of this Resolution be forwarded to all Departments under this Government for information.

Ordered also that a copy of this Resolution be submitted to the Government of India, Home Department, for information.

Ordered also that this Resolution be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

H. L. STEPHENSON,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION OF THE INCOME-TAX DEPARTMENT IN BENGAL DURING THE YEAR 1909-10.

NOTIFICATION.

No. 455S.R.—The 23rd July 1910.—The following Resolution and Returns of the Board of Revenue, L. P., on the working of the Income-tax Department in Bengal for the year 1909-10 are published for general information.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

BOARD OF REVENUE, L. P.

MISC. REV. DEPARTMENT.

INCOME-TAX BRANCH.

No. 3513B.

RESOLUTION.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 4th July 1910.

1. The receipts, charges and net revenue of the years 1908-09 and 1909-10 are compared below :—

Year.	Receipts.	Charges.	Percentage of charges.	Net revenue.
	Rs.	Rs.		Rs.
1909-10	55,96,282	1,71,484	3·1	54,24,798
1908-09	56,50,644	1,72,236	3	54,78,408

The net revenue showed a decrease of 1 per cent., as compared with an increase of 8·9 per cent. in 1908-09.

2. The total collections on account of tax during the year showed a decrease of Rs. 91,971 or 1·7 per cent., in comparison with the previous year owing to the falling off under Parts II and IV, amounting to Rs. 47,538 and Rs. 75,621 or 3·9 and 2·6 per cent., respectively. This result was chiefly due to collections in Calcutta under these parts having fallen from Rs. 11,85,136 and Rs. 14,51,551 to Rs. 11,41,638 and Rs. 13,61,596 or 3·7 and 6·2 per cent., respectively. The depression in the coal and jute trades was responsible for the decline of the revenue under Part II; and contraction of business in piece-goods, gunny, shellac and hides reduced the receipts under Part IV.

The total number of assessees in the lowest class of Part IV (that is, those assessed on an income of Rs. 1,000 but less than Rs. 1,250) was 10,947 against 10,511 of the preceding year, showing an increase of 436 or 4·1 per cent.

3. The final number of assessees for 1909-10 shows an increase of 1,398 or 3 per cent. and the final demand a decrease of Rs. 93,742 or 1·8 per cent. as compared with an increase of 1·9 and 10·2 per cent., respectively, during the previous year. There was a decrease of Rs. 1,34,107 or 3·7 per cent. in the final demand in Calcutta during the year under report—a result which was mainly due to depression of business as explained in the above paragraph. Outside Calcutta the decrease in the final demand was largest in the district of Burdwan, where it fell from Rs. 1,49,706 in 1908-09 to Rs. 1,40,142 during the year under report owing partly to the transfer of certain assessments to Calcutta and partly to depression in the coal industry.

4. The percentage of collections on the final demand on account of tax for the year was 95·6, as against 95·7 during the year 1908-09. In the districts of Bankura, Murshidabad, Jessore, Patna, Gaya and Palamau the entire demand was collected during the year. The prescribed standard of 95 per cent. was attained in all other districts except Manbhum, Shahabad, Midnapore and Bhagalpur, where the percentages were 94·7, 86·7, 82·5 and 77·8, respectively. In Manbhum the collection fell short of the prescribed standard owing to the fact that a sum of Rs. 4,388 was assessed too late to be realised during the year. In Shahabad the decrease is attributed to (*a*) non-payment of tax by several new assessees discovered and assessed during the last quarter of the year, (*b*) non-realization of amounts due from some of the assessees whose objections were disposed of late in the year, and (*c*) non-realization of tax in pending objection cases and in cases in which the whereabouts of some of the assessees were not traceable. In Midnapore the decrease was due partly to a large number of objections remaining undisposed of at the close of the year and partly to delay in making assessments. The Commissioner has taken proper notice of the delays which occurred in this district. As regards Bhagalpur the low percentage is ascribed to (1) the high prices of food-grains which affected the business and income of most of the assessees, and (2) hindrance of completion of assessment work owing to high floods of the river Kosi.

5. The total cost of assessment and collection during the year shows a decrease of Rs. 752 or ·4 per cent. in comparison with the previous year, owing chiefly to the reduction of grain compensation allowance.

RETURN No. I.

Statement showing the collections of the Tax under Act II of 1886, as amended by Act XI of 1903, from Salaries, Pensions, Annuities and Gratuities paid by the Government in the year 1909-10.

RESOLUTION ON THE ADMINISTRATION OF THE STAMP DEPARTMENT IN BENGAL DURING THE YEAR 1909-10.

NOTIFICATION.

No. 458S.R.—The 23rd July 1910.—The following Resolution by the Board of Revenue, L. P., regarding the administration of the Stamp Department in Bengal during the year 1909-10, together with an abstract of the receipts and charges for the year, is published for general information.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

BOARD OF REVENUE, L. P.

MISC. REVENUE DEPARTMENT.

STAMPS BRANCH.

No. 367B.

RESOLUTION.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I., I.C.S.

Dated Calcutta, the 8th July 1910.

THE annual statistics of the Stamp Department for the year 1909-10 have been compiled in the prescribed Statements I to VII.

2. The figures of general receipts and charges for the year 1909-10 obtained from the Accountant-General have not as yet been finally verified, and are, therefore, liable to subsequent adjustment.

3 The revenue under the Stamp and Court-fees Acts amounted to Rs. 1,51 40,941 against Rs. 1,51,29,226* in the preceding year, showing an increase of Rs. 11,715. The increase of revenue which was obtained occurred entirely in court-fee stamps, and there was a decrease in the revenue collected under the Indian Stamp Act. The figures adopted in the revised budget estimate for the year were Rs. 1,56,00,000, including the sale proceeds of unified stamps credited to non-postal revenues; and this estimate will be slightly exceeded on credit of a similar sum to that credited for 1908-09. The Accountant-General will allow such credit hereafter under the orders of the Government of India, Financial Department, No. 1662A., dated the 28th March 1906.

* Exclusive of Rs. 4,70,000 on account of sale proceeds of unified stamps credited to non-postal revenues.

The total charges during the year amounted to Rs. 4,01,686, the increase of 7·0 per cent., over the figures of 1908-09 being under "Refunds."

4. The sale-proceeds from court-fee stamps, excluding stamps for copies, rose from Rs. 1,00,51,023 to Rs. 1,03,51,335 that is by Rs. 3,00,312. The greater portion of the increase was contributed by the districts of Cuttack (Rs. 64,974), Patna (Rs. 57,821), Midnapore (Rs. 41,047), 24-Parganas (Rs. 24,849), Ranchi (Rs. 24,232), Hooghly (Rs. 23,423), Manbhum (Rs. 21,847), Puri (Rs. 18,542), Shahabad (Rs. 16,197), Saran (Rs. 14,454), and the Sonthal Parganas (Rs. 14,263). The larger revenue in Cuttack is attributed chiefly to the increase in the number of rent-suits and to the fact that a large number of copies of documents were taken on account of revision of settlement operations going on in the district. The increase in Patna was mainly due to the cadastral survey which is proceeding in that district. The advance in Ranchi is also attributed to the increase of litigation during the course of survey-settlement operations. The increase in other districts was due to a rise in the number and value of civil suits and to the institution of a greater number of cases under the Probate and Succession Acts. The Commissioner

of Burdwan states that the increase in the districts of his Division "is at bottom due to the improved agricultural conditions of the year leading to increased litigation."

The largest decrease viz, Rs. 41,668, occurred in Darbhanga where there was a decrease of litigation.

5. There was a net decrease of Rs. 3,41,897 in the receipts from the sale of non-judicial stamps, due to the decline in receipts under the heads of impressed stamps, impressed labels or special adhesive stamps, share transfer stamps and forms for cheques or receipts. In Calcutta there was a marked falling off of revenue amounting to Rs. 1,68,118, in comparison with the figures of the previous year. The decrease was most marked in the case of impressed labels or special adhesive stamps and share transfer stamps, and was due to the continued general depression in trade, particularly in jute, coal and cotton, which resulted in stagnation of business in the share market as well. The revenue derived from the sale of impressed stamps amounted to Rs. 23,99,721 in comparison with Rs. 25,49,818 in the preceding year. The Commissioner of Burdwan reports that the improved agricultural conditions of the year led to a falling off in the number of bonds executed.

6. Two thousand nine-hundred and ninety-nine vendors were licensed to sell judicial and non-judicial stamps during the year, or one hundred and two more than in the previous year. An explanation of the large increase in the number of vendors in Midnapore will be called for. The number of stamp vendors in the Tirhut Division fell from 280 to 263. The reduction is attributed to the discontinuance of discount on postage stamps. The discount allowed during the year fell short of the amount of the preceding year by Rs. 4,203 in consequence of the fall in the sale of non-judicial stamps.

7. The total number of cases in which deficient duty and penalty were levied by the courts during the year shows an increase of 160, and there was an increase of Rs. 2,032 in the duty and penalty realised in comparison with the realisations of the preceding year. There was a decrease of 325 in the cases decided and of Rs. 22,003 in the duty and penalty realised by Revenue Officers as compared with the figures of the previous year. The decrease in the amount of duty and penalty occurred mainly in Calcutta, Murshidabad, Birbhum and Manbhum. In Calcutta the falling off was due to fewer transactions and to the transactions being of smaller value. In Birbhum the decrease was due to the fact that in the previous year Rs. 1,140 were realised as duty and penalty in a single important case. The decrease in Manbhum is attributed to greater caution exercised by the executants in drawing up deeds.

8. The number of cases instituted for the infringement of the provisions of the Stamp Act was 1,996 in which proceedings were taken against 1,991 persons as compared with 2,186 cases and 2,195 persons in the preceding year. The fines imposed, including composition money, amounted to Rs. 6,679 against Rs. 9,562 in the preceding year. In Calcutta there was a decrease in the number of cases instituted and the amount of composition money levied as compared with the previous year. The decrease in the amount of fines imposed in these cases was due to a larger proportion of petty cases being brought up in which the stamps affixed had not been effectually cancelled in accordance with the requirements of section 12 of the Indian Stamp Act, 1899. As these offences were merely technical omissions, small penalties were imposed.

The amount distributed in rewards was Rs. 6,822 against Rs. 8,081 in the preceding year. The number of persons convicted was 1,970, and the average fine imposed was Rs. 3-7. The amount disbursed in Calcutta was Rs 6,798, against Rs. 7,400 in the preceding year. The decrease in the payment of rewards was due to the smaller number of cases instituted.

9. In 79·3 per cent. of the cases of valuation of estates for the issue of probates or letters of administration reported during the year enquiries were made. The corresponding percentage of the previous year was 79·5. The proportion borne by the deficit court-fees realised to the amount originally paid was 10·9 per cent. as compared with 9·3 per cent. in the previous year.

STATEMENT I.—*Abstract of receipts and charges for the year ending the 31st March 1910.*

	Receipts.	Charges.				Net receipt.	Cost of stamps and plain paper supplied from central depôt.
		Discount and establishment for sale of stamps.	Refunds.	Other charges.	Total.		
1	2	3	4	5	6	7	8

Total of previous year ...	1,55,99,226†	2,09,339	1,65,786	26,798	3,75,125	1,52,24,091	2,25,639

* Includes Rs. 15,707 on account of district establishment, Rs. 6,822 on account of rewards to informers in stamp cases, and Rs 3,602 on account of contingencies.

† Includes Rs. 4,70,000 on account of share of sale proceeds of unified stamps credited to non-postal revenues.

ANNUAL REPORT ON THE GOVERNMENT CINCHONA PLANTATION AND FACTORY IN BENGAL FOR THE YEAR 1909-10.

NOTIFICATION.

No. 1105Medl.—The 23rd July 1910.—The following extracts (paragraphs 1 to 12) from the Annual Report on the Government Cinchona Plantation and Factory in Bengal for the year 1909-10 are published for general information.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

FORTY-EIGHTH ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATION AND FACTORY IN BENGAL FOR THE YEAR 1909-10.

Weather and General.—Weather conditions were practically normal throughout the year. On Mungpoo the practically average amount of 123·33 inches of rain fell, spread over 161 days, the heaviest fall being 5·76 inches. On Munsong 101·82 inches fell scattered over 178 days, the heaviest fall being 4·77 inches. The precipitation on Munsong is considerably above the average of 87·65 inches for the last eight years.

2. *Plantations and Crop.*—On Mungpoo the area replanted with timber trees, fuel trees and trees of commercial value generally, was considerably less than usual. This is due to the fact that the extraordinary drought of the previous year—referred to in paragraph 1 of last year's report—was fatal to a large proportion of the young plants planted out in 1908-09. The vacancies so caused had all first to be filled up so that only an extension of 150 acres was possible, of which 100 were of *Quercus semiserrata* Roxb., *Betula cylindrostachys* Gamble and *Schima Wallichii* Choisy., and 50 of *Cedrela Toona* Roxb. A fairly comprehensive list containing the names of over 70 species of trees suitable for replanting has been drawn up for future guidance. Cinchona extensions were solely on the Munsong Plantation. There two new divisions—Kashyem and Burmiak—have begun to be opened out, flanking the original—and now central—Munsong division, the planting of which has been completed. One hundred acres were planted up, being 80 acres on Kashyem with 74,600 *Cinchona Ledgeriana* trees and 51,700 *C. officinalis* and 20 acres on Burmiak with 24,200 *C. Ledgeriana*.

The total number of Cinchona plants on both Mungpoo and Munsong plantations on the 31st March 1910 was 2,654,900, showing a decrease of 303,804 since last year. The decrease is much less than that of last year but due to the same cause. Of the total number of plants on both plantations 2,172,926 were *C. Ledgeriana*, the number on Munsong 1,184,374 now exceeding for the first time that on Mungpoo 988,552; the remainder consisted chiefly of hybrid and *C. succirubra* on Mungpoo and 51,700 *C. officinalis* on the Kashyem division of Munsong. The total bark harvest from both plantations amounted to 326,560 lbs. of dried bark, showing a decrease of 125,208 lbs. from last year. It was pointed out in last year's report that such decrease was for the time being inevitable. Of the total harvest 252,156 lbs. were *C. Ledgeriana* mostly from Mungpoo, and the remainder of *C. succirubra* and hybrid from Mungpoo. The total number of plants uprooted was 454,304. This gives an average of about 11½ ounces of dried bark per plant uprooted. This is by no means a very satisfactory yield and indicates fairly well the decline of Mungpoo as a cinchona plantation.

Munsong plantation taken all round has an excellent appearance, as the photographs that have been separately submitted to Government show, and its condition testifies to the good work of Mr. Parkes, the Manager, and the Assistant Managers, Messrs. Kennedy and Green. Apart from the general work of opening out the new divisions, a propagating house has been built for proper care of the hybrid No. 2 cuttings that have been found to succumb to treatment in frames. The results of analysis of the hybrid No. 2 already in stock at Munsong are very satisfactory. Out of 66 samples analysed practically half showed over 5 per cent. of quinine, the percentage ranging up to over 9 per cent. A serviceable cart road leading from the Kalimpong-Pedong road has been made right into the plantation. The construction of this road has been a matter of some difficulty owing to the broken and precipitous character of much of the land traversed, but Mr. Kennedy who has done

excellent work in connection with it had practically finished it at the end of the year. Careful measurements are being made and registered of the growth of about fifty representative trees on Munsong, so as to obtain data as to their rate of increase in size and consequent yield of bark. Although Mungpoo plantation is still for the greater part a melancholy sight the effect of the last two or three years *reboisement* operations is becoming apparent on the lower slopes and the present Manager, Mr. P. T. Russell, is energetically extending this work. The propagation of ipecacuanha has been resumed and 2,600 plants have been added to the stock already in the nurseries.

3. *Factory and outturn.*—The financial stringency that prevailed during the past year made it impossible for the factory to have at its disposal sufficient funds to purchase enough bark to supplement the present meagre plantation supply up to the maximum capacity of the factory, and the expense of working increased in accordance with the conditions. Instead of 938,800 lbs., the quantity worked up last year, only 468,461 lbs. of bark were available, and the production of quinine sulphate fell from 36,619 lbs.—last year's amount—to 23,097¼ lbs. Of the total quantity of bark worked up, 232,461 lbs. were purchased Java Ledger that yielded 14,424 lbs., or 6·28 per cent. of quinine sulphate; 236,000 lbs. were plantation bark that yielded 8,673 lbs., or 3·67 per cent. of quinine sulphate. The results from plantation bark continue to improve as last year's percentage was 3·59. In addition to quinine sulphate 2,390 lbs. of cinchona febrifuge were produced and 220½ lbs. of residual alkaloids collected. The total factory outturn was 25,487¼ lbs., against a total of 43,901 lbs. 1½ oz. for the previous year. This depression is, however, but temporary, and next year's results should show a decided recovery.

In addition to the ordinary work of the factory, the equipment of the latter has been further improved during the year by the installation of two large vats for the more effective mixing by air currents of the quinine bearing oil and acid in the extraction of the crude quinine; by the erection of a large digesting vat provided with a steam jacket instead of steam coils and capable of dealing with 1,000 pounds of bark at one operation; and by the addition of a bandsaw for cutting timber for packing boxes. Quinine tannate of excellent appearance has been experimentally manufactured, so that in case a demand should arise for it, arrangements could be made for its production on a commercial scale. Messrs. Shaw and Richardson continue their efforts to improve and extend the production of the factory and have been engaged during the year and still are in experiments with a view to reducing the cost of manufacture.

4. *General charges.*—The charges against the department as a whole amounted to Rs. 25,657-0-2, as against Rs. 19,543-8-9 in the previous year. The increase is due partly to the pay of the Personal Assistant and partly to capital expenditure on extensions at Munsong being greater.

5. *Plantation charges.*—The charges against both plantations amounted to Rs. 87,461-15-9, being Rs. 6,544-8-2 less than last year's expenditure. Of the total Rs. 57,173-7 were spent on Mungpoo and Rs. 30,288-8-9 on Munsong. Against the total plantation charges has to be placed the amount of 326,560 lbs. of bark, valued at Rs. 57,044-15-8.

6. *Factory charges.*—The total working expenses of the factory amounted to Rs 91,235-15-4. The value of the 468,461 lbs. of bark worked up during the year is estimated at Rs. 1,07,010-10-9. The amount actually spent on the manufacture and packing of the quinine and cinchona febrifuge after subtracting the value of stock and the money expended on bark purchase and factory improvement was Rs. 61,434, or Rs. 2-8 per pound of quinine sulphate and Re. 1-4 per pound of cinchona febrifuge. The purchased bark worked up in the factory cost—delivered at the factory—Rs. 76,610 and yielded 14,424 lbs. quinine sulphate. This is practically Rs. 5-5 per lb., and the total cost of the quinine sulphate in the purchased bark was therefore Rs. 7-13 per lb. The average unit rate for bark at the Amsterdam auctions during 1909-10 was 3·8 Dutch cents. Valuing the quinine sulphate—3·67 per cent.—in the plantation bark on this basis the result comes out as Rs. 3-13 per lb. and the total cost of manufacture of quinine sulphate from plantation bark as Rs. 6-5 per lb. The difference is considerably in favour of the plantation bark, poor as it is compared with the purchased bark. The small quantity of purchased bark used has to some extent made the extraction of the quinine from it more expensive than if a large quantity had been purchased, but a more potent

cause is likely to be found in the expense of transport due to the lack of facilities for easy conveyance of bark and stores in bulk to the factory. Thus while Rs. 60,000 was spent on the purchase and freight of 199,961 lbs. of bark from Amsterdam to Calcutta, nearly Rs. 1,600 was paid on freight from Calcutta to Siliguri, a distance of 328 miles, while practically Rs. 4,000 had to be expended in conveying the bark from Siliguri to Mungpoo, a distance of only 51½ miles. The feasibility of rendering transport from the Tista valley road up to the factory more expeditious and less expensive has been and still is under consideration, but sufficient data are not yet available to enable definite proposals to be submitted. It is hoped, however, to be possible to submit such proposals during 1910-11.

7. *Issue of manufactured articles.*—The sale of quinine sulphate rose from 18,585 lbs. 15½ oz.—last year's quantity—to 23,899¼ lbs., showing an increased distribution of 5,313 lbs. 4½ oz. Cinchona febrifuge on the other hand declined from 3,408¼ to 2,592¾ lbs., being a decrease of 815½ lbs. Only 24¾ lbs. of Cinchonidine Sulphate were sold. There has been a general increase of demand except from Government officers, dispensaries and medical missions, but the bulk of the increase is due to the expansion of the pice-packet system.

8. *Expenditure and Receipts.*—The total budget grant for the year was Rs. 2,83,264½, and the total expenditure Rs. 2,64,086 5-8, so that there was a saving of Rs. 19,228-2-4, chiefly under the head of chemicals. The total receipts amounted to Rs. 247,550-10, being Rs. 17,852-6 more than last year's receipts, but Rs. 16,485-11-8 less than the year's expenditure. There being no capital account whatever such expenditure on the extension of Munsong, the replanting of Mungpoo, the improvement of the factory and such like, is in excess of the year's receipts, necessarily appears as a deficit.

The receipts consisted of Rs. 47,761-13 in cash and Rs. 1,99,788-13 by book credit. Of the cash sales Rs. 26,283-4 were for Quinine Sulphate, Rs. 19,335-12 for Cinchona Febrifuge and the remainder for Cinchonidine Sulphate, Residual Alkaloids, bark powder, etc. The outstandings on the 31st March 1909 were all recovered.

9. *Stock Account.*—Owing to the short supply of bark and the increase in the sales of Quinine not only was nothing added to the quinine reserve, but the latter was even reduced from 32,380 lbs. 1⅓ ozs. to 31,578 lbs. 1⅓ ozs., valued at Rs. 268,413-12-9. The stock of Cinchona Febrifuge, Cinchonidine Sulphate and Residual Alkaloids was also reduced, the first from 5,716½ lbs. to 5,513¾ lbs., valued at Rs. 27,568-12, the second from 625¾ lbs. to 601 lbs., valued at Rs. 4,808, the third from 15,052 lbs. to 14,930 lbs., valued at Rs. 13,063-12. The stock of bark was more and that of oil and chemicals much greater than at the end of last year, the latter naturally because there was not enough bark to utilise them. The stock of oil increased from 12,705 gallons to 20,608 gallons, valued at Rs. 9,959-4-9, and the quantity of chemicals from 165,586 lbs. to 240,912 lbs., valued at Rs. 19,281-13. The total value of stock of all sorts is estimated at Rs. 3,65,858-6-8-8.

10 *Profit and loss.*—The year's working shows a small surplus of Rs. 4,236-7-11-6, deducting non-recurring charges.

11. *Sale of pice-packets.*—Quinine sulphate issued to the Inspector-General of Prisons for conversion into pice-packets increased from 5,000 lbs. to 9,280 lbs. By the courtesy of the Inspector-General I am enabled to present a statement of sales.

12. *Miscellaneous.*—Land rent and grazing fees realised Rs. 4,164-2-3, which was paid directly into the Darjeeling Treasury, no credit being taken for it in the accounts of the Cinchona Department. The erection of a bungalow at Munsong was postponed, the money allotted for it being diverted to increase the sum allotted for bark purchase.

A. T. GAGE, M.B., MAJOR, I.M.S.,
Superintendent of Cinchona Cultivation in Bengal.

WEATHER AND CROP REPORT.

For the week ending the 25th July 1910.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather, and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	BURDWAN ...	4·03	10½	10½	Rainfall ill distributed. More rain wanted in places for transplantation of *aman* paddy. Prospects of jute good. No cattle-disease. Stocks of food-grains, fodder and water sufficient.
2	BIRBHUM ...	8 94	12	14	Rainfall at Rampurhat 1·28 inches. Weather hot and cloudy. More rain wanted for high lands. Transplantation going on. No cattle-disease. Fodder and water sufficient.
3	BANKURA ...	2·19	15	12	Rainfall at Vishnupur 1·02 inches. Weather hot and cloudy with occasional scanty showers. More rain urgently wanted. Transplantation retarded for want of rain. No cattle-disease reported. Fodder and water sufficient. Condition of agricultural stock fair.
4	MIDNAPORE ..	1·61	11½	12	Rainfall at Contai 2·18, at Tamluk 1·77 and at Ghatal 1·71 inches. Weather cloudy. Rainfall insufficient everywhere. More rain urgently wanted for rice crop. Transplantation going on slowly except in considerable tracts where rainfall is specially scanty. Prospects of jute and sugarcane good. Cattle-disease in thanas Jhargram, Dantan and Keshpur. Fodder and water sufficient. Common rice selling at 13½ seers a rupee at Contai and at 11 seers at Tamluk and Ghatal.
5	HOOGHLY ...	2·93	10	11	More rain urgently needed. Weather hot. Prices of food-grains almost stationary. Stocks of food-grains sufficient. No likelihood of scarcity. Jute, sugarcane and *aus* paddy doing well. Prospects of jute fair. Transplantation of *aman* paddy delayed for want of rain. No cattle-disease. Fodder and water sufficient.
6	HOWRAH ...	6·07	11	11	Standing crops greatly benefited by the recent rainfall. Prospects of jute fair, that of sugarcane, *aus* paddy and vegetable good. Stocks of food-grains, fodder and water sufficient
7	24-PARGANAS	5 56	11	11	Rainfall general. More rain still wanted. Weather seasonable. *Aus* paddy and jute previously reported to have been damaged at places for want of timely rainfall improving. Prospects fair. Trasplantation and weeding of *aman* paddy in progress. Cattle disease reported from Kakdwip. Common rice selling at 13 seers per rupee at Diamond Harbour, at 11 seers at Barasat, at 10½ seers at Basirhat and at 11 seers at Barrackpore.
8	NADIA ...	4·68	11½	11½	Rainfall at Kushtia 2·21, at Meherpur 3·59, at Ranaghat 2·54 and at Chuadanga 2·63 inches. Weeding of autumn rice and jute almost finished. Standing crops doing well. Damage to jute plants by insects reported from Thanas Gangani, Karimpur and Damurhuda. Transplantation of *aman* paddy going on in the Ranaghat subdivision. Prices of staple food-crops, fodder and water sufficient. No cattle-disease reported.

No.	Name of district.	Rainfall at Manor station.	Price of common rice, in seers, per rupee.		Character of the weather, and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
9	Murshidabad	2·53	$13\frac{9}{16}$	$13\frac{4}{15}$	Rainfall at Lalbagh 1·61, at Kandi 3·07 and at Jangipur 6·42 inches. Weather cloudy and raining. Condition of standing crops as well as jute hopeful. Transplantation of winter paddy going on. Rinderpest reported from thana Gokarna.
10	Jessore ...	1·86	$11\frac{7}{16}$	$11\frac{1}{2}$	Rainfall at Jhenida 4·12, at Magura 1·01 and at Narail 4·50 and at Bongaon 7·12 inches. Weather seasonable. Rainfall general. Standing crops of the Bongaon subdivision greatly benefited by the recent heavy rain. Transplantation of *aman* paddy going on. Condition of jute favourable. Stocks of food-grains, fodder and water sufficient. Cattle-disease reported from Kotchandpur. Condition of agricultural stock good.
11	Khulna ...	3·30	10	10	Rainfall at Bagerhat 1·62 and at Satkhira 3·75 inches. Weather seasonable. Transplantation of winter rice continuing. Prospects of jute and other standing crops fair.
12	Patna ...	7·74	12 $16\frac{7}{8}$*	12 $16\frac{1}{2}$*	Weather cloudy. Sowing of paddy going on. Standing crops doing well. Condition of agricultural stock good. Fodder and water for cattle sufficient. Cattle-disease reported from Maner thana.
13	Gaya ...	0·39	$12\frac{5}{16}$	$12\frac{13}{16}$	Weather cloudy with occasional rainfall. Sugarcane doing well. Sowing of paddy still going on. Transplantation of paddy commenced in some places. More rain wanted. *Makai* not sold. Cattle-disease reported from some places in the Nawada and the Jahanabad subdivisions. Fodder and water sufficient.
14	Shahabad ...	5·34	11 $16\frac{1}{2}$*	11 $16\frac{1}{2}$*	Rainfall at Buxar 0·41, at Bhabhua 0·53, and at Sasaram 2·88 inches. Sugarcane doing well. Much good done to the standing crops by the rainfall of the week. More rain wanted for paddy seedlings. Prices of food-grains almost stationary. Food-stocks normal. Fodder and water sufficient. Agricultural stock good.
15	Saran ...	2·90	$11\frac{3}{4}$ 18*	12 18*	Rainfall at Gopalganj 2·80 and at Siwan 5·21 inches. Weather raining. Rainfall greatly beneficial. Weeding of *bhadoi* crops and transplantation of paddy going on, and that of *marua* nearly finished in Gopalganj. Prices of food-crops slightly higher. Condition of agricultural stock good. Fodder and water sufficient. Cattle-disease reported from Parsa police-station.
16	Champaran ...	11·26	12 19*	12 $19\frac{1}{2}$*	Weather rainy. Sowings of *bhadoi* crops completed. Transplantation of *aghani* paddy promising. Prospects of crops and condition of agricultural stock good. Some damage done to the standing crops in parts by floods. Condition of jute good. No cattle-disease. Fodder and water sufficient.
17	Muzaffarpur	6·38	12 18*	12 18*	Weather rainy. Rainfall at Sitamarhi 4·92 and at Hajipur 4·01 inches. Sowing of *bhadoi* crops nearly completed and transplantation of *aghani* paddy going on. Common rice and maize selling at 12 and $20\frac{1}{2}$ seers a rupee respectively at Sitamarhi and 12 and 18 seers a rupee respectively at Hajipur. Some damage has been done to *bhadoi* crops by floods and excessive rain. Cattle-disease reported from Lalganj, Mahua, Belsand, Sitamarhi, Pupri and Sadar thanas. Fodder, water and food-stocks sufficient. Condition of jute good.

* The figures indicate the price of maize in seers per rupee.

18	DARBHANGA ...	4·46	12⅜ 19¾*	12⅜ 19¾*	Weather hot and cloudy. Sufficient rainfall received in the Sadar and the Madhubani subdivisions. Rain wanted for upland paddy transplantation in the Samastipur subdivision. Sowing of *bhadoi* crops and transplantation of paddy crops going on. All rivers overflooded and thereby some damage caused to crops. Food-stocks, fodder and water sufficient. Cattle-disease reported from Jhanjharpur, Madhipur, Rosera, Jalla and Sadar police-stations. Common rice (average quality) selling at 12 seers per rupee at Sadar. *Makai* selling at 19¾ seers a rupee in Darbhanga bazar.
19	MONGHYR ...	5·72	12⅛	13⅛	Weather cloudy. The rainfall doing much good to the standing crops. Sowing of paddy continuing. Prospects good. Sugarcane growing well. Prices of food-grains stationary except that rice, which have slightly risen. Cattle-disease reported from Begusarai, Ballia and Tegra. Fodder and water sufficient.
20	BHAGALPUR ...	3·11	12⅜ 17⅜*	12⅜ 17⅜*	Weather seasonable. Transplantation of *bhadoi* crops almost finished, and that of *aghani* paddy going on. No apprehension of famine. Condition of jute good and that of agricultural stock good. Prices of staple food-grains almost stationary. Fodder and water sufficient. Prospects of standing crops very good. Cattle-disease reported from Banka and Supaul.
21	PURNEA ...	7·08	13	13	Rainfall at Araria 3·69 inches. Weather hot and cloudy. Transplantation of *aghani* paddy going on briskly. Harvesting of *bhadoi* paddy and jute in progress. Condition of jute fair except in Araria, where it is reported to be poor. No cattle-disease reported. Fodder and water plentiful. Common rice selling at 14 seers per rupee at Araria. Kishanganj report not received.
22	DARJEELING ...	6·81	9½ 10*	10 10*	Weather seasonable. Hills—Maize and potatoes ripening and being taken out in some places. *Bhadoi dhan*, *bara* and *chota marua* and *haimantic* paddy growing. Terai—Transplantation of winter rice in progress. Prospects of jute poor, those of *bhadoi* crops not bad. Prices stationary.
23	SONTHAL PARGANAS.	7·14	14 20*	14 20*	Rainfall at Deoghur 3·80, at Godda 4·23, at Jamtara 5·4, at Pakour 2·88 and at Rajmahal 3·30 inches. Weather hot and cloudy. Prospects of maize and sugarcane favourable. Transplantation of paddy in full swing. Prices of staple food-grains almost stationary. Stocks of food-grains likely to last till next harvest. Prospects of jute favourable. Fodder and water sufficient.
24	CUTTACK ...	1·55	11⅛	11⅛	*Saradh* paddy, jute and *rahar* being weeded. *Saradh* paddy being transplanted. Sugarcane growing. Weather favourable to jute crop. Fodder and water sufficient. Cattle-disease reported from Banki.

* The figures indicate the price of maize in seers per rupee.

* The report is for the week ending the 16th July 1910.

General Summary.—The rainfall was general all over the Province. The fall was heavy in Bihar, except in Gaya and Bhagalpur, and also in Birbhum, Howrah, the 24-Parganas, Darjeeling and Cooch Behar, light in Cuttack, Balasore, Hazaribagh, Singhbhum and Gaya and generally moderate elsewhere. More rain is wanted in most districts of the Burdwan Division and also in the 24-Parganas, Gaya, Shahabad, Darbhanga, Balasore, Angul, Sambalpur, Palamau and Singhbhum for transplantation of paddy, and the work is being retarded for want of sufficient moisture in Bankura, Midnapore, Hooghly, Balasore and Singhbhum. Some damage has been done to the standing crops by excessive rain and floods in Champaran, Muzaffarpur, Darbhanga and to jute by insect-pest in Nadia. The price of rice has risen in Birbhum, Midnapore, Hooghly, Jessore, Gaya, Saran, Monghyr, Darjeeling, Balasore and Singhbhum and has fallen in Bankura. Cattle-disease is reported from Midnapore, the 24-Parganas, Murshidabad, Jessore, Patna, Gaya, Saran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Hazaribagh, Manbhum and from all the districts of Orissa except Balasore. The fodder and water-supply is sufficient throughout the Province.

Department of Agriculture, Bengal,

	%
The mean relative humidity	87
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	86
	Inches.
The total fall of rain from 17th to 23rd July 1910	5 49
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2·83
The total fall from 1st January to 23rd July 1910	22·86
The average fall of the corresponding period for 24 years, Surveyor-General's Office	30 62

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast ; d, drizzling rain ; p, passing temporary showers ; t, thunder ; g, gloomy ; <, lightning.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 2787.—The 30th July 1910.—The following notification, issued by the Government of India in the Department of Commerce and Industry, is republished for general information.

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

No. 5252-46, dated Simla, the 23rd July 1910.

NOTIFICATION by—The Government of India, Department of Commerce and Industry.

THE following draft of a notification which it is proposed to issue in exercise of the powers conferred by section 81 of the Indian Emigration Act, 1908 (XVII of 1908), is published, as required by sub-section (2) of the said section, for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Governor-General in Council on or after the 23rd August 1910.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date fixed aforesaid will be considered by the Governor-General in Council.

Draft Notification.

In exercise of the powers conferred by section 81 of the Indian Emigration Act, 1908 (XVII of 1908), the Governor-General in Council is pleased to direct that from rule 95 of the rules published with the notification of the Government of India in the Department of Revenue and Agriculture, No. 94-E., dated the 18th March 1886, the words "for submission to Government" shall be omitted.

No. 2854.—The 2nd August 1910.—The following notification of the Government of India, Home Department, is republished for general information :—

W. R. GOURLAY,
Offg. Secy. to the Govt. of Bengal.

No. 296, dated Simla, the 11th July 1910.

NOTIFICATION by—The Government of India, Home Department.

THE Governor-General in Council is pleased to direct that the following shall be substituted for rules 12, 17 and 18 in part I of the rules for the care and use of Government cemeteries, etc., published with the Home Department Notification No. 465, dated the 6th November 1909 :—

Rule 12.—The size of each grave, whether of masonry or not, is ordinarily limited to 9′ × 4′, and the area of ground to be enclosed to 11′ × 7′ by external measurement. The local Government may, however, relax these limits at its discretion.

Rule 17.—No monument of *masonry* standing higher than 3 feet from the ground level shall be erected without the sanction of the local Government.

Rule 18.—No cenotaph more than 6 feet square at the base shall be erected without the sanction of the local Government.

(1) Port Commissioners' Jetty No. 7.

(2) Port Commissioners' Docks at Kidderpore.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

MEDICAL DEPARTMENT.

No. 1156Medl.—The 1st August 1910.—Military Assistant Surgeon A. Holehouse officiated as Superintendent of the Albert Victor Asylum for Lepers at Gobra from the forenoon of the 12th April to the forenoon of the 15th June 1910, during the absence, on leave, of Honorary Lieutenant D. R. Davies, I.S.M.D.

Calcutta.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1168Medl.—The 30th July 1910.—The following report is published for general information.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

Dated Darjeeling, the 15th May 1910.

From—MAJOR R. H. MADDOX, I.M.S., Superintendent, Eden Sanitarium and Hospital, Darjeeling,

To—The Secretary to the Government of Bengal, Financial and Medical Departments, Calcutta.

(Through the Inspector-General of Civil Hospitals, Bengal.)

I HAVE the honour to submit the following report on the working of the Eden Sanitarium and Hospital for the year 1909. Major J. T. Calvert, I.M.S., was in charge from 1st January to 5th August 1909, and Major R. H. Maddox, I.M.S., from 6th August to the end of the year.

2. The Sanitarium was opened on the 15th March 1909, and was closed on the 23rd November 1909.

3. The Hospital remained open throughout the year and was occupied during the whole of the winter months.

4. The following table shows the number of each class of patients and friends admitted into the Sanitarium and Hospital during the last six years :—

Admissions.	1904.	1905.	1906.	1907.	1908.	1909.
First class	68	67	72	65	96	104
Intermediate class	74	79	107	73	65	73
Second class	221	189	207	280	233	178
Third class	96	125	108	122	151	117
Total ...	459	460	494	490	545	472

The following tables show the number of patients and their relatives and friends admitted during each of the last six years together with the daily average sick :—

Patients.

Years.	1904.	1905.	1906.	1907.	1908.	1909.
Admissions	321	305	314	351	431	389
Daily average sick	34 30	35·69	28·93	33 68	26·7	24·85

Relatives and Friends.

Total number	138	155	150	139	114	83

The following table shows the total number of patients treated during the year, showing their sex and results:—

Males.	Females.	Children.		Total.	Cured.	Relieved.	Discharged otherwise.	Died.
		Male.	Female.					
160	141	43	45	389	372	7	4	6

The total number of admissions is far below that of the previous year, which appears to have been an exceptional one, while in comparison with other years it is about the average number of admissions. There has been a marked increase in the first and intermediate classes, the former being the largest number of first class residents since 1901; the second and third classes have not been so well patronised as in former years. No definite cause can be assigned for the variation from year to year in admissions to the different classes.

The localities from which patients were admitted are * * * *, Calcutta with its suburbs and Darjeeling as usual accounting for almost three-fourths of the total admissions. The average stay of each resident is practically one month.

5. *Free beds.*—As usual four free beds were maintained for the benefit of convalescent patients from the Medical College Hospital and Presidency General Hospital. They were occupied more or less throughout the year at a cost of Rs. 1,000, reckoned at third class rates.

Two free cots were maintained throughout the year—one by the Theo-Beryl Fund and the other by the Children's Ministering League. The Bella Cot-Fund, the donation of Mrs. Shrager, no longer exists.

From the sum of Rs. 500 placed at the disposal of the Superintendent for free beds, Rs. 118 was expended during the year under report.

6. The rule whereby Commercial Firms, Banks, etc., can obtain a reduction in the rates charged for their European Assistants, if admitted to the Sanitarium, was not taken advantage of.

The privilege accorded to European Government servants in receipt of Rs. 400 or less per mensem by paying intermediate rates for first class was availed of in 7 cases.

7. Donations and subscriptions amounting to Rs. 430-8-3 were received during the year from the following sources :—

	Rs.	A.	P.
Tukvar Tea Company	100	0	0
Darjeeling-Himalayan Railway Company	100	0	0
The *Statesman*	25	0	0
Messrs. Hamilton & Co.	25	0	0
„ Ranken & Co.	25	0	0
„ T. E. Thomson & Co.	25	0	0
„ Cooke & Kelvey	25	0	0
„ Mackintosh, Burn & Co.	25	0	0
Collection by Hospital Sunday Fund	88	8	3
Total ...	430	8	3

The total expenditure on free beds amounts to Rs. 1,118, whereas subscriptions and donations amount to Rs. 430-8-3, leaving a balance of Rs. 687-7-9 to be met from other sources for free beds.

8. * * * * * * * * * * * *

I. There were 8 cases of enteric fever against 9 of the previous year. Of these, one was imported from Calcutta, one from Bankipore, one from Ghoom and the remainder local. There were no deaths from this cause.

II There were only 5 cases of malarial fever, as compared with 18 cases in 1908 and 25 cases in 1907. There was one death from this cause. All the cases were confirmed by microscopical examination of the blood.

III. The operations performed during the year number 41 against 44 the previous year.

IV. There were 17 confinements during the year against 10 in the previous year. This constitutes the largest number in any year since the Institutions were opened. Two were instrumental cases and podalic extraction resorted to in a third case.

V. There were 6 deaths during the year and 6 the year before. The causes were—Pneumonia 2, Cerebral hæmorrhage 1, Uræmia 1, Malarial fever 1, and Chronic hepatitis 1.

9. *Income and expenditure.*—The total income in 1909 amounted to Rs. 48,119-15-9 as compared with Rs. 51,702-6-3 in the previous year.

The daily cost of diets for inmates, not including the staff, was Re. 1-10-9 compared with Re. 1-10-5 the year before.

The accounts were, as in former years, audited by Messrs. Lovelock and Lewis of Calcutta.

10. *General remarks.*—Military Assistant Surgeon J. J. A. Brachio was Resident Medical Officer from 1st January to 15th October 1909, and Military Assistant Surgeon W. J. Marshall from 16th October to the end of the year.

Both officers performed their duties in a thoroughly satisfactory manner and gained the gratitude of the numerous patients and visitors for their uniform kindness and attention.

Mr. H. W. Richardson was Steward throughout the year and was most successful in popularising the Institution by the excellence of his catering and by his careful attention to all his duties.

Munshi Abdul Karim has been Accountant throughout the year, and though much hampered by ill-health has as usual kept all the accounts and correspondence in a most careful manner.

The nursing arrangements and linen were, as in former years, under the supervision of two of the Clewer Sisters from Calcutta.

The customary annual repairs were carried out, and the furniture, crockery, linen and drugs renewed as usual.

JUDICIAL DEPARTMENT.

No. 3624A.

IRRIGATION DEPARTMENT.

[Fourth publication.]

The 11th July 1910.

No. 20.—Notification.—It is hereby notified, for general information, that, in exercise of the powers conferred on him by section 99 of the Bengal Irrigation Act, III of 1876, the

Hon'ble the Lieutenant-Governor of Bengal proposes to make the following modification in Rule 48 of the Water-rate Rules for the Orissa Canals:—

Existing.	*Proposed.*
48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed.	48. For such assistance the representative or representatives shall be entitled to the free irrigation of lands in his or in their own occupation which may lie within the lands covered by the lease, subject to a total limit of 3 per cent. of the area assessed, *or to the payment in cash of 3 per cent. on the whole sum assessed in the village when the collection of that whole sum is completed.* (*The system of payment in cash is not applicable to long leases.*)
The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation, and may recover the rates which would otherwise have been charged, if the assistance required by Rule 47A has not been rendered to the best of the ability of the representative or representatives.	The Deputy Collector or other officer in charge of the Revenue Division may, for reasons recorded in writing, disallow in whole or part such free irrigation *or payment in cash*, and may recover the rates which would otherwise have been charged, if the assistance required by Rule 47A has not been rendered to the best of the ability of the representative or representatives.

T. BUTLER,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 30th July 1910.

No. 78 Marine.—It is hereby notified, for general information, that Jeddah is declared free from plague, and that the regulations for the prevention of the introduction of plague by sea, which were imposed in the ports of Orissa against vessels arriving from Jeddah, are hereby withdrawn.

T. BUTLER,
Secy. to the Govt. of Bengal.

The 2nd August 1910.

No. 79 Marine.—The following Orders of His Majesty in Council, dated the 11th day of June 1910, exempting, on certain conditions, Dutch ships in ports of the United Kingdom from the provisions of sections 445 and 4 of the English Merchant Shipping Acts, 1894 and 1906, respectively, relating to load-line and life-saving appliances on proof that they have complied with the Dutch regulations on these subjects, are published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

AT THE COURT AT ST. JAMES'S.

The 11th day of June 1910.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by section 445 of the Merchant Shipping Act, 1894, it is enacted that where the Board of Trade certify that the laws and regulations for the time being in force in any foreign country and relating to overloading and improper loading are equally effective with the provisions of that Act relating thereto, His Majesty in Council may direct that on proof of a ship of that country having complied with those laws and regulations, she shall not, when in a port of the United Kingdom, be liable to detention for non-compliance with the said provisions of that Act, nor shall there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions:

And whereas by section 1 of the Merchant Shipping Act, 1906, provision, as is more particularly therein mentioned, is made for applying to foreign ships when in ports in the United Kingdom certain sections of the Merchant Shipping Act, 1894, which relate to load-line, without prejudice to any direction of His Majesty in Council given under the said section 445 of the last-mentioned Act:

And whereas the Board of Trade have certified that certain statutory regulations which have been approved by the Government of the Netherlands relating to overloading, so far as regards the assignment of load-lines to ships belonging to the Netherlands on and after the 1st January 1909, are equally effective with the corresponding regulations in force in this country respecting the assignment of load-lines to British Merchant ships:

Now, therefore, His Majesty in Council doth direct that on proof that ships belonging to the Netherlands have complied with the aforesaid regulations of the Government of the Netherlands, such ships shall not, when in ports of the United Kingdom, be liable to detention for non-compliance with the provisions of the Merchant Shipping Acts relating to overloading, nor shall there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions.

ALMERIC FITZROY.

AT THE COURT AT ST. JAMES'S.

The 11th day of June 1910.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by section 4 of the Merchant Shipping Act, 1906, it is provided that sections 427 to 431 of the Merchant Shipping Act, 1894 (hereinafter called the Principal Act), relating to life-saving appliances shall, after the appointed day, apply to all foreign ships while they are within any port of the United Kingdom as they apply to British ships. Provided that His Majesty may by Order in Council direct that those provisions shall not apply to any ship of a foreign country in which the provisions in force relating to life-saving appliances appear to His Majesty to be as effective as the provisions of Part V of the Principal Act, on proof that those provisions are complied with in the case of that ship:

And whereas by section 5 of the said Act it is provided that the said appointed day shall be the first day of January 1909, or such other day not being more than twelve months later, as the Board of Trade may appoint:

And whereas the Board of Trade have appointed the first day of October 1909 to be the day after which the provisions of the Principal Act relating to life-saving appliances should apply to all foreign ships while they are within any port of the United Kingdom as they apply to British ships:

And whereas it appears to His Majesty that the provisions in force in the Netherlands relating to life-saving appliances are as effective as the provisions of Part V of the Principal Act:

Now, therefore, His Majesty, by and with the advice of His Privy Council, is pleased to direct that the provisions of sections 427 to 431 of the Principal Act shall not apply to any ship of the Netherlands while within any port of the United Kingdom, if it is proved that the aforesaid provisions in force in the Netherlands relating to life-saving appliances are complied with in the case of that ship.

ALMERIC FITZROY.

The 2nd August 1910.

No. 80Marine.—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to substitute the following for rule 16 in Part III of the rules for the possession, transport and importation of petroleum published under the notification of this Department No. 43Marine, dated the 24th May 1909:—

When a ship carrying petroleum must anchor at a special anchorage.

16. Save as provided in rules 14 and 24, every ship having petroleum on board shall be anchored at such anchorage as the Conservator of the Port shall appoint in this behalf. If the petroleum is intended to be discharged at the port, the vessel shall not leave such anchorage, except for the purpose of discharge of bulk oil petroleum as laid down in rule 19, until all the petroleum has been so discharged. If the petroleum or a portion of it is intended for some other port, the petroleum or such portion of it shall be temporarily discharged at such anchorage before the vessel proceeds into the harbour. If it is not so discharged, the vessel shall remain at such anchorage until her final departure.

Such anchorage shall in no case be the same as that for vessels laden with explosives and shall be sufficiently far removed from the anchorage for vessels laden with explosives to prevent the possibility of a fire originating at the former place affecting vessels anchored at the latter.

T. BUTLER,
Secy. to the Govt. of Bengal.
